Chamber Appeals: Lea v. Lang, re Boywell, Tessler v. Cassault.

NAVIGATION NEWS AND NOTES.

Gossip of the Harbor—Pithy Paragraphs of Interest to Vessel Men.

Yonge-street wharf improvements are nearly completed.

Capt. Milloy, lessee of the eastern Yonge-street wharf, is in town.

Local Manager Jolly of the Hamilton Steamboat Company will open an office on Geddes' wharf to-day.

Grain men are agitating for an early opening of the St. Lawrence canals, as the ocean steamers are expected in Montreal about April 24, and it is desirable that the lake boats should be able to get down with grain.

It is estimated that the grain in store at Port Arthur, Fort William and other western shipping points aggregates about eight million bushels, more than double the amount awaiting shipment last spring.

Before making her first trip to this city, the Macassa will be taken to the dry dock at Port Dalhousie and overhauled. There is some obstacle in the way, however, and it is most unlikely that the boat will be placed on the Hamilton-Toronto route for three or four days at the least.

The new classification of risks by the marine underwriters at the recent meeting in Chicago will, it is said, have the effect of driving third class boats out of the grain trade after Oct. 1. On Lake Ontario to Ogdensburg the first-class rate is 40 cents on $100. For third-class boats it is 60 cents to Sept. 1, in September 90 cents, in October $1.25, and in November $1.80. To Montreal the rates are 10 cents higher.

Work on the Corona has progressed but slowly, and although the boat was to be ready for launching before the end of this month it is not likely to reach the water until the middle of May. The chief cause of delay has been the impossibility of getting a sufficient number of riveters. While there was work for 18 or 20 gangs, only four or five have been regularly at work. Nine gangs are now employed and the shell will be complete within a day or two. The Chicora is nearly ready for her first trip, which will be made in about three weeks, although the date has not yet been decided upon.

THE PROCTOR MEMORIAL.

Largest Astronomical Observatory Will Have Largest Telescope.

Chicago, April 15.—A. H. Isham of San Francisco, second vice-president of the World's Proctor Memorial Association, is on his way to Belfast, Ireland, to confer with Mrs. Proctor, widow of the astronomer, Richard A. Proctor, in the interest of the great project of erecting the largest astronomical observatory in the world on the summit of Mount San Miguel, near San Diego, Cal.

The observatory is to be fitted out with the largest telescopes that have ever been constructed and they are two in number.

The first is to have a lense five times the size of that of the Lick and four times the size of the Yerkes.

Ever since the death of the great astronomer, Sir Richard A. Proctor, Mrs. Proctor has been desirous of founding a memorial in his honor. In seeking a site for the proposed memorial, she went to California, and her desire met a response in A. H. Isham, who owned the peak of Mount San Miguel. Mr. Isham donated this to the great memorial. The big telescope is for this memorial.

MONTREAL LIVE STOCK.

Montreal, April 16.—Receipts of cattle at the markets this morning were only moderate, while small meats were in heavier supply. Only a fairly active inquiry continues to rule, and business is confined almost exclusively to the meeting of local requirements, there being practically nothing doing on export account. At the Eastern abattoir market about 350 head of cattle, 300 sheep and lambs and 800 calves came in. Prices were quotably the same as on Monday, and a fair demand was shown both for cattle and small meats. The range to-day was from 2½c to 4c for common inferior animals to best butchers' beeves. Calves brought from $1 to $8 each, according to size and quality. Spring lambs were selling at from $2 to $4 for common to good quality. Prices realized on sheep were $3.50 to $4. Following was the general range of quotations: Cattle—Butchers', choice, per lb., 3¾c to 4c live weight; do., medium to fair do., 3c to 3½c per lb., live weight; culls, do., 2c to 2¾c. Calves—Good to choice, $7 to $10; common to fair, $1 to $6. Spring lambs—Common to good, $2 to $4. Sheep—Common to good, $3.50 to $4.50.

Excursions to West Indies and British Guiana.

