TO RESUME REHEARSAL.—The St. John Oratorio Society will resume its practices on Monday evening next.

POINT LEPREAUX, 9 a. m.—Wind southeast, calm, clear, therm 57. One schr., inward, three schrs., outward.

MORE GOLD.—John McGillivray, of Ohio, Antigonish Co., has discovered a rich 20 inch lead of gold at Folly Mountain, N. S., near the I. C. R. track.

STORM COMING.—Storm signal No. 1 was ordered up at noon to-day. A moderate gale is expected, probably at first from an easterly direction, shifting through south to southwest.

TELEPHONIC.—James Patterson of South wharf, received an order to-day by telephone ftom one of his Fredericton customers, which was given as distinctly as if it had been sent him by a Water st. subscriber.

RATHER UNEXPECTED.—Today while out rowing in a single scull a Carleton citizen was suddenly thrown into the water by his boat upsetting. He got ashore none the worse for his unexpected bath.

"SIETY" UNDER A CLOUD.—It is rumored there is a divorce case on the tapis, arising out of an incident occuring at a rural hostelry, in which the parties to it are more or less prominent, and numbered in "'siety."—Halifax Recorder.

MORE TANGLEFOOT.—Yes, we have the Scott Act, but one would not think so to judge from the fact that about noon yesterday a down town saloon keeper was seen rolling four or five barrels of "the juice" into his bar-room.—Moncton Times.

INCIDENT OF THE BUSH FIRES.—As Mrs. Martin Glenn, of Weldfield, was driving home Saturday afternoon, along the fire bordered highway, her sunshade caught on fire. She threw it away and drove on as fast as possible, but her dress caught on fire and was ruined.—Chatham World.

AN INSANE NOVA SCOTIAN.—Wm. Hatfield, a native of Parrsboro, was arrested last night wandering around the north wharf. He is insane and it is not known whether he will be sent home or to the asylum. He has a coasting captain's certificate which he obtained in Halifax in 1873.

A LITTLE OFF.—The passengers on board the City of Monticello were amused at the strange actions of a man at Annapolis yesterday. The fellow came rushing down the wharf in pursuit of some imaginary object. He shouted and acted in such a manner that it was thought he was an escaped lunatic.

BRIDAL BELLS.—An interesting affair in which Mr. E. E. Staples who is in the employ of Mr. Nelson of the Springdale paper mills was a prominent actor is formally chronicled in another column. The wedding took place at Penobsquis where the bride's parents reside. Good wishes follow the happy couple.

THE NUMBER OF STEAMSHIPS loaded here, up to the present time, exceeds the number for the whole year of 1888 Including the steamers of the Furness line the number of ocean steamships that have loaded in this port since January 1st, is fifty one. During the same period last year forty-two steamships took cargo from this port, and the for number the whole year was forty eight.

MR. W. Y. FOSTER, of this town, sent to our office, one day last week, a sample of peaches, produced in his fruit garden, for which he has our thanks. They were of fair size, fully ripened and of most delicious flavor, proving once more, if proof were necessary, that no peaches in the world can excel those raised in this province for superior flavor and general excellence.—Bridgetown Monitor.

GOLD RETURNS.—We learn from the Gold Hunter of the 21st. inst., that the Molega Gold Mining Company's property has yielded the amount of 1220 ounces of the precious metal within the four months included between May 25th and September 25th of the current year. The value may be placed at $24,000. The tonage of ore crushed was 562, which yielded somewhat over two ounces of gold to the ton.

THE BRIDGETOWN Monitor says:—Mr. Alfred Lordly, of St. John, N. B., was for some days last week, the guest of his brother-in-law, A. M. Chute, in this town. Mr. L, who has not been here for some ten years, expressed his surprise and gratification at the progress and improvement everywhere visible hereabouts.

Mrs. Beard and her daughter left yesterday for their home in St. John, after a visit of some weeks in Bridgetown, which they seemed to enjoy very much.

THE FOLLOWING PUPILS go to college from the St. John Grammer school: Francis Walker, Ernest Kuel, Geoffrey Stead, University of N. B., Soph. class; C. H. Rice, J. K. Dunlop, University of Sackville, Freshmen; M. J. Coughlan, Mount Allison college, 2nd year; J. H. Scammell, John S. Seaton, McGill, medicum. In addition to the above Allen Wilson, who graduated from the school in 1888, will enter the Freshman class of Acadia this year.

MR. STRANGER'S SEALED PACKET is the title of Hugh MacColes last book and is an account of a trip to the planet Mars, the whole of the marvellous incident described being accounted for most satisfactorily from a scientific point of view. Those who admire the extraordinary in fiction so much in vogue the last few years will have another volume to admire in this story of Mr. McCole's. It is published in the red letter series and is for sale at J. & A. McMillan's.

