A GLACIER 7000 FEET HIGH

Blocks the Railroad Entrance Into Observatory Inlet.

Dawson's Gold Commissioner Writes to Ottawa—Public Accounts Committee Hold an Enquiry—First Cargo of Grain at Parry Sound—Bills of Incorporation Passed.

Ottawa, Ont., April 23.—Louis Coste, Chief Engineer of Public Works, returned to Ottawa to-day. He left here a month ago for the purpose of inspecting deep water ports on the British Columbia coast to locate a starting place for a railway to the Yukon, and then intended going on to Dawson City. The object of Mr. Coste's return now is a mystery, but is is reported he has been recalled to give information to the Government regarding the preliminary survey he made of Observatory Inlet. Mr. Coste will not speak about his mission, but it is stated his report is of a most discouraging character. An enormous glacier 7000 feet high discharges into the Inlet so as to make it practically impossible as a railway terminus. The Edmonton and Ashcroft routes clearly have the call.

Trickery Among Yukon Prospectors.

The gold commissioner in the Yukon, writing from Dawson City to the Minister of the Interior, calls attention to the custom of staking every stream and gulf in the country whether there is any prospect or not. Men think nothing of perjuring themselves by taking the oath that they have found gold. Streams are staked for several miles in the space of a few hours. The definition of a mining division, which allows a claim on every different stream which flows into the Yukon, like every other regulation, which allows any latitude, has been abused. Many of these creeks will never be worked. It would cost more to make a survey of these small streams than all the revenue which may be expected from them. Hundreds of those worthless claims will be advertised for sale on the markets in the outside world this winter at prices far in excess of their value. Small investors will suffer, and the money paid by them will be as good as thrown away.

How Mr. Hobbs Got the Twine Contract.

Douglas Stewart, inspector of penitentiaries, was examined at the Public Accounts Committee to-day. He stated to Mr. George Taylor that the contract for the output of binder twine from the Kingston Penitentiary for 1896-97 was given to Mr. Hobbs of London, on his recommendation. McColl Bros. of St. John, N.B., had a higher tender in, but failed to put up the deposit and afterwards withdrew their tender. The department managed to work up the tender of Mr. Hobbs to be nearly equal to McColl Bros., and gave him the contract. Mr. Stewart said he was satisfied that there was collusion between the two parties, but the contract as decided upon finally was recommended by him.

The Canada Atlantic Grain Route.

The steamer William B. Linn, with a cargo of 214,500 bushels of corn from South Chicago to Parry Sound, is the first vessel to feed the Canada Atlantic line, the new lake and rail route from Chicago to the coast. The Linn's cargo is for export by way of Montreal, and its progress to the ocean liners will be watched eagerly by grain shippers, as the managers of the line will endeavor to show that their route is what they claimed for it — the shortest, quickest and cheapest way from Chicago to tide water.

Personal and General.

The bill to incorporate the Klondike and Peace River Gold Mining Company was passed by the private bills committee today. The capitalization is $1,000,000.

Mr. W. R. Crandall of Picton, who represented the Department of Agriculture in England last year when fruit and poultry shipments were sent over, addressed the committee on Agriculture yesterday morning. Some of his statements were warmly criticized.

ST. GEORGE'S SOCIETY.

Englishmen Made a Good Turnout and Listened to a Patriotic Sermon Yesterday.

Escorted through crowded streets by the Grenadiers' Band, 200 members of St. George's Society, wearing the red rose of England, walked to St. James' Cathedral yesterday afternoon, to attend the anniversary service.

Conspicuous in the line were: President George H Gooderham, Past Presidents W T Boyd, S G Wood, George Stanway, P H Drayton, P F Rident, R W Elliot, Vice-Presidents George Musson, P. J. Taylor, R W Barker, and Messrs. J E Pell, S Crearar, H V Greene, T J Mason and C V Snelgrove.

The Cathedral chimes rang out the National Anthem as the procession entered and high up on the tower Verger Legler had run up an English flag.

