LOCAL MATTERS.

—Heavy white frost at Midgic Sunday night.

—Don't fail to go to Music Hall to-night.

—Auction sale of broadleaf grass next Saturday. See adv.

—Add a plank to the sidewalk by patronizing the entertainment this evening.

—Mr. Cogswell's sale of broadleaf grass last Saturday realized excellent prices.

—The Sackville Baptist Church have extended a call to Rev. Mr. Martell, of Onslow, N. S.

—Mr. C. F. Hanington, of Shediac, who has been extensively engaged in milling, has suspended.

—Duck shooting, according to law, commenced last Saturday, but it is said the ducks didn't notice any difference.

—The following visitors are at Point de Bute: Mr. and Mrs. Hiram Trueman from Searletown, P. E. I. Mrs. Mein and her son Thomas, from St. Stephen.

—The members of Crystal Council, No. 418, Royal Arcanum, intend making a fraternal visit to Bon Temps Council, Dorchester, next Wednesday evening.

—Mr. H. W. Knight removed to his new premises last Thursday, and is now better prepared than ever before to attend to the wants of the public. His new house in nicely fitted up add well adapted for his business.

—The young people in charge of the entertainment to be given in Music Hall this evening, have prepared an excellent programme and taken great care to have it successfully rendered. They deserve hearty encouragement.

—The Tantramar Cricket Club met its first defeat last Saturday in a match game with an eleven from the Mount Allison institutions. The game was decided by one innings on each side, the college team making a score of 81, against 33 by their opponents. The Tantramars expect to play their long-deferred return match with the Amherst Club next Saturday.

—Sackville is now fortunate enough to possess two first class tailoring establishments. Mr. A. L. McLean commenced business a short time ago in the Town Hall building, Middle Sackville, and his work gives such general satisfaction that he finds it difficult to keep pace with his orders, although employing a large force. Mr. Thomas Horsler, who has long been favorably known as a cutter for Mr. J. F. Allison, is now opening on his own account in the shop in Chignecto Block lately occupied by Mr. Knight. The shop has been newly fitted up and will be stocked with a first-class assortment of cloths and trimmings.

—A temperance lecture was delivered in Bethel church last Friday evening by Mr. Crozier. After the lecture a lodge of the Independent Order of Good Templars was formed, with twenty-four charter members. The lodge is named "New Hope." The following are the officers for the current quarter:—

W. C. T.—A. E. Wall.
W. V. T.—Miss Emma George.
Secy.—Miss L. Harris.
W. F. S.—Miss Mabel Patterson.
Treas.—Miss Hattie George.
Chaplain—Mrs. Michael Grace.
Marshall—Stewart Estabrooks.
I. G.——
O. G.—Wm. Morice, Jr.
P. W. C. T.—F. A. Dixon.
Lodge Deputy—Frank Morice.

—At an early hour Friday morning a collision occurred at the entrance to Tantramar bridge between the Truro freight train, No. 17, Conductor Y. C. Campbell, and a special coal train in charge of Conductor Thompson. Both trains were going at a slow rate of speed when approaching the bridge, and had slowed up considerably at the time the collision took place, otherwise the consequences might have been far more serious. Brakeman Linkletter and the fireman of No. 17 were slightly hurt, but the others escaped without injury, while the locomotives were but little damaged. No blame attaches to the drivers, as the one on the train going east was ordered to cross at Au Lac, while the other had instructions to cross at Sackville. An investigation was held at Moncton, and the blame appears to rest on the operator at Amherst, who evidently made a mistake with regard to the train orders.

LOCAL MATTERS.

CATTLE SHIPMENT.—Messrs. H. Humphrey, W. F. George and Thomas Etter will ship about 200 head of cattle to England by steamer "York City," as soon as repairs now being made on the vessel are completed.

REMOVAL.—Commissioner Cahill has removed to Lower Sackville—to the former residence of the late S. F. Black, Esq. Our business men will be pleased to know that his office in Chignecto Hall will hereafter be open daily.