FASHIONABLE TAILORING. — Mr. John Edgecombe, tailor, Trinity Block, head of King street, has just received from one of the best cloth houses in the country a fine line of the newest designs in English, Scotch, French and German goods for the fall and winter trade. These goods Mr. Edgecombe is prepared to make up in the latest styles. As all the work is done on the premises under the personal supervision of Mr. Edgecombe himself, satisfaction is guaranteed to all.

WILL LEAD AN HONEST LIFE.—The Scotch lad who was committed to jail a short time ago for stealing gave his name as Gardiner instead of Gordon. Mr. Samuel Gardiner, immigration agent, hearing that Gordon had assumed his name called upon the prisoner and informed him that he had no objection to his taking the name of Gardiner provided he would leave the city at the expiration of his term of imprisonment, and live in the country where a situation would be secured for him. The lad agreed to this proposal and promised to live an honest life in the future.

### THE EQUITY COURT.

**Before Hon. A. L. Palmer Judge in Equity.**

The case of Green vs H. M. Ruggles and others was resumed this morning.

The examination of Mr, Lynott was concluded yesterday afternoon and Mr. Joseph N. Greene, the agent for the plaintiff was sworn. Mr. Greene occupies the stand this morning and his direct examination is being conducted by Mr. McNichol of Calais, Me.

The interest in the case, apart from its intrinsic merits, is enhanced by the fact that a United States lawyer and one of Mr. McNichol's recognized ability and standing under the courteous permission of Judge Palmer, is actively participating in the trial.

The case will occupy the attention of the court to day again.

### Wholesale Markets.

There is very little change in the wholesale markets since last reported. The flour market is very firm and stocks are light; prices range from $5.50 to $5.75.

Sugars are firm on account of local scarcity, and the refiners have sold ahead. Molasses is easy, ranging from 43 to 45 cts for Barbadoes and 39 to 41cts for Antigua and Nevis.

Corn meal sells at $2.75; oatmeal, standard, $4.10, rolled $4.35.

There have been large arrivals of Shelburne herring. They are brighter and larger than Labradors, and command a better price, selling at $5.50 per barrel.

Codfish sell at $4 to $4.50. Smoked herring are in large supply, prices dull, 10 to 12cts per box.

Large quantities of upper Canadian butter have been brought into the market lately. Good butter brings from 20 to 21 cents.

Chicago pork and plate beef, of which large quantities have been imported, is in good demand.

Dried apples have advanced somewhat in price and bring 7¼cts per lb.

Gravenstein apples are also higher, and are selling at $2·50 to $3 for first quality.

### Police Court.

Margaret McBeath of the North End was reported for allowing her cows to roam the streets. She will appear to answer the charge in the morning.

### Of Personal Interest.

J. D. Chipman of St. Stephen, is at the Royal.

H. H. Phinney and bride of Richibucto arrived here yesterday. They are staying at the Royal.

A. Putman M P, Maitland, N S, was at at the Royal yesterday.

The Metropolitan of Canada and Bishop Kingdon went to Sussex yesterday.

### Probate Court.

In the Probate court this morning letters of administration of the estate and effects of the late Robert Thompson were granted to Mary J. Crothers, the wife of Samuel Crothers, who is a daughter of the deceased. The estate is valued at $7,500.

There is real estate valued at $2,000.

Messrs. G. C. and J. C. Coster are the proctors.

COMPLIMENTARY DINNER AT THE HAWARDEN.—Last evening the Shamrock base ball team and other invited guests sat down to the complimentary dinner tendered by Mr. William Conway, proprietor of the Hawarden hotel. The host had set forth his best, and good nature and merriment prevailed amidst the abundance. At the head of the table Police Magistrate Ritchie occupied the chair, with Mr. J. Walsh on his right and Mr. John Keefe president of the club, on his left. Among others present were, Capt. Thomas Bell, A. D. Parsons and J. A. Cunningham, of the St. Johns, Ald. Kelly, Ald. Connor, T. T. Lantalum, John Ring, John Walsh, Thomas Kickham and D. J. Jennings. The evening was a thoroughly enjoyable one, a musical entertainment being afforded after the viands had been discussed and full justice had been done them

TROUBLE AT TRURO.—There is serious trouble at Truro between the railway authorities and citizens. It appears that the government claim ownership of the street running parallel with the track to the west of the station, and requested the hotel keepers and store keepers whose houses and places of business are on the opposite side of the street from the depot to take out leases, paying the government a nominal rental—one dollar each per annum. The object of this, the government say, is to show possessorship of the land. The citizens interested refused to take out any leases, contending that the land is a public street and so considered and used. The railway thereupon placed sleepers on the road and laid rails, the track running the entire length of the street a few feet from the front of the premises of the residents. This has brought matters to a crisis and the Trojans are furious.

