## JUNIOR FARMERS' ASSC. WILL DISCUSS TOUR

Members of the Junior Farmers' Association of the local district will meet in the rooms of the department of agriculture in this city tonight to discuss the proposed annual tour of the club to be held in the near future. Waldron Keyes of London Township is the president of the association.

## CHATHAM TOWNSHIP MAN SUFFERS HEAVY LOSS DUE TO FIRE

Dresden, June 6.—Fire destroyed the large barn of James Eagleson, Centre concession, Chatham Township, late last night. Three horses, three pigs, three calves, a binder and a new buggy were burned. The flames aroused Mr. Eagleson shortly after 10 o'clock. The origin of the fire is unknown. The property destroyed was only insured for $3,500.

George Smith, North Dresden, died yesterday after an illness of three years. The funeral will be held tomorrow, Rev. J. H. Osterhout, Methodist pastor, will conduct the service.

The remains of Mrs. Jane Ann Windover, a former resident of Dresden, who died in Chatham on Friday last, were brought to this place today for interment. # IMPERIAL PARLIAMENT IS NOT POSSIBLE FOR TIME

Victoria, B. C., June 7.—An Imperial Parliament, formed of representatives from all parts of the British Empire, is a dream impossible of realization at present, but the separate nations which compose the Empire should have representatives at London to keep in constant touch with the British cabinet, Right Hon. J. W. Lowther, former speaker of the British House of Commons, declared in a speech before the Canadian Club yesterday. Mr. Lowther declared that Britain had absolutely no wish to force any form of any imperial organization on the dominions, nor could she do so, but he felt that a closer legislative union between the members of the Empire in the future was essential.

# SIMCOE TAX RATE SET AT 33 MILLS

**New Figure Means Increase of Five Mills Over Last Year.**

Simcoe, June 6.—The tax rate was set tonight at 33 mills, on the assumption that the county council rate will remain the same as last year, $2,600. The new rate means an increase of five mills over last year's rate, largely due to increases in teachers' salaries and to sewer construction. A rate of one mill produces $2,500. The assessed value of the town is $2,654,000.

The council turned down the request for a grant of $800 to the Muskoka Free Consumptive Hospital, on the grounds that it would add one-third of a mill to the tax rate.

A prize will be offered by the council for the best design for a sign to be placed at the entry of all roads leading into the town. The council will be the judges.

It was decided to give the police printed cards to place in autos found infringing the town bylaws when the offence is the first. This action followed a number of complaints from farmers and members of the Motor Club as the result of the arrest recently of fourteen cars on a charge of having dirty markers. The farmers claim that thirteen of the cars were owned by farmers, and declare that if this autocratic action is persisted in they will boycott the town of Simcoe.

## CITIZENS MAY

steps to restrain the city from proceeding as arranged, by legal process, he expressed the opinion that such could be done if all the ratepayers on the street took united action, but personally he was unable to devote the necessary time.

**Immediate Steps.**

"I have been in discussion with two of the aldermen today, and I suggested that we take immediate steps to restrain the city from proceeding with the work. I expect that we will cause an injunction to be issued directly," declared J. F. Sherlock, a prominent Stanley street resident, at noon today. "If they have to go ahead and pave it, the manner in which they agreed at last night's meeting of the council, then we would rather have no road at all. Last night's decision was the worst piece of ridiculousness by any city council in the past 20 years, and I would like to know what is at the bottom of it all."

**Council Afraid.**

"Last night's meeting certainly shows that the city council of 1921, as a body, is afraid to call the bluff of the London street railway," observed Acting-Mayor Frank Harley, discussing the issue this morning. "The city will go ahead and lay a pavement that will last probably about two years at the most, and then the city will have to keep on repairing it for another eight years, the length of the debentures. Somebody at last night's meeting referred to other cities where streets had been paved, while the portion occupied by the tracks was graveled, and it was stated that such was very satisfactory. If these people will look for themselves they will see that the track is laid on one side of the street, and not down the centre of the road, and over which there is no traffic."

