Messrs. Prowse Bros. "The Wonderful Cheap Men," have had placed in their store four of the celebrated "Champion Cash Cars," and intend placing two more on the line shortly. These cars are a great saving of time and walking on the part of both customer and clerk, conveying as they do the price of the purchase from any part of the store to the cashier's desk.

As can be seen by advertisement in another column the Ladies of St. Joseph's Sodality intend holding a Christmas Tree in aid of St. Joseph's Convent, on the 16th inst. The former bazaars, etc., held by the members of the Sodality have proved most enjoyable affairs, but it is the intention to have the coming one throw them all into the shade. The friends of St. Joseph's Convent, both in town and country, who feel disposed to lend a helping hand to the institution in the good work is performing can leave their contributions at the Convent, where they will be gratefully received.

Some days ago an attempt was made to wreck the Sydney, C. B., train, by placing an obstruction across the track. Suspicion fell upon two young fellows belonging to Little Bras d'Or, named Almon and Denville, aged respectively 18 and 20 years. They were arrested, and confessed that they were the attempted wreckers. They say they earned a dollar, which they spent in liquor, and while under its influence committed the crime. The lads seemed quite unconcerned over their arrest. They will be tried in the Supreme Court.

Hugh McGillivary, a Cape Breton miner, was killed at Robertson's Cove, Tuesday morning by the falling of a tub filled with iron ore upon him while at work in a shaft. The shaft is seventy feet deep, and when the tub was within eight feet of the surface the hoisting cable broke, precipitating the loaded tub upon the head of the unfortunate man below. The deceased was employed in developing a deposit of iron owned by parties in Antigonish. He belonged to Antigonish, where he leaves a wife and family.

The steamer Britannia, from Boston to Halifax, struck on Race Horse shoals, off Cape Sable, on Tuesday of last week. The steamer came off very soon after, but as her bottom was badly damaged and she made water freely, Capt. Doane headed her under full speed for East Bay, off Barrington, where he beached her. The Britannia's passengers and crew were landed in safety. The steam tug Underwriter, with the Fighter Aid in tow and a wrecking crew with wrecking apparatus was immediately dispatched from Boston on receipt of the news of the accident, and on Saturday at noon had the disabled steamer pumped out and floated. It has been ascertained that the object which the Britannia struck was the wreck of the steamer Salina, which lies two and a half miles south-east of Cape Sable.

Wednesday evening last a barrack of grain belonging to Mr. Daniel Miller, Rocky Point, Lot 65, was set on fire. The fire was discovered by the young son of Mr. Miller, who had occasion to go to a neighbor's house on an errand. The young lads immediately informed their father of the blaze, and with the help of a few neighbors it was extinguished before being entirely destroyed. Had not the discovery been made when it was, several buildings in close proximity to the barrack, would, in all probability, have been burned. When the young lads were returning to acquaint their father of the fire they met a neighbor, named John McKinnon, coming from the direction of the burning barrack. They asked him if he had set the fire but he made no answer. Thursday a warrant was issued for McKinnon's arrest, and that night he was taken in custody, brought to this city and lodged in gaol. Friday McKinnon appeared before H. V. Palmer, J. P., when several witnesses were examined, and the case postponed until to-day. One of the witnesses examined Friday, testified that McKinnon had remarked to him that if he were bad enough he would get up through the night and put a match to the barrack.

Sporting Notes.

Atwood, pacer, by St. Julian, went a mile at Stockton, Cal., Saturday, in 2.07, breaking the world's four-year-old pacing record. She did the last half in 1.02.

Robert Bonner is determined to test thoroughly the merits of pneumatic tires. He has had a sulky built which has three pairs of pneumatic tired wheels. One pair is 36 inches, the other 48 and the third 56 inches in diameter. He will try Maud S. in the sulky with the big wheels.

"Doc," the famous trotting dog owned by N. C. Ketchum, of Brighton, Ont., has been gaining further laurels down south. At the Richmond, Va., exposition he defeated the trotting pony, "Little Midget," who holds the "small sized" trotting record of Virginia. The race was in half-mile heats, which Doc trotted in 1.42½ and 1.45.

