BY TELEGRAPH.

OTTAWA, February 2.—Mr. McDougall delivered his address at Almont on Tuesday, as intimated by his earlier telegram, wherein he stated his position on the Red River proceedings. He contended that it was an error not to have completed the purchase in December, and it should have been completed immediately on the state of matters being seen. He considered that he had sacrificed much to assist in accomplishing Confederation, and did not think it right to thwart the intentions of the Government in promoting Union to a successful issue; but if he found that they were not dealing with Red River in a proper spirit he would oppose them. He would not agree to the appointment of a French-Canadian Governor under any circumstances. The coalition, he considered, was now practically at an end, but he did not harbor any unfriendly feeling against any member of the Government, except one, whose actions had not contributed to make his way very smooth in the North-West, He (Mr. McDougall wished to be considered an independent member.

Turning to the state of affairs at Red River, he was glad to be able to say that the Indians were loyal, and desirous of continuing under British rule, and so were the Scotch and English half-breeds, and anxious that Canadian authority should be extended over the territory. In referring to another branch of the subject, he said that he had intended filling the Council with men belonging to the country, and denied having sent Col. Dennis to make war. In regard to his future intention, he said he meant to hold his seat in the Commons as there had been no acceptance of office.

Mr. McDougall's statements are read with some surprise, as his friends here have been declaring that the difficulty between him and the Government was being satisfactorily settled.

The intelligence of Riel's arrest by the Hudson Bay Company's officials is generally credited. It was known that unpleasant squabbling had been going on between him and the insurgents on account of his annexation sentiments, which are decidedly obnoxious to the majority of the half-breeds.

The *Globe* continues its attacks on the Hon. Mr. Howe, and urges sending General Doyle to the scene.

Hon. Dr. Tupper's prompt denial of the *Globe's* charges are generally copied.

Rumors continue of the intention of the Government to adopt more vigorous Fishery policy.

OTTAWA, Feb. 5.—Despatches have been received by the Government confirming the report that Riel has been arrested by authority from Hudson Bay Company.

It is stated that all Government measures are ready for Parliament, except the Banking Bill.

MONTREAL, Feb. 3.—Col. Earle, of this city, received a telegram this morning announcing the death of Lieut.-General Windham, Commander in Chief of Forces in Canada, at twenty minutes past eight o'clock last night, at Jacksonville, Fla., whither he had gone, a few weeks ago, for benefit of his health. Lady Windham and a few friends were with him when he died.

MONTREAL, Feb. 4, 1870. It is said in this city that General Sir Hastings Doyle will succeed the late General Windham as the Commander-in-Chief of the forces in Canada; and that, he has already received orders to proceed to Monreal.

UNITED STATES.

NEW YORK, Feb. 3rd.—The Georgia Legislature has ratified both the fourteenth and fifteenth amendments to the Federal constitution. Mr. Revels, colored United States Senator from Mississippi, has arrived in Washington.

NEW YORK, Feb. 3.—Prince Arthur and Minister Thornton will go to Boston on Saturday.

NEW YORK, Feb. 5.—Late intelligence received at Chicago from the Winnipeg territory does not confirm the story of the arrest of Reille.

EUROPE.

LONDON, Feb. 1.—Rumors of the death of the Pope were again current to-day. It is just certain, however, that His Holiness has been afflicted with an epileptic fit. It is also stated that he has not regained his health, but that the attack will not prove fatal.

LONDON, Feb. 2.—A letter has been received here from Capt. Cochrane, of the Royal Navy, commanding the "Petrel," stationed on the African coast. He reports that Dr. David Livingstone, the celebrated African traveller, had been burned as a wizard by a Chief in the interior.

The Arch Duchess Elizabeth, of Austria, has fled to America, having embarked at Hamburg.

ROME, Feb. 3.—Since the assembling of the Œcumencial Council seven of its members have died and four have left the city.

MADRID, Feb. 3.—In the Spanish Cortes yesterday, Senor Costellar made an effective speech against payment of the clergy by the State.

LONDON, Feb. 3rd, (eve.)—In consequence of the frequent rumors of the health of Pius the Ninth, the public mind is busy with the names of candidates for the Papacy. The election of Archbishop Manning is strongly advocated in England. Consols closed firm.

LIFE ASSURANCE.—The "Canada Life" is without question one of the most prosperous and best managed Assurance Companies doing business in this country, while at the same time it is deservedly the most popular. Its financial condition, it will be seen by reference to the Government return, is all that the Shareholders and Policy Holders could reasonably desire.—These figures furnish ample evidences of the constantly increasing business of the Company, of the safety and soundness of the institution, and of the excellency of its management.—*Ontario paper.*

EDITOR'S AND BOOK STEWARD'S NOTES, &c.

