The Weekly Monitor.

WEDNESDAY, DECEMBER 2, 1885.

Distinguished Provincials.

The following sketch of Maritime worthies published in the Toronto *Globe*, is worth perusal :—

"The Maritime Provinces have given birth to many distinguished journalists. C. R. Dennet, for many years managing editor of the Chicago *Times*, and now editor of the Chicago *Sun*, was born at Windsor, N. S. Joseph Medil, of the Chicago *Tribune*, is a native of New Brunswick. Melville Stone, managing editor of the Chicago *News* is a Bluenose. Joseph Wheelock, the millionaire editor and proprietor of the *Pioneer Press*, was born at Annapolis, N. S. Alex Sweet, the humorist of *The Texas Siftings*, is a native of the same place. J. V. Ellis, M. P. P., editor of the St. John *Globe* and Hon. Edward Willis, ex-M. P. P., of the St. John *News*, were born in Halifax. Kerr, shipping editor of the New York *Herald*, is also a native of Halifax. Sellen, shipping editor of the Boston *Advertiser*, is a native of Cape Breton. Mr. Edward Young, the American statistican, was born in Hants, N. S. Prof. Newcombe the writer on astronomy, and George Munro, the famous book publisher, of New York, are both natives of Pictou. The elder James Gordon Bennett at one time taught school near Halifax. The list could be indefinitely extended.

(Regarding Mr. Wheelock, the *Globe* makes a slight error in stating that he was born at Annapolis. It should have been Bridgetown.)

The above is sufficient testimony in itself to show that the men who go from our snug peninsular are able to hold their own anywhere. The record of Nova Scotians who have won distinction abroad, not only in the ranks of journalism, but in other of the higher walks of life, is a long one. These men, however did not easily reach their important and responsible positions, but through hard, earnest and steady work, step by step they advanced. Few men are born with sufficiently brilliant abilities, to permit them to climb to the top of the ladder without a hard struggle. Boys, read in this a lesson. If you want to become something more than the ordinary run of mankind, you must make up your minds to deny yourselves much of the nonsense for which fun is the misnomer. You must work, study, contrive and plan. Look out for your health at the same time, by taking judicious exercise; your morals by obeying the Creator's laws and commands. Set a goal before you, and let your aim be higher than it appears possible for you to reach. Apply yourself with the above rules before you as safe guards and incentives, with determination and persistency, and if you cannot climb as high on the ladder of distinction as you may hope to, you will at least be high enough up to place you head and shoulders above the young men whose highest ambition appears to be to spend all their leisure time talking horse, slang, and hanging round hotels and street corners.

— England is now in the throes of election. The present will be the greatest contest known in all her eventful history. It is expected that all the elections will not be decided before the 10th of this month. Monday, of last week was the commencement of the battle, and up to date, the Conservatives show by far the greatest gains. What the result will be eventually, no one pretends to form any decisive opinion. The following extracts from cabled messages from London to New York papers, will give an idea how the situation is regarded in England :—

NEW YORK, Nov. 29.—The *Herald's* London special says: The hopes of the Liberals and Conservatives alike lie in the highlands of Wales and Scotland for the next week, when fighting will be resumed. The result thus far demonstrates that the masses of the English nation are profoundly attached to their great traditions, that they love show, and are not easily moved to break with the past; also that they have the deepest disgust for revolutionary politics, and, finally, that the Conservatives are better in tactics, discipline and organization than are the Liberals. The prospect to-day seems to be that the Liberals will have a weak, miserable majority, or that the Tory government will be handicapped by the caprices of Mr. Parnell. The slaughter of the week was the greatest among the party officers. Sir Henry Drummond Wolfe fell at Portsmouth. Two officers of the late ministry, besides an ex-chancellor of the exchequer, an ex-postmaster-general, and the husband of the Princess Louise lie in the Liberal cemetery. Such brave privates as Jacob Bright and pensive Plimsoll lie prostrate. Demagogue Radicals like Lyeph, Stanley, Bottomly, Firth and Ayrton are killed or are severely wounded like Thorold Rogers, whose majority was 83, and Dilke who is likely to lose his seat for improper practices at the polls.

The *Tribune's* London says: The excitement throughout the United Kingdom over the elections surpasses anything before known.

The *Times'* London says: Several things in regard to the election seem to be settled to day which were uncertain yesterday. First, the Liberals have abandoned the hope of attaining a majority. Second, most of the Liberals who will sit in the next Parliament will be moderate and Lord Hartington will be their leader, not Mr. Chamberlain. Third, the Tories will not have a majority over all and Mr. Parnell will hold the balance of power. It is extremely improbable that anything will happen to change these features of the outlook.

