A BITTER CONTEST

The Frank P. Sargent Says Arbitration Board Wants to Act.

St. Louis, Mo., May 28.—Frank P. Sargent, member of the Board of Arbitration, of which Senator Hanna is chairman, is in St. Louis. Mr. Sargent is of the opinion that if the strike of the anthracite miners shall not be settled within the next eight or ten days, there probably will be a sympathetic strike in the bituminous fields. Mr. Sargent said to the Associated Press: "The individual members of the National Board of Arbitration are using their best efforts to bring about a settlement of the strike.

"Last week the members of the board met with the operators and representatives of the United Workers of America, in an effort to secure concessions from either side that would be the means of settling the strike. The operators refused to arbitrate or to concede a single point, and President Mitchell was obliged to return to the headquarters of his order with nothing to offer the miners. They, accordingly, struck for the advance in wages asked for.

"Up to last Monday, when I left New York, both sides were standing firm and, from the condition of things, I think the country will see a bitter contest."

Close of the Concert Season.

The musical season just closed has been one full of interest and delight to every lover of good music, both vocal and instrumental. Toronto people and those in other large cities thruout the Dominion have been privileged to hear many of the greatest artists of the world, such as the Westminster Abbey Choir, Plunket Greene, Watkin-Mills, Jessie Maclachlan, Jonas and many others.

In all entertainments given by these great visiting artists, as also by our own Canadian artists, and as in the large meetings held every Sunday afternoon in Massey Hall by the Canadian Temperance League, one important feature stands out distinctly, namely, that one of the famous pianos of the old-established and reliable firm of Heintzman & Co. was used on all occasions and won the endorsement and highest praise of every artist. It has measured up to the most difficult requirements of the most exacting vocalist and pianist.

This piano, one being specially built and designed for use on the Royal Train, was also the choice of the Prince and Princess of Wales throughout their entire Canadian tour, and again won the highest praise.

The people of finest musical culture in all parts of Canada—and Canadians generally as Canadians—are proud to point to the Heintzman & Co. piano as one measuring up so completely to the highest artistic standards of those who stand highest in the musical world.

Who said, "I will cause a great scayor:
I will cut down the trees
In the yard, if you plees,
And then I'll have wood and to spayor!"

DEATH CAME WHILE HE SAT

John Davitt, a Porter at the Union Hotel, Passed Away Yesterday Morning.

ANOTHER ATTEMPT AT SUICIDE

Young Girl Takes Carbolic Acid Because Her Mother Scolded Her.

Hamilton, May 28. — Death came with awful suddenness shortly before noon to-day to John Davitt, a porter at the Union Hotel. He was sitting in the hotel when the grim reaper came with his message to him. Coroner McNichol was called in, but decided that an inquest was unnecessary. The body was removed to the morgue.

So far as is known, Davitt had no relatives in Hamilton. He was about 45 years of age.

It is thought the excitement caused by his employer, James Burgess, winning the big race at Toronto with Fernie Tickle affected his heart.

Another Attempted Suicide.

Mrs. John Flockton, Murray-street, who took a dose of Paris green with suicidal intent last evening, is now out of danger.

Within two blocks of the Flockton house, last evening, there was another attempted suicide. Miss A. Freeman, a 16-year-old daughter of Charles Freeman, John-street, swallowed a draught of carbolic acid because her mother forbade her going with a certain young man. A physician was called in and saved her life.

Minor Mention.

W. T. Armour, the well-known York-street druggist, has disposed of his drug business to J. E. Horey.

A. B. McKay of this city, manager of the Hamilton and Fort William Navigation Company, who has been superintending dock work for his company at the Soo, will go to England to purchase a steamer to run between Montreal and Fort William.

The Calder-Scott cases were continued to-day before Justice Lount at the Non-Jury sittings. His Lordship will sit to-morrow to conclude the hearing of the evidence.

WILL TAKE THE MINERS OUT

Strike Leaders Boast That They Will Leave None in Affected District.