1. We acknowledge the receipt of the following magazines for February.

(1) The NEW DOMINION MONTHLY. This presents a very good table of content and as illustrations "The Queen" and "Sir William Logan" for Frontispieces and "Infant Samuel" and a "Fashion Plate" elsewhere. It also gives in this number a piece of Music entitled THE BRIDGE by JOHN BLOCKLY.

Although this Magazine does not compare in beauty of appearance with the many more expensive ones which are published in the United States and Great Britain, yet it must be found especially interesting to those who dwell in the Dominion, and every subscriber for it will we are sure be well satisfied that he gets full value for the small sum he will be required to pay for it, only $1.50 per year.

(2) HARPERS' MONTHLY.—All we need say of this is that it is as interesting as usual,—presenting a marvellous variety in its vast amount of reading matter and illustrations. It is wonderful how so much can be given for $4 a year.

(3) THE ATLANTIC. The number for this month will serve well to retain for this Magazine the position which it has won as first in a Literary point of view among the American Monthlies; and probably less of matter objectionable to Evangelical Christians will be found in it than in many of the previous numbers.

(4) "HOWE'S MUSICAL MONTHLY," published by Elias Howe, 103 Court Street, Boston, seems to us a very superior public enterprise of its kind and marvellously cheap too, furnishing for thirty-five cents twenty-three pieces of instrumental music, of fine large size, printed on good, thick paper, and from eminent composers. The list embraces all the varieties of music and song.

(5) GOOD HEALTH. A Journal of Physical and Mental Culture. Published by Alexander Moore, 21 Franklin Street, Boston. This is a well-conducted Magazine—treating the important specialities to which it is devoted in an interesting and able manner. Its monthly visits to any family for a year could scarcely fail of being worth far more than they would cost, $2.

(6) STEWART'S LITERARY QUARTERLY. A copy of this very creditable periodical for January has been received. We are glad to see that the proprietor, G. Stewart, Esq., of St. John, N. B., is encouraged, not only to continue, but also to enlarge and otherwise improve his Magazine. He has succeeded in securing as contributors to it writers of ability and considerable reputation. Among those whose articles enrich the number before us may be named, John G. Bourinot, Esq., of Ottawa, Prof. Lyall, the Rev. James Bennett, T. C. Garvie, Esq., Dr. Clark, of Ontario, and Rev. Moses Harvey, of Newfoundland.

The Editor's article on "Canadian Literature" is well-timed, and calculated perhaps to hasten that brighter day for Dominion Literature for which he hopes.

THE PROVINCIAL WESLEYAN.—We rejoice to know that our paper is viewed with increasing satisfaction since the new volume began. Several of our Brethren of the Press, both at home and abroad have very kindly noticed our improved appearance.

THE HALIFAX ACADIAN RECORDER says:—

☞ The *Provincial Wesleyan* comes to us now in a new and very neat dress, which makes it the handsomest paper published in the Province. This Journal is now very ably edited.

ZION'S HERALD.—The Organ of Methodism in New England, notices its fresh and attractive appearance in its new dress and adds a flattering word or two about great apparent improvement in other respects also under its present Editorial management.

The many kind words of commendation which we are receiving from members of the Conference, whose agent we are in this work of managing the business and conducting the paper, are especially gratifying to us; and they are not altogether needless, as the task which has been assigned to us is one of no small difficulty; and in view of what yet remains to be done before the business of the office and the paper itself shall be as we think they should be. We are frequently well nigh discouraged; and disposed rather to underrate the progress which has been made.

We ourselves regard the work of improvement as only now begun, we think that, although now our paper will not suffer in comparison with any paper of its class published in these Provinces, that it may be and ought to be made considerably better than it is. We hope to see the work of improvement go on throughout the year.

We intended to make some remarks in regard to the business of the Office but we must defer these until next week. *In the meanwhile we would again respectfully but earnestly request all Subscribers, in both City and Country, to hasten to pay anything which may be due on their subscriptions to the end of the year 1870. These are now already many weeks over due.*

It is now generally admitted by most Physicians that when once the Consumption is fairly fastened upon the lungs, no human power can save the patient from death. They also say that about fifty per cent. of those who die from this disease can trace the cause to a neglected cough or cold, which might have been cured by a small bottle of Liquid Opodeldoc, or what is the same thing, *Johnson's Anodyne Liniment.*

As proved by the almost universal preference of musicians; the uniform award to them of highest premiums at Industrial Exhibitions, including the Paris Exposition, and a demand for them far exceeding that of any other instrument of the class.

PRICES REDUCED.

The great demand for these celebrated instruments has enabled their manufacturers to so greatly increase their facilities for manufacture that they now offer them at prices of inferior work. A Testimony Circular, with the testimony in full to the superiority of these Organs, from a majority of the most eminent musicians in this country and many in Europe; also an Illustrated and Descriptive Circular, with correct drawings, descrptions and prices, will be sent free of all expense to every applicant.