Rev. Provost Welch, who was assisted in the service by Revs. George Wallis and Ashcroft, preached the annual sermon. The text was "Bear ye one another's burdens." In extolling the society for its good works the preacher exhorted it to let its sympathies go abroad to "the two nations who amid the roar of cannon may during the peaceful stillness of this day be grappled in deadly conflict."

An Unusual Shipment of Bees

An unusual sight was witnessed at the Union Station. An entire car was filled with bees; they were taken on at Whitby and consigned to the Goold, Shapley & Muir Co., Brantford. This shipment, with the three large apiaries already established will make them among the most extensive, if not the most extensive, beekeepers in the Dominion. Mr. R. F. Holtermann, whose name is prominently connected with this industry, explained to a World reporter how the bees could be shipped with safety. The shipment had been prepared by Mr. Holtermann. First the combs, 8 in each hive, were fastened down; otherwise in moving they would press together and destroy the bees; next the cover was securely fastened down; and lastly, a wire portico was attached to the entrance. By means of this the bees are fastened in, yet get plenty of air and do not smother. Although the bees had been moved on wagons four miles to Whitby Station, they appeared to be in perfect order.

Licenses Granted in East Lambton.

Watford, Ont., April 23.—The East Lambton License Commissioners met here to-day, when the following licenses were granted: H. Bossenberry, Bosanque beer and wine, six months; H. Bearse, Warwick; Mrs. Needham, Camlachie; F. Hills, Inwood; H. McRae, Inwood; George Holwell, Thedford; J. B. Barwell, Cairo, beer and wine, one year; Oscar McRoberts, Florence; J. C. Ellison, Florence; Charles Cliff, Arkona; W. J. Thomas, Arkona; M. J. Roche, George Webster, John G. Johnston, Forest; Andrew Butler, Ida J. Kellett, W. Wetty, Wyoming; T. J. Bennes, H. L. Bidner, W. Davis and D. McCallum, extended for three months, Alvinston; W. H. Rodgers, Thomas Roche, J. P. Taylor and John Minnehnick, extended for three months, Watford.

The Board of Management of the Industrial School Association passed a resolution of condolence upon the sudden death of ex-Ald. Jolliffe, and the secretary was instructed to send a copy of it to his daughter.

The Liquor and Drug Habits.

We guarantee to every victim of the liquor or drug habit, no matter how bad the case, that when A. Hutton Dixon's new vegetable medicine is taken as directed, all desire for liquor or drugs is removed within three days, and a permanent cure effected in three weeks. The medicine is taken privately and without interfering with business duties. Immediate results—normal appetite, sleep and clear brain, and health improved in every way. Indisputable testimony sent sealed. We invite strict investigation. Address the Dixon Cure Co., No. 40 Park avenue (near Milton-street), Montreal. Telephone 3083.

WINNIPEG NOTES.

A New Land Company in Which Mr. Greenway Has a Hand—Seeding in Full Swing.

Winnipeg, April 23.—The Land and Investment Company apply for incorporation. The chief place of business is Winnipeg and the capital stock $500,000. The applicants are: Hon. T. Greenway, Hon. J.D. Cameron, H. H. Beck, G. A. Simpson and T. L. Morten.

The Northern Pacific crop report this week shows that seeding is in full swing. The season is about a week ahead of last year and the increase of crop will average from 10 to 15 per cent.

The Legislature will, if the report of the Law Amendments Committee be accepted, declare that a bicycle rider has a right to one-half of the road.

The young German who accidentally shot himself on Thursday, while hunting near Niverville, was Henry E. Hermes. Instructions were received to have the body embalmed and sent to the deceased's uncle, Mr. Munderloh of Montreal, late German Consul at that place.

ROSSLAND CAMP.

Schemes on Foot for Treating Low Grade Ore at Reduced Cost.