SOMETHING NEW IN HOUSE BUILDING.—The mason work of Mr. Galt's new house on Cameron street is completed, and the carpenters are progressing with their work. The material of which this house is built is something new in Moncton, although in use in the upper provinces, and has attracted considerable attention. Broken stone, cement and sand are mixed together. This mixture is then poured into a mould placed on the wall of the building and allowed to "set," which takes about 24 hours. Another batch is then poured on this and so on until the required height is reached. The exterior is smoothed by the rubbing process and presents an appearance something similar to grey sandstone. The house is two storys in height, pitched roof, with a tower in front and buttresses on north and south sides. It has a large kitchen in the rear and a first-class cellar is under the whole building. The first floor will contain a dining room 15x10, parlor 15x14, sitting room 12x12, with a large hallway. The kitchen is 11x14, with pantry and other conveniences alongside. The second floor will have four bedrooms and bathroom. The building will have all the modern improvements.—Moncton Times.

Y. M. C. A.—A meeting of the physical culture committee of the Y. M. C. A. will be held this evening to plan for the opening of the gymnasium next Tuesday evening, October 1st. The classes will be under the instructorship of Mr. S. L. Kerr. This gymnasium is one of the finest in the Dominion. It has 14 large windows, so that light and ventilation are excellent. It has a floor space of 60 by 40 feet, and is equipped with a great variety of apparatus, including chest weights, parallel and horizontal bars, dumb-bells, Indian clubs, German horse, buck, split-handled giant, abdominal machine, striking bag, rowing machine, etc. Classes for young men will be held in the afternoons and evenings, and special classes will be arranged for boys and young ladies. Members who want lockers and those wishing to be measured should apply at once.

The evening educational classes in book-keeping, penmanship, shorthand, mechanical drawing, and vocal music open on October 14th, and those wishing to take advantage thus offered should hand in their names to the secretary, Mr. Distin as soon as possible.

SEVEN RUNS IN THEIR LAST.

The great St. John-Shamrock series is not yet finished. Everybody within seeing or hearing distance yesterday believed the Shamrocks were done for after the first innings. The few enthusiasts who fretted and anticipated near the approach to the grand stand, and who preferred to await the somewhat questionable bulletins of small boys at the knot holes, rather than pay a quarter, could scarcely be convinced that the game had been pulled through in the ninth inning. But with a wild rush the grand stand swooped out to bear the harrowing tale abroad. Stern men looked happy or otherwise, and fair women wonderingly discussed the merits of each player. A quiet looking and unobtrusive citizen on his way home from business paused to inquire the reason of such excitement. And somebody was heard to remark that it was all for money.

The game itself was a poor exhibition of what both teams can do. The error column of the Shamrocks filled up rapidly at the first of the game, and the error column of the St. Johns filled up just as rapidly towards the end. Even Captain Donovan was for the moment rattled, and consequently not a little out of his accustomed sphere.

Small for the first four innings pitched a great game, and perhaps no more exciting inning than the fourth was ever witnessed here. The Shamrocks had men on third and second bags when Joseph Sullivan came to the bat. He fanned the air viciously and retired. James Sullivan did likewise, and McGlinchey stepped over the pan. One strike, McGlinchey quaked; two strikes, McGlinchey shook, but a wild pitch here intervened and two men scored, McGlinchey, however, taking a back seat on the third strike.

Although errors were numerous and the scores grew suddenly larger at times, there was a pile of excitement throughout the whole game, and it was intensely interesting from the very start.

To the Shamrocks is due all credit for working on such an up-hill grade, and that they worked well, the following score denotes:

| | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| Shamrocks | 0 | 0 | 0 | 2 | 0 | 0 | 2 | 1 | 7—12 |
| St. Johns | 4 | 1 | 0 | 0 | 2 | 2 | 0 | 0 | 1—10 |

AROUND THE BASES.

Sullivan did grand work.

Burns was slightly off.

Abbey didn't get a fair show at first.

Rogers caught a great game.

McGrath's stop of that hot grounuer was only equalled by Cunningham's stop at Donovan's liner.

Donovan's benefit takes place Monday and everybody should go over and give this amiable ball player a big send off.

THE TRIUMVIRS BUY A CLUB.

A special despatch to the Boston Herald dated Omaha, Neb., Sept. 24th, says:—

Manager Selee of the Omaha ball team announced to-night that the entire club has been sold to the triumvirs of Boston, but refused to state the consideration. The deal has been quietly worked by Selee, who has already been engaged to manage the bean eaters for next year. From what the manager says it seems that Boston is determined to win the pennant, and, with Clark and Nichols of the Omaha team, the crack pitchers of the Western league, they believe they can take the bunting. It is also said that the Boston men are in a panic over the brotherhood talk, and are holding the Omaha champions in reserve, in case the present team walk away from them. The Omaha team has virtually won the championship of the Western association. Crooks, the second baseman and leading hitter, was lately sold to Columbus for $2700. Clark and Nichols are fine pitchers, and the whole team is strong and play winning ball.

