WITH THE FARMERS

FARMERS' MARKET.

Edmonton, Thursday, Aug. 11—No wheat is offering on the market. Farmers are busy and comparatively little hay is coming.

Live Stock.

J. Y. Griffin & Company's circular quotes the following prices, weighed off the cars at Edmonton:

Hogs—Choice quality hogs, 150 to 250 lbs., 7½; roughs and heavies, 6 to 7.

Cattle—Good fat steers, 1,200 and up, 3½ to 4; good fat steers, 1,000 to 1,200 lbs., 3 to 3¼; extra fat heifers, 1,050 and up, 3 to 3¼; medium quality fat heifers, 1,050 to 900 lbs., 2½ to 3; extra good fat cows, 2¾ to 3; medium quality fat cows, 900 lbs. and up, 2 to 2½; bulls and stags, 2 to 2¼.

Calves—Good calves, 125 to 200 lbs, 4 to 4½; good calves, 200 to 300 lbs., 3 to 3½.

Sheep—Choice killing sheep, 5½ to 6.

Lambs—Choice killing lambs, 6½ to 7.

Dairy Products.

Dairy butter, 20 to 25 cents per lb.; eggs, 25c per dozen.

Vegetables.

New potatoes, $1.50 to $2.00 per bushel; old potatoes, 40c to 50c per bushel.

Feed.

Timothy hay, $18 to $20 per ton; upland hay, $14 to $16 per ton; slough hay, $10 to $12 per ton.

WINNIPEG GRAIN MARKETS

Winnipeg, Aug. 9.—Trade was extremely dull in option wheat. The market opened from 1c lower for October to 1⅝c lower for December, after the holiday, and was unable to gather much strength with the advancement of the morning. The high point in October was reached at ¾c above opening and the low at 1c below. Closing price showed a decline of ⅞ to 1c from October and ⅝c for December from Friday's close. The first closing in day was made at 106⅝.

American markets were much stronger, Chicago closing ¼c higher for September, 7c for December and ⅛c lower for May. Minneapolis, September however, showed a decline of ¼c and December followed suit with ¼ to ⅛c drop.

The demand for cash wheat was very good but little was offered, prices ranging from 3½ to 4c over the option for No. 1 northern; 1 to 1¼c over option for No. 2 northern, and 2 to 2½c over option for No. 3 northern. Export bids were numerous and some is reported to have been worked in the cheaper grades. The American government crop report for the three northwest provinces issued yesterday was bearish showing an estimate of three million bushels in their estimate over July.

Winnipeg cash wheat: No. 1 northern, 108½; No. 2 northern, 105½; No. 3 northern, 102. Oats: No. 2 white C.W., 39⅝. Flax, No. 1. N.W., 245.

Winnipeg options: Wheat opened October 104 to 104⅛; December, 101⅛ to 102; May, 106⅝ to 106¼. Oats, October, 41⅛ to 41; December, 40 to 39⅝; May, nil. Flax, October, 120.

American options: Chicago, September, 101¼ to 101½; December, 104⅛ to 104½; March, 108⅝ to 109.

Minneapolis: September, 112½ to 111⅝; December, 111½ to 111⅝; May, 114⅝ to 115¼.

CHICAGO GRAIN MARKETS.

Chicago, August 9.—The board of trade adjourned at noon today because of the Knights Templars parade in order to give the brokers an opportunity to view the procession. September sold at 1.00 1-2 to 1.00 5-8 to 1.01 1-2; December at 1.03 5-8 to 1.04 1-2 and May at 1.08 3-4 to 1.09. They closed at 1.01 1-2 yesterday, September 1.04 5-8; December 1.09 1-8. The wheat market while strong was dull, the board taking holiday appearance because of the big parade. The professionals sold prices off early on the Government August report, which showed a gain of forty-four million bushels for the month and was twelve million bushels in excess of a year ago. There was heavy selling early but this was followed by heavy buying on the part of the local crowd and the French crop news says that France will be obliged to import forty million bushels of wheat this year.

The big decerase in the European visible supply was not only unexpected, but it drove many of the shorts to cover, the figures being 2,532,000 bushels.

The Canadian visible supply is now 4,101,000 bushels against 10,196,000 bushels a year ago.