**Pave the Whole Street.**

"The city should certainly pave the entire street and even at the worst if the street railway company declined to pay for their share and we could not get a judgment against them, the city would still be ahead, as it would be saving a vast sum, which would be otherwise expended for repair work."

"We are establishing a precedent here," he concluded, "for I venture to say that after this the street railway company will do as it sees fit and for the next four or five years until the franchise expires, if we ever deem it expedient to pave other streets of the city on which the company has its tracks, we'll find that we'll pay the whole shot."

Referring briefly to the paving question today, Ald. Ashton expressed the opinion that the first move that should have been made was to have held a consultation with the management of the street railway, when results may have been more favorable than they are at the present. "If you were to go ahead," he said, "and act upon the suggestion volunteered by different parties last night, to tear up the tracks and let the company do its worst, you would soon have the public up here registering a complaint."

# INSPECT JAIL AND HOSPITAL

**Hon. H. C. Nixon and Inspector Dunlop Visit County Bastille.**

**BOTH WELL PLEASED**

**Advise Split in Night Watch Guarding Murrells.**

Hon. H. C. Nixon, provincial secretary, in company with Inspector Dunlop, inspected the London jail and the Ontario Hospital on Monday. He commented on the general excellency with which the two institutions were conducted.

The inspectors examined the cells in which the Murrell brothers and Williams, held here on the charge of murder, were occupying. Particular attention was paid to the doors and windows. They seemed well pleased with the care which has been taken by the local officials to safeguard the keeping of the prisoners. Hon. Mr. Nixon suggested, however, that the night guard was on duty too many hours. He believed it would be much better if the watch was split.

At the Ontario Hospital everything was found satisfactory. They were there only a few minutes, and the biggest part of that time was spent in investigating the possibility of building a church at Pottersburg for the inmates of the institution.

### SET BREAD PRICE

Woodstock, June 7.—A meeting of the bakers of Brantford, Princeton, Tillsonburg, Ingersoll, Beachville and Woodstock, was held yesterday to discuss the price of bread. For some time past there has been a difference in retail prices, some bakers selling at 10c, while others charged 12c. The result of yesterday's conference was that it was decided that the price of bread manufactured locally would be 12c a loaf. Woodstock, however, consumes a large quantity of bread manufactured in London, Toronto, and other outside centres. At the stores handling this bread, it was still selling at 10c a loaf.

### STANDARD STOCK EXCHANGE.

Toronto, June 7.—South Keora, which yesterday sold at 15½c after dropping 19½c a share from its high level of last week, opened unchanged at this morning's session of the Standard Mining Exchange. The slump in this stock is said to be due to an announcement of the company that an offering of 100,000 shares would be made to shareholders at 15c a share. Most of the other gold stocks showed little change. In the silvers, Beaver sold at 32c and Trethewey was unchanged at 16c. Sales approximated 48,180 shares.

## PRESSMEN EXPECTING HIGHER STRIKE PAY

Toronto, June 7.—Following the termination of negotiations between the pressmen's union and employing printers yesterday, President A. E. Clay of the pressmen's union, stated today that a mass meeting will be held tomorrow to inform the members of the negotiations.

"We will then advise our members that if they want to go away for their summer holidays now would be a good time to do so," declared President Clay.

According to Chairman E. Randall of the pressmen's strike committee, 35 per cent of the pressmen of the city are at work at the present time. "They are working on a basis of a 44-hour week and at a wage of $42 a week," he declared, "and as soon as 50 per cent of the men have been employed on the present basis we consider that it will mean a new wage standard for the city."

Men on strike expect an increase in strike pay from the international union next week, when it is expected that a rate of $25 and $20 for married and unmarried men will be decided upon.

## METHODIST CHURCH

**Methodist Colleges.**

Rev. F. Reycraft asked that a special reference to dancing in Methodist colleges be included in the censure, stating that he knew of one convocation dance held in an Ontario Methodist Ladies' College.