At Stockton, Cal., Thursday, Stamboul cut down the world's stallion record, trotting a mile in 2.08½, beating Palo Alto's record a quarter of a second. The first quarter was made in 30¼, the half in 1.01½ and the third quarter in 1.33. The stallion finished strong and game in the face of a brisk breeze. Rowena, the two-year-old Palo Alto filly made a mile against time in 2.18¼, the fastest ever made by a two-year-old filly. The half-mile was made in 1.08½, and the last quarter in thirty-three seconds.

J. Malcolm Forbes, of Boston, owner of Nancy Hanks, the peerless queen of the trotting turf, and the high-priced Arion, offers to give $6,000 to the first horse which, during the next five years, will trot a mile in two minutes on a regulation track. Of this amount $3,000 will go to the owner and a like amount to the driver. Forbes stipulates that the trial is to be made under the rules of the National Association and that he is to be notified beforehand so that he can be present or send a representative. The trial is to be made on a track east of the Mississippi river and is open only to horses in the 2:05 class.

The National Racing Board of the L. A. W. has decided that the records made by W. W. Windle, of Milbury, Mass., for the one mile flying start made in 2.02 3-5 against time, and the one mile standing start of 2.05 3-5, together with his two miles in 4.28 3-5, the flying half mile in 57 4-5s, and the five mile record in 11 41, be accepted by the board. J. S. Johnson's record of 1.56 3-5 for one mile, made at Independence, Iowa, on a kite-shaped track, paced by a running horse with screen, was returned on the ground that the application was not in conformity with the rules. It was the sentiment of the board that when the application is brought before it in proper shape it will be accepted as a special record in a class by itself.

The fourth football game in the Halifax trophy series was played, Saturday. The Wanderers and Dalhousies were the contestants. The collegians outplayed their opponents at every point and won by 7 points to 0. The scoring commenced ten minutes after the kick off, quarter-back Thompson securing a try for Dalhousie, from Gordon's dribble. A goal results. No more scoring is done in this half. Throughout the half the Wanderers were kept on the defensive, except in the latter part when they—for the only time in the game—closely pressed the collegians. In the second half Dalhousie began her aggressive work after the kick and fought in the Wanderers territory till time was called. Another try is secured, but no goal results, and the Collegians score jumps to 7. There it rests until time is called, although it seemed time and again as if the tigers would send it still further upwards. During the entire half the battle waged in Wanderers territory. It was Dalhousies first win in the series, and they celebrated it in true college style. The game was witnessed by 1,400 spectators.

Under the insistent monition of Sir Andrew Clark, his physician, Mr. Gladstone has decided to limit his presence in the house of commons during the coming session. He will attend the sittings only on the days when important measures are under consideration. His deputy in the general leadership of the house will be Sir William Vernon Harcourt, the chancellor of the exchequer.

The claims of Irishmen to the poet laureateship are being urged by the Irish newspapers. They suggest that Aubrey Thomas DeVere or Timothy Daniel Sullivan are well qualified to occupy the post. Mr. DeVere is a son of the late Sir Aubrey DeVere, of Curragh Chase, Limerick. His poetical works are numerous and he is well known as a poetical writer. T. D Sullivan, is the author of several volumes of Irish national poems. He sits in the house of commons for the west division of Donegal.

At Souris West, on Oct. 16th of consumption of the stomach, Catherine McLean, dearly beloved wife of John Kickham, aged 52 years. Deceased leaves a husband and three daughters besides many friends to mourn her irreparable loss. In her person is missed a true and devoted wife, loving mother and kind and charitable friend, especially to the poor to whom she was ever a cheerful giver. She bore her long illness of one year with Christian resignation and was to her dying moments able to breath her oft repeated devotions which will now be re-echoed by her friends in the "Requiescat in pace."

