391st Day of the War

LATEST From the Front.

Messages Received Previous to 9 A.M.

OFFICIAL.

LONDON, Aug. 28.

The Governor, Newfoundland:

The French Government report artillery actions at several points. German trenches have been seized in the Vosges, and enemy trenches and munitions depot destroyed north of Arras. There has been further successful air raids, including one on a poison gas factory at Dornach.

The Russian Government report severe fighting at various points. Retreat continues on the middle Niemen covered by rearguard actions. The enemy offensive near Bialystock is stopped with heavy loss. The Brest fortifications were blown up by the Russians, the garrison rejoining the army in the field.

BONAR LAW.

THE COAL STRIKE.

LONDON, Aug. 29.

Although it had been announced that Walter Runciman, President of the Board of Trade, who acted as arbitrator of the recent strike, would decline to see a deputation of miners, Runciman and Lloyd George conferred for half an hour to-day with a committee, representing the men, which came to London from Cardiff yesterday. Little was accomplished to-day, beyond views on both sides. A further conference will be held on Monday with the representatives of men and owners participating. Although dissatisfaction with Runciman's award is spreading among the men, the leaders are standing firmly against another strike at this time. A report from the coal fields to-day stated that 4,000 more men had quit work.

LONDON BUDGET.

LONDON, Aug. 29.

There are no signs yet of any slackening in the German pursuit of the retiring Russians, according to an official report, issued at Berlin to-day. Progress has been made in all sectors of the eastern battle line, except in Northern Courland, where the armies of Grand Duke Nicholas are offering a stubborn and effective resistance. From southeast Kovno, where the Germans claim to have broken the Russian resistance, and must therefore be approaching Vilna, along the Niemen, to Grodno, and thence southeastward through the forest of Bielovisezh, along the border of the Pripet River marshes, the Russians are falling back to new positions. Speculation is again being indulged in as to whether the Germans intend to follow the Russians further to prepare positions from which they can hold them, while the Teutons attempt an offensive in the Balkans or on the western line in France and Belgium. Military observers here are of opinion that this question must be settled before many days have elapsed, arguing that with summer coming to an end, any ventures proposed for the fall must soon commence to develop. Thus far, the Germans have made no move toward any great offensive in the west. The threatened Austrian attack against Serbia consisted mainly of long distance artillery engagements. Artillery has been the chief mode of warfare on the western line, and most activity has been displayed here by the guns of the Allies, which have been shelling virtually the entire German line. In addition the Allies have been using their aircraft in large squadrons to bombard German barracks and positions.

It has been vaguely hinted here that mid-October has been chosen as the time for the long-postponed big push of the Allies, but the point at which the attack is to take place has not been mentioned. The general public does not expect any strong offensive movement as yet, but in some circles there would be no surprise should General Joffre find it possible to attempt some kind of forward movement before mid-October.

There has been more heavy fighting in the Gallipoli Peninsula. The Turkish official report claims that the Allies suffered heavily in a series of attacks attempted by them last Friday. Neither Paris nor London War Offices have made any mention of these movements.

BIG GOLD SHIPMENT.

NEW YORK, Aug. 29.

Nearly twenty million of dollars in gold, and securiteis worth about 25 million, the second largest shipment sent from London to strengthen the British credit in this country, arrived here early to-day in a special train, guarded by thirty-eight armed men. The shipment came direct by rail from Halifax, to which port it was conveyed by a British warship. On the way to New York the train was preceded by a pilot engine and car. The gold securities were consigned to J. P. Morgan & Co., for the account of the British Government.

MR. BALFOUR AND THE ZEPPELIN

LONDON, Aug. 29.

