GREATER DURABILITY
IS ANOTHER ADVANTAGE OF THE U. S.

What better evidence does one need than the following letter:

COLFAX, WASH., Sept. 10, 1902.

In the last four years there have been something like 75 U. S. Cream Separators sold from this creamery, and all the extras that have been furnished by us are as follows:

One crank with handle cost	$2.75
" " shaft "	1.25
Express on same	2.25

This covers all extras that we have any knowledge of, and we wish to say that it was no fault of the separator that these parts gave way; it was the fault of the party who had been running said separator.

If further evidence is desired, write for illustrated catalogues.