Next sailings, Windward Islands, route from Halifax, N.S., to Demerara, Duart Castle, April 23; Taymouth Castle, May 21, calling at Bermuda, St. Croix, St. Kitts, Antigua, Dominica, Martinique, St. Lucia, Barbadoes and Trinidad; returning via St. John, N.B. Jamaica route, sailings from Halifax, N.S., on the 15th of every month, for Bermuda, Turk's Island, and Jamaica. The low excursion rates are still in force. Through tickets from Toronto, and full information at the office of the Intercolonial Railway, Rossin House Block, 93 York-street, Toronto, where railway and steamer berths can also be secured.

Children's Aid Society.

Seventy-seven cases, covering 95 children, came under the notice of the society during March; 47 from the Police Court. The great majority were cases of theft and nearly all from department stores. Nine applications for children were received, five children were placed in homes, 38 were received at the Shelter and 32 discharged.

Deseronto fishermen say pike are plentiful there now.

EAST OF THE CITY LIMITS.

Many Items of Interest in and Around the Suburbs.

Residents on Danforth-road want the Toronto Street Railway Company to give them an electric service to the city by extending the Broadview-avenue line to Little York. A numerously signed petition will shortly be forwarded to the company.

Signs of business life are visible throughout the suburb. Six new houses are to go up near Harris' glue works, three being in course of construction. Two large stores have also been erected on Lee-avenue, and one already occupied by a grocer is said to be keeping the trade in the neighborhood, which has hitherto gone to the city. G. T. R. Engineer W. Brown has purchased a house on Mary-street for $2200. R. Nimmo, J.P., opened yesterday a grocery and hardware business in Little York.

G. T. R. Manager Hays has promised a yearly subscription to the railway branch of the Y.M.C.A. at York. He is the first manager to encourage the work.

The sidewalk on the Kingston-road between the Woodbine and the first tollgate is in a bad state of repair, the boards flying up when stepped upon at either end. A passenger along it was struck a severe blow on Wednesday evening by an upflying plank.

Dog catchers will be set to work in East Toronto village after reasonable time has been given to dog owners to procure the necessary tags.

Tenders are now being called for for the $10,000 debentures to be floated by the village.

The Railway Y.M.C.A. at home was an enjoyable affair, both as regards the numbers that attended and the standard of the entertainment. Messrs. R. Kilgour and T. G. Wilkie gave interesting addresses, and Miss Donaldson and Messrs. Selaway, Liscombe and Mills gave much pleasure with their musical selections. An attractive feature of the evening was a well-contested bout of fencing between Messrs. Sanderson and McCallum.

The R.C.B.C. held its last monthly at home on Wednesday evening at Dingman's Hall. From 80 to 100 guests were present and the way that the affair was handled proved that President A. E. Walton and his stewards knew the essentials of a successful evening. The rooms were prettily decorated and dancing was kept up to a late hour to the music that Wellwood's orchestra supplied.

Francois La Fame, an East Toronto huckster, was kicked on the forehead on Wednesday evening while attending to his horse. It was thought at first that life had fled, but on being carried to the Half-way House near where the accident occurred it was found that though unconscious he was still living.

THE AGNEW MURDER.

Further Developments Which are Not Favorable to Young Kearney.

Lindsay, April 16.—Another empty 32-calibre shell has been found on the road leading past the house of the murdered Jno. Agnew, and it is thought this may be the shell from which the fatal bullet was discharged. On the same road remnants of some rubber-tipped lead pencils have been found, similar to those taken from the office of Cowdry's warehouse when it was broken into. The pencils had been whittled into bits and thrown away. This leads to the inference that the Cowdry burglar and the Agnew murderer may be the same person.

It is found that the knife found on John Kearney, who is now awaiting trial, was the property of Miss Rogers, typewriter at the Sadlier, Dundas & Flavelle Company's mill. Miss Rogers always left the knife in the office, and missed it the morning after the burglary. The fact that Kearney had the knife is considered good evidence that he had connection with the burglary. The authorities are still searching for the watch formerly carried by John Kearney.

FOUGHT LIKE A DEMON.

A Buffalo Prisoner, Madly Insane, Maims a Policeman.