In an interview with The World Mr. E. Gartly Parker of Rossland, B.C., representative of Messrs. Parker & Co., of 61 Victoria-street, Toronto, and treasurer of the Dundee Gold Mining Company, observed:

"I should like to be in a position to give The World some more definite information than I possess at the present time with reference to the treatment of the low grade ores of the Rossland Camp. I hope to do so a little later on, as I am in negotiation with certain parties immediately interested. I can, however, state definitely that capital is being put into this branch of the mining industry. I know of two separate undertakings having their headquarters in Rossland, each having their own method of treatment, who are engaged in looking into this question in a thoroughly practical manner. Naturally the parties interested are not too communicative as to their plans, but I think that, being reputable and capable men, we are likely to hear more of them and their work in the immediate future.

"Should they be able to treat the ores successfully, you can easily see that a wide field will be opened up; for companies and individuals possessing bodies of ore in their respective properties—not running sufficiently high to make profitable returns from the smelters at the present time, and who in consequence have suspended operation—will, of course, return to their prospects with redoubled energy, and we may anticipate from this source alone much better times for Rossland and the adjacent camps.

"Speaking of Rossland generally, I should like to see more interest being taken in that thriving community by your Toronto readers. From enquiries made I gather that it has been to a certain extent overlooked. Perhaps the Klondike may in a measure account for this state of things, but certain it is that at no time have things looked so promising as they do now. Scarcely a day passes but we hear of some rich strike in the many properties being developed. Deals are going on all the time, properties are changing hands quite frequently, and English capital is being largely invested throughout the province. Surely Torontonians should be taking more interest in that part of the Dominion! No reasonable complaint can now be made against unbusiness like methods, for things are on a much better basis than formerly.

"The Board of Trade at Rossland is doing good work for the city in pushing its interests in different directions, while the City Council, with its capable Mayor, Mr. H. S. Wallace, at the head of affairs, is alive to the needs of the flourishing city. The press also, represented by four distinct organs—The Miner, Times, Record and Rossslander—is not behind in furnishing reliable information as to affairs generally.

"I can, therefore, strongly recommend the investor to turn his attention to Rossland and British Columbia generally. If he will have patience—remembering that mines are not developed in a day—he need have no fear as to the result. Such fields as Rossland, with its Red Mountain, Deer Park, Mountain and Sophia Mountain properties; Ymir, a truly wonderful district, with its Dundee, Porto Rico, Ymir, Tamarac, Wild Horse and many other mines; Boundary Section, one that has rapidly come to the front of late, all afford good, legitimate scope for the mining investor."

The Law of Mining.

In view of the present activity in the mineral development of Canada, a volume now in the press of the Carswell Company, will prove of interest to mining men as well as to the legal profession. The book is entitled "The Law of Mines in Canada," and is by Messrs. W. D. McPherson and J. M. Clark, barristers, Toronto. It contains an introduction dealing with the laws relating to mines and mining in force in each of the provinces of Canada having mining laws, and also in the territories of the Dominion of Canada, and with the Crown title to mines and minerals, including mines and minerals in Indian lands and Indian reserves, and also the legislative jurisdiction to deal with matters affecting mining enterprises.

The book deals with meanings of terms, mining contracts, covenants, specific performance, rescission of contracts, reservations, the statute of frauds, so far as the same affects mining transactions, title, the registry and land titles acts, mining licenses, leases, sales, purchases, mortgages, dower, riparian rights, water, ventilation of mines, support, minerals under railways, highways, etc.

The Mining acts of Ontario, Quebec, Nova Scotia, New Brunswick, British Columbia and the mining regulations of the Dominion of Canada, including the placer mining regulations in the Yukon District, are printed in full, with notes and comments.

Mr. Robinson Died From His Injuries.

Omemee, Ont., April 23.—Mr. Thomas Robinson Emily died to-night, the result of an injury sustained two weeks ago through the running away of a span of spirited horses. Good hopes of his recovery had been entertained by his medical attendants all along, but it is supposed that a blood vessel broke, as death resulted in about 10 minutes after severe symptoms set in. Deceased was a member of the Board of Education and belonged to the Chosen Friends.

Death of Alister M. Clark.

A one-time prominent resident of Toronto, Alister M. Clark, died at his home in Palmerston early on Saturday morning. His remains will be brought to the Union Station by the train reaching Toronto at noon to-day, from whence the funeral cortege will proceed to St. James' Cemetery.