"No soldier or sailor has been killed, or even been wounded; only on one occasion has damage been inflicted which could, by any stretch of language, be described as of the smallest military importance," says Arthur J. Balfour of the Zeppelin raids on England, in a letter to a correspondent, who had complained that British accounts of these raids were meagre, while German reports of the same events "are quite rich and lurid in details." "The reason," says Mr. Balfour, in his letter, "is quite simple. The Zeppelins attack under cover of the night, by preference on moonless nights. Under such conditions landmarks are elusive; navigation difficult and errors inevitable, and sometimes of surprising magnitude. Germans constantly assert, and sometimes believe, that they dropped bombs on places which, in fact, they never approached. Why make their future voyages easier by telling them where they blundered in the past, since their errors are our gain? Why dissipate them? Let us learn what we can from the enemy, but let us teach him only what we must. Nobody, I think, will be disposed to doubt this reticence is judicious. But the question may well be asked whether it is used not merely to embarrass the Germans, but unduly to reassure the British. How ought we to rate the Zeppelins among weapons of attack? What have they done? What can they do? To this last question I do not offer a reply. I cannot prophesy about the future method of a warfare which is still in its infancy. I can, however, say something as to its results in the past. That it has caused much suffering to many innocent people, unhappily, is certain, but even this result, with all its tragedy, has been magnified out of all proportion, by ill-informed rumors. I am assured by the Home Office that during the last twelve months, 71 civilian adults, and 18 children have been killed; that 189 civilian adults and 31 children have been injured. Judged by numbers, this cumulative result of many successive crimes does not equal a single effort of a submarine, by which, to the unconcealed pride of Germany, and the horror of all the world, sent 1,198 unoffending civilians to the bottom in the Lusitania. Yet, it is bad enough, and we may well ask what military advantage has been gained to cost so much innocent blood?"

NEARING THE RHINE.

NEW YORK, Aug. 29.

A London cable to the Herald says that the French, by sharp actions in the Vosges, in which they have overcome innumerable obstacles, have straightened out their front north of Sondernch, and are believed to be about ready for their final operations against Munster and the Lower Freht Valley. For more than two months the French Alpine troops, together with large bodies of line infantry, have been engaged in a consistent advance that not once has been stopped. Progress has been slow necessarily.

FRENCH REPORT.

PARIS, Aug. 28.

The French War Office this afternoon gave out a statement as follows: Last night saw some artillery engagements around Souchez and Neuville, in the vicinity of Roye. There was also fighting with bombs on the plateau of Quennevierres and plateau of Nouvron. In the Argonne our artillery, on several occasions, checked the endeavors of the enemy to bombard our trenches. The night passed without incident. On the remainder of the front the French aviators during the night bombarded Ruey Station at Chattelen, in the Argonne.

FRENCH AVIATOR GAVE HIMSELF UP.

PARIS, Aug. 29.

Eugene Gilbert, the French aviator, who recently escaped from Switzerland, after being interned there, returned to Switzerland and gave himself up by order of the French Government.

SUCCESSFUL AIR RAIDS.

PARIS, Aug. 29.

Another raid by French aeroplanes on military establishments of the Germans was announced by the War Office to-day. Barracks and railway stations in the Ardennes and Argonne were attacked. Violent German attacks near Marie Therse, west of the forest of Malincourt, were repulsed.

ITALIAN REPORT.

ROME, Aug. 29.

The Italian front has been divided, by General Cadorno, Commander-in-Chief, into two wide sections, each containing a vast enveloping movement. Trieste is the objective in one case and Trent in the other. The action is developing in each theatre in accordance with pre-determined plans. Reports from the front state that constant progress is being made although movements are slow.

ITALIAN OFFICIAL.

ROME, Aug. 29.

Details of our success in the Strina Valley show that the enemy suffered losses, leaving in our hands a great quantity of machine guns, ammunition, and 16 cases of bombs. An important force of the enemy at Saccarant and Pozza Alta suffered heavily, some guns being destroyed, and those remaining being transferred to other positions outside the defence works, from where they still reply to our fire. The enemy continued yesterday artillery action against Bargo, in the Val Sugana region, doing little damage. They tried to attack in force our positions in the Zikofel Valley, Monte Piano, north of Nisurina, west of Monte Croce and Carnico, but were everywhere repulsed. In the Plezzo zone our artillery operated effectually against the enemy's troops in the Bepenje Valley, when columns marching along the route of the upper Isonzo were interrupted in their advance. In Carso we also effectually bombarded the enemy's skirmishes near Doberdo Lake on marching columns between Doberdo and Larcottini. Among the materials taken by us in the trenches captured on August 20th at Monte Nero, we found two apparatus, supposed to be for inflammable liquids.