The latest returns show the election of 182 Liberals, 159 Tories, and 28 Parnellites.

— Riel's sympathizers are going to erect a monument to his memory. The Quebec folks must be rather short of martyrs, if they cannot find a better one than Riel.

Nictaux Items.

Repairs have been going on the outside of the Baptist meeting house of late.

The house of Mr. E. Barteaux, at the Falls, has been moved across the *road*; not across the *river*, as a recent item made it appear.

The Rev. N. Vidito preached in the Temperance Hall, Williamston, last Sabbath evening, and the Rev. J. Clark is announced to lecture in the same place on Temperance next Friday night.

The Sociable held last Thursday evening at the residence of Mr. Albert Gates was well patronized, and the sum of $23.25 was realized.

The young people of Torbrook have started a literary society for the winter, and have made a good beginning. This is a good way of spending the evenings and it might be adopted in most places with great advantage.

Local and Other Matter.

— The two stores belonging to the estate of the late Miner Tupper, Esq., are offered for sale. See adv.

— The Annapolis *Spectator* estimates that over 20,000 persons were buried in the Garrison graveyard in that town.

— Mr. John McLean, of this town, killed a seven months' old pig last week that weighed 340 lbs. Biggest. Next.

— The Fredericton, N. B., bridge was informally opened for temporary traffic last Friday morning.

— All qualities of Acme Club Skates, at Shipley's. 1i

— Quite a meteoric display was visible in the heavens to the naked eye, last Friday night.

— We are in receipt of another letter from the pen of J. A. Chipman, Esq., of Halifax, which will appear in our next issue.

— Vaccination in this town is pretty general, we understand, and the impulsive individual who has a habit of seizing hold of an acquaintance's arm, should be careful which arm he grabs, for awhile, at least.

— In our report of successful candidates from this county for teachers licenses during the year, a typographical error made us put Normal School candidates under grades "A" and "E," when they should have been "B" and "C."

— A Parraboro despatch says:—The schooner Wm. Wallace, who was seized here by the order of the collector of customs at Margaretville, for alleged smuggling of oil and pork near Margaretville, will be hauled up and stripped, and will probably winter here.

DEATH.—Mr. Melbourne Morse, a former resident of this town, died at Clementsport, on Sunday last. The deceased, has been ill for a long period of time. He leaves a widow and a large circle of relatives and friends. His remains will be brought to this town to-day for interment.

— A general reduction in the price of Canned Goods, at Shipley's. 1i

— Mr. Matthews, of Middleton, says: Not being able to wrestle with big pigs myself, the next best thing is to know some one who can. Mr. J. L. Miller, of Victoria, killed last week a sixteen months' old hog, that dressed six hundred and thirteen pounds. A perfect Saul among hogs, so to speak, and we think the farmers will have a hard try to beat the record.

— The excitement over the elections in England is nothing compared to that over the great Egg contest in this County in which J. W. Beckwith is leading by a large majority. 1i

— The store of Mr. W. J. St Clair was burglariously entered either on Saturday or Sunday night last. Entrance was effected by removing a pane of glass from the front door. Nothing of very much value has been missed as yet, and it is probable only small articles were taken. No clue to the thief or thieves. Good watch dogs would be capital institutions in stores while thieves are about.

— The Halifax *Critic* recently offered a prize for the best story. In its last issue it announces Mrs. J. J. Ritchie, and Mr. James McD. Oxley, to be winners—Mrs. Ritchie's story is entitled "Agatha's Love," and Mr. Oxley's, "Told by the Superintendent." Both of these stories will appear in the Christmas number of the *Critic*. We tender our congratulations to Mrs. Ritchie who is an Annapolis lady.

— Skating was enjoyed on Fowler's Pond last Monday. This intelligence was somewhat surprising, in view of the phenomenally fine weather that we have enjoyed this fall. Such beautiful weather has never before been enjoyed at this season of the year in the memory of the oldest inhabitant. If snow should come now, a splendid bottom would be had for sleighing, as the roads are almost as level as in summer. There is scarcely any frost at all in the ground, and what there is, came since Sunday night last, when it was quite cold followed by overcast and cold weather on Monday and yesterday.