Death of Mrs. Strangways.

Belleville, Ont., April 23.—Mrs. Strangways, wife of the Rev. B. R. Strangways of Hillsdale, Ont., died last night from typhoid fever. She was the only daughter of the Rev. Amos Campbell of this city, and 30 years of age. She is survived by her husband and one child.

The brigade camp for No. 3 Military District will be held here this year.

FREE BOOK TO MEN ONLY

which deals with those weaknesses resulting from ERRORS OF YOUTH, such as DRAINS, NIGHT LOSSES, WEAK BACK, IMPOTENCY, VARICOCELE, etc. It explains to you fully just why ELECTRICITY cures, and cures permanently. It tells all about the world-famed DR. SANDEN ELECTRIC BELT for EAK MEN, young or old. I am the inventor, and with it I cured 5000 last year.

THE LARGEST CARGO

That Was Ever Taken Into Parry Sound Went in Saturday—215,000 Bushels.

Parry Sound, Ont., April 23.—The steamship Lynn, now running on the new Chicago and Parry Sound route, arrived to-day at Depot Harbor, the terminus of the Ottawa, Arnprior and Parry Sound Railway. The Lynn is the largest vessel of the fleet and carried a cargo of 215,000 bushels of corn. She has a length of 420 feet and beam 50 feet, and came in drawing 20 feet of water. It is the largest load ever taken to a Canadian port on the lakes.

S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for inflammatory Rheumatism, and three bottles affected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others as it did so much for me." ed

Banks Filled With Cash.

New York, April 23.—The New York Financier says this week: "According to the statement of the New York Clearing House banks, for the week ending April 23, the institutions hold surplus reserve of $43,525,100, which is larger than has been reported since the fourth week of July, 1897. This result has been brought about by the conservative action of the banks in preparing for the crisis which is now at hand."

A Woman's Serious Fall.

Mrs. Elizabeth Vincent, 255 Wellington-street west, was cleaning windows at the corner of Spadina and College Saturday, when she slipped from a window sill and fell 28 feet. She broke her right leg and sustained serious injuries to her back. The ambulance took her to the General Hospital.

This is hard work,
most people think. But is it any harder for a man than the old-fashioned way of washing is for a woman? And yet how many women, apparently bright and intelligent, still persist in that clumsy, wearisome, expensive way of washing!

Why don't they get Pearline and save the hard work, the ruinous wear and tear, the needless rubbing and wrenching? Pearline can't hurt the clothes. It's the most economical thing to wash with. Why don't they use it, like millions of other women? 550

Millions NOW USE Pearline

THE ANNEXATION FEVER.

President McKinley Wants to Take the Hawaiian and Philippine Islands as a War Measure.

Washington, April 23.—It was learned at the Capitol to-day that the President, in conversation with Senators, asked them what they thought of the proposition to take the Hawaiian Islands, as well as the Philippines, as a war measure. Those in favor of annexation of Hawaii expressed the hope that the San Francisco report is true.

COLLEGE TOPICS.

"Reggie" Wilson, B. A., '97, is at his home in Cumberland, managing his late father's estate.

"Tiny" Counsell, of Hamilton, is in town, "plugging" hard for his first law examination.

As a mark of the high esteem in which the class of '97 held their lately deceased class mate, C. Brown, B. A., Chesterville, a handsome floral cross, bearing the figures '97, was placed upon his casket.

The list of results of the Trinity University divinity examinations shows the following names: Third year—Messrs Heaven, Wright, Howard, Bushell, Hall and Bell. Second year—Messrs Madill, Steacy, Kirkpatrick and Rounthwaite.

The principal prize winners were: Mr C A Heaven, who won the Hamilton memorial, the Judge Macdonald, the general proficiency the New Testament and Old Testament prizes, JD A Madill, MA, J D Wright, MA, J D Rounthwaite, BA, J D Bushell, BA, and L W B Broughall, BA, also won prizes.

Parkdale Collegiate Institute.