N. B. & P. E. RY.—Traffic is temporarily suspended owing to a land slide. The eastern approach to the Floating Canal Bridge has a foundation of alluvial formation, and has taken a start towards the canal. A gang of men has been at work since Monday repairing the damage.

PERSONAL.—'Squire Hewson, who is recovering from an attack of quinzy, has gone to Cape Breton to recuperate.—Mr. Harry Hoar started for Minnesota last Monday night. Just before his departure a number of his friends entertained him at an oyster prepared by Mr. H. W. Knight.

THE BOOK STORE here is to be closed up; Mr. G. O. Fulton, the owner, finding his Truro establishment requiring his entire personal attention. Sackville offers a very desirable place for a well conducted book and stationery store, and we trust some experienced person will undertake to cater to the requirements of the people.

FIRE.—On Friday afternoon the residence of Walter Cahill, Esq., took fire on the roof from a spark from the chimney. When discovered, the fire had already advanced too far to be checked, as Mr. Cahill was absent and not much help was at hand. A part of the furniture was saved. The building was insured for $1,000 in one of Mr. Tait's offices.

SHEDIAC AND BUCTOUCHE RAILWAY.—A railway meeting was held at Tait's Hall, Shediac, on Monday evening and was well attended. Messrs. Wood, Landry, LeBlanc, M. P. P., of Kent, and Senator Poirier were present and addressed the meeting. Petitions, signed by 1200 electors, in favor of the construction of this line, were presented and read. A resolution was unanimously passed that this line be built in preference to any other. The politicians present expressed themselves as being committed to the Moncton Buctouche railway, and while they wished success to this enterprise, they could not abandon the other in its favor.

W. C. T. U.—The temperance meeting at Music Hall on Thursday evening was literally a "mass meeting," for the Hall was packed to its utmost limit. The members of the Convention occupied seats on the platform, where several prominent gentlemen also found a place. The opening address was delivered by the president of the Convention, Mrs Todd, and was followed by a report from the late secretary, Mrs. Atkinson, and an address from the late president, Mrs. Turnbull. Addresses were also delivered by Mr. Crozier, Dr. Moore and Prof. Burwash, and a recitation was given by Rev. Mr. Weddall. The exercises were interspersed with singing, and a number of people signed the pledge at the close of the meeting. The Convention closed on Friday.

Teachers Institute.

The teachers of Westmorland Co. held their annual Institute in the Grammar School building at Shediac on Thursday and Friday last. The first session was taken up in the enrolment of members and election of officers. The committee for the ensuing year consists of John Brittain President, P. Cormier, vice pres., F. M. Cowperthwaite, Sec. Treasurer, Miss Dorion and J. G. J. Belyea, B. A. Several interesting papers were read among which may be mentioned "Botany" by Geo. J. Oulton, of Sackville, "Hints on Reading" by J. G. J. Belyea, of Shediac. Miss Morrison gave a lesson in reading to a class of beginners. Miss Dorion read a paper "French Grammars and French Textbooks." Her paper was perticularly interesting and finally led to rather a lengthy discussion in which J. G. J. Belyea, J. Hebert, Miss Dorion, B. A. Marven and S. C. Wilbur took part. The last paper "Our Common Birds," by Mr. John Brittain, was well rendered and showed that Mr. Brittain had spent considerable time in becoming acquainted with the habits of our birds. To make the subject more interesting and intelligible he had several species of birds with him. Mr. R. Colpitts, B. A., was also to have given a paper on "Botony" but did not reach Shediac in time, much to the regret of the members of the Institute, as they well knew it would have been something quite worthy of a hearing. A few of the teachers brought specimens of work done in their schools on the subjects of Arithmetic, Industrial drawing, Map Drawing, Letter Writing and Book-keeping. This is the first time that there has ever been any comparisons between the schools of different parts of the county and it is to be hoped that next year that it will be more general and that all the teachers will take part therein.

