Wednesday May 24th 1871

The San Juan Question.

The Toronto *Globe* has a lengthy article upon the above subject, of which the following is the concluding paragraph:

"It is of course preposterous to suppose that British or Canadian ships should have to seek the ocean by first sailing under the guns of an American battery, though they never fire anything more damaging than a Fourth of July salute. And the commonest prudence dictates that we should not be subject to our Pacific commerce being at any moment stopped because, perhaps, some too zealous officer may have acted hastily and injudiciously off the coast of Newfoundland, or some too impulsive President fancied us guilty of unfriendliness. The tendency to create international complications generally presents itself in a corresponding ratio to the means of giving effect to the wishes of the aggressor. It should be distinctly understood, before Great Britain finally transfers British Columbia from her direct rule to confederation with the Dominion, that the San Juan difficulty is to be settled. The obstacles so long placed in the way of that result by the United States only prove the greater necessity that exists for the termination of the controversy.

While fully concurring with our contemporary as to the important bearings of the question upon British interests on this continent, we must dissent from the proposition that the admission of British Columbia into the Dominion should await the final settlement of the San Juan dispute. Delays are proverbially dangerous, and, in this instance delay might not only be dangerous but it would be ruinous. And, besides, we confess that we cannot discover any tangible advantage likely to accure from such delay in the direction indicated. The admission of this Colony into the Dominion of Canada changes its relations with the parent state, it is true; yet not, we think, in any sense which weakens the connection, makes British Columbia less British, or makes it any less the right and the duty of Great Britain to look to our interests in so far as this particular class of questions is concerned. Indeed, we incline to the opinion that the union would rather exert a favorable influence upon the settlement of that dispute in the interests of Canada. There is no use in disguising the fact that a large and influential political party in the neighboring Republic regard with no friendly eye the consolidation of British North America into one empire; and to have it understood that the completion of the great work of empire was contingent upon the final settlement of the San Juan dispute would simply be, as it appears to us, to hold out a very strong inducement, indeed, to the United States to resist any adjustment which would give the disputed Island to Canada. If, by the mere act of holding on to that Island, and postponing a settlement of the question, they could delay the extension of the Dominion to the Pacific, and, possibly, render British Columbia discontented and less inimical to another kind of union, it is perfectly clear to our mind that the prospect of an early adjustment of the dispute would be greatly diminished. So far, therefore, from this question supplying a reason for delaying the completion of Confederation by the admission of British Columbia, it appears to us to present a most cogent reason for hastening that union and thereby forever removing one obstacle to an equitable adjustment of a long-pending international dispute.

The State of Paris.

Our Exclusive Dispatches describe a condition of affairs in Paris to which history affords no parallel. Women marching in martial procession and demanding arms. Cowardly men marched off to prison by women. Female battalions marching against the Versaillists. What does all this mean? Frenchmen were not wont to be cowards. But such a suicidal struggle as this ought to make cowards of Frenchmen. It is truly distressing to look at France, prostrate and bleeding at every pore from self-inflicted wounds. Surely the time has come when the nations ought to interpose and stay this fratricidal strife. It is a disgrace, a living lie to the boasted civilization of the age that the Great Powers should continue to look calmly upon all this wanton carnage—stand gazing with folded arms while the flower of nations is destroying itself. It is no better than imbecile cowardice to say that the comity of nations forbids interference. What man would stand calmly by and see two dogs gnaw each other to death? And shall Christian nations, so-called, stand listlessly by while the first nation of Europe, of the world, gradually dies by its own hand?

Wednesday, May 17th.

EXCURSION.—The committee of the Mechanic's Institute have chartered the steamer Isabel to carry a company of excursionists to the British Station at San Juan on the 24th. Extensive arrangements are being made for a jolly good time. Tickets, $1, children under ten, 50 cents. Family tickets may be had by application to Mr McLean, of the Scotch House, Fort street.

RARE COLLECTION.—By far the most extensive and beautiful collection of native insects we have ever seen in this country has been prepared by Mr Bushell, of this city and is now on exhibition in the window of Mr Moss, Fort street. The collection comprises some three hundred varieties, many of which are indeed rich and rare. We understand that Mr Bushell is desirous of selling this beautiful collection.

Court of Assize.

Before Chief Justice Begbie, and Justice Crease.

TUESDAY, May 16th, 1871.

The following gentlemen were sworn in as

GRAND JURORS:

J C Nicholson [foreman], Richard Carr, John Russell, T C Nuttall, Thos Wilson, H A Tuzo, Peter McQuade, A C Graham, J H Turner, E Mallandaine, A J Langley, G J Findlay, G J Stuart, W C Ward, Thomas Allsop, Robt Plummer, W J McDonald, T Gladwick.