"Why give a slam at Alma when it is not deserving?" protested Rev. J. T. Cosby Morris. "Name your college." However, names were barred. A vigorous educational campaign against the cigarette was also urged in the report, which stated: "We rejoice with thanks to God that there was a majority of 166,000 in favor of prohibition reform. We would urge the people to give strong support to the law, so that the province may reap a great blessing."

"We rejoice at the efforts of Premier Drury and Attorney-General Raney in the face of malicious criticism, and pledge them our support." This clause was passed unanimously by conference. The report also deplored the enticement of Indian families from reserves to be employed elsewhere where no housing or other accommodation is provided and urged the department of Indian affairs to investigate.

**Want Them Changed.**

Those clauses of the report referring to summer resorts, and school dances, were referred back for alteration, and the discussion on "short skirts" will also be dealt with in a future report. Regarding Grace Church, Winnipeg, relief, the committee appointed in the subject recommended that London Conference endeavor to raise $22,000 for this cause, with a committee of five selected from a representative of each district to arrange for same. This recommendation was adopted on the understanding that conference is not bound beyond "endeavoring" to raise the $22,000.

**Educational Work.**

The educational committee reported that $155,000 is required for educational work of which London conference is expected to find $20,000. A reply to the Labor Forum letter regarding the printers' strike at Toronto was drafted, and it says, in part: "Permit us to say that we hope and pray that very soon the principles of Christianity may be more fully carried out in industrial affairs, and that before many days are passed the unfortunate strike may be settled and confidence and goodwill between employer and employee may be re-established."

**Report Was Correct.**

Capt. E. M. Edwards, who was appointed as a committee to investigate "a breach of faith on the part of London newspapers who printed a report of Dr. Chown's speech on church union Monday, after he had requested that it not be used for publication," reported as follows: "The reporters have not broken faith with the London Conference. I want to say frankly, openly and gladly that there can be no question about the report. These young men are exonerated."

"They have been very fair, and conscientious in their report of the conference," commented President J. W. Hibbert, who explained that Dr. Chown had given out all statements to the reporters for publication. These remarks were greeted with applause by the delegates present. The investigation was ordered on request of Rev. Byron Snell of Alvinston.

Dr. Thomas Manning and Rev. S. J. Allen, who are being supernannuated this year bade farewell to the conference in short addresses. Both conveyed words of advice to their younger brethren in the ministry. Rev. Stanley Hunt, who is leaving for a Ruthenian mission in Alberta, also bade farewell to the conference. ## ULSTER PARLIAMENT

The Belfast city hall, although architecturally one of the finest buildings in Europe, was hardly adequate for the installation of the parliament. The council chamber, although it contains ample accommodation for the 52 members elected to the House (six Sinn Feiners and six Nationalists, who did not appear today, having been chosen to the body in addition to the 40 Unionists), is hopelessly small when considered from the spectators' standpoint.

Nevertheless, the company in the little galleries, gathered to witness the opening ceremonial, appeared thoroughly representative of the northern province, the only notable absentee, it was commented, being Cardinal Logue.

Viscount Fitzalan, the new viceroy, whose first ceremony this was, arrived in Belfast at 8 o'clock with Lady Fitzalan, driving to the mansion of Lord Pirrie, the lord lieutenant, at Belfast. The viceroy and vicereine left for the opening of the parliament at 10 o'clock, driving through Ballymaccarret. There was little outward display of public interest, as the shipyard men and other workers, and the population in general, were apparently reserving any demonstration of note for the expected coming of King George for the state opening of the parliament on June 22, which will mean a general public holiday.

The party of high functionaries was received at the city hall by Lord Mayor Coates, and the guard of honor was inspected. Afterwards there was a reception of the officials by the members of the Belfast corporation on behalf of the municipality.