On motion of Mr. Marven of Port Elgin, seconded by E. Conley of Sackville, it was agreed the next meeting be held in Sackville in Sept. 1886.

There was a good attendance of teachers, the work was interesting, and it is to be hoped that the gathering had contributed to the advancement of education throughout the county.

Shediac, Sept. 5, 1885.

—A hole was broken in the dyke of the Island marsh by the tide on Tuesday night. The damage was repaired yesterday.

Parrsboro.

—The summer season is busy in Parrsboro, and if it was not for the rum we would have more visitors here, and the place would be far more pleasant.

—Twenty schooners in the river this (Wednesday) morning. Some loaded with coal, some with tanbark, and some with deals for West Bay, while some are waiting for loads.

—Dr. Clark, C. W. Young, D. A. Huntley, Joseph Cox, N. H. Upham and others left Monday evening for a trouting excursion to Economy Lake. The place is so healthy the doctor can leave and rest himself awhile.

Jolicure.

—Weather rather unsettled just now.

—The people here are all enjoying pretty good health at present.

—There are a great many wells about dry around here on account of the prolonged dry weather.

—Mrs. William Townsend of this place and Mrs. Isaac Jones of Point De Bute left here last week for the United States on a visit to their friends there.

—The farmers here are about through with their harvesting and have commenced cutting their broadleaf hay which promises to be an average crop.

—We can boast of having two blacksmiths here now. Thomas Dobson has erected a new shop close by Mr. Woods. Opposition is the life of trade.

—Clifford Chappell, of this place, has erected a fine new barn this summer. It will be when finished one of the finest in the place. Mr. Chappell has also made an improvement in his house by putting in two dormen windows.

Baie Verte.

—A gang of men commenced working on the N. B. & P. E. Road on the 1st inst.

—Cleared on Thursday, 30th inst., barque "Hiawatha," for U. K., and sailed same day.

—The want of a building of some description to receive freight from the N. B. & P. E. cars is very much felt, and it is to be hoped the Company will at an early day supply the want.

—The new school house, which is about being completed, is not only a credit to the place, but to the contractor, Mr. Simpson, as well as to the trustees, who have spared no pains in looking after the interest of the section.

—The trotter "Troublesome," which took part, though not a very conspicuous or remunerative one, in the Moncton races of 1st inst., and afterwards captured their money at Chatham races, will no longer, at least for a while, be troublesome to his owners, having been exchanged for the old stallion, "Gilbert Knox."

Pugwash.

—A large quantity of hay will be shipped from here this season.

—The tide mill bridge has been newly constructed, and is again available for the travelling public.

—The F. and A. Masons hold their annual picnic on Saturday, 12th inst., at or near George McIver's farm, Fox Harbor.

—A company of gipsies—a man, woman and two children—arrived last week, encamped on the west side of the harbor, and commenced their avocation (fortune telling). The police magistrate had them arrested as vagrants, and they paid a fine, struck tent and decamped.

—Sailed:—Sept. 2nd, barque "Marie," for Liverpool, G. B.; 3rd, barque "President Harbits," for Bristol, G. B., and schr. "Sturgeon," lumber, for Pictou. Arrived:—4th, schr. "Margaret Ann," from Arichat, to load hay for St. Pierre; 5th, schr. "Opal," with goods from P. E. Island, and schr. "Zetland," with goods from P. E. Island; 7th, schr. "C. W. Redmond," loading hay for Cape Breton.

—Mr. R. F. Black, when hauling up his lobster traps on Saturday, found a shark entangled in the bottom rope. He hauled it up to the side of the boat and found him still alive, and with a mallet he happened to have in the boat killed it; being unable to get it into the boat he got a lashing round his tail and towed him into port, and landed him safely. He measures eight feet in length, two and a half feet across the tail, and is estimated to weigh 400 pounds. Mr. Black intends exhibiting the fish the last of this week at Spring Hill Mines, Oxford and other small towns.