Chief Justice Begbie briefly charged the Grand Jury, setting forth the nature of the cases before them and clearly pointing out the duties devolving upon a Grand Jury in contradistinction with the Petty Jury, as well as the great importance of the duties necessary for their performance, and particularly were they reminded that their work should not be confined merely to the documents of the Court, but to anything within their cognizance of an offensive character.

The Grand Jury retired and the Court adjourned for half an hour.

The cases of two Indians, one for assault and another for arson were withdrawn from the docket to be tried at Nanaimo.

TRUE BILLS.

The Grand Jury presented the following indictments:

Jas Grahamslaw, assault. Ah Sam, assault; Mrs Copperman, perjury; Ah Lou, assault with intent; William Selleck, for enticing seamen to desert; A W Smith, arson; Harry, an Indian, for shooting with intent; Leon Morrell, no true bill.

ASSAULT.

Regina vs Jas Grahamslaw—For committing an assault on Henry Davies by pushing him through a window. The prisoner was arraigned and pleaded guilty to a common assault. Mr McCreight, counsel for the prisoner, asked the Court to be lenient with the prisoner, stating that he was drunk at the time the act was committed. The Chief Justice said the act was a wanton one and he should not be willing to give merely a Police Court fine. He would, therefore, impose a fine of $100 without imprisonment.

PERJURY.

Regina vs Copperman—This was an indictment on a charge of perjury for giving false testimony in the Police Court, on the 24th January last, in a case of Hodges vs Copperman.

The Acting Attorney General appeared on behalf of the Crown and Mr Bishop, by request, for the prisoner.

The evidence revealed an extraordinary case. It appears that the prisoner was a tenant of Thos Hodges, and claimed to have paid him several months' rent, which claim Hodges disputed, whereupon the prisoner produced receipts for rent, which Hodges declared to be forgeries. Hodges then brought suit in the County Court to recover the amount and Mrs Copperman, being placed in the dock, swore that she had paid the money to Hodges as per receipt. She was committed for perjury, procured bail and fled to the American side, subsequently returning to Victoria and surrendering herself for trial.

Several witnesses were examined for the prosecution.

Mr Bishop called no witnesses for the defence, but made an eloquent and feeling address in behalf of his client.

His Lordship said he believed the prisoner to be a scandalous, perjured old woman; one utterly untrustworthy; but she could not be legally convicted. There was no doubt of her guilt; but two witnesses had not been produced to prove the perjury, and in other points (which His Lordship explained to the jury) the prosecution had failed.

A verdict of not guilty was then ordered to be entered.

His Lordship—Let the prisoner be turned out of Court.

Inspector of Police to Prisoner (who is very deaf)—Go away home. (laughter) And the prisoner lost little time in placing as much space as possible between herself and the Courthouse.

ARSON.

Arthur W Smith was placed on trial upon an indictment charging him with the crime of arson. He pleaded 'not guilty,' and asked that Mr Bishop might be assigned for the defence.

Mr Bishop, [smiling]—This is rather an unfortunate case, my Lord;—I shall receive no fee.

His Lordship—But you will have all the honor.

The evidence went to show that the prisoner lived with a Mrs Roebottom, that they quarrelled and the woman left the man and went to live in the house on Gordon street, lately destroyed by fire; and that the prisoner was seen on the premises when the fire broke out.

After an address by Mr Bishop and an able charge by the Chief Justice, the jury retired and shortly returned with a verdict of guilty with a recommendation to mercy on account of the prisoner's youth.

His Lordship sentenced the prisoner to seven years' penal servitude.

The Court was then adjourned until this morning.

CARGO OF THE PRINCESS ROYAL.—Under the proper heading will be found a statement of the cargo of the H B Co's Bark Princess Royal now nearly due at this port from London. The cargo is large and valuable. Amongst the largest shippers are J H Turner & Co, Hudson Bay Company, Findlay, Durham & Co, and Burns & Edwards.

THE DIAMONDS.—The news from the diamond-fields to hand by last post is encouraging and exciting. The 'finds' for the week ending 11th February, as reported in the *Diamond News*, are 73 in number, aggregating 367 carats. Among them are one of 93 carats, one of 50, one of 32, one of 16, one of 9, one of 8, and 13 ranging between 4 and 7 carats.

RUNAWAY.—A horse attached to a dray darted across James Bay bridge yesterday afternoon, along Government street to Yates, Wharf and several other thoroughfares. He was finally secured on Wharf street. No damage.

