Inspection of New Car

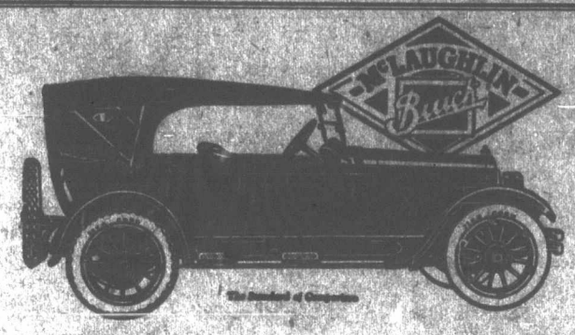
In this era of high production, owners of new automobiles are advised to inspect the car carefully before driving it onto the highway. Loose nuts and bolts are common when workmen are being hurried by production demands.

Headlights Adjustment

A good automobile headlight will throw most of its light on the road when properly adjusted. The road will be brightly lighted for several hundred feet. At the same time, there will be a sharp cutoff line at the level of the lights, and above the level there will not be sufficient to dazzle a driver approaching from the opposite direction.

Just a Precaution

Never allow the pipe leading to the gasoline tank to rub against any part of the mechanism.



The Motor Car By Which All Others Are Judged

For over fourteen years McLaughlin-Buick has been "Canada's Standard Car." During this long time it has firmly established itself in the affections of Canadians from coast to coast, until today it is recognized as the standard of comparison for all other automobiles.

And this recognition of sterling worth has been well merited. Everything that the highest engineering skill, the most efficient workmen and the best materials could give has been given to make it a car to be proud of, not only as regards dependability and durability, but also in appearance, finish and equipment.

The 1923 models are the finest models in every respect that McLaughlin-Buick ever built. A close inspection and test will more than prove it.

Woodstock Notes

Island Park is taking on its usual beautiful appearance. The track is in first class condition and the horses are all going up to expectation. Dr. I. D. Chappelle and son Percy are located at the track with six horses. Their string is headed by Dr. Gano 2.06¼ mile track and 2.07¾ half mile track. This is a big rugged horse eligible to the 2.14 class and looks to be a useful tool. Everett C., a trotter, 2.19¼, is the only other record horse. The remaining four are green although one paces. Dr. H. S. has a breeder's record of 2.11¼.

The rail birds are thick and thoroughly enjoying themselves although they are taking the risk of contracting pneumonia these frosty mornings. There is something doing every workout day and the boys are beginning to breeze them some the last quarter. This week all the trainers will begin to drop them down some as it is only four weeks to July 4.

A matinee race for oat purses comes off June 22. "Dan Hidgewood" day when the public will have the opportunity of seeing Dan move some and he will have to move as Dr. Gano is to race with him. Four other classes make up the afternoon's program. Watch for the named pace. It alone will be worth the admission.

Your scribe recently looked the horses over at Presque Isle. The veteran John Willard, has 18 in his string and has to have an assistant. Mr. Johnson of Fort Fairfield ably fills this position. John R. Braden is in the pink of condition. Mr. Willard has six provincial horses in his string, one Miss Simmassi pacer 2.19¼ owned in Halifax, Oro Fino 2.03¼ pacer and Money Man 2.15¼ pacer owned in Woodstock, and three without any mark, owned in Fredericton. Oro Fino and Money Man are taking their work to the satisfaction of their trainer and will be heard from before fall. A DeWitt is working his 2.14 pacer, Donald Keith, and may send him down to our track for Fred Cameron to complete his training. If Mr. Willard gets to the races with his 11 record horses and 7 green he will sure have his hands full.

The Houlton horses are all looking good and are getting lots of hard work. Eddie Sunderland is sparing no pains to have his three up to the mark and Jackson Grattan, Zom Q. and Don Q. complete his string. Harry Nevers is going after the money with Calgary Earle. This horse is working fine and seems to have recovered all his old time speed. All of the rest of Harvey's string are looking fine.

Pat Doherty has three, one a brand new trotter.

C. Starkey has two and Mr. Saunders also has two in training.

Billie Brickley, is at Fortfairfield and is depending on Little Anna S. as a bread winner.

Ralph Burril is at Fort Kent, Me., with Silver King as his top-notcher.

Clarence Shuman has six in his string at Edmundston, including College Swift.

The Edmundston Driving Club are putting on races July 2nd with five classes. The Governor General is also to be there that day.

Our own Driving Club and Citizens Committee are getting ready for the big carnival and horse races July 11th and 12th. The prospects for good racing were never better all through the Maine and New Brunswick circuit.

Frank Fox with his big stable is expected to arrive at Houlton this week.

Monte Gerow is still at Combination with the Caribou horses. Colonel Bidwell has been sold and is again in Johnson's stable.

BRISTOL BREVITIES

All the men in this vicinity were called out Saturday and Sunday to fight fires on the back of Welche's and Somerville's wood lots. Lockhart Bros. mill and other buildings were in great danger if the high winds had continued.