Buffalo, N.Y., April 16.—John B. Garrity, confined in No. 1 Police Station, went furiously crazy this morning and began tearing up the plumbing in his cell. Policeman Hess went into the cell-room to quiet him and was knocked down with a heavy piece of iron which laid his scalp open for four inches. Another blow stunned him and he sank to the floor with an inarticulate moan for help. Instantly every man in the reserve room jumped to his rescue, and none too soon, for Garrity was aiming a third blow which would have crushed the skull of his victim. He fought like a demon.

New Books at the Public Library.

Lubbock, On Seedlings; Commons, Proportional Representation; Hegel, History of Philosophy; Wiedmann, Ancient Egyptian Doctrine of Immortality; Moore, Critical and Exegetical Commentary on the Book of Judges; Helps to Health and Beauty, by A Pharmaceutical Chemist; Panton, Suburban Residences and How to Circumvent Them; Hazlitt, The Coin Collector; Saintsbury, Nineteenth Century Literature; William M. Dixon, A Primer of Tennyson; Mackail, Latin Literature; Noble, Impressions and Memories; Capt. W. Barron, Old Whaling Days; Parts of the Pacific, by A Peripatetic Parson; Major-Gen. Sir James Johnstone, My Impressions in Manipur and the Naga Hills; Frank Wilkeson, The Soldier in Battle; Sir Edward Digby, The Life of a Conspirator; Prof. Blackie, His Sayings and Doings; Admiral Sir B. J. Sulivan, Life and Letters, 1810-1890; Sergeant, Roger Vanbrugh's Wife; Carey, Mrs. Romney, five copies; Charles Dixon, Fifteen Hundred Miles An Hour; Louis Barron, Zerola of Nazareth; Bourget, Sensations d'Italie; Grant, Derval Hampton.

—THE SELLING OF AN
—IMPORTER'S STOCK OF

FINE DRESS STUFFS

—BOUGHT AT 66c
—ON THE DOLLAR

Starts To-day

This sale is without precedent in values offered and in the magnificent variety of French fabrics included.

Black Dress Goods make a prominent feature in the display.

Lace Embroideries

Hundreds of the prettiest styles are shown here. Where comparisons of pattern and quality are possible, you'll notice a saving of say a third. Judge the prices of the others by these.

Children's Clothing

We want your trade for the boys' clothing. Formerly we confined ourselves pretty much to staple sorts. This season we've branched out into more of the novelty sorts, such as sailor, middy, reefer, junior Eton, and wash suits. Extremely good values are what we offer. We want to get you talking about this stock.

J. Sutcliffe & Sons

182-184 Yonge Street.
6-8 Queen Street West.

WHEAT MARKET STRONGER

THE TONE IMPROVED ON LESS SATISFACTORY CROP OUTLOOK.

Another Advance in Canadian Pacific—Sterling Exchange Easy—Sugar Trust Active and Strong—Provisions Unsettled in Chicago—Latest Financial and Commercial News.

Thursday Evening, April 16.

Puts on May wheat 65⅝c, calls 66⅞c.

Puts on May wheat for next week 63c, calls 70c.

Puts on May corn 30⅝c, calls 30¼c bid.

At Toledo clover seed closed at $4.70 for April and October.

Cattle receipts at Chicago to-day 8500; market steady to shade higher. Sheep 9,000; market slow and weak.

Estimated cars at Chicago for Friday: Wheat 18, corn 225, oats 195.

The estimated receipts of hogs at Chicago to-day are 29,000; official Wednesday 32,923; left over 7000. Estimated for Friday 21,000. Market 5c to 10c lower at $3.25 to $3.55 for heavy shippers.

Hog packing in the west for the week 280,000, against 190,000 the corresponding week of last year.

Exports at New York to-day: Wheat 161,000 bushels, and flour 16,000 packages.

HORSES

Require rubbing dry when wet. We have rubbers made from a number of new rejected salt bags. Just right for this purpose—20c each—6 for $1.

A Sufferer Cured

"Every season, from the time I was two years old, I suffered dreadfully from erysipelas, which kept growing worse until my hands were almost useless. The bones softened so that they would bend, and several of my fingers are now crooked from this cause. On my hand I carry large scars, which, but for AYER'S Sarsaparilla, would be sores, provided I was alive and able to carry anything. Eight bottles of Ayer's Sarsaparilla cured me, so that I have had no return of the disease for more than twenty years. The first bottle seemed to reach the spot and a persistent use of it has perfected the cure."—O. C. DAVIS, Wautoma, Wis.