The Liverpool wheat market was unsettled, the opening was lower an the British government reports of rain in the Argentina, and bad reports from Romania, the total reserve of wheat will amount to eight million bushels.

The new crop is moving freely by rail and barge. Spot wheat at Liverpool was unchanged to 1-2 cent higher, and futures 5-8 to 3-4 cent. Paris advanced 1 1-2 cents on wheat and 2 1-2 to 2 3-4 on flour. Berlin wheat was 1 1-8 cents lower, while Budapest was 1-8 cent better. Northwestern wheat receipts, 234 cars, and Winnipeg 195 cars compared with 54 and 34 cars respectively a year ago.

Lethbridge Farmers Pleased.

Lethbridge, Aug. 6.—Much satisfaction is expressed over the order of the Interior Department allowing homesteaders to leave their farms to work until next April.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Sold by all dealers.

MONTREAL STOCK MARKETS.

Montreal, Aug. 9.—Transactions move heavily and there is a spread among issues. Small price change:

Detroit, 50⅝; Pacific opened 188½ and went to 189¼; Quebec 41¼; Soo steady at 129⅝; Steel Corporation gained half to 59; Scotia, 84½; Cement, 18½; P.F.D., 80.

WINTER CROPS.

(From information contained in the Bulletin issued by the International Institute of Agriculture, Rome.)

The following four tables show, for the four winter months, the area under cultivation, the conditions of the crops and a calculation of the probable yield in 1910.

Winter Wheat.

	Area 1910 (harvested, and remaining to be harvested.)	Approximate mate estimate of probable yield.
Bulgaria	.....	52,327,000
a Hungary	8,589,131	202,096,000
b Italy	11,685,570	185,495,530
Luxemburg	27,723	.....
c Netherlands	131,829	.....
Roumania	4,940,000	131,001,750
United States	29,632,380	.....
Tunis	889,200	5,527,500
Canada	707,200	.....
Japan	1,075,570	20,779,531
Sweden	222,300	.....

(a) No distinction between winter and spring wheat. Only 2 per cent. was sown to spring crops.

(b) These figures refer to all wheat.

(c) The report refers to the 15th of the month and is for all wheat.

Winter Rye.

	Area, 1910, (harvested and remaining to be harvested.) Acres.	Approximate Estimate of probable yield bushels
Bulgaria	.....	10,916,100
a Hungary	2,747,890	65,863,160
Italy	301,340	5,538,910
Roumania	378,347	.....
United States	2,154,156	.....
Netherlands	545,554	.....

(a) No distinction between winter and spring rye. Only 2 per cent. sown to spring crops.

Winter Barley.

Bulgaria	.....	11,766,300
Italy	569,690	10,040,745
Tunis	1,000,350	7,048,550
Japan	3,155,470	86,929,263

Winter Oats.

Italy	983,060	22,755,672
Tunis	153,140	4,823,420
Japan	54,340	.....

Spring Crops.

The following tables show for wheat, barley and oats the area to be harvested during 1910, and, for a few countries, the probable production for 1910:—

	Spring Wheat. Crop Area in 1910.	Probable Yield in 1910.
Canada	8,587,600	.....
United States	19,734,280	.....
Japan	41,644	.....
	Spring Barley.	
Hungary	2,833,145	68,524,691
Italy	49,400	889,390
Canada	1,834,000	.....
United States	7,054,241	.....
	Spring Oats.	
*Hungary	2,704,395	73,819,000
Italy	259,350	9,685,200
Canada	9,864,100	.....
United States	34,366,557	.....

*No distinction between winter and spring barley. Ninety-eight per cent. sown in spring.

The following letter has been received from the British consul at Odessa, Russia:—

With reference to my despatch of June 10th, I have the honor to state that according to the Torgovo-Fromyshlennaya Gazeta of June 16-29, the grain crops at the end of May (new style)), were nearly everywhere in Russia reported as most promising. During June (new stsyle) there was on the whole too much sun and too little rain. The spring grain suffered; the winter grain not so much.

The area is vast, and though the great hopes of six weeks ago are not likely to be realized, and in certain spots all is destroyed by hail or parching winds, there are many parts where the highest expectations are still entertained.

