ARRIVAL OF THE BRITANNIA.

The steamship *Britannia* arrived at Halifax on the 15th inst., in 11 days, bringing Liverpool papers to the 4th and London to the 3rd inst. A synopsis of the most important items of news will be found in our columns.

The most important item, we regret to say, is a most villainous attempt to assassinate our beloved Queen. We are happy to state, however, that an all-wise Providence averted the blow, and that the miscreant is in custody. The House of Lords and the Corporation of Liverpool presented addresses of congratulation to Her Majesty, on her providential escape from the diabolical attempt upon her life, and another to Her Royal Highness the Duchess of Kent, sympathising in her feelings, and thanking the Almighty for his signal mercy.

The right of search, and the commercial relations between France and the United States, have lately been discussed in the Chamber of Deputies at Paris, and by the journals.

Some further obstacle has been started at Lisbon to the completion of the Potuguese treaty with Great Britain.

In Spain there is likely to be another change of ministry.

There is no news from China.

DR ALEXANDER MACLEAN.

It gives us great pleasure to notice, that the pious, talented and beloved Pastor of the Scotch Church of this town, the Rev A. Mac Lean, A. M., has had the degree of D. D conferred upon him by the University of Glasgow, where he graduated. The editor of the *Courier* in noticing the above, passes the following well-merited encomium, to which we can bear testimony.

"His ministerial duties are highly appreciated by the congregation among whom he labors, being discharged with great credit to himself and satisfaction to his parishioners; and during times of much discouragement and pecuniary difficulty, he has deported himself in a manner to command the respect of every right thinking person in the community.'

NEW PAPER.—The first number of a new paper called "THE REPORTER" was issued at St. John on Saturday morning last, edited by R. Percival Robinson Esq. a gentleman of talent.—It is to be published on Mondays.—We welcome the Reporter into the ranks of the Provincial journals.

FROST AND SNOW IN JUNE!—We learn from our American papers that many of the States have been visited by frosts, and in Bennington, Vermont, *snow fell all day.* Vegetation has suffered severely by these unseasonable visitations. It appears, however, that it has been warm enough in New-Orleans. On the 4th, "the thermometer averaging quite as high as during the hottest portion of the summer months."

In every civilized country throughout the world, the human hair is always found to be a subject of peculiar attention. Of the numerous compounds professing to promote or reproduce the hair, few have survived—even in name, whilst ROWLAND'S MACASSAR OIL, with a reputation already unparelleled, is still on the increase in public estimation; which fact, together with innumerable testimonials (for perusal at the proprietors,) is sufficient to satisfy the most incredulous as to its sovereign virtues so repeatedly shown, in *restoring, preserving,* and *beautifying* the *human hair.*

In Dressing the Hair, nothing can equal the effects of "Rowland's Macassar Oil," on either Natural or Artificial Hair, rendering it so admirably soft, that it will lie in any direction: it produces *beautiful flowing curls,* and by the transcendant lustre it imparts, *renders the head dress truly enchanting!* It preserves the coiffure in the *heated atmosphere* of the *ball room,* and neutralizes the effects of *a damp atmosphere* or *violent exercise.*