**Address of Welcome.**

The lord mayor presented an address of welcome and congratulations. "The Imperial Parliament," the address set forth, "has deemed it proper to transfer a large portion of its legislation and administrative powers to the parliaments established in Ireland, and we, loyally abiding by that decision, will do our utmost to support the Government of Northern Ireland in efforts to promote the happiness and the prosperity of the people of this province of the United Kingdom."

Replying to the address, the viceroy said he had come among them at a time momentous in Irish history. He joined with all his heart in the desire for peace and good-will, and he most earnestly hoped that this hour, when it came to take its due place in history, might be found to have been the forerunner of a time of peace, happiness and prosperity for Ireland.

After the luncheon which followed the opening of the Parliament, Sir James Craig, the premier, read a message from King George, announcing His Majesty's intention of opening the Parliament in person on Wednesday, June 22.

### BELFAST BEFLAGGED.

BELFAST, June 6.—Belfast's stately city hall is gaily beflagged for the opening tomorrow of the Northern Parliament, which will be only surpassed in brilliancy of ceremonial by the state opening, which has been fixed for June 22.

Lord Fitzalan, the new viceroy, who will represent the king at tomorrow's ceremony, will arrive in the morning with Viscountess Fitzalan to pay his first official visit to the northern city. They will be the guests of Lord Pirrie, from whose residence at Ormiston they will drive along the decorated route to the city hall. They will be awaited there by the lord mayor and city council, and an address of welcome will be presented.

**No Opposition Party.**

The new parliament will be without a sign of the Opposition party, for the leaders of the Sinn Fein and the Nationalists are determined to ignore it as if it did not exist. Apparently also the public is taking little interest in the occasion; and at all events the interest of the public only centres in the prospect of the coming of the king to the state opening.

The first business tomorrow will be a motion to elect Major O'Neill as speaker; the viceroy will signify the royal assent to the choice of that member. Arthur Irwin Dasent, who is clerk of the journals in the House of Commons, will be clerk of the new House. After the formal swearing in of the members, the premier, Sir James Craig, will announce the names of his cabinet and they will be immediately confirmed by the viceroy in an adjoining chamber and raised to the dignity of privy councillors. Thus the first government will be fully constituted.

The new Senate will then be elected and parliament adjourned. Among those who will be admitted to the galleries as spectators will be church dignitaries, Ulster peers, public officials, naval and military officers and all the Ulster members of the Imperial Parliament and their wives.

The first number of the new Ulster Gazette, published under authority of the new government, will be issued on Wednesday.

## CAN REDUCE

Introducing Premier Tachereau, Mr. McKinnon referred to the fact that this week Toronto University is to confer a degree of doctor of laws upon him as a distinguished man, not only in Quebec but in Canada as a whole, and he hoped this precedent would often be followed.

**Premier Warmly Received.**

Mr. Taschereau, who was warmly received, in rising to extend the welcome by the Province of Quebec to the delegates, said the visitors were at that moment standing upon the very ground where the discoverers of Quebec stood four hundred years ago. They, too, were manufacturers—they manufactured the opportunity for Canadians to develop this continent, with its great material wealth.

Mr. Taschereau then remarked that the manufacturers in Quebec today might be discoverers, too. On their visit they would find that which would dispel any thoughts of discord which a yellow press might have created in their minds—minds, which he was sure were open to a healthy spirit of Canadianism. They could find the employers and employees working together in close harmony. They would find manufacturers and farmers co-operating together to create and supply a market. They would find a population attached to the land, loyal to the laws and respectful of traditions. They would find a mixed population, mixed as to creed, all living in peace, harmony and concord, wondering during their leisure time at the petty struggles that sometimes divided Canadians when unity was necessary to build up the country.

Mr. McKinnon, returning thanks for the welcome to the province and city of Quebec, remarked on the fact that Mr. Taschereau and Mayor Samson had both addressed them in English. He thought that if Canada was to become a great nation, every boy and girl should know both languages.