DR. SAUNDERS' CROP REPORT.

Best Crops Around Edmonton, Lacombe and Regina.

Ottawa, Aug. 8—The following telegram has been received at the Department of Agriculture from Dr. William Saunders, director of Experimental Farms:

"Calgary, Alta., Aug. 6.

"From Regina to Saskatoon the crops are very variable. About Regina and for the first twenty miles north there are many good fields. Further north, the larger part of the grain is stunted and has suffered much from drouth and the yield will be very light. From Saskatoon to Ros- There are many good fields about of Saskatoon on the Grand Trunk Pacific through northern Saskatchewan the grain fields vary much. Some are good but the larger part have short straw and promise light yield. Through northern Alberta to Edmonton the crops average better. There are many goold fields about Edmonton and south to Lacombe. At the experimental farm at Lacombe I saw some of the heaviest yields met with anywhere. From Lacombe to Calgary the yields are variable. There are many good ones, others lighter, and becoming very light near Calgary."

Columbus, Ohio, Aug. 8.—With the departure today of the last troops of the 3,200 called here because of the street car strike, and the opening of the saloons until 6 o'clock at night, the authorities are apprehensive regarding possible rioting tonight. The strike has already cost the state over $100,000 and the city is now at an expense of about $1,600 daily for extra policemen who are guarding the cars. No negotiations were made today for a settlement of the strike.

THE PREMIER HEARS NUMEROUS PETITIONS

Farmers of Edmonton and Strathcona and Civic Representatives of Edmonton Present Petitions to Sir Wilfrid.

That the reception given by Sir Wilfrid Laurier to the farmers of Edmonton and Strathcona districts was highly satisfactory was the opinion expressed by the deputation to the Bulletin after the meeting with the prime minister.

"You can say that we were well pleased with the hearing that Sir Wilfrid gave us," said F. H. Herbert, who introduced the speakers, and his sentiments in this regard were endorsed by Rice Sheppard, of Strathcona, and F. C. Clare, of Edmonton, two of the other speakers.

During the full two hours allotted for the purpose Tuesday, from 12 till two o'clock, Sir Wilfrid Laurier was the recipient of addresses, petitions, and requests from numerous deputations at the Boar dof Trade rooms in the King Edward Hotel. The rooms were delightfully cool and the task of hearing the representations from town and country was unattended with the fatigue to the Prime Minister that resulted from the labor of the previous day.

The first deputation to meet Sir Wilfrid was from the farmers of Edmonton, Clover Bar and Strathcona districts. They were introduced by F. H. Herbert, of Strathcona, and presented their requests in a most businesslike manner, which was very favorably commented on by all present.

The Farmers Heard.

F. C. Clare, of the Edmonton Local Union A.F.A., forwarded resolutions dealing with the encouragement of the chilled meat industry, and the grievances arising from the mixing of grain at lake elevators.

Rice Sheppard, Strathcona, presented a memo of arguments in favor of the government control of terminal elevators in order to remedy existing conditions.

J. E. Jackson, of Clover Bar, presented a petition asking for stricter laws governing the liability of the railways for cattle killed on the tracks and for better cattle guards.

Joshua Fletcher, Strathcona, expressed the views of the deputation on the tariff and endorsed the views expressed by the Grain Growers' Association at Brandon. He asked for duty-free farm implements.

D. W. Warner, Clover Bar, was to speak on legislation for cooperative societies, but reserved his remarks for Red Deer.

The Premier's Reply.

Sir Wilfrid Laurier, in replying, thanked the farmers for the businesslike manner in which they had presented their views. It was to hear the views of the people of the west that he and his party were making the present trip. The government had tried to prevent clashing of east and west in the tariff and this he did not think existed. As a proof he quoted that the co-operative bill of last session had been introduced by Lloyd Harris, of Brantford, the representative of a manufacturing centre.

He did not favor the erection of a government abbatoir for the chilled meat industry, but thought it might be helped as the butter and cheese industry had been assisted.

Speaking of terminal elevators, he said it was now admitted that there was a flaw in the existing act that must be remedied. There was undoubtedly mixing of grain at Fort William and Port Arthur. He was not an ardent government ownership advocate, and he thought there was another means of solving the elevator question. He pointed out that there were no complaints where the carrier companies operated the elevators, it was only where the buyers operated them that complaints arose. He quoted the Minnesota law as the remedy of the Duluth elevator complaints ,and promised similar legislation when parliament meets in November.

