Ontario Legislature.

Opening of the New Parliament Buildings.

Speech of Lieutenant-Governor Kirkpatrick This Afternoon.

Important Legislation for the Third Session Foreshadowed.

Congratulations Upon Entering the New Quarters—Advancing Methods in All Branches of Husbandry—Splendid Work of the Agricultural College—Bills To Be Submitted, Including One Relating to the Voters' Lists in Cities.

TORONTO, April 4.—At 3 o'clock this afternoon the third session of the seventh Legislature of Ontario, and the first to be held in the new buildings, was opened by Lieutenant-Governor Kirkpatrick, who delivered the following speech:

It gives me great pleasure to meet you as a Legislative Assembly for the first time since my appointment as Lieutenant-Governor, and it is peculiarly gratifying that I am privileged to do so in these beautiful buildings, now so nearly completed and so well adapted for your accomplishing the public service. I regret that the condition of the work did not admit of my calling you together at an earlier day. It is a source of historical interest to remember that I am addressing the Legislative Assembly of this Province in the first year of the second century of the existence of representative Government in Canada. The progress of events from the first Parliament opened by Governor Simcoe at Niagara in 1792, to the opening of this Parliament to-day, shows what great strides have been made towards the development of the country and the enlargement of the privileges of citizenship under the constitution given to us by the Imperial Parliament. As a native of Ontario and for many years connected with the public life of Canada, I rejoice to believe that under out present relations with the empire we can enjoy every right and privilege necessary to the fullest exercise of self-government.

THE AGRICULTURAL OUTLOOK.

It affords me pleasure to state that the harvest of the past year, while not as abundant as that of 1891, was still a satisfactory one. The general awakening of agriculturists in the Province to the importance of the dairy industry and of its more extended development is apparent from the increasing number of creameries and cheese factories established during the past year. The instruction given by means of the traveling dairy has been attended with gratifying results and is still eagerly sought for. The approaching of practical information and advanced methods in all branches of husbandry continues to be very marked. At no previous period has the demand for publications in connection with agriculture been so great as at present. Much activity prevails among farmers' institutes and other kindred associations, all of which are enlarging their spheres of usefulness and becoming more than ever the means of disseminating valuable information with respect to agriculture.

You will be pleased to learn that the Agricultural College is now taxed to its utmost capacity, so great has the desire of farmers' sons become to qualify themselves thoroughly for the profession of agriculture. The special dairy course in connection with the college has proved so satisfactory that notwithstanding the liberal appropriation made for this department, more than half the applicants for admission to the course are unable to find accommodation. You will learn with pleasure that by a course of lectures at the college during the summer holidays, an opportunity is to be offered teachers to qualify in presenting the rudiments of agriculture in our public schools. I have no doubt that the effect of this will be to render the pursuits of rural life more attractive to the young, and that this and the other measures adopted tend to make the position of the agriculturists as much to be desired for its pleasures and rewards as that of any other calling or profession.

PRISON REFORM.

The report of the commissioners on the prison and reformatory system of the Province has for more than a year been before the public. It affords a valuable contribution to the stock of information regarding the various methods of dealing with this and other criminals, and recommends as the most effective mode of reducing crime, the withdrawal of abandoned and neglected children from criminal and dangerous associations. With this view a measure will be introduced for the better protection of children, the provisions of which I commend to your most careful consideration.

INSURANCE CORPORATION.

The salutary effects of the Insurance Corporation Act of the last session have already been distinctly seen. A firm administration of the act has excluded from Ontario numerous fraudulent or speculative societies, which professed to secure to persons of small means large sums in the form of endowment or life insurance. The Province has thus been saved from the loss and distres, which during the past two months the collapse of such societies has occasioned in the neighboring States of the Union.

THE TIMBER LIMITS.

I am glad to be able to congratulate you upon the marked improvement in the State of the lumber trade, the prosperity of which is of so much importance to the revenue and other public interests of the Province. This increased activity during the last year afforded a favorable opportunity to sell at public auction the right to cut the pine timber upon a limited area in the southern part of the district of Nipissing, and on some exposed berths on the north shore of Georgian Bay, and of some scattered berths in the western districts held over from the sale of 1890, containing in all about 633 square miles. I am pleased to state that the prices obtained were high beyond precedent, averaging $3,657 per mile, and this, although the dues to be paid on the timber when cut were increased by one-fourth as compared with the dues payable on berths formerly sold in the Nipissing and Algoma districts. In addition to the annual rental and timber dues which will be paid into the Provincial Treasury upon the timber when cut, a sum of over $2,250,000 was realized by way of bonus. The commissioners appointed to consider the fitness of certain territory in the district of Nipissing, south of the River Mattawa, for the purpose of a forest reservation and natural park, have completed the duties assigned to them. They have collected much useful information touching the objects of the commission, and have made their report, which will be laid before you. A bill to establish a national park will be submitted for your consideration.

THE DRAINAGE QUESTION.

The extensive systems of drainage which many municipalities had undertaken in order to render their swamp lands fit for tillage, led to difficulties in adjusting private and municipal rights. The disputes could not be settled without the fullest possible information on all the phases involved, and to procure such information the Government caused a commission to be issued on the whole question of drainage. The report of the commission will be laid before you and a bill dealing with the subject will be submitted for your consideration.

DEHORNING COMMISSION.

The reports of the commissioners on the dehorning of cattle and on assessment laws will be laid before you, and will, I trust, be found useful.

BILLS TO BE INTRODUCED.

A bill consolidating and amending the various acts respecting the University of Toronto, a bill consolidating and amending the Registry Act, a bill respecting labor liens and a bill with regard to voters' lists in cities will, with other bills, be submitted for your consideration.

The estimates for the current year will, at an early date, be submitted for your approval. They will be found to have been prepared with all the economy consistent with the efficiency of the public service.

I am glad to feel assured that your legislative labors during the present session will be characterized by the same earnest care and thoughtful attention which have heretofore marked the work of the Legislative Assembly of my native Province.

"Did both of Grimsey's daughters marry well?" "Oh, one of them did splendidly. She married a plumber; but the other had to be satisfied with just a banker."

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. "In the case of the word onion," inquired the teacher, "where does the accent fall?" And the sad-eyed, thoughtful boy with the freckled face said the accent fell mostly on the nose.

Among the pains and aches cured with marvelous rapidity with Dr. Thomas Eclectric Oil, is ear ache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, in which the young are specially subject.

And now hens begin to cackle their tuneful lay.