William DeGrace, aged not quite 14, and George DeGrace, aged 11, of the parish of Moncton, have securely housed 1 ton of oats, 60 bushels of good potatoes, 400 heads of cabbage, a quantity of beets and carrots, turnips, tomatoes and onions, three quarters of a barrel of shelled beans, a number of very large pumpkins and squash, besides small vegetables, with a quantity of fruit rhubarb, currants, gooseberries and apples. These things are carefully weeded and hoed by the boys and the potatoes carefully taken care of by them without Paris green.

In Manitoba the wheat crop continues to be rushed to the stations. So far 3,410,000 bushels have been sold against 2,824,350 for the same time last year.

The ostrich sent by the African king to the queen has arrived at the Zoo. It is the largest specimen ever seen in Europe. It was ridden 600 miles by a negro before reaching Sierra Leone. During that long walk the ostrich attacked and injured several natives, two of them being killed.

The office of Poet Laureate is nominally worth £75 a year and a butt of wine. Of late years, however, the worth of the wine has been paid over in money. The cost in fees for a burial in Westminster Abbey is £110. Formerly ninety pairs of gloves had to be provided for the choir, but in lieu of this a sum of fifteen guineas is now paid.

Mr. J. J. Kelly, Irish Home Ruler and ex-member of Parliament, has sued for libel Dr. Leslie, the author of "Recollection of a Spy," and Beinemann, the publisher who laid the book before the public a few days ago. The statements especially offensive to Mr. O'Kelly are to the effect that he was connected with the Clan-na-Gael. The trial of this case will be practically the same as reopening the Parnell Commission.

The British steamer Oranmore arrived at Boston Sunday morning, bringing the captain and crew of eleven seamen and the stewardess of the Norwegian barque Supreme. Capt. Bartlett of the Oranmore reports: "October 21, 5 p. m., lat. 48.43 N., lon. 29.20 W., wind blowing a gale; sighted the Norwegian barque Supreme of Hagesund, showing signals of distress. The Supreme was from Pensacola for Troon, Scotland, with hard pine timber, 56 days out. She was almost totally dismasted, and had twelve feet of water in her hold. With great difficulty the crew of the barque were transferred to the Oranmore. The transfer was made in the darkness and with a strong wind blowing.

Point Breeze, Philadelphia, was visited by fire at an early hour Sunday morning, by which the wharves and shipping were damaged nearly $200,000. The iron barque Felix, lying at the wharf awaiting a load of refined oil, was sunk; the barque Elena G., loaded with cased oil, was badly damaged; a lighter loaded with cases of oil was burned to the water's edge. Charles Houseman's line barge was destroyed; five hundred feet of wharf property was burned; a house and barn belonging to the city were wiped out, and other property destroyed or damaged. The fire was caused by the bursting of the pipe connecting the Philadelphia and Atlantic oil refineries located on each side of the gas works.

A Winnipeg despatch says: "The Rev. E. R. Young, a Methodist missionary in the far north for many years, stated that he was sent for by an old, dying Indian sometime ago, who confessed, before the vital spark had fled, that he had accompanied one of the Sir John Franklin relief expeditions to the northern seas. Supplies became very low, and there was danger of starvation. Before deciding to return the commander sent this Indian and another over an island to look on the other side. They crossed and discovered in the distance three masts out of the frozen ice. They were nearly exhausted, and knowing that if they told the commander of their discovery he would go to the place, they decided that it would be better not to tell him, for they feared the starvation of the entire party in the event of delay. Accordingly they returned and reported having seen nothing. Next day the expedition started to return. The Indians were certain the masts belonged to one of Franklin's vessels."

News has been received of the total annihilation of the inhabitants of the town of Tomochic, in western Chihuahua, Mexico. The town has been in open rebellion against the federal government for some time on account of excessive taxation, extortion by federal officials and government interference with the people's religious practices. Two months ago a battalion sent to subdue the unruly Tomochies was repulsed by the latter and forced to retreat. Two weeks ago the government sent 1200 men to Tomachic and they made an attack upon the town. The slaughter was terrible. The soldiers lost 268 of their number and many wounded. Not a man of the Tomachis was left except those who happened to be out in the mountains. The village next day presented a frightful appearance, the streets filled with dead bodies and blood seemed to have flowed in torrents.