The tariff was a large question and on it he would defer extended remarks etill he met the United Farmers of Alberta at Red Deer. He would point out that let was easy to get a protective tariff but harder to get rid of it. When duties were dropped off in a day there was great fear of losses to those who had purchased goods. The tariff was being reduced gradually but effectively.

Hon. Mr. Graham, minister of railways, spoke on the matter of cattle guards and greaeter protection to farmers' cattle. These were serious questions and he was afraid the requests of the farmers went too far. Legislation in answer to what theey asked he thought would not be for the benefit of the entire people. Last year an amendment had been made to the existing law and it made it more easy to collect for losses and gave better protection. The railway department thought the cattle guard now in use was the best that could be obtained. If any one knew of a better one they would be glad to give it theeir best consideration. If standard guards were not in use they would soon be brought into use by the Railway Commission.

A Counter Request.

A delegation from the Retail Merchants of Edmonton with H. Y. Burnett as spokesman, presented a protest to legislation for co-operative companies which he said had been a failure in Eastern Canada.

Sir Wilfrid, in reply, said there was co-operation and co-operation. The general principle of co-operation was of enormous benefit. All depended on the conditions. To a general law of which all could take advantage with favor to none, there could be no objection.

The Civic Petitions.

Mayor Lee and Ald. Gariepy made citizens next took the attention of the prime minister. The mayor presented the civic petitions dealing with the removal of the penitentiary, the broken bank in the eastern end of the city, the centralizing of the land office and endorsing the Winnipeg Centennial.

Mayor Lee ad Ald. Gariepy made brief but excellent speeches in support of the city's requests and apparently very favorably impressed the prime minister.

Sir Wilfrid replied that he was already familiar with these matters as Hon. Mr. Oliver had brought them to his attention many times. He appreciated the city's motives in asking for the removal of the penitentiary. These questions would again be taken up with Mr. Oliver and he would attend to them.

Liberal Resolutions.

Two resolutions, one dealing with a lower tariff and the other with the chilled meat industry, were presented by Geo. B. McLeod and C. Ross Palmer, representing the Liberal association. Owing to the demands of the time of the party they were submitted without being read.

Chief Sampson, of the Sampson band, Hobbema reserve, was introduced and presented Sir Wilfrid with an old fire-bag and Hon. Mr. Oliver with a pair of beaded gauntlets.

"Tell him I am very glad he has nothing to ask; he comes only to present gifts," said the premier.

The chief, before leaving, through the interpreter, stated a number of requests of his band to the minister of the interior.

A large body of breeds were introduced by Peter Gunn, M.P.P., Lac Ste. Anne. Some of them had come as far as 700 miles to see the premier and they asked when thew should send requests to Ottawa, that they be given sincere consideration. They, too, presented the premier with a firebag.

After several other minor delegations had been presented the reception closed and the party entered the King Edward dining hall to luncheon.

ARABS IN BLOODY BATTLE.

Government Troops Defeat National Insurgents.

Teherene, Morocco, Aug. 9—The casualties in yesterday's battle in the city streets between the government troops and the National insurgents were about twelve killed and wounded on the government side. The Nationalists, who were fighting under the leadership of Satar Khan, made famous by his long defence of the city of Tabriz against the forces of the deposed Shah lost thirty killed and wounded.

Three hundred of thgs were captured in the final assault which was made after their position in the northern part of the city had been under fire from infantry and rapid fire guns during the entire afternoon yesterday. Bakir Kahn, the principal subordinate to Satar Khan, was among the prisoners and Satar Khan was wounded.

WILD HORSES ROUNDED UP.

Saskatchewan Bands Being Examined by Dominion Veterinary.

Maple Creek, Alta., Aug. 9—A big band of wild horses, running in the country between the North and South Saskatchewan rivers, has bee rounded up by a picked band of horsemen, and are now being examined for disease, at the orders of Dr. Gallivan, Dominion Vetrinary Surgeon.

