MAY OPTION IS HEAVILY BOUGHT

Quite a Little Flutter in Chicago Pit With General Advances.

CHICAGO, May 9.—Lightness of supplies and a flurry in May wheat today brought an upturn to the grain market. A net gain of ¼c to 1c was made in wheat. Corn finished ⅛c to ⅜c higher, and oats ⅛c to ⅜c up, but provisions closed unchanged to 5c off.

Buying of more than 250,000 bushels of May wheat was made by strong firms about the middle of the session. That option bounced up ⅝c at once and sympathetically July and September also rose, altho not so sharply as in May. The heavy buying was largely in the interest of traders who had oversold yesterday in anticipation of the government's bearish report on winter wheat condition. When the May flurry struck the pit the market had already begun to harden. Supplies were found to be very light at the opening and values improved in spite of lower cables (except a fractional gain at Paris), fine weather for the growing domestic crop, large primary arrivals and rather moderate shipping trade.

Corn was helped by reported crop damage from cold rain in Argentina and by delays to domestic shipments, due to wet weather. Strength in western cash markets also stiffened prices. Oats advanced on persistent reports of crop damage.

Provision trade was very light. Such little strength as the market showed was due largely to higher prices at the yards.

MONTREAL GRAIN AND PRODUCE.

MONTREAL, May 9.—Business in all lines of grain over the cable continues very quiet, and the demand on spot is also limited. Malting and feed barley have declined and buckwheat has advanced. Flour is fairly active and steady for demestim account, but the export trade is dull. Millfeed quiet and easy at the recent decline. The demand for fine creamery is good. Cheese is steady with a little business passing over the cable. Eggs active and steady. Trade in provisions is good. Hams have advanced ½c and bacon 1c per pound, while pure lard has advanced ¾c per pound.

Corn—American No. 2 yellow, 64c to 65c.

Oats—Canadian western, No. 2, 42c; do., No. 3, 40½c; extra No. 1 feed, 41½c.

Barley—Manitoba feed, 49c to 50c; malting, 61c to 64c.

Buckwheat—No. 2, 58c to 60c.

Flour—Manitoba spring wheat patents firsts, $5.40, seconds, $4.90; strong bakers', $4.70; winter patents, choice, $5.25 straight rollers, $4.85 to $4.90; do., bags $2.20 to $2.35.

Rolled oats—Barrels, $4.35; bags, 90 lbs., $2.05.

Dunn & Levack sold on Friday: Butchers'—10, 950 lbs., at $6.50. Bulls—1, 1600 lbs., at $5.50. Cows—2, 1100 lbs., at $5.50. Calves—35, at $7.50 to $8.

Rice & Whaley sold: Butchers'—15, 1050 lbs., at $6.75; 25, 1050 lbs., at $6.65; 5, 1040 lbs., at $6.25. Cows—1, 1400 lbs., at $6; 3, 1010 lbs., at $5.10; 4, 920 lbs., at $3.85. Hogs—700 at $9.85, fed and watered. Sheep—270 American ewes and wethers, at $8 50 per cwt.

Market Notes.

In 1911 there were about 25,000 American sheep and lambs brought into Canada and sold, commencing in the month of March, and continued coming during the summer of that year.

At that time The World used the coming in of American sheep and lambs as an argument against reciprocity. There were many people who stated that the Conservative party were bringing these sheep in for party purposes. During the past two months there have been several thousand American sheep and lambs brought into and sold in Canada, and this time there is no election on.

VACCINE HASN'T PROVED MERITS

Official Report on Friedmann "Cure" Gives Warning to Public.

WASHINGTON, May 9.—(Can. Press.)—The public health service observations so far into the condition of patients inoculated by Dr. F. F. Friedmann with his tuberculosis vaccine, do not "justify that confidence in the remedy which has been inspired by widespread publicity," in the opinion of the surgeons who have conducted the government's investigation.

This first authentic and official conclusion from the tests was announced here today, before the National Association for the study and prevention of tuberculosis by Dr. John F. Anderson, director of the government's hygienic laboratory, and Dr. A. M. Stinson, another public health surgeon, who were detailed to observe the progress of the Friedmann patients at Mount Sinai Hospital in New York.

"We believe that at the present time," says their report, "we are not as yet in a position to express an opinion based on the present conditions under observation. The disease for which the remedy is used is prolonged and is characterized by periods of advancement and retrogression. It is also one in which physic influences are a powerful factor. Time is therefore necessary to properly valuate the effect of therapeutic measures.

Musn't Be Hopeful.

"We must not lose sight of the possible therapeutic value of this preparation, and on the other hand it is necessary to guard against too great an optimism in respect to its merits. Without presenting in detail the condition of patients under observation, we are in a position to state that the facts thus far observed do not justify that confidence in the remedy which has been inspired by widespread publicity.

"In our opinion harm may have been done by this undue publicity, insofar as it has lessened the confidence of tuberculosis persons in well recognized methods of treatment or interrupted their use, and we are constrained to advise against any lessening of these well known measures which not only had effected cures, but which have reduced the incidence of the disease."

Ogcocephalys Radiatus is the name of a fish that has just been put on exhibition in New York, known as "the queerest fish in the world." This fish, which is also familiarly known as the bat fish, is a native of the Florida keys region. He is provided with a set of attachments which he can use either as fins to swim with, legs to walk with, or wings to fly with. He is almost equally at home in the water, on land, or in the air. But he dies in northern water unless it is kept up to 80 degrees.
