Poetry.

ON THE DISMISSAL OF LORD RODEN.

"Tis done! the gauntlet has been thrown,
The ORANGE North's awake,
And with a voice of trumpet tone,
Has flung defiance back.

And did they think to cast a blot,
On Roden's honour'd name?
To soil what stands without a spot,
His never dying fame?

They thought to brand with foul disgrace
The gallant name he bore!
As well the burning sun displace,
Or bid him shine no more.

The Irish Jove's red lightning's flash
Around the giant plays,
But reckless he of thunders crash
Or lurid lightning's blaze.

His name and fame our bosoms fill.
And there shall ever dwell,
And ages hence shall thousands thrill
A watchword and a spell.

Yes! Roden's name all unforgot,
Our histories page shall gleam,
When their's have perish'd who had thought
To cloud its radiant beam.

Surrounded by the ORANGE host
With banners floating high,
It still shall be his pride and boast,
All traitors to defy.

Unflinching as our fathers were
Our hearts are firm and true,
And still the rebel foe we'll dare,
Beneath our glorious blue.

Yes! stubborn as their native rock,
The men of Ulster stand,
And long shall stem the foaming shock
Of priest and Ribbon band.

Hurra! then for the gallant host,
That won the bloody fray
And let it be a bumper toast
"The fight of Dolly's Brae."

Duty has pleasures which knows no satiety.

Gratitude is the *memory* of the *heart*.

Let a man do his best, and the world may do its worst.

Do not all that you can do; spend not all that you have; believe not all you hear; and tell not all you know.

A good man will never teach that which he does not believe.

Be at peace with all mankind, but at war with their vices.

A generous mind identifies itself with all around; but a selfish one identifies all things with self.

Hypocrisy—the world's tacit acknowledgment of the superiority of virtue.

Men of talent often appear common-place, but it is generally when they are in the company of stupid and ungenial people.

Experience has taught us little, if it has not instructed us to pity the errors of others, and to amend our own.

"OF INTEREST TO ALL,"

TO THE LADIES.

THE GENUINE BALM OF COLUMBIA, FOR RESTORING THE HAIR.

"Long hair is a glory to woman," says Paul,
And all feel the truth of the pious quotation:
Preserve it then, ladies—your glory may fall,
Unless you protect it with this preparation.

If you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases baldness it it will more than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this balm. Age, state, or condition, appears to be no obstacle whatever; it also causes the fluid to flow with which the delicate hair tubes is filled, by which means thousands (whose hair was gray as the Asiatic eagle) have had their hair restored to its natural color by this invaluable remedy. In all cases of fever it will be found the most pleasant wash that can be used. A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a perfume for the toilet it is unequalled. It holds three times as much as other miscalled hair restoratives, and is more effectual.

☞ *Caution*—Never buy it unless you find the name of Comstock & Co., proprietors, on the wrapper of each bottle, or you are cheated with a counterfeit article.

DR. SPOHN'S SICK HEADACHE REMEDY

Why will you suffer with that distressing complaint, when a remedy is at hand that will not fail to cure you? This remedy will effectually destroy any attack of headache, either nervous of bilious. It has cured cases of twenty years' standing.

WORMS IN CHILDREN.

Louis, under the Monroe House; and COMSTOCK & Co., 21 Cortlandt st, N. York, proprietors of the original and only genuine Magical Pain Extractor, and Hays' Liniment for the Piles.

☞ *Have you a cough?—Do not neglect it*—Thousands have met a permature death for the want of attention to a common cold. Rev. Dr. Bartholomew's Expectorant Pink Syrup will most positively give relief and save you from the most awful disease, Pulmonary Consumption, which usually sweeps into the grave thousands of the young, the old, the lovely and the gay.

HAYS' LINIMENT FOR THE PILES.

The worst attack of the Piles are effectually and permanently cured in a short time by the use of the genuine Hays' Liniment. Hundreds of our first citizens throughout the country have used this liniment with complete success. It is warranted to cure the most aggravated case.

☞ *Caution*—Never buy it unless you find the name of Comstock & Co., upon the wrapper, proprietors of the genuine article, or you are cheated with a counterfeit.

Also, all those disagreeable noises like the buzzing of insects, falling of water, whizzing of steam, which are symptoms of approaching deafness. Many persons who have been deaf for ten, fifteen, or twenty years, and were subject of ear-tampets, have, after using one or two bottles, threw aside these trumpets, beside made perfectly well. It has cured cases of ten, fifteen, and even thirty years standing of deafness. Price $1 per flask.