STILL BARGAINING.

SOFIA, Aug. 29.

An inspired statement, appearing in a publication controlled by the Government, contains the announcement that if conditions affecting Bulgaria should be modified by the granting of Bulgaria's territorial demands to such an extent as to call for intervention in the war, the Government would convoke Parliament immediately.

FIGHTING AT SARIBAIR.

CONSTANTINOPLE, Aug. 29.

An official report from the Dardanelles, under date of August 26th, is given out here to-day, as follows: Nothing has occurred except now and then artillery and infantry fighting in Anafarta at Saribair. The artillery of our left wing destroyed part of the enemy trenches. From other points there is nothing in particular to report.

MONTENEGRO ACTIVE.

PARIS, Aug. 29.

Resumption of hostilities between the Austrians and Montenegrins is announced in an official statement.

AUSTRIANS REPULSED BY MONTENEGRINS.

CETTINJE, Montenegro, Aug. 29.

A violent Austrian bombardment in the Bilek sector, occurred yesterday, followed by an infantry attack, which we repulsed brilliantly.

APPOINTED GOVERNOR-GENERAL OF RUSSIAN TERRITORY.

AMSTERDAM, Aug. 29.

Word was received here to-day from Berlin, that General Von Bessler, conqueror of Antwerp and Novo Georgievsk, had been appointed Governor-General of the entire occupied Russian territory.

PRUSSIAN LOSSES HEAVY.

AMSTERDAM, Aug. 29.

The Prussian casualty list give the names of 40,245 killed, wounded and missing, according to the Nieuwe Rotterdamsche Courant. The total number of Prussian losses published up to August 24th, amounts to 1,740,836 killed, wounded and missing.

RUSSIAN RETREAT.

BERLIN, Aug. 29.

A new Austro-German offensive movement in eastern Galicia has forced the Russian retreat over a long section of front. This announcement was made to-day by the army headquarters, which also stated that the resistance of the Russians north, near Kovno, had been broken, and that the centre line of Prince Leopold of Bavaria's force was pursuing the Russians further, and had almost overtaken the right wing.

NORWEGIAN STEAMER ATTACKED.

NEW YORK, Aug. 29.

The officers and crew of the Norwegian steamer Capto, which reached here to-day from Cardiff, said that the vessel was fired on without warning, by a German submarine in the English Channel. Two shots were fired. The Norwegian flag was then displayed, and the submarine disappeared; she carried no passengers.

ATHLETIC RECORD.

SAN FRANCISCO, Aug. 29.

Edward Richmond, of the Athletic Club, Montreal, Canada, yesterday won the amateur athletic union national championship in a full Marathon race of 26 miles, 385 yards. Time, 2 hours, 26 minutes, 41.1 secs.

ASKING FAVORS.

Friendship always wavers, ceases to be sweet if you're asking favors every time we meet. When I sit a-basking by my cottage door, neighbours come up asking favors till I'm sore. "I would like to borrow your alfalfa stack; early on the morrow I will send it back." "Over at my shanty there is much to do; will you lend me your auntie for a week or two?" "Hard times make me holler, I am short of tin; can you spare a dollar till my ship comes in?" "May the gods defend me, for I'm stricken hard, and I wish you'd lend me seven pounds of lard." "I have sulped with sorrow more than other men, and I'd like to borrow your old setting hen." "Will you kindly loan me sundry hoes and rakes?" So they come and bone me, till my bosom aches. Borrowers are chronic when they once begin, and I need a tonic for my cheer-up grin. Borrowing's a habit that will make your friend scamper like a rabbit when his way you wend. Borrowing will make you lonesome all your days, for your friends will shake you and denounce your ways.

Plums!

Our shipment of Preserving Plums has arrived and are ready for delivery. Order early, please.

Tinted Grapes!

Now due per s.s. Tabasco:

40 kegs NEW GRAPES.

Soper & Moore,

Wholesale Groceries, Fruit and Produce.

"Don't Worry."

Don't worry about things that you can't help.

Worry kills success, some people are worrying all the time about some things that have happened or might happen. Drive out of your mind completely your past troubles and misfortunes, they cannot be helped now.

