TERRIBLE CONDITIONS IN ONTARIO HOME FOR AGED PEOPLE

Dark Hole Used as Punishment—No Vegetables, Butter or Sugar for Inmates—Only Skim-milk Used.

Toronto, Oct. 24—Provincial Secretary Hanna has instructed the inspector of hospitals to inquire into the report of the grand jury which recently visited the House of Refuge at Markdale. The jury mentioned a dark hole or room in the basement, without proper ventilation, into which the manager forcibly places any inmates who disobey orders. Among its conclusions were:

"The practice of enforcing attendance of every inmate to worship in the chapel at the dictation of the manager, who has his own peculiar creed to maintain and who is often the only preacher available, should be abolished by the manager.

"The bedrooms are locked early in the morning so that the inmates have no access to them and have to lounge around on the hard board benches.

"The inmates have not been supplied with either butter or sugar, which we consider two necessaries of life, and would be naturally much missed by these aged people. We also find that instead of receiving good fresh milk, skim milk only is furnished them, although several cows are kept on the premises and the butter and cream are otherwise disposed of.

"We find, too, that vegetables grown on the premises are being sold instead of being used in the house for the inmates, as they should be.

"In justice to Mr. Harness, the manager, we wish to state that he is practising much of the unwise economy complained of under instruction of the committee of the county council."

Another of the old wooden walls is to disappear from the active list of the royal navy in his majesty's ship Asia, which has just been towed from Portsmouth dockyard to moorings up the harbor, this being the first stage to the old ship being broken up. Built in India in 1824 as a first-rate battleship, the Asia was the flagship of the allied fleets at the battle of Navarino, and she was in the thick of the fight for some years. She was one of the depot ships at Portsmouth before the naval barracks were built, but lately she has been the living ship for boy artificers at Portsmouth.—Timber Trades Journal.

"They say that goats haven't got much brains," remarked Jack, meditatively; "yet I don't know. I noticed one devouring a newspaper this morning, and he seemed to me to be taking in every word."

SURE CURE FOR SCIATICA

Sciatica is really inflammation of the sciatica nerve, the largest nerve in the body.

This passive inflammation is the product of a run-down condition, and in every case you may be sure the nerves are worn down fine.

The pain is the cry of the nerves for more food—for richer, redder blood.

Rubbing on a greasy liniment can't help very much. You must treat the blood and rebuild the nervous system.

This can be promptly done with Ferrozone.

No builder of nerve force is more powerful.

ST. JOHN MARKETS

There were very few changes last week in the local markets. The most important were in the grocery line. In spite of the predictions of some of the evening papers to the contrary, many of the dealers in the country market think there will be no advance in the price of turkeys for Thanksgiving. The supply now arriving is quite equal to the demand and some of the stall keepers have assurance of supplies from Montreal at a day's notice so that there is very little to fear. The wholesale price of turkeys, 18 to 20 cents a pound, is high for the time of year anyhow. Fowl and chickens are coming in rather more freely and they are easier in price. There is an undercurrent of feeling that butter has about reached the highest point and will probably be easier before long. In connection with the sensational increase in the price of that commodity it is whispered that some companies have been buying all summer in the up river counties till they have practically cornered the market and that one has now on hand as much as twenty tons of dairy butter of inferior quality, which is being worked over and sold as its own product.

The following were the principal wholesale quotations Thursday:
