One of the rumours floating about at Vera Cruz before the Fashion sailed was, that Santa Anna, with a force of some three thousand men, was at Rio Frio, a pass some eight or ten leagues from the city of Mexico, which he was defending, and which of course he would defend to death.

Gen. Twiggs's division of regulars left Jalapa on Saturday and Sunday the 22d 23d May, for Puebla, a large train accompanying. The troops which remain to garrison this place, are the 1st Artillery, 24 Pennsylvania, and three companies of the 1st Pennsylvania regiments—the balance of the latter being ordered back from Perote.

The hospital at Jalapa was filled to overflowing, nearly 800 souls being enclosed within walls!

The Diligence which left on the 21st ult. for Vera Cruz, containing nine passengers, Americans, besides the driver and postilion, was found by the one which followed on Monday, 27 miles distant, broken to pieces, and all hands murdered and plundered. The last Diligence immediately returned to Jalapa with its passengers.

Since the surrender of Vera Cruz there has been anchored at that place, at Sacrificios, Labos, and Anton Lizardi, vessels varying in number from 50 to 80, in the government employ—all chartered by the day, at prices varying from $40 to $100 per day. Some of them have been here three months, with stores—the original cost of which one month's demurrage would pay for. Anchored within pistol shot of each other, are five or six vessels, with cost for the army—the quantity contained in the whole six not being sufficient to fill the hold of any one of them. The demurrage of not one of these vessels is less than $60 per day.—*N. O. Delta of June 4.*

*Where are the Volunteers?*—Colonel Baker states that of the Illinois Regiment he took to the field, *not one half will return. The rest are dead.* Of 2,400 Ohioans, who left Cincinnati in June, 1846, *900 are no longer in their Regiment—dead, or with ruined constitutions!*

*The number of dead, dying or lost will make about the proportion of 40 per cent. in one year!* Out of 18,000 Volunteers of June and July, 1846, *7,000 are dead or gone!!*—*Cincinnati Chron.*

*A Mothers courage and presence of Mind.*—A little girl just able to prattle, recently fell into a cistern in St. Louis, the top of which was covered with an imlooth. The mother heard the slight scream of the child, rushed into the yard, and calling upon another lady to hold her from falling in, she reached down into the cistern and caught the child as it rose to the surface the third time, by the tips of the fingers.—The mother was so nearly beyond her balance that the lady assisting her could scarcely hold her from falling in, and the mother, therefore, could not reach an inch farther; she raised the child, however, by the fingers, snatched another hold, and by great exertion drew her little one safely from its perilous situation.

*And the best Medicine known to Man for*

Asthma, of every stage, Liver Complaints, Bronchitis Influenza, Coughs, Cold, Bleeding of the Lungs, Shortness of Breath, pains and weakness in the side, breast, &c., and all other diseases of the

**PULMONARY ORGANS.**

A very important disease over which this "Balsam" exerts a powerful influence, is that of a

**DISEASED LIVER.**

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had endured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain, the use of this Balsam has restored the Liver to a healthy action, and in many instances effected a

**PERMANENT CURES,**

after every known remedy had failed to produce this desired effect.

Besides its astonishing efficacy in the diseases above mentioned, we also find it a very effectually remedy in ASTHMA, a complaint in which it has been exclusively used with decided success, even in cases of years standing.

It not only emanates from a regular Physican, but has also been well tested in all the complaints for which it is recommended. It is not my intention, therefore, either to cloak it in mystery, or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavour to give a brief statement of its usefulness, and flatter myself that its surprising efficacy will enable me to furnish such proofs of its virtues as will satisfy the most incredulous, that Consumption may and "CAN BE CURED," if this medicine be resorted to in time.