A LICENTIOUS CORRESPONDENT.—The *Weekly Echo* is a paper published at the town of Olympia, W.T. and is devoted to the noble cause of temperance. It is the selected organ of the Lodges of Good Templars on Puget Sound and in British Columbia, and is a respectable, well-conducted sheet. Occasionally it admits to its columns correspondence from different parts of the coast, and, not unfrequently, has a good letter from Victoria. In its issue of the 27th April last, however, there appeared a letter, professing to have been written by a member of the Good Templars which, for licentious mistatements, coarse abuse and disgraceful innuendo, is the most villainous production we have ever had the misfortune to read. The male population of Victoria are termed 'drunkards,' and the virtue and sobriety of our females are called in question. Prostitution is described as running rampant through our streets, and so numerous have fallen women become that respectable females dare scarcely venture to walk our thoroughfares of an evening for fear of being insulted by them into the gutters. High officials are described as the best patrons of brothels; the morals of the Gubernatorial mansion are denounced in language that for decency's sake we shall not repeat, and the whole concludes with a coarse personal attack upon Governor Musgrave because he declined to subscribe a sum of money to a Missionary Society. The article is of a character so atrocious and devilish that we cannot be brought to believe that the person who wrote it could be other than an evil-minded man who is guilty of the offences he charges against others, and who uses the Good Templars' organization and Religion as a cloak to conceal his hideous moral deformity. The libeller of our city and citizens should be dragged to the light, and, be he high or low, severely punished. As the letter was written in the interest of the Good Templars, it rests with that organization to ferret out and expose him.

FROM SITKA—THE G S WRIGHT IN DISTRESS.—The steamer Geo S Wright, Capt Rogers, arrived in the harbor yesterday evening at 6·30 o'clock, having left Sitka on the 7th inst. She arrived at San Juan on Sunday the 14th and left there the same day for Portland. On Sunday night, when off Cape Flattery, she experienced a severe gale which caused a leak, and the pumps becoming foul the crew had to resort to baling to keep the vessel free. A quantity of coal was also thrown overboard and after making half the distance from the Cape to Columbia River the captain found it necessary to put about and run to this harbor for repairs. Capt Hamilton of the U S Army, Mr Kincade, and Mr Brown and wife of New York, came as passengers. Everything is quiet at Sitka. Two companies of U S Soldiers are stationed there and one company more will be sent up by the California, which will sail for that place immediately upon her return to Portland.

FIRST EFFECT.—The construction of a railway through Canada to the Pacific will greatly enhance the value of the immense landed possessions of the Hudson Bay Company, and the mere passage of the Terms has caused a rise in Hudson Bay Company's shares of ten per cent.

TREASURE SHIPMENT.—The California, today, will carry away $57.976 85, in charge of Wells, Fargo & Co's Express, shipped by the following Banks: Bank of British North America, $21,977 85; Wells, Fargo & Co, $18,188 06; Bank of British Columbia, $17-829 76.

HON DR HELMCKEN'S SPEECH on the San Juan question was copied by the New York *Herald* and New York *Times*, and in all the leading Canadian papers. The last-named paper complimented the hon gentleman. That speech has given the Doctor a national reputation.

LETTERS received from Dr Powell, who is now in London state that negotiations for the sale of the Baynes Sound Coal Mine to an Anglo-Canadian Company, are progressing favorably.

FOR AUSTRALIA.—The bark Columbia, Capt Mayo, towed by the Grappler, arrived in the outer harbor yesterday morning. She is laden with lumber and spars and is bound for Melbourne.

THE CALIFORNIA reached her wharf in this city early yesterday morning. We are placed under the usual obligations by Mr Goodhue, Purser.

THE STEREOPTICAN.—This series of views is drawing full audiences at Platt's Music Hall, San Francisco. A $900 house greeted its first, and an $800 house its second exhibition.

GOOD.—The Government has decided to furnish voters with the qualification forms *gratis*, at which rate they may also be had at the Colonist Office.

AT OLYMPIA.—Mr W K Bull, the Busy Bee of the Fort street Beehive, is managing a large mercantile house at Olympia, W. T.

THE California will sail at daylight this morning for Portland, Oregon. She will carry a mail and a few passengers.

THE SCYLLA.—H M S Scylla sailed yesterday morning for the South. She went out with her canvas all set and was soon out of sight.

DONALD FRASER, Esq, is on his way back to Victoria, and is expected at San Francisco shortly.

THE suit of Rabson *vs.* Howard, to recover damages for alleged false imprisonment, is set to come off at this Assizes.