THIRTY THOUSAND HAVE GONE AWAY

An Inundation Threatens the Anthracite Coal Regions of Pennsylvania.

Wilkes-Barre, May 28.—An inundation more disastrous to property than any recorded in recent years threatens the anthracite coal regions of Pennsylvania. Few not connected with mining operations have any idea of the importance of the pump in the process of getting hard coal. Seven thousand five hundred men, engineers, firemen and pumpmen, are employed constantly to keep the wet mines fit to work in. Two-thirds of them are necessary even if the mines are idle, so rapid is the inflow. If the tools and machinery of the mines are flooded they are spoiled. Then it is a hard task to drain a mine once filled. The operators are confident that somehow they will escape loss, but if the men obey the order to stop the pumps on Monday it will mean the loss of more millions in money than can be readily computed—somewhere between $20,000,000 and twice that sum.

Reports from the region affected by the strike show that nearly 30,000 men have left it already to get work elsewhere, and it is the boast of the strike leaders that they will take every man out of it and find work for him elsewhere if the operators do not yield. Both sides are making preparations for trouble. Military arms are coming into the region as for soldiery and the men themselves are getting ready to go marching again, a proceeding that generally leads to bloodshed. The engineers are reluctant to go out on June 2 because they are mostly middle-aged men, with homes and families, and are content with their wages and steady employment, and they fear that if they once leave their places it will go hard with them about getting back, for they are not confident of the success of the strikers.

The mood of the leaders is getting to be such that the total destruction of about 100 collieries, which is practically certain if once they are flooded, is treated as of the least concern. There is a determination to destroy as much as possible of property values if the strikers cannot win. The loss of 70 per cent. of the hard coal collieries will put that product out of the reach of any but the rich for the future. Eugene Debs' fiery proclamation finds more of a hearing and approval than would be expected, but the fact shows the temper of the combatants.

Individual operators are making the concessions asked of them, but it is largely for the sake of protection against assault on their property. The coal roads will not make any concessions, and as long as they hold out the concession of the small operators cannot much affect the situation.

Debs' Wild Letter.

New York, May 28.—The Herald to-day says: "Eugene V. Debs has written a scorching article on the anthracite strike, the burden of which is that the Pennsylvania coal miners have been trapped by some of their district officers whom he calls political pluggers of the gang of robbers who fleece the coal diggers when they work and have them murdered when they strike.

"He says that Pennsylvania, where hell is as active as Mont Pelee and slavery in full blast, has a Republican majority made up quite largely of the poor devils now on a strike.

"The Governor," he adds, "is already making active preparations to return bullets for ballots."

"He advises the miners to keep away from the capitalistic partnership of priest and politician, to cut loose from the Civic Federation, which has done its worst by causing delay that has resulted in setting the miners by the ears among themselves and to stand together and fight it out.

"He further advises that if the coal police of the Governor shoot down any striker without good cause the shot 'shall be the signal for war, and that let it be an operator for a miner instead of miners only, as in the past.'"

GIVEN FAREWELL LUNCHEON.

Ottawa, May 28.—Capt. Morrison, D.S.O., was tendered a luncheon at the Rideau Club to-day by Mr. John Coates as a send-off on the voyage to England, as an officer on the coronation contingent. Others present were Hon. Dr. Borden, Minister of Militia, Col. Cotton, Col. Sherwood, G. H. Perley, Capt. Courtenay, H. S. Southam, D. M. Finnie, Denis Murphy, H. K. Egan, C. A. E. Harriss, C. B. Powell and Col. Hodgins.

S. Alfred Jones has been very active in the campaign. On Monday he spoke in Orillia in the interests of Mr. Jupp. On Tuesday he was at Callender, Parry Sound for Joseph Edgar, and last night he and Rev. Peter Campbell spoke for Mr. Lennox at Schomberg.

YORK COUNTY AND SUBURBS

One of the Best Meetings of the West York Campaign Held By Mr. St. John.