—Mr. Richmond McCurdy left here last fall and went to Florida, where he intended to make the future home of himself and family. He purchased some land, set out an orange orchard, and expressed himself satisfied and pleased with the country, and was making preparation for the reception of his family, who were to go this month. The wife and family were preparing and had arranged to start on the 15th inst. He was taken down with typhoid fever, and last Saturday the sad news of his death was telegraphed to his family. Mr. McCurdy leaves a wife and ten children, who have the sympathy of the people generally.

Religious Services.

—Plan of Methodist services for Sabbath, Sept. 13th:—Sackville, 11 A. M., Rev. Dr. Stewart; 7 P. M., Mr. T. L. Dunn. Upper Sackville, 3 P. M., Mr. Henry Abraham.

—There will be preaching in the Presbyterian Church next Sabbath, Sept. 13th, at 11 A. M., by Rev. Mr. Ross. Rev. Mr. Lawson will preach in the same church at 3.30 P. M.

To the Rescue.

"When all other remedies fail" for Bowel Complaint, Colic, Cramps, Dysentery, etc., "then Dr. Fowler's Extract of Wild Strawberry comes to the rescue." Thus writes W. H. Crocker, druggist, Waterdown, and adds that "its sales are large and increasing.

Amherst.

—The Sunday school picnic season has come and gone of a sudden. The Methodists held theirs at Fort Cumberland on Thursday last, the Church of England at Black's Grove on Friday, and on Tuesday the Baptish school, joined by the Good Templars and Juvenile Templars, had an excursion to Truro. Some ten cars, well-filled, left the depot at 7.30 a. m., and reached home again at 9.30 in the evening. The picnic was held at the exhibition grounds, Truro, but the greater part of the time was spent in doing the town.

—A cricket match between the Acadia Mines and Amherst Club was played here on Tuesday, Acadia Mines eleven winning with six wickets to spare. The home team went first to the bat and ran up a score of 51, of which Hall contributed 29. The visitors followed and were quickly disposed of for a total of 28. The Amherst team were in consequence very confident, probably too much so, their last wicket in their second innings falling for the small total of 26. The Acadia eleven went to the bat with 50 to beat, and at the fall of their fourth wicket they reached that score, and were declared victors by six wickets. The club expects to meet the Tantramar eleven on Saturday, and Dorchester next week, both on the grounds here.

Shediac.

—Our steam mill has been idle for a few days, but it is said she is about to commence operations again and will continue to run until the close of the season.

—Our lobster season is over, and we think the catch has been considerably under the average, and if our packers are not given leases of their grounds by the Government, this great and important industry will soon be amongst the things that were.

—Our farmers are now busy harvesting, and find the crops on the whole better than an average. Potatoes have suffered some from the drouth, particularly when they were planted on high and light ground, but the crop will be far ahead of last year.

—Mackerel have been very plenty on our shores and in our harbors, and many have been taken by our small boat fishermen, but up to the present they have been of small size, but now they are larger. The fishermen get from one to two cents apiece for them and at these prices can earn very good wages.

—We have had a very fair season here and the many strangers, who have visited us have found both pleasure and health, and to those who have flitted, we say, come again when the birds come, and to those who are with us we say, remain as long as you can and you will be well pleased with our autumn weather.

—We have also been visited this season by H. M. surveying ship "Gulnare." Commander Maxwell, who has made a full and complete re-survey of our harbor and its entrance, with a view (as we learn) to having the admiralty charts corrected, where at fault. The "Gulnare" sailed for Quebec a few days ago.

—We have at present a large fleet of shipping at our wharves. There are six large size square rigged foreign bound ships, either loaded or loading with lumber, and besides these there are a great many coastgoing crafts; we have also been visited by several large sized mackerel seiners, who called here to ship their catch by rail to the U. S., and to get supplies of salt, empty barrels, &c., and we are informed by the captains of these that if a good supply of fishermen's outfits were kept here and it was known to the American fishermen, they would come here in large numbers every year, instead of (as now) going to Charlottetown, Port Mulgrave and other places.

Boston Market Report.