— The High Sheriff of this County, in pursuance with the resolution passed at the public meeting held in Victoria Hall last Tuesday evening, in reference to the missing boy, Carter, communicated with the Hon. J. W. Longley, asking that a reward be offered by the government for the finding of the boy dead or alive. The Sheriff received a reply from Mr. Longley last evening which stated that a proclamation will be issued at once offering a reward in accordance with the request. Mr. Longley concludes his letter as follows: "I need not say, however, that everything depends on the zeal and personal interest of the community immediately concerned in the mystery."

KENTVILLE.—We are informed that John Campbell, a stone mason, while engaged in working on a bridge in Randville, was very seriously injured by a large stone falling on him, through some part of the work giving away. He was badly cut in the back of the head, also in the face, and had one arm so badly lacerated and broken that it is feared amputation will be necessary. Several stitches had to be taken in the wounds. He refused to take chloroform and stood the operation like a man.

— Men's New Overcoats and Ladies-Latest Style Ottoman and Fancy Mantle Cloths, cheap at Runciman, Randolph & Co's. 2i

A DANGEROUS PLACE.—One of our townsmen informs us that he had lately occasion to go to Weymouth, Digby Co. Upon reaching Gilbert's Cove, he found that the wooden bridge had been removed, and only two stone abutments in its place. He was obliged to ford a brook of running water that nearly floated his horse off his feet, or travel some distance round. He was informed that the abutments had been finished for about four weeks, when work was suspended to await the arrival of the framework of an iron bridge which is to take the place of the old one. There is no protection around either end of the gap, and a person unacquainted with the locality is liable to drive off from the road into the stream below, a fall of between twenty-five and thirty feet.

—The finest and largest assortment of Ladies' and Gents' Fur Caps to be had at J. W. Beckwith's. 1i

PERSONAL.—Mr. F. R. Fay, lately sub-contractor on the British Columbia end of the Canadian Pacific Railway, arrived home on Saturday last, and will remain during the winter.

Mr. Fay informs us that very valuable gold placer deposits were discovered by two American prospectors, about 1st of October last, in British Columbia, on Smilkameen River, within three miles of a Hudson Bay trail that has been travelled for the last twenty years. The river is payable for about a distance of twelve miles, and claims have been taken up by whites and Chinese in number about one hundred for nearly that distance. The different claims have yielded from $75 to $150 per day per man. Work has been discontinued for the winter but will be again resumed in the spring.

A large force of engineers is now employed on the Canadian Pacific locating the line from Port Moody the present terminus at Coal Harbor, which our readers will remember the Syndicate have decided upon as the terminus of the road on the Pacific Coast. Construction upon same will be started early in the spring.

—Splendid wheeling.

—Rev. Mr. Parker, of Port Lorne, has been donated cash and produce to the amount of $53.

General Middleton is at present in Fredericton, N. B., and the citizens are paying him honor.

— Inspector Howe, of the North West Mounted Police, will shortly be in Halifax recruiting for his force.

—Small-pox is said to be decreasing in Montreal; but up to Wednesday night last, 3270 deaths have taken place in the city and suburbs.

— Lieut. Col. Ray, M. P., who has lately been in Ottawa, on business in connection with this constituency is on his way home.

— An armistice exists at present between Servia and Bulgaria, and it is hoped that peace will be fully restored. Fighting has been severe between the belligerents considering the short time that has elapsed since hostilities commenced. Some 3000 have been killed and wounded on each side.

— Attention is called to the advertisement of a new fertilizer—mussel mud—in another column. Mr. H. Fraser is the agent for Bridgetown and vicinity. A car-load is now at this station ready for delivery.

— Mr. Beckwith, one of our enterprising young merchants, informs us that in spite of the reported hard times, he has not noticed any diminution in his usual large fall trade, but says it is rather on the increase.

— The time is approaching for making Christmas presents. Those who desire to send a remembrance to friends from this County living abroad, could make them a present of a years' subscription to the "MONITOR." It would prove acceptable.

— It is rumored that the Windsor Courier will soon change hands, and that T. B. Smith will dispose of his interest to G. W. Dakin.—C. D. McDonald is tired of running a weekly paper, and will sell the Pictou News at the first opportunity.

— The cutter yacht Genesta was commanded by Capt. James Saunders, on her passage from New York to England. Capt. Saunders is a son of the late Pardon Saunders, of Clementsport, Annapolis Co., formerly of Digby.

— Belcher's Farmer's Almanac for 1886 is to hand, containing its usual fund of information on numerous topics. Its low price places it within everybody's reach. For sale by all dealers for 12 cents.