DR. LA'MERT

ON THE SECRET INFIRMITIES OF YOUTH AND MATURITY.

With Forty Coloured Engravings.

Just published, and may be had in French and English, in sealed Envelops, 2s 6d sterling,

SELF-PRESERVATION: A MEDICAL TREATISE ON THE PHYSIOLOGY OF MARRIAGE, and *Disorders of Youth and Maturity* usually acquired at an early period of life, which enervate the physical and mental powers, diminish an enfeeble the natural feelings, and exhaust the energies of Manhood. With practical observations on the Treatment of Nervous Debility and Indigestion, whether arising from these causes, close study or the Influence of Tropical climates, Local and Constitutional Weakness, Syphilis, Stricture, and all Diseases and Derangements resulting from Indiscretion. With FORTY *Coloured Engravings*, illustrating the *Anatomy, Physiology, and Diseases of the Reproductive Organs*, explaining their structure, uses and functions, and the various injuries that are produced in them "by solitary habits and excesses, and infection."

By Samuel La'Mert, M. D.

No. 37, BEDFORD SQUARE, LONDON.

Doctor of Medicine, Matricular Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital, Medical Society, &c.

CONTENTS OF THE TREATISE:

CHAPTER I.—On the Philosophy of Marriage, with its Hindrances and Obligations, and on Infelicitous and Unproductive Unions.

CHAPTER II.—On the Anatomy and Physiology the Generative Organs, their functions, structures, and secret ons, proving that great Mental and Physical Power are dependant on their healthy action.

CHAPTER III.—On solitary Habits; their various effects on the Animal Economy; the concealed cause of Debility of the functions of the Stomach Lungs, and Brain, and general Weakness of the Mental Faculties.

CHAPTER IV.—On the Secret Disorders of Youth and Maturity, and the Treatment of Nervous and Local Weakness, Mental Debility, and Premature Decay.

CHAPTER V. and VI.—On the Disorders arising from indiscriminate Excess, Gonorrhœa, Gleet, Strictures, and other diseases of the Urethra.

REVIEW OF THE WORK.

Marriage requires the fulfilment of several conditions, in order that it may be really the cause of mutual happiness. Could the veil, which covers the origin of domestic wretchedness, be raised and its true source in every instance disclosed, in how many could it be traced to physical disqualifications and their attendant disappointments. Excesses are always injurious; the gift, which when used in moderation is fraught with advantage, becomes, when abused, the prolific source of mischief, and of greater or less injury to the constitution and vital powers. The particular excesses, on the nature and consequences of which this Treatise professes to dilate, are productive of greater misery to the human frame, than any other to which it is subject.

This Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease. Not are these the sole contents of the Work, the means of escape, as well as the nature of the danger are pointed out in clear and intelligible language. It deservedly requires the closest attention and study, for what subject can be of more importance than the preservation of health, and the physicial capabilities of which every man should be posessed. It unfortunately happens that the unhappy victim of excesses indulgence and vicious habits, whether acquired in early life, or from the follies of advanced age, while suffering from their invariable consequences, unwisely entertains a fear of applying to the qualified physician for relief. Shame and the dread so frequently but erroneously entertained that these complaints are beyond the reach of art alike restrict him, and prevent his seeking for assistance where alone it can be procured. In acting thus, he forgets that actuate discrimination in ascertaining the causes of disease, sympathy with the sufferer, and above all, secrecy, invariably characterize the intelligent and practical physician and to the medical man, who can show by his possession of the requisite legal qualification that he is entitled to esteem and respect in his professional pursuits the utmost confidence should be extended, DR. LA'MERT has obtained the highest medical honours, as his diplomas testify, and the great extent of his practice for many years is a guarantee for his professional experience, which has reference almost solely to the treatment of these diseases.

The work may be had in St. John, of H. CHUBB & Co. price 2s. 6d. stg.; Halifax, Messrs. Mott on & Co.; Quebec, Mr. Neilson.

Horse and Cattle Medicines.

Don't permit your Horses or cattle to die, when the means of cure are within the reach of all!

The undersigned has spent several years in the study of Veterinary practice in "London and Edinboro'," he has also availed himself of the researches of Leibig, and other celebrated men, who have contributed so much towards a judicious treatment of animals; the principles of our practice consists of the rejection of general bleeding and the total rejection of all medicines that experience has shown is be of a dangerous tendency. These remedies are in harmony with the vital principle, and when given according to the directions which accompany each article they are capable of exciting and increasing the natural functions, without diminishing or destroying their power, hence are safe in the hands of every one.
