CAPTURED PAPERS BETRAY IRISH PLOT

American Secret Service Agents Will Arrest More Sinn Feiners.

New York, Oct. 24.—While secret service agents today continued investigation of the ramifications of the alleged Sinn Fein plot, in connection with which "General" Liam Mellowes, Sinn Fein revolutionist leader, is under arrest here, no announcement was forthcoming as to what their inquiry had brought forth. That other arrests are pending, however, was intimated by a high official of the service.

Meanwhile an examination of the papers seized when Baron Dr. Max von Recklinhausen, a German associate of Mellowes, was taken in custody was being made to determine more fully Von Recklinhausen's connection with Irish revolutionary activities in the United States. In announcing the German's arrest, William J. Flynn, chief of the secret service, stated that these papers contained information of great value to the American Government. It is the belief that the papers have furnished the secret service men with many new trails to follow.

Mellowes, charged with obtaining false papers as an American seaman, had been unable to obtain late today the $7500 bail under which he was yesterday bound over for a hearing. Von Recklinhausen is held at Ellis Island as an alien enemy.

LABOR SHORTAGE HITS FARMS HARD

Inexperienced Help in West Receives Five Dollars Per Diem.

Ottawa, Oct. 24.—The milk committee finished the examination of dairy farmers and producers at the session this afternoon. The witnesses declared that if a better price was not paid to the producer for his milk, and if better conditions could not be had, the producers would go out of business.

The labor situation came in for some discussion, conditions in the west being characterized as most serious. In the western provinces, it was stated, so many young men had enlisted that the farmers were dependent on inexperienced help. The hired help was being paid wages of $5 per day and board. Of the three factors to which the increase in the cost of milk was attributed—food, labor and cows—labor was the most serious. It was suggested by a farmer from Manitoba that men who applied for exemption on the grounds that they were required as farm laborers should be made to register, so that they might be called upon at any minute. Foreign laborers now registered as aliens sshould be put on the farms.

An Ontario producer said that the cost of labor had increased 60 per cent. the cost of feed 100 per cent., and the cost of dairy cows 50 per cent.

Tomorrow the distributors of milk will be examined by the committee, and, after milk is disposed of, ice cream will be taken up.

RICH DEPOSIT OF MICA.

Montreal, Oct. 24.—A rich deposit of mica has been found on the property of Cyrille Laurin at Grenville, Que., so it is reported.