—King Alfonso, of Spain, died on the 25th inst., of consumption accelerated by dysentery. He was the eldest son of ex-Queen Isabella, and was born Nov. 28th, 1857. He was proclaimed King of Spain, December 29th, 1874, when he was in his 17th year.

FOR SALE.—A second-hand rubber bucket chain pump. In good order, and only removed to give place to a non-freezing pump, as it was situated in a place where freezing of a chain pump could scarcely be prevented. Will be sold very low. Apply at this office. tf

— Hon. Thos. A. Hendricks, Vice President of the United States, died very suddenly at his residence, in Indianapolis, on the 25th inst. He was first taken with pains in the head, and afterwards with pains in the stomach. His illness was doubtless due in part to his having changed his usual heavy clothing for a light dress suit in which to attend a reception.

— J. W. Beckwith's new Redingote goods have arrived. Notwithstanding that his importations at the commencement of the season were very large, so large in fact that he expected, owing to the hard times, to be compelled to carry a part of them over, he completely sold out and had to renew his order. 1i

—County Court met in Victoria Hall, yesterday, at 10 a. m., Judge Savary presiding. The docket is not large. The following causes have been tried :—

McCrimmins and Pitman vs. Uhman. An appeal. Judgment reserved. Ervin for pltff. Owen for dfdt.

Newcomb Marshall vs. Daniel Clark. An appeal. Judgment reserved. Parker for pltff. Chesley for dfdt.

THE EXODUS.—The St. John *Globe* says:—Mr. G. R. Bent and family, nine persons in all, left by the western train last evening, *en route* for San Jose, which is 60 miles below San Francisco. During the past few weeks Mr. Bent has disposed of all his property by private or public sale. A number of friends of Mr. Bent assembled at the train to bid the family good bye and to express the hope for their success in their new home. Mr. Bent is to enter into partnership with a relative who is in the pianoforte business in San Jose.

—The department of marine has given a contract by tender for the construction of four steam fog whistles to Clish, Crowe & Co., of Truro. One of them will be stationed at Cranberry island, Guysboro county, to supply the fog whistles at that point in case of accident. A second will be located at Cranberry head near the entrance to Sydney harbor. The third will be placed on Duck island, Grand Manan, and the fourth at Pt. Levoiheron, Bay Fundy.

—An important decision has just been given in Montreal by Judge Loranger, against Bradstreet's Commercial Agency, in the case of S. Carsley, wholesale and retail dry goods. The Agency was sued for $50,000 damages for putting the danger signal of "Call at office" after Carsley's name in the agency report. The Judge, in awarding damages of $4,000, with costs, said that the agency claimed to be a necessary institution for commerce, but, owing to the lack of prudence in the way of giving information, and taking into consideration the fact that the agency does not even guarantee the correctness of it, he was of opinion that, if mercantile agencies were all of the same species, they would constitute a danger and not a boon to commerce.

ST. JOHN COUNTRY MARKET.—The ruling prices during the week were: country beef, 3 to 5c; butchers' beef, 6 to 7c; lamb, 5 to 7c; pork, 5½ to 6c; butter, 18 to 20c; roll do., 22c; eggs, 22 to 24c; chickens, 40 to 50c per pair; partridges, 25 to 30c per pair: turkeys, 14 to 15c per lb; geese, 60c; celery, per dozen, 40 to 50c; carrots, 90 to $1 per barrel; beets, 90 to $1 per barrel; cabbages, 40 to 50 per doz; red do., 60 to 70c; turnips, per barrel, 80 to 90c; parsnips, $1.50 per barrel; potatoes, early rose, per barrel 90c; kidneys $1.40 to $1.50; squash, per cwt, $1 to $1.50; pumpkins, 1c per lb; buckwheat, rough, $1.70 to $1.90 per cwt; grey do., $2.25 per cwt.—*St. John Globe.*

"WHAT TOMMY DID.—John Habberton author of "Helen's Babies" says: "What Tommy Did" would be worthy of consideration of parents if it were possible for any one to be other than *widely mirthful* over the saintlinesses of the little hero. Tommy is an ideal boy—one of the kind which are by turns unendurable and angelic, which changes parents from young to old, and from old to young again many times a day. *We pity parents* who fail to read this book; there is no time in the day nor any day in the week, in which its pages will not dispel care." The *Chicago Tribune* pronounces it a book that "will delight every boy and girl, and mother too, who will find in it a book that can be read over and over again to suit the insatiable appetites of youthful listeners, and yet never sicken the reader with any weakness or nonsense in its composition." It has just been published in dainty delightful shape, fine cloth, richly ornamented binding by Alden, the "Revolution" publisher, at half its former price, 50 cents. Alden's 144-page illustrated catalogue (price 4 cents condensed catalogue free), of his immense list of standard books, is a wonder as well as joy to book-lovers. John A. Alden, Publisher, New York.