TIPS FROM WALL-STREET.

The market closed steady.

Sugar is the card. It is said that the Trust intend to corner the raw sugar market. Havemeyer bought to-day.

McIntyre & Wardwell send the following despatch to their branch office in Toronto: Sugar continued to be the feature this afternoon, selling up to 125⅞. The reiteration of the same rumors about an extra dividend, and the enormous profits of the company on the advance in raw sugar induce this buying, but someone has sold the public a large amount of the stock. It is offered at 4 per cent. in the loan crowd, while money is freely offered at 3 per cent. The money market is easier. Exchange is dull and featureless at $4.88¾. Depository banks continue to make deposits of gold at the Treasury and withdraw bonds. The new Governments were strong this afternoon at 118. It is said that Atchison has offered to sell all its interests in San Francisco securities to the latter bondholders' committee, and that the offer has been accepted. Attorney-General Moloney of Illinois has issued another of his proclamations, directed this time against the Tobacco Company. A pool that bought General Electric around 30 is said to have liquidated. The early adjournment of Congress is thought to be endangered by a fight over the river and the harbor bill. There are plenty of stocks in the loan crowd.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

The wheat market had a firm start on the better tone to the cables and the bad advices from Ohio, where it is said the crop would not exceed 15,000,000 bushels, against 32,000,000 bushels last year. There were also some bad reports from Missouri and Indiana, and some damage by bugs from Southern Illinois. There was a noticeable lack of outside buying and good selling for the southwest, which, combined with reports from there of improved crop prospects, caused prices to decline to 65¼c. We do not expect to see New York stocks decrease over 250,000 bushels this week. It is reasonable to expect good growing weather now, and the chances are that there will be at least some improvement in the growing crop conditions. Northwest continues to send in complaints of the backward condition of seeding, and it begins to look as if it would be impossible to put in a full average acreage.

Corn and oats firm, with slight change in quotations. The movement is phenomenally small, but within a week navigation should permit the shipping of corn now loaded in Chicago to the amount of 6,000,000 bushels, which we anticipate will have a beneficial effect on the market, practically all the visible supply being there at the present time. We can see no signs of increased movement for some time yet. We look for improved values, and some action to the market.

Provisions—Business has increased some, although efforts were made to break the market early. It showed unusual stubbornness until later in the day, when the shorts had been filled up, and wheat declined, which made an easier feeling and a tame close.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from their branch office in Chicago:

Larger traders here are exceedingly bullish in their views, we think mainly because the market shows considerable inherent strength, and is more susceptible to bullish than bearish influences. They, acting in consort, appear decidedly formidable to the rank and file, and the latter, who are working on the short side, have in the past few days been badly stampeded. Another feature is the tenacious holding of long wheat by the outsider. The legitimate news has inspired him to have the courage of his convictions, and it will require quite a decline to force him to part with his holdings. The crop accounts, according to such authorities as The Cincinnati Price Current and The Trade Bulletin, are not very encouraging, and the backward spring in the Northwest is regarded as also a distinctive bullish feature. Weather conditions in the winter wheat country are simply perfect in some localities; in others more moisture is needed. To-day's market opened weak, but it soon turned because offerings were light, and influenced by some active local buying it became strong and closed at the top price of the day. The news was not very important, the expressed belief of extensive crop damage and the larger clearances from the seaboard embracing about all that is worthy of note. Northwestern receipts show no important changes—Minneapolis and Duluth, (4 days) this week 1481, against 1429 cars same time last week.

Provisions—Lower prices for hogs gave the market a weak opening. Packers were sellers of ribs and Cudahy sold pork quite freely. A great many stop orders were reached, particularly in lard, May touching $4.90. A reaction occurred later on buying by packers of ribs and some cash sales were reported for shipment.

COTTON MARKETS.

At Liverpool cotton is quiet at 4⅜d for American middlings.

New York, April 16.—Cotton—Spots higher; s