Usually the coming events that you worry so much about are not really so bad when they actually happen, and many times the thing most dreaded and worried about never happens. You will get a lot of undesirable things passed out to you in your life which **you can't help,** and all the worrying you do over them is simply a waste of energy, which might be better employed in the solution of problems of **real** help to your present and future.

A better preparation is not to be found for helping you to get over all your unnecessary worries than:—

Stafford's Prescription "A."

It gives you Nerve, Will Power and Strength to fight against all your troubles. Try a bottle.

Price: Trial Size—25 cts.; postage, 5 cts. extra.

Price: Large Size—50 cts.; postage, 10 cts. extra.

Prepared only by

DR. F. STAFFORD & SON, St. John's, Nfld.

Manufacturers of 3 Specials:—

Stafford's Liniment.

Stafford's Prescription "A."

Stafford's Phoratone Cough Cure.

Amusements.

THE CRESCENT PICTURE PALACE.

John Strange Winter's celebrated novel: "Bootless Baby," picturized in two reels by the great Edison Company is the feature at the Crescent Picture Palace to-day. Geo. Ade is author of "The Difference Between Learning and Learning How." "The Family Record" is a very fine Selig drama featuring Helen Castle and Harry Lonsdale, and the "Peach at the Beach" is a very laughable Kalem comedy with Ruth Roland and Lloyd V. Hamilton. Mr. Harvey Collins sings the "Bubble" song from the musical comedy opera "High Jinks" and "China Town, my China Town."

BRITISH THEATRE.

Prospective patrons of the above House will be delighted to learn that the entire programme of music will be played by Mr. A. H. Allen who will introduce an entirely new idea in pianoforte manipulation as far as picture theatres are concerned. His artistry is so well and favourably known here that further comment upon his great skill would be superfluous. The charming and popular Madame Timmons will be heard in two beautiful numbers—the first one being an Omaha Tribal song—a creation of Charles Wakefield Cadman. Her second song will be the great Irish ballad: "The Low Back'd Car." The picture programme is one of exceptional interest and is claimed by the management to be the best yet given at the popular British.

THE ROSSLEY'S TO APPEAR TONIGHT.

Mrs. Olive Russell will not appear here again by the doctor's orders, as this lady is suffering from the effects of a shock. Jack and Marie Rossley, St. John's favourite performers, will appear in a very laughable act assisted by Jack Russell, the finest vocalist and actor that has ever appeared in St. John's city; this gentleman is a great descriptive singer and has a beautiful collection of songs. His great recital to-night "The Cremation of Sandy McGee," "A Soldiers Camp Fire" and "Don't Hang Your Troubles on Me," together with good pictures will make a splendid programme, as everyone knows the highly talented Rossleys need no introduction in any thing they do because it is sure to please, and everybody is sure of a good laugh at Jack Rossley's until the arrival of a new company which has been secured. Particulars will be announced shortly.

Accident at Harbor Grace.

Master Harry Crocker, son of Mr. Alexander Crocker, of Water Street, now at Labrador, broke his arm on Tuesday forenoon at the Archibald Boot and Shoe Factory, where he had been taken on a few days before, a great pressure of work for the season being on. He was adjusting the belt on a machine when it slipped from the lower wheel snarled and wound around his arm, breaking it between the shoulder and elbow, and near the wrist, and also lacerating the flesh and sinews near the elbow. It was a great mercy that the belt parted, or his life might have been sacrificed. Dr. Strapp was quickly in attendance, and advised his being sent to the General Hospital where facilities are greater for dealing with such cases. He was conveyed thither in the afternoon, his mother and Mr. W. H. Parmiter accompanying him. Though the poor lad had been cautioned from attempting such work, his employers and fellow employees felt very badly at the terrible accident, and our citizens generally have much sympathy with the sufferer and his parents and friends, and hope for his speedy recovery from the grave injury. —The Standard.

A fresh shipment of Nyal's Face Cream just in. Prices, 25, 50, 75c. a tin, at STAFFORD'S.

BELVIDERE COLLECTION. — It was announced at all the Masses at the R. C. Cathedral yesterday that the annual collection in aid of Belvidere Orphanage would be taken up on Sunday next.