GRIP'S COMIC ALMANAC.—This publication, for 1886, is to hand. It is brim-full of amusement, containing—besides its other attractions—a double-page cartoon, "Ancient Nursery Rhymes for Modern Politicians." For sale by all book-sellers; only 10 cents.

—The *Spectator* says:—

Chas. Willis, of Bridgetown, was fined $50 and costs on Monday, 23rd inst., before Stipendiary Samuel McCormack, for violation of the Canada Temperance Act.

WEST INGLESVILLE.—Mr. John Durling, is building a very fine house. The outside is about finished.

Mr. Geo. C. Banks, has also been improving his premises.

The weather has been very fine during all the present fall and farmers have thus been enabled to get a greater amount of seasonable work done than usual. Up to date ploughing can be conducted without difficulty.

Still a Mystery.

The rumor published yesterday afternoon that Frazier Cunliff, while under arrest in New York, had confessed to the murder of Mrs. Etta G. Carleton in Watertown on March 18, 1883, and that her husband was implicated in the crime, seems to have been without foundation. As nearly as can be ascertained, the story first reached this city through the Cambridge police, and it was also said that Officer Howard, of Watertown, had received a despatch conveying the news of the confession. All kinds of rumors were flying about the city and suburbs during the afternoon, the one most persistently repeated being to the effect that Inspector Byrnes of New York had sent one of his detectives here to gather corroborative evidence, and that requisition papers for the arrest of Mr. Carlton would be issued at once. Inquiry as to the truth of the story develops the following facts: Officer Howard has not received such a despatch, and the rumor as to how the Cambridge police got word is too remote to trace. Chief Wade of the district police heard of it through a Cambridge officer, who said that he had heard of two men being in Cambridge in search of Mr. Carlton and a girl and these men reported to somebody that they were from Inspector Byrne's office in New York, and came here because Cunliff had confessed the murder. A despatch from New York says: Police inspector Byrnes claims to know nothing whatever of the Cunliff case. He says there is no record of such a man, nor has there been any confession. The Boston police have asked about it, but he knows nothing more than that. The warden of the Tombs, who would know better than any one, says he knows nothing of the case. There was a man arrested about a week ago for robbery who bore the same name, but he has not been convicted, nor has he confessed to anything. From the above it will be seen that the Carlton murder continues to remain as much of a mystery as ever.—*Boston Record.*

—A rich find of gold-bearing quartz is reported from North Brookfield, Queens county. The lead is upon what is known is the "Parker farm," and if one-half that is stated of it is to be credited, it would seem that the McGuire mine is about to be eclipsed. After all allowances are made, there appears to remain ample ground for congratulating Mr. Culp, and those associated with him, on their good luck in striking a bonanza. It is asserted on authority that over two-hundred dollars worth of gold was, with the simplest methods, taken out of the lead one day last week.—*Liverpool Advance.*

—FROST BITES or Chilblains require similar treatment to a Burn. There is no better remedy for either than Hagyard's Yellow Oil, the well-known household remedy for Pain, Rheumatism, and all Inflammatory Complaints.

FOR SALE!

THE subscriber offers for sale the following Real Estate :—

1st. That well-known store and premises on Queen Street, in BRIDGETOWN, formerly occupied by the late Miner Tupper, Esq., and known as

HEATH & MILLIGAN'S

PREPARED PAINT!

Best in the Market!

Unequalled for Spreading, Finish and Durability!

Paint that Beautifies and Protects!

—: o :—

NO one will deny that the finer a paint is ground, the longer it will wear and the more surface it will cover, and if to this we add the fact that if the color is ground in with the Lead and Oil, it will be seen that the paint will not spot or fade, as is the case with paint made by hand.

These three qualities (Spreading, Finish and Durability) are shown in the Heath & Milligan Manufacturing Co.'s Paints, over all others. If you want a paint that will endure, and at the same time hold its beauty, you will be interested in these goods.

TAKEN FROM GUARANTEE.

"If at the end of one, two, three or five years the paint is not equal to that prepared by the painter, as regards beauty of finish and durability, we will refund the money paid."

Books of color plates, showing harmonious combinations of the different colors can be obtained by applying to