(Prepared for this paper by Messrs. Hatheway & Co.)

BOSTON, September 5, 1885.

BUTTER.

The market continues to gain strength on fine grades, with a good trade. Early made common stock continues dull and has to be forced off at low prices.

EGGS.

There has been a good demand for Eggs and prices have ruled firmer. Provincial rule principally at 15 to 16½c., with some fancy marks higher.

POTATOES.

Carloads of Potatoes are arriving from New Hampshire and New York, with sales at 55 to 60c. per bushel.

LUMBER.

There has been a fair movement in Eastern the past week and prices are steady.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. Noyes, 149 Power's Block, Rochester, N. Y.

A Fruitful Season.

The fruitful season of the year is prolific with many forms of Bowel Complaints, such as Diarrhœa, Dysentery, Colic, Cholera Morbus, Cholera Infantum, &c., as a safe-guard and postive cure for those distressing and often sudden and dangerous attacks nothing can surpass that old and reliable medicine Dr. Fowler's Extract of Wild Strawberry.

Poisoned.

Scarcely a family exists but that some member is suffering with bad blood and poisoned secretions from constipation giving rise to Rheumatism, Scrofula, Eruptions, Catarrh and other complaints indicating lurking blood poison which a few bottles of Burdock Blood Bitters would eradicate from the system.

—Baird's French Ointment is an excellent article for any kind of Humour, such as salt Rheum, Pimples, Pustules, Rash, and a sure cure for the Itch. It quickly heals obstinate Sores and Ulcers, &c. Sold by dealers.

—The Rhone valley has been swept by a terrible cyclone, which destroyed a large number of houses.

GENERAL NEWS.

—The Direct Company's cable is broken 150 miles east of Canso, N. S.

—A Holiness Convention opens at Woodstock Rink on the 10th inst.

—The Havelock Branch Railway, twelve miles long, will be opened this week.

—At Carleton, St. John, the other day, John Larkin had his jaw broken by a base ball.

—The American Signal Service reports that a killing frost extended south-west over Dakota Friday night.

—The Bank of England Saturday sent to the Bank of Ireland, at Dublin, $2,500,000. The treasure arrived safely.

—Thirty thousand persons filed past the remains of Admiral Courbet, as they lay in state in the Hotel des Invalides, Paris.

—A series of waterspouts, covering an area of about a mile, were witnessed in the gulf, off Rustico harbor, P. E. I., on Saturday.

—The run of salmon in Fraser River, B. C., this season, has been enormous. One night the boats took from 2,000 to 3,000 fish each.

—The Roman Catholics of New Glasgow have purchased a fine lot in the rear of Matheson's Foundry, and are erecting a chapel 45x85 feet.

—John Bailey, for many years a butler at Government House, is to have charge of the dining saloon in the new I. C. Railway Station, St. John.

—Chas. Bullock, of St. George, hanged himself to a tree in the rear of his farm, recently, during a fit of temporary insanity. Deceased was 71 years old.

—Contracts for supplying coal to public buildings in Moncton, Charlottetown, Windsor, Truro and Halifax have been awarded to the Acadia Coal Company.

—Halifax is going to be lighted by electric light after the 1st day of November. 38 lamps giving a light equal to 2,000 candle power each, will be supplied for $3,000 a year.

—A little daughter of Mr. Charles Rose of Westfield, Kings County, was so badly burned by playing with fire a few days since that she died after suffering excruciating agony.

—New York is to have another race track controlled by a company with $1,000,000 capital. The Lorillards, D. D. Withers and Mr. Kelso are the principal shareholders.

—Jack Barber, of Moncton, who pleaded guilty to a charge of burglary in the Gloucester circuit a few days ago, has been sentenced to three years imprisonment at Dorchester.

—It was long ago discovered that a sufficient supply of Iron in the blood was one of the indications of good health, and vice versa, to obtain PURE RICH BLOOD use *Baird's Quinine and Iron Tonic.*

—The fall meeting at Summerside Park is set for Monday, 14th September. There will be purses offered for Stallions, three minute class, Pacing Race, Green Race, four years olds, and three years old.

