SECURE LAW TO BAR CIVIC ABATTOIR OR TRANSIENT TRADERS CORPS VETERINARY

Municipalities May Ask Permission to Exercise Privilege of Prohibition.

RETAILERS DISCUSS PLAN Detroit Excursion, Parcel Post Zone, and Other Questions Before Board of Trade.

The retail section of the board of trade at a meeting on Tuesday afternoon decided to make a study of the proposed law to bar transient traders from the city council on the proposed bylaw to charge such traders a \$250 license whether for one day or one year's selling.

It was reported that the mayor was endeavoring to have a petition drawn up and signed by various municipalities to allow any town or city to bar transient traders if it was considered advisable.

The secretary advised that in Vancouver the fee was \$300 for a year; in Victoria, \$500 for six months, and in Winnipeg, \$350, and that in addition Winnipeg forced transient merchants to pay a business license as well, in lieu of business tax.

A resolution deprecating the action of certain wholesalers in selling goods retail, was passed, and will be forwarded to the board of trade for acceptance.

Another resolution asking the Eastern Canada Passenger Association to discontinue cheap fares to Detroit, was put to the vote, and will be sent on to the board. The retailers are now considering plans for Buy-In-London excursions from various Ontario points, and the matter will be more fully gone into later.

Action was also deferred on the proposed improvements to the train service from London to Sarnia and Chatham.

To Amend Motion. It was decided to ask the board to amend its motion, which is to be considered by the Ontario Associated Boards of Trade, to have the proposed parcel post zones established on a basis of a 50-mile radius instead of a 25-mile zone, as put forth by the postoffice department.

R. J. Young and W. F. Boughner were appointed as representatives to the newly formed Industrial Bureau. Gordon Ingram was in the chair, and there were present R. H. Dowler, W. C. Southcott, J. F. Hickey, W. J. Raymond, R. J. Young, W. F. Boughner, R. R. Bland, Samuel Stevely, Ald. F. G. Mitchell, and the secretary, Gordon Philp.

INSPECTS LONDON ASYLUM

Dr. W. R. Bruce-Smith, provincial inspector of prisons, accompanied by Assistant Inspector E. R. Rogers, made an inspection of the London Hospital for the Insane on Tuesday, stopping at London on their return to the opening of the new hospital there. They left Tuesday evening for Toronto. Dr. W. J. Robinson, superintendent of the local institution, stated that the inspection was only the ordinary routine event, and the report will not be made public until the annual Government reports are printed at the end of the year.

"Everything was in good shape and appeared to be satisfactory," said Dr. Robinson.

MANX SOCIETY BANQUET The London Manx Society held its annual banquet Monday evening, in Curno's Hall. It was a decided success, about 150 people being there. The supper was well looked after by the ladies of the society, after which a splendid concert was given. Dr. Burdett occupied the chair.

During the evening songs were rendered by Miss Roberts, Messrs. Haw, Elliott, Stewart, Marshall, Pettitt, Cooper and Clarke. Master Gerald McIntyre and Mr. Pettitt gave some splendid piano solos. Mr. Walpole, the whistler, also contributed. Messrs. Elliott brothers gave some splendid selections. Dancing took up the remainder of the evening.

CHILDREN'S AID MEETING. The monthly meeting of the Children's Aid Society was held on Monday afternoon, Sheriff Cameron presiding. A number of applications for children were passed upon and reports received showing the satisfactory progress being made by wards of the society.

HOO'S PILLS

NO GARBAGE IS TO BE SOLD IN LONDON

Health Board Decides to Carry Out Provision of Refuse Bylaw.

NOW BOUGHT FOR HOG FEED

Refuse Collected in City Said To Be Responsible For the Epidemic of Swine.

The board of health at a meeting on Tuesday afternoon decided to enforce that provision of the health act, requiring that all garbage shall be burned or disposed of by means of the system of garbage collection.

This means that hog-raisers will no longer be allowed to purchase the garbage of hotels, restaurant, boarding houses and private residences as they have been doing, the action of the board coming as the result of advice received that an epidemic of hog indigestion in this section was caused by the animals being fed such refuse.

Hogs All Fed Garbage. The chairman, Dr. F. L. Burdon said that he had been advised that one farmer had lost 36 out of 37 hogs as the result of this outbreak of indigestion. Veterinarians had declared that the disease was not hog cholera, but that practically all the cases had been in hogs fed garbage collected in London.

Dr. Burdon said that this garbage was being secured even from the hospitals, and some of it was in a fearful condition. He told of one hotel where the porter had been seen dumping the contents of cuspidors into the garbage can, the contents of the can afterwards being fed to hogs.

Dr. Hutchinson said that the garbage was not good for hogs, even if cooked. As a township to help.

The township authorities in the vicinity of London will be notified of the action of the board in prohibiting the sale of garbage in the city, and will be asked to co-operate.

Inspector James Lupton was ordered to have copies of the clause of the health act relating to the matter, printed for distribution.

The regulation may affect several local hotels, the owners of which go in for farming as a side line, and who use the kitchen scrapings for the nourishment of hogs. With the enforcement of the bylaw this will not be permitted. All garbage must be burned on the premises or sent to the incinerator.

The board's inspector, Dr. Charles Tait, advised that there was more or less hog cholera in the district at the present time.

MANSLAUGHTER IN SECOND DEGREE.

Cutting corns with a razor is dangerous and useless. The only remedy is Putnam's Corn Extractor, which removes corns and warts in one day. Because painless and safe, use only "Putnam's," 25c. per bottle at all druggists.

POSTPONES ACTION

Board of Health, Pending Conference With Dr. McCullough, Does Nothing With Carfrae Crescent Question.

Dr. J. W. S. McCullough, chief provincial officer of health, who was to have conferred with the board of health regarding the sewage problem in Carfrae Crescent, did not put in an appearance at the meeting of the board yesterday afternoon. It was decided to take no action pending word from Dr. McCullough.

The situation that confronts the board is one of making provision for sewage disposal from a number of houses in the district and preventing the river from becoming polluted. The board has a suggestion to carry the matter across the river to the sewage main or to construct a septic tank on the ground. Both propositions would be expensive, however.

ZAM-BUK

You will find relief in Zam-Buk! It eases the burning, stinging pain, stops bleeding and brings ease. Perseverance, with Zam-Buk, means cure. Why not prove this? All Druggists and Stores. 25c box.

FOR ALL SUMMER SORES

THIN PEOPLE CAN INCREASE WEIGHT

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy flesh should try eating a little Sargol with their meals. It is a healthy and safe food. Here is a good test worth a try. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put. Sargol does not of itself make fat, but mixing with your food, it turns the fats, sugars and starches of what you have eaten, into rich, ripe fat-producing nourishment for the tissues and blood—prepares it in an easily assimilated form which the blood can readily accept. All this nourishment now passes from your body as waste. But Sargol stops the waste and does it quickly and makes the fat-producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. Druggists sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back.—Adv.