BEANS have advanced three-fourths of a cent per pound at San Francisco within the past week.

THE bark Carib, to load at the Hastings Mills, has arrived in English Bay.

THE Wilamet river will be spanned by a railroad bridge.

European Mail Summary.

(DATES TO APRIL 15TH.)

Mr George Lyall has been elected without opposition as Governor of the Bank of England for the ensuing year in succession to Mr R W Crawford, M P. Mr B B Green was chosen as Deputy Governor. At the Mansion House, a Mrs Couroy was fined £35 for pirating copies of photographs of 'The Oxford Crew, 1871,' taken by Mr H W Taunt, photographer, of Oxford street. The prisoner and her son were selling pirated copies in London at threepence each. Prince Napoleon is said to have given £20,000 for a house at Lancaster gate. A grey mare, the property of Mr Death, of Cambridge, performed an extraordinary leap on its return from Cottenham Steeplechase. The animal was being gently ridden by the groom when somebody struck it with a whip. It bolted, and in its flight it leaped the gates at a railway station—a height of 8 feet 5 inches—and managed to get off the line just in time to escape a passing train. The emigration from the southern counties of Ireland is still very large, and the weekly departures from Cork are expected to reach 2,000 souls. Mr Tarpey has been arrested. His wife was carefully watched, and of course he came back to his wife, and to London, as a fly comes back to honey; he was seized in the Marylebone Road with some of the diamonds taken from Mr Ryder on him and attempted no denial of his identity. The intellectual interest of the case entirely consists in the motive which drew Mr Tarpey back to London from a country where he was safe, and with diamonds on him, well to do. The bad spirit prevailing in some parts of Ireland has again been manifested by lawless acts. The men who attempted to assassinate Mr Hope in Mayo county are yet undiscovered. The alleged perpetrator of a murder at Lentterkeny about a month since has been arrested. Whiteboy outrages are reported from Clare, a party of men with blackened faces having demanded and obtained arms and money from two farmers. In Longford a land bailiff near Ballymahon has been murdered. The applications under the Land Act are numerous, and some extraordinary claims have been preferred by tenants which, however, the Courts have generally reduced within reasonable limits. The Queen is at Osborne. The Court has gone into mourning for three weeks on account of the death of the Queen of Sweden. The infant son of the Princess of Wales, having been prematurely born, died the day following his birth, but was baptised before death. The Princess is progressing favorably. The partisans of an English Republic continue active. Mr Auberon Herbert attended a meeting of his constitutents at Nottingham to justify his vote for Princess Louise's dowry, but his explanation was unsatisfactory to a majority of his hearers, although he professed a hesitating preference for a future Republic. Meetings have been held in London but were not attended by any persons of distinction or position. The usual Easter Volunteer Review was held at Brighton. The weather was very fine and the attendance of Volunteers numbered 16,000, comprising most of the metropolitan corps and some bodies of provincials. The proceedings consisted of a march past and a sham fight, in which the various evolutions were very creditably performed. The day passed off without any accident, the only casualty being the sudden death of a private in the London rifle brigade, as it supposed from heart disease.

The Canadian Pacific Railway.

A resident of Toronto, in a letter to the *Leader*, says:

After all that has been said and written both in and out of Parliament about the Pacific Railroad, it most essentially behooves the Government to look to it, that not a moment be lost in undertaking the survey, and having a sufficient number of surveying parties engaged to get the whole route surveyed before the next winter sets in. In consequence of the threats that have been thrown out by the Opposition of making the nurbuilding of the road a card on which to electioneer at the next election for the House of Commons, it is most indispensably necessary to have the survey commenced immediately—without the delay of a single hour. Not to have the survey commenced at once would be most manifestly unjust to all those who voted for the annexation of British Columbia. Besides which, how could the Government expect a company to offer to build the road, without the survey being completed—that is, those portions from the Pacific to the Yellow or Leatherhead Pass and from the Lake of the Woods to Lake Nipissing. If the survey were left uncompleted until next year, who can foretell what phase the money market may then assume or what numberless obstacles may arise to prevent the railroad ever being made? It is to impress upon the Government the great necessity that exists for their using every exertion that lies in their power to expedite the matter, that I now address you.'

THE SUNNYSIDE.—Mrs McDowell has added a spacious restaurant to the Sunnyside Lunch room and is now fully prepared to supply meals at all hours to an unlimited number of guests.