The ninth annual concert of the Parkdale Collegiate Institute Literary Society was held in the assembly hall. Mr. Edmund Hardy, Mus. Bac.; Miss Mae Dickenson and Miss Edith Murray, B. O., provided a capital musical and elocutionary program. Mr. W. H. McNairn gave an instructive illustrated lecture on the song birds of Canada. The piece de resistance, however, was T. W. Robertson's farcical play, "A Breach of Promise," in two acts. This was excellently played by the following cast: Mr. Pontlecon, Mr. P. C. Dean; Philip, Mr. D. W. Deeks; Achates Croople, Mr. J. C. Carlaw; Mr. Fullaworld, Mr. I. W. Walace; Daniel, Mr. R. E. Gahy; Clementina Pontlecon, Miss E. Alayne Jones; Honor Molloy, Miss Ida M. Hunter. Miss Hunter and Miss Jones were very attractive and played their respective roles with irresistible grace and animation. The light comedy roles were effectively handled by Messrs. Deeks and Carlaw. Mr. Dean gave a pathetic interpretation of the pompous Mr. Pontlecon. As in previous years the play showed careful preparation, and was excellently costumed and staged. The audience showed its approval by frequent and hearty applause.

Are You Dyspeptic?

Then become a cyclist. Learn to ride and you will find it the most delightful and invigorating exercise imaginable. Expert instructors will teach you, so that you will speedily become proficient. At the new Riding Academy of the Goold Bicycle Co., Limited, 68 King-street west, the novice has every facility for acquiring a thorough knowledge of wheeling. The fee is $2.00, which amount is refunded when you purchase a bicycle. 1

Broiled.

Chicken, mutton chops or steak is served on the "Empire State Express" on the New York Central at moderate rates. This train leaves Buffalo 1 p.m., arrives New York 10 p.m. No extra fare. Cheap carriage service from Grand Central Station to any point in New York.

One of the greatest blessings to parents is Mother Graves' Worm Exterminator. It effectually dispels worms and gives health in a marvelous manner to the little one. ed

Fine Hyacinths.

Mr. John Chambers, Park Superintendent, has at his home in Exhibition Park two exceedingly fine beds of hyacinths in full bloom. It is worth any one's while to visit the grounds and see them. They can't be beat.

Under and by virtue of the power of sale contained in a certain mortgage, which will be produced at the time of sale, there will be offered for sale by Public Auction by Messrs. C. J. Townsend & Co. at their Auction Rooms, 22 King-street West, Toronto, on

SATURDAY, THE 30TH APRIL, 1898,

at the hour of twelve o'clock, noon: Lot No. 49, on the east side of Ossington avenue, in block No. 1 on registered plan D. 198, said lands having a frontage of 25 feet on Ossington-avenue, aforesaid, by a depth of 126 feet 6 inches, to a lane 15 feet wide.

On the said lands there is erected a comfortable one-storey brick-fronted cottage with good kitchen, etc., being known as No. 335 Ossington-avenue, Toronto.

It is a cosy little dwelling, strongly built and conveniently arranged for small family; garden, etc.

Terms of sale: The property will be sold subject to a reserve bid and to the existing monthly tenancy. Ten per cent. of the purchase money to be paid to the Vendor's Solicitor at the time of the sale, and the balance in fifteen days thereafter in cash, or if required, a reasonable amount of the purchase money can remain on mortgage at current rate of interest. For further particulars and conditions of sale apply to

J. HEIGHINGTON,
Vendor's Solicitor,
35 Adelaide-street east.

"Seediness."

A characteristic of our ads. And we're not averse to being thought "seedy" ourselves. We take a pride in knowing more about bird seed than anyone else. That's the secret of the success of COTTAM Seed. 136

NOTICE BART. COTTAM & CO. LONDON, on label. Contents manufactured under 6 patents, sell separately—BIRD BREAD, 10c.; PERCH HOLDER, 5c.; SEED, 10c. With COTTAMS SEED you get this 25c. worth for 10c. Three times the value of any other seed. Sold everywhere. Read COTTAMS illustrated BIRD BOOK, 96 pages—post free 25c.