The round up took two months, and 180 horses were captured by the simple method of keeping them always on the move in a circle, with relays of trained horses, until they were tired out. The leaders were shot as they were rounded up, and the capture of the others in small bands was then easy.

Body Recovered After Two Months.

Fernie, Aug. 7.—The body of Alene Lyons, seven years of age, daughter of Joseph Lyons, of West Fernie, who was drowned in the intake of the Elk Lumber Company's log pond on the 20th of May, was discovered yesterday by men working at renewing the sluice. It was at the lower end of the pond.

Nervous Prostration For Three Years

"Dr. Miles' Restorative Nervine cured me of a period of nervous prostration of over three years duration, and the Anti-Pain Pills are as necessary to us as the roof of our house. They have been household remedies with us for many years."

WM. J. LOUGHRAN,
1214 Catherine St.,
Philadelphia, Penna.

Much sickness is due to nervous troubles. Headache, dizziness, epilepsy and insanity are nervous troubles. Then there is a large class of disorders which arise from a weakness of the nerves of an organ or part, as weak lungs, heart, stomach, kidney, bladder, eyes, etc. Dyspepsia and indigestion are usually the result of nervous disorders.

Restorative Nervine

soothes the irritated nerves, and assists the nerve cells to generate nerve force.

Price $1.00 at your druggist. He should supply you. If he does not, send price to us, we forward prepaid.

DR. MILES MEDICAL CO., Toronto.

SOME GOOD GRAIN IN CHAUVIN DISTRICT

Cutting Began Saturday in Eastern Part of Province—Will be General This Week.

Chauvin, Aug. 5—Harvest started here yesterday. Wheat is being cut both north and south of town, although the real rush of binders will not start until early next week. We are well satisfied with the grain in this district this year. The crops are not as heavy as last year, still there is a nice stand of grain, the late showers coming in time to fill it, and bring on what is late.

The writer has just returned from a hundred mile drive in an east and northeasterly direction. During this drive we saw some poor grain, but we saw some on the farm of Mr. John Peterson that would do credit to the best year that ever was. We have seen some heavy grain in our travels, we have also seen some well kept farms, but out in this place we have just mentioned there is a farm and some grain growing on this farm that cannot be beaten in Northern Alberta. The other crops north of town are fine.

W. G. Asher, of the British and Foreign Bible society, has been holding evangelistic meetings in town for the last few days. Unfortunately Chauvin people are very busy at this season of the year and the meetings are not very largely attended.

CATTLE TRAIN WRECKED.

Two C. P. R. Freights Collided Betwee Calgary and Sheppard.

Calgary, Aug. 6—Pulling thirty-seven cars, loaded principally with cattle, the engine on freight train No. 78 crashed head-on into another freight coming into Calgary, about three miles from Shepard, last night, about half-past nine o'clock. The impact derailed both engines and a number of cars, but advices received last night stated that no lives were lost. It is said the crews of both engines jumped when they saw that a collision was inevitable.

Conductor Helmer was in charge of the freight that left Calgary for the east, and the live stock carried was the property, largely, of the P. Burns company. The incoming freight was going at a good rate and the impact was a hard one. Fortunately, the crews saw that a collision was inevitable and had time to jump.

An auxiliary left Calgary when news of the wreck reached here, and medical assistance was taken along to care for the men who may have been injured.

Up to an early hour this morning the track was blocked and the auxiliary crew was laboring to clear the line.

No details in regard to the cause of the collision were given out by any of the railway officials last night.

It was, however, learned that freight train No. 78 was made up at the Calgary stock yards, and was taken out without those in charge having received the special orders that were waiting for them at the East Calgary depot, to wait until after the arrival of the other train.

BOOM AT COURTENAY BAY.

Owners Boost Prices of Land in Expectation of G. T. P. Construction.

St. John, N.B., Aug. 8—Real estate around Courtenay Bay, where the Grand Trunk terminals and dry dock will be built, has been sharply advanced and owners are holding out for high prices. A great boom is expected there next year when it is said construction work will begin on an extensive scale.

Over two hundred and seventy-five million feet of lumber was cut on New Brunswick crown lands last year and stumpage dues amount to over three hundred thousand dollars. Over half that amount has already been paid.

SONS OF ENGLAND.

Supreme Council May Discuss Immigration Regulations.