ELECTRICITY IS LIFE.
PULVERMACHER'S
Pocket Batteries.
CHAIN BANDS, BELTS
AND
PATENT GALVANIC
THESE REMARKABLE AND HIGHLY
improved inventions render electricity perfectly self-applicable, and extremely efficacious in a mild and continuous form, no shock or unpleasant sensation being experienced, whereby it becomes a sure remedy for Health and vigor, speedily soothing agonizing pains, re-animating torpid limbs, reviving the sluggish functions of life and imparting renewed energy and vitality to constitutions enfeebled by whatever cause. The most obstinate and deleterious consequences are thus entirely dispelled with. The daily increasing number of cures effected by PULVERMACHER'S MEDICO GALVANIC SYSTEM is so extensive and varied that it forcibly points to this invention as the embodiment of the universal remedy.
N. B.—The following testimony from the arbiters of the English medical faculty has been received:
"We, the undersigned, have much pleasure in testifying that Mr J L PULVERMACHER's recent improvements in his Voltaic Batteries and Galvanic Appliances for Medical Purposes, are of great importance to scientific medicine and that he is entitled to the consideration and support of everyone disposed to further the advancement of real and useful progress."
Dated this 9th day of March, 1868
Sir Charles Locock, Bart., M.D., F.R.C.P.
Sir Henry Holland, Bart., M.D., F.R.S.
Sir Wm Ferguson, Bart., F.R.S.
Edward H. Sieveking, M.D., F.R.C.P.
Sir J. Ranald Martin, F.R.C.S."
PULVERMACHER'S SYSTEM is also approved of by an official report of the Medical Faculty of Paris, Royal College of Physicians, London, and the Imperial Faculty, Vienna, and its curative virtues are confirmed by thousands of private testimonials (many of cures effected) (see pamphlet, gratis).
These facts appeal to the good sense of every sufferer to avail himself of this scientific and curative process, to which the inventor has devoted a lifetime of study and labour, as an ardent disciple of that great benefactor of mankind, the late illustrious electrician, MICHAEL FARADAY.
PULVERMACHER'S MEDICO-GALVANIC CHAIN are exceedingly effective without the aid of medicine, restriction of diet, or the least derangement of the patient's habits and daily occupations, in the following maladies:—

Rheumatism,	Tic Doloreux,	Sluggish circulation,
Gout,	Indigestion,	Urinary Disorder
Sciatica,	Deafness,	Paralysis,
Lumbago,	Spasms,	Epilepsy,
Neuralgia,	Female complaints	Nervous debility
Head & toothaches	Constipation,	Functional Disorders, &c
Liver Complaints,	Cramp,	

The effects of the application of Pulvermacher's Chains in many of the above disorders is immediately perceptible—the relief of pain instantaneous.
PRICE LIST OF POLVERMACHER'S CHAIN BANDS AND BATTERIES.
B. Chain Band for Nervous Deafness, Head Tooth Faceache, and Noises in the Head. 21s. to 30s.
B. Chain Bands for Loss of Voice and other affections of the Throat. 10s. 6d. to 21s.
N. Chain Bands for Sciatica, Rheumatic, Neuralgic and Gouty Pains, Local Paralysis, Cramp, etc., 18s. to 20s. and 40s.
B. Chain Bands for Lumbago, Indigestion, Liver, Chest and Functional Disorders, etc., worn as a belt, 22s. to 40s. and 55s.
B. Chain Bands for Writer's Cramp, Tic Doloreux, Nervousness, etc. 22s. to 30s. and 40s.
B. Combined Chain Band for Central Paralysis, Epilepsy, General Debility, Functional Disorders, etc., 30s. to 50s.
A complete Set of Combined Chain Bands, Belts and Chain Battery for restoring vital energy £5 to £7.
☞ No Galvanic Belts are genuine but those bearing the fac simile of M. Pulvermacher's signature on the label.
CAUTION A Perpetual Injunction in Chancery, dated 18th August 1869, was granted to J. L. Pulvermacher against Alfred Sampson, alias C D Hammond, alias Henry James, alias C D Ramsbey, his assistants, agents and servants restraining the said person or persons under a penalty of £5000 from deceitfully advertising Belts, etc., exclusively representing them as electric. This decree is printed in extenso in Pulvermacher's Pamphlet (see recent testimonials and Medical Reports of cures), containing likewise numerous extracts from many standard and scientific works, viz: Dr Gerdes' 'Medical Electricity,' Dr Tanner's 'Practice of Medicine,' Dr Hamilton Jones 'On Nervous and Functional Disorders,' &c. This pamphlet may be had at the office of this Paper, or of J. L. Pulvermacher's Galvanic Establishment, 200 Regent St., London.