AMATEURS AND PROFESSIONALS.

Says the Montreal Sporting Life:

The Amateur Athletic Union, in the plentitude of their power, have ventured on a step which no other athletic body have dared to do before. They are attacking the practice of amateur ball teams in engaging professional batteries. The tremendous increase in the speed of pitching, and the consequent damage to the catcher's hands, have led amateurs to shirk these two positions, and as a consequence, they mostly engage two professionals for the battery and reserve the other positions for themselves. This comfortable method the A A U says shall now cease. Only genuine amateurs are to be allowed to form part of these nines, and as the defination of the A A U on this point reads that he is, "one who has not competed with or against a professional for any prize; or where admission fee is charged, or who has not instructed, pursued or assisted in the pursuit of athletic exercise as a means of livelihood, or for gain or any other emolument;" this puts the employment of paid batteries out of the question.

COLLEGE BOYS AT IT.

At Halifax, Monday, the Dalhousie College B B team played the Royal Blues, defeating them by a score of 15 to 9. The Dalhousie A A Club have the use of the Royal Blues ground for the remainder of the season.

**Athlete**

Halifax Sept. 26th. A great deal of interest centres in the M P A A meet in St John on Saturday next. Sporting men are up in arms and have plenty of money with which to back their favorites. Brady, whose work this season has been far ahead of that of any previous years, is in excellent condition and will receive any amount of support from his friends. Fully fifty Haligonians will be over to witness and take part in the sports.

A. A. JORDAN'S WORK.

A. A. Jordan, who is entered for the championship sports here next Saturday, was second for the competition for the individual amateur athletic championship at New York, Sept. 7. In the events in which he entered there his records were: running high jump, 5 ft. 4 in; throwing 16 lb. hammer, 92 ft. 6 in; 120 yards hurdle race, 17 seconds; running broad jump, 21 ft. 9½ inches; pole vault, 10 ft. He did not compete in putting the shot.

BIG JUMPING AT FRANKLIN PARK.

Thomas F. Kearney, who holds several championship records in jumping, in the presence of a small party of sporting men Tuesday, at Boston, made several clever jumps. He first essayed a standing broad jump without weights, clearing 11 ft. 5½ in. The second was three standing jumps, also without weights. He jumped 35 ft. 6 in. In a back jump, with weights, Kearney jumped 12 ft. 1½ in. The final feat was a running high jump with weights, and he eclipsed his former record by clearing the wire at 6 ft. 5½ in. Considering the fact that the jumping was done without training, Kearney did remarkably well.

NEW 25-MILE TANDEM RECORD.

Messrs. Benson and Doane, two of the crack riders of the Dorchester Bicycle Club, accomplished a noteworthy performance Tuesday, covering 25 miles on the road on a Singer tandem safety in the fast time of 1 h, 34m, 13s, which is thus established as the 25-mile tandem record. The distance was accurately measured, and the time is vouched for by Messrs. A. D. Peck, N. Ethier and Wm. Chick, who held the watch.

C. J. Shand, of Windsor, N. S., arrived in town yesterday. He will compete in the bicycle races at the W. P. A. A., meet here Saturday. Mr. Shand is well pleased with the track here, and believes he can improve his record on it.

**Notice to Mariners.**

BOSTON, Sept 22—The Lighthouse Board gives notice that a second class can buoy, painted red and black, with horizontal stripes, has been placed on the wreck of Sarah L Simons, of Philadelphia, which lies in six and one-half fathoms of water, about 800 yards northeast by one-quarter east from Pollock Rip Lightship, approximately. When the buoy was placed the wreck had one mast standing.

The spindle formerly on Anderson's Ledge, Isle of Shoals, NH, has been removed.

WASHINGTON, Sept 23rd—The Signal Service has under consideration the adoption of a new signal to take the place of the cautionary signal now in use along the coast. It is a yellow pennant, and is intended to signify that the service has information of value to mariners. Under the present arrangement, ships are sometimes held in port when it would be safe for them to sail, owing to the lack of definiteness of the storm signal. The adoption of the yellow pennant is urged by all interested who have been consulted about it, and it will probably soon be added to the code. When this is done, storm signals will only be displayed when high winds are reported within 100 miles of the station at which they fly.

The temple of the sun at "Tadmor" in the wilderness has fallen; but the traveller slakes his thirst at Jacob's well, a striking illustration of the survival of the fittest. Just here it can be said that our IDEAL SOAP still pursues the even tenor of its way, while other brands which have had a short run have fallen into ruins, and the survival of the fittest is sure to succeed.