Ottawa, August 8.—The supreme council of the Sons of England opens its annual convention here tomorrow. The preliminary committee meeting was held today. Three hundred delegates are expected and it is said that the subjects to be discussed include the new immigration regulations to which some Englishmen seem to take exception.

The Premier at Vermilion.

Vermilion, Alta., Aug. 8—Premier Laurier's special train stopped here for a quarter of an hour this morning. A large gathering at the station was presided over by Mapor Stepreanson, who presented an address of welcome to the premier. Sir Wilfrid spoke briefly in reply and Hon. Frank Oliver and Hon. Geo. P. Graham also addressed the crowd. The prime minister was given an enthusiastic reception when he stepped from his private car.

NEW YORK RUNNER MAKES NEW RECORD.

New York, Aug. 8—Abel Kittit, the phenomenal young runner of the Irish-American club, forced Melvin W. Sheppard to add another world's record to his long string today when he breasted the tape a winner over Kittit in a special 900 yard race at Celtic park by three yards, winning in the great time of 1.57 1-5. This is 4 1-5 seconds under the mark of 2.01 1-5 made by Glarner, the Olympic Athletic club half miler, in 1908.

There are no dead flies lying about when

WILSON'S FLY PADS

are used as directed. All Druggists, Grocers and General Dealers sell them.

GRANDE PRAIRIE IS WONDERFULLY FERTILE

British Officer Expects to Return in a Couple of Years to Find Railway Built Into Great Northwest Country.

Lieut. Cyril A. Roberts, who made a detour to Grand Prairie this summer on his way home to England from Hong Kong, arrived in Edmonton on Sunday on his return from the north. Lieutenant Roberts visited his brothrer, A. E. W. Roberts, at Saskatoon Lake, Grande Prairie. He went up by way of Lesser Slave lake and came back to Edmonton by the old hunting trail which runs south from Bear creek, striking the grade of the Grand Trunk Pacific at Prairie Creek. Mr. Roberts left Grande Prairie on July 19th. He is much taken with the country and describes it as wonderfully fertile, with just enough slough and brush for shelter and fuel. Mr. Roberts leaves in a few days for the east to sail by the Prince George for England, on August 18th. He expects to return to Canada in the course of a year or two to find a railway into the Grand Prairie.

"A road is being built in from Entwistle, but I think the railroad will get there first," is Mr. Roberts' view of the transportation problem.

BIG FIRE AT RAINY RIVER.

Lumber Shed of Rainy River Lumber Company Destroyed. Loss Million.

Rainy River, Ont., Aug. 8.—The large lumber shed of the Rainy River Lumber Company, with its contents, including surrounding platforms and five C.N.R. box cars, were utterly consumed by fire last night. The origin of the fire is unknown, the watchman having passed through twenty minutes previous. At the end of the shed was a splendid water plant just completed, which gave a good pressure. Indeed, it was a material factor in saving adjacent lumber piles of the Rainy River and of the Rat Portage Lumber companies and the town itself. The extensive fire apparatus of the lumber companies and the civic fire department were promptly concentrated on the building and the fire brigade of Beaudette, across the river and the international border came promptly to the rescue, being on the ground within fifteen minutes of the first alarm. Their united efforts were successful in confining the fire to dry kiln and shed.

The lumber stacked in the shed is still burning and will take some time yet to burn out. The company's loss will be heavy, about one hundred thousand dollars, partially covered by insurance. Great credit is due Beaudette for the rapid arrival of their brigade and its effective aid.

GRAND TRUNK RAILWAY FINED.

For Violating the Canadian Immigration Laws.

Sarnia, Aug. 8—In the case of thirteen charges against the Grand Trunk by Inspector Herbert for violating the immigration laws, evidence in which was taken up to 10 o'clock Saturday, a verdict was given imposing a fine of $50 and costs in each case. The evidence showed that the men had been supplied with the money necessary to enable each to show $25 to the immigration officers at Sarnia and gave receipts at the Port Huron tunnel station. The money was given back by the men at the Sarnia station after they had passed the immigration inspection. Out of the fourteen who gained admission in this manner the inspector secured the arrest of thirteen and the fourteenth one, Ogle Thorpe, has not been secured. In view of the fact that the men had been under arrest three days they were told to go on suspended sentence and were escorted out of the country by the immigration officers.