—A man was drowned in a Rochester ale vat the other day at an expense to the brewer of $750. There were 96 barrels of the best ale in the vat and all of it was emptied into the river through a hose.

—Children naturally object to nauseous medicines. When troubled with worms they often suffer for want of sound sleep and their food does not seem to nourish them, give promptly McLean's Vegetable Worm Syrup.

—The traffic returns of the Canadian Pacific Railway for August 14th to August 21st were $175,000, and for the same period last year they were only $133,000, which shows an increase of $42,000 for the current year.

—A late *Gazette* contains notice of applications by the Manhattan Oil Refinery Company, of Petrolia, capital $100,000; and by the Sabaskong Lumber and Mining Company, of Rat Portage, capital $20,000, for letters patent of incorporation.

—The blighting effects of impure blood are sad to behold in those we meet day by day. This ought not and need not be so. *Parsons' Purgative Pills* make new rich blood; taken one a night for twelve weeks will change the blood in the entire system.

—In the race in the two-thirty-one class at Maplewood Park, Bangor, last week, the second place was taken by "Long John," owned by J. A. Loaman, of Truro. The running race was won by the Hillsboro mare, "Golden Maxim," with the St. John horse "Yorktown" second.

—An idea of the extent of the export trade in sawn timber from Ottawa alone to the United States may be gleaned from the official report of Col. Robins, ex-consul, furnished to his Government for the past fiscal year. The total value of exports was $2,100,320.13, of which $1,947,730 was sawn timber.

—Sir Charles Tupper arrived in town on Saturday evening by special train and left again on Monday. It is stated upon authority that while here he completed the transfer of his farm, in this parish, to his nephew, Nathan L. Blakeney. The sum paid by Mr. Blakeney for the farm and stock was $3,000.—*St. Croix Courier.*

—A Newcastle despatch the *Globe* says: Mrs. Conners, of Renous river, was shot yesterday in the breast and will not live. The shooting took place in the house of her husband. An intoxicated man was present with a pistol, and in the attempt to wrest the pistol from him it went off, the ball entering the breast of Mrs. Connors.

—Mr. Gillmore Brown, C. E., has been instructed by Mr. Schrieber, chief engineer of government railways, to make a survey of the proposed short line railway between Salisbury and Fredericton. Mr. Brown is now getting his party ready for a start. Messrs. A. R. Wetmore and McKenzie will accompany him as assistants. Mr. Brown is known as an engineer of excellent ability. The party will start in a few days.

—It is about three months since the cotton mill of Alex. Gibson, at Marysville, N. B., was started. There have been employed 200 operatives—male and female. The average weekly production of grey cotton is about 70 bales of 1,100 yards each, only 12,000 out of a proposed 50,000 spindles have been used, thus far. The machinery for the manufacture of cotton batting and cotton flannel has been purchased and these lines will be manufactured soon.

—A novel paper from the pen and pencil of W. Hamilton Gibson is promised for the October *Harper's*, under the title of "Back-yard Studies." Mr. Gibson astonished himself one fine morning by counting, in his bit of city garden, twenty-five by twelve feet, not less than sixty-four different species of plants, many of them among the most curious, though the most common, of vegetable forms. City and country people alike will be interested in this strange revelation, the interest of which is enhanced by Mr. Gibson's delicate drawings.

—There was a terrible explosion near Lakefield, Ont., on the 4th inst. A load of 1,000 pounds of dynamite for the Trent Valley's works at Burleigh, drawn by two horses, in charge of two men named Morton and Simmons, exploded while passing through a dense tamarack swamp. Holes sixty feet across and eight or ten feet deep mark the spot where the explosion took place. Trees for fifty yards on each side were cut down. Pieces of ironwork of the waggon, harness and bodies of men and horses have been picked up half a mile from the spot. None larger than a man's hand have been found. The shock was felt for many miles.

MARRIED.