CANDIDATE WARMLY RECEIVED

E. F. Clarke, M.P., W. A. Skeans, George Syme and Col. Paterson Also Spoke.

Toronto Junction, May 28.—The closing meeting of J. W. St. John in Kilburn Hall to-night was one of the most enthusiastic and largely-attended in the West York campaign. Mr. St. John has always been a favorite in Toronto Junction, and the lucid, argumentative and forcible speeches delivered thruout the campaign, which have been free from personalities, have won him many friends. The platform was decorated with flags and bunting, and a galaxy of carnations, ferns and palms, from the conservatories of F. C. Miller, Bracondale, gave a cheery appearance to the stage.

George Syme, sr., presided, and there were with him on the platform many well-known local and district Conservatives. The speakers of the evening were the candidate, who was presented with a handsome bouquet of roses by Miss Luella Parker, E. F. Clarke, M.P., who was presented a bouquet by Miss Ruby Camplin, and Col. Paterson, who received a similar compliment at the hands of Miss Pearl Williams.

W. A. Skeans opened the meeting with a clever criticism of the motto "Build Up Ontario." Nations, he said, were not built by any one man. England had great men; but no man was pointed to as building England up. Nations grew by the industry of the people, not by shouting "Remember Ross!" or "Build Up Ontario!"

Col. N. F. Paterson, K.C., made a vigorous speech, denouncing recent acts of the Ross government and government officials.

Mr. St. John was received with cheers and great applause. His speech was one dealing with Mr. Hill's address of last night and his letter to the electors claiming credit for fenders on street cars, good roads and taxes on corporations. Mr. St. John showed that Mr. Hill had not had life-saving fenders put on all cars, and instanced the Metropolitan Railway, which passed Mr. Hill's door, which had not a single fender on any of its cars. The fact that not a single dollar had been given to any municipality for bettering the roads showed that the grant in this particular was so hedged around with conditions as to be impracticable. The claim of taxing corporations, too, was shown to be, not a tax on corporations, but a tax on the people. The attack made upon Mr. St. John, that he had done nothing for the electors of West York compelled Mr. St. John to defend himself in this regard.

E. F. Clarke followed, and the meeting came to a close with vociferous cheers for the King and Mr. St. John.

Moves in Markham.

Markham, May 28.—A rousing meeting in the interests of Mr. Moyes was held in the Town Hall to-night. James Robinson was chairman. The hall was crowded to the doors. Two addresses were delivered by W.F. Maclean, M.P., and J. W. Moyes. Prospects are bright for Moyes.

Architects' Convention.

The convention of the Architectural League of America will open this morning at 9 o'clock in the galleries of the O.S.A. It is expected that representatives will be present from Chicago and the other big cities of the United States, and many interesting topics will be discussed. The convention will continue for three days, and will conclude with a banquet at McConkey's on Saturday night, at which the Toronto Architectural Eighteen Club will be hosts. At this evening's meeting, H. K. Bush-Brown of New York will give a lecture, with lantern slides, showing the recent improvement to the City of Washington.

MACHINE NOT RESPONSIBLE.

Provincial Mineralogist Robertson Differs With Other Experts.

Fernie, B. C., May 28.—Provincial Mineralogist Robertson this morning made a public statement, which directly contradicts all statements as to the origin of Thursday's disaster, put forward by Blakemore, Wilson and other experts on the scene. These are agreed that the explosion must have occurred thru the use of a machine in the workings and the injudicious practice of firing shots.

Robertson declares that a machine has been found in No. 2, and that while holes had been drilled they had not been charged when the explosion occurred, and, consequently, could be held in no respect responsible.

There have been 76 bodies brought up to the town to-day, among these last identified being Joe Schelling, Alex Bodi, Steve Rasco, Andrew Patterson, Nota Rosario, Antonio Pietro, John Satarvich, F Fredericko, George Tuka.

In connection with the inquest proceedings, the Western Federation of Miners has to-day engaged S. S. Taylor, K.C., to act with Ross and Alexander, who represent the local union.