HAVE YOU REMEMBERED IT?

When packing for the country cottage, don't forget your box of Zam-Buk! Blisters, sunburn, scratches, insect stings, etc., if not immediately attended to, are likely to spoil your pleasure. Zam-Buk ensures you against trouble from these. Take Zam-Buk instead of "taking chances"!

Zam-Buk is antiseptic; kills all poison in wounds, whether from barbed wire fence, or insect sting. Soothes aching feet and blistered hands; heals baby's chafed places; cools those sunburn patches, and prevents freckles. No mother should be without it. Purely herbal in its composition, Zam-Buk is always superior to the ordinary ointments containing animal oils and fats, and mineral coloring matter. All druggists and stores sell Zam-Buk, but avoid harmful substitutes.

BUYING FISHING PLANTS.

Are Canadian Northern Men Trying to Form Fishing Trust?

Victoria, Aug. 8—According to reliable information, MacKenzie & Mann are endeavoring to form a deep-sea fishing trust on the British Columbia coast. They have already secured an option on the Pacific Whaling company's interests and will also take over the Pacific Coast fishery plant at Pacific, the Queen Charlotte plant and several others, and are now trying to buy out the New England Fish company, which practically handles all the halibut on this coast. The Alaska Whaling company's interests are also included in the deal. MacKenzie and Mann's large freezing plants will be operated in connection and it is proposed to erect an immense soap plant so that oil can be manufactured in the province instead of the material being shipped to Glasgow, as now.

NORTH ONTARIO TOWN PARTIALLY DESTROYED

Business Section of Cochrane Wiped Out by Fire Early Sunday Morning —Nineteen Famility Left Homeless—Tents Being Forward From Cobalt to House the Victims.

North Bay, August 8.—Cochrane, 252 miles north of this place, the youngest town in the north, received its first set-back today, when fire licked up nineteen business places. As the merchants occupied living rooms above their stores, nineteen families are homeless and tents are being hurried to the scene from Cobalt to house the unfortunates until other arrangements can be made. Shortly after two o'clock Sunday morning railway men noticed a blaze in Brindley's real estate office and the alarm was at once given by the blowing of engine whistles and by men running from house to house to arouse the sleeping occupants. Fortunately, there was no wind blowing or the whole town would have been fire-swept.

As it was, the flames spread with great rapidity, leaping from one frame building to another, and the efforts of the bucket brigade were directed to keeping the fire confined to one side of the street.

An entire block facing upon two streets was wiped out, nineteen buildings being completely destroyed. Efforts were made to save the stocks and merchandise was piled in great heaps in the middle of the streets and much that escaped the flames was damaged by mud and handling.

Only one house is left standing in the two blocks devastated, and the sprightly little town presents a sorry appearance with the big black gash across the centre and goods scattered promiscuously in the streets.

NEW FISHERIES INSPECTORS.

To Be Appointed by Dominion Government for Ontario.

Ottawa, Aug. 8—Forty fishery inspectors for Ontario will shortly be appointed by the Federal Government in accordance with the recently announced policy of reverting to Dominion inspection at the department of marine and fisheries. It is stated that the provincial supervision while good, so far as it goes, has not been sufficient and the fisheries have been declining. Nearly every county will have its Federal officer, who will be paid only a nominal salary but sufficient to enable him to devote his whole time to the work. There are already quite a few applications for the prospective jobs.

CURED OF CONSTIPATON

Mr. Andrews praises Dr. Morse's Indian Root Pills.

Mr. George Andrews of Halifax, N.S., writes:

"For many years I have been troubled with chronic Constipation. This ailment never comes single-handed, and I have been a victim to the many illnesses that constipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. It seemed that nothing would expel from me the one ailment that caused so much trouble, yet at last I read about these Indian Root Pills.

That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial.

They have regulated my stomach and bowels. I am cured of constipation, and I claim they have no equal as a medicine."

For over half a century Dr. Morse's Indian Root Pills have been curing constipation and clogged, inactive kidneys, with all the ailments which result from them. They cleanse the whole system and purify the blood. Sold everywhere at 25c. a box.
