NOTE AND NEWS.

GENERAL.

The village of Fortella is entirely destroyed by the Carlists.

Of the 30,000 medals awarded to exhibitors at the Exposition 400 go to America.

Shakespearian documents have been discovered which contradict the theories touching Shakspeare's business connection with theatres.

A special despatch to the London *Telegraph* says the cholera is raging in Hungary, and that fifty per cent. of the cases prove fatal.

A contemplated revolt by the crew of the Spanish frigate Carmen was discovered by the officers and forty mutineers arrested and placed in confinement.

Castelar was on Tuesday elected President of the Spanish Cortes by 134 against 73 blanks. Upon taking the chair he delivered a conservative speech.

At a demonstration of the Trades Unionists at Edinburgh on Saturday there were 15,000 men in the procession. The object of the demonstration was to protest against the Criminal Law Amendment Act.

Since the elections the London papers have arrived at the conclusion that a share in a brewery or distillery is now almost as useful to a political aspirant as a pocket borough or a dominant county influence under the old system.

Nearly four hundred witnesses will be summoned to Bazaine's trial, and the authorities are at present engaged in trying to find a building large enough to contain all those who will be required to attend the trial.

A plaintiff with a claim of £1,900 has lately been nonsuited in an English court, owing to the adhesive stamps on certain foreign bills of exchange having been cancelled simply with the cross instead of the initials, date, etc., required by law.

The Honolulu *Advertiser* of the 26th ult. announces that during the week a small party of ladies and gentlemen left Honolulu to walk around the island. The distance to be walked is considerably over one hundred miles.

The Spanish Ministers of War, Marine and Interior, and several generals of the army threaten to resign if the Government shall decide to commute or in any way fail to execute the death sentence pronounced upon the Communist Insurgents.

In Quebec, Wm. Draycott, confectioner, having been to the circus, and got a thorough wetting on his way home, went to bed without sufficiently warming himself and was found dead in his bed Monday morning. The deceased formerly belonged to the 1st Battalion 17th Regiment.

Mr. Donkin, Warden of the Penitentiary, reports that two men escaped from that institution on Tuesday afternoon at about 5 o'clock. They were employed in making repairs to a wharf near by, under the directions of a keeper, when they started to run. The alarm was promptly given by the keeper, but before pursuers could be put on their track they were out of sight.—*Halifax Recorder.*

In estimating the amount of English requirements of foreign breadstuffs it will be advisable to take into consideration the remark of the London *Times*, 11th inst., that "the increased consumption of foreign potatoes is remarkable. In the last seven months the value was £1,829,153 against £353,005 in the same period last year."

In the Spanish Cortes, Monday, Olave demanded the prosecution of Hidalgo on a charge of having abandoned his post as captain of the iron-clad Vittoria. He inquired of the Ministers whether the report that Hidalgo was going to Washington on a mission to the United States Government was correct. In consequence of Olave's action a duel with Hidalgo was imminent, but through the intervention of friends a meeting was averted.

On Sunday there was a severe engagement near Estella, Spain, between 5,000 Government troops and 3,000 Carlists under favorite leaders. The Carlists were completely defeated by the Republican troops. They asked for a truce to remove the dead and wounded, which was granted. The remains of the Carlist army retired towards the French frontier. Don Alfonso, brother of Don Carlos, and General Tristany are among the wounded.

The *Times* says the British Government, at the request of Germany, has sent orders to the commander of the British squadron in the Mediterranean to deliver to the Republican authorities the Spanish steamers Almanza and Vittoria, but that the inferior force under the command of Admiral Labos renders the recapture of the vessels by the Insurgents highly probable if they are surrendered. The vessels are without crews, and cannot in their present condition be used against the Insurgents.

Chevalier Hugh Murray, formerly employed at the Education Office, Montreal, has just sailed for Europe to take up arms for Don Carlos, in the army of his brother, Don Alphonse. Mr. Murray served with distinction in the Papal army attaining the rank of Lieutenant and the grade of Cavellere Di Pio Nono. He fought under Kanzler at Montana after the fate of Rome, during the siege of which he aided in the defence of Porta Pia. He joined the French Pontifical Zouaves and shared the brilliant career of that corps under De Charethe.

There was a thunder storm Sunday, of great severity in the midland counties, England. Crops were considerably damaged and there was also some loss of life. Accounts from Cambridge, Peterborough, Wiesbach, Newark, and other towns, represent the wind and lightning as appalling. Thousands of people refused to go to bed lest their house be overwhelmed while they slept. A number of fires were kindled by the lightning and many deaths are reported. Childerly Hall, near Cambridge, historically connected with the reign of Charles the First, was struck by lightning and burned to the ground.

The steamer Great Republic has arrived with China dates to July 26th and Japan August 6th. The China press congratulates the people upon the success of the mission of Soyesima, sent from Japan to the Emperor for the purpose of improving the treaty relations of the two countries. The people of Hong Kong fear the cholera may be introduced from Singapore and other places in the Malayan Peninsular, and vessels from those places are quarantined from two to ten days. Yokohama papers say that the rebellion of the farmers of Faknokaken and other kens has been put down. The rebels were guilty in many instances of shocking barbarities. When close pressed many of them committed hari-kari. A gunpowder explosion at Osaka killed a large number of persons. The railroad from Osaka to Kobe is progressing favorably. The Emperor and Empress have gone to the Hot Springs. Last year, on the occasion of their visit, foreigners were excluded, but this time they were not interferred with. Business throughout the Empire was very dull.

NOTICE TO INVESTORS.

THE attention of the investing public is called to the limited remainder of the NORTHERN PACIFIC RAILROAD SEVEN-THIRTY LOAN. Of the $9,000,000 of this loan unsold on the first of June last, less than $5,000,000 now remains, and this balance will soon be absorbed, after which the Company has resolved to issue only six per cent. bonds.

There are now between 500 and 600 miles of the road in regular operation, with a growing traffic; surveys and construction are progressing satisfactorily; the survey prosecuted the present season in connection with the Stanley military expedition has resulted in the location of an excellent line through Western Dakota and Eastern Montana, and the Company has advertised for proposals for grading and bridging the Yellowstone Division, extending 275 miles from Bismarck, at the crossing of the Missouri River to the crossing of the Yellowstone in Montana. The Company's lands (amounting to more than 20,000 acres per mile of road) are selling to settlers at an average price of nearly six dollars per acre, and the proceeds of land sales constitute a Sinking Fund for the repurchase and cancelations of first mortgage bonds.

The Company's seven and three-tenths per cent. gold bonds, the last of which are now offered, yield over 8½ per cent. per annum at the present price of gold.

All marketable securities are received in exchange at current rates, and full information furnished on request.
