FRANCE GIVES UP SIPIDO

And the Socialists of Belgium Are Mad About the Surrender of the Young Outlaw.

Brussels, Nov. 21.—In the Chamber of Deputies yesterday, the Socialists made an attack on the Government in connection with the recent extradition from France of Sipido, the youth who attempted to assassinate the Prince of Wales in this city some months ago. M. Vandervelde, the Socialist leader in the House, declared that Sipido's extradition was illegal, and that it had been secured by the intervention of King Leopold, who was prompted thereto by a desire to propitiate Great Britain.

M. Vandebeuvel, Minister of Justice, defending the Government's action in the case, declared that Sipido had been surrendered to the Belgian authorities by France in virtue of the Franco-Belgian convention of 1898, which provided that each nation should surrender to the other refugee minors who had acted without discretion.

MR. WOODBURY RESIGNS.

United States Customs Officer at the Union Station Goes to Atlanta, Ga.

Mr. W. H. Woodbury, who for the last 22 years has been United States customs officer in this city, has resigned the position, and will leave shortly for Atlanta, Georgia. Mr. Woodbury is one of the oldest officials at the Union Station, and is widely known throuut the country. Twenty-two years ago he was appointed customs officer at the old live stock shipping yards, then situated at the Don. For the past 11 years he has been customs officer at the Union depot, in the baggage department. Mr. Woodbury has been connected with the United States customs for the past 30 years. In the meantime, the duties of the customs officer at the depot will be looked after by Mr. F. D. Burbank.

BARN STRUCK BY LIGHTNING.

The Storm of Yesterday Was Disastrous to Mrs. Charles Bartels, Near Hespeler.

Hespeler, Ont., Nov. 21.—During the terrific storm which visited this vicinity today the barn belonging to Mrs. Charles Bartels, about two miles from Hespeler, was struck by lightning and totally destroyed. The implements were saved, but the barn and the whole of this season's crops, as well as most of the livestock, were destroyed. The loss is estimated at about $1800, with $1200 insurance in the Waterloo Mutual. On account of the high wind raging at the time, it was with great difficulty that the house and outbuildings were saved.

Play the Game Fair.

Montreal Gazette: Mr. Beith, the minority candidate in West Durham, says he will not take a seat in the House of Commons by virtue of a technicality, referring to the question raised as to the regularity of his opponent's deposit with the returning officer. The position is a creditable one. The trouble in the case is that it does not agree with Mr. Beith's setting his lawyer up to raise the point about the deposit and try to keep Mr. Thornton out of the position which a majority of the West Durham electors chose him to fill.

There is another feature about this case and it is that Mr. Beith stands no chance of being returned member for West Durham, as a result of the recent election.

The returning officer returned no one elected. For Mr. Beith to say that he will not take his seat on a technicality, is to hedge the main question. Thru a technicality he is willing to oust Mr. Thornton, and by virtue of that ousting is determined to stand for re-election. The whole matter is as nasty a prostitution of the principles of fair play as it has been the humiliation of freemen to witness.

Large Payments By a Big Life Insurance Company.

The Mutual Reserve Fund Life Association of New York paid four hundred thousand dollars in claims on Monday, the 19th inst., and the new business received the first 19 days of November, equals the total November business of 1899.

The Mutual Reserve has qualified under the legal reserve laws of Canada, and has deposited with the Insurance Department at Ottawa over a quarter of a million dollars.

An English At Home.

The second national at home to be given by the members of the East Queen-street Presbyterian Church will be held next Tuesday. The at home will be of an English character, the program consisting of English selections, and the ladies who take part will wear English costumes. At the close of the concert a supper will be provided.

S. Ackerman, commercial traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for Inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others, as it did so much for me. ed

Manufacturers Meet To-Day.

Resolutions dealing with representation in the Industrial Exhibition Association will be presented at the meeting at 2 o'clock this afternoon of the Executive Committee of the Canadian Manufacturers' Association. The special committee appointed to look into the Canadian Patent Act, with a view of amending the law, will also send in a report.

Increased 4700 a Year.

The secretary of the Provincial Board of Health has compiled a statement of the vital statistics in Ontario for 1899. It shows that during the past 10 years the population of Toronto has increased on an average 4700 for each year.

"ANONYMOUS" CAPITALISTS BACK LAMB'S RADIAL SCHEME

The Draft Bill to Incorporate the Toronto and Central Railway Discussed by the Aldermen—Municipalities Must Be Consulted Before Going to the Legislature.

Committee Will Advertise for Capitalists to Handle the Affair—City is Asked to Pay for Advertising a Scheme That Has Not Yet Been Properly Developed—The Smoke Question Stands for a Month.

Ald. Lamb had an interesting time yesterday afternoon with the joint committee of the Works and Legislation Committee considering his draft "Act to Incorporate the Toronto and Central Railway Company," in other words the radial railways project. The final draft of the bill, as it came from the hands of Mr. Lobb of the city legal department and the sub-committee, was as follows:

"Whereas large towns and villages and a populous farming community in Central Ontario will be greatly benefited by a rapid railway service to the St. Lawrence Market, Toronto, and the said market is now being enlarged and will bring thereto a large number of buyers or produce for local consumption and for export;

"And whereas it is desirable in the interest of the whole community that a system of at least six electric radial railways, equipped with first-class cars both for passengers and freight, should be constructed to extend easterly, northerly and westerly from the city of Toronto a distance for the present of at least 100 miles.

"Therefore Her Majesty, by and with the consent and advice of the Legislative Assembly of the Province of Ontario, enacts as follows:

"1. The said (blank for names) are hereby constituted a body corporate and politic under the name of the Toronto and Central Railway Company, with the powers set forth in The Electric Railway Act, Revised Statutes of Ontario, chapter 209.

"2. The railways of the said company shall run from the St. Lawrence Market, Toronto, to points within one hundred miles thereof.

"3. The head office of the company shall be at Toronto.

"4. The capital stock of the said company shall be five million dollars, in fifty thousand shares of one hundred dollars each.

"5. The said shall be provisional directors of the said company; the majority shall be a quorum.

"6. The whole amount of bonds, debentures or other securities issued by the said company may reach $20,000, but not more, for each mile of said railways.

"7. The construction of the railways shall be begun within one year from the passing of this Act, and not less than 100 miles shall be constructed annually thereafter until the railways are complete.

"8. Section 136 of the said Electric Railway Act shall not apply to the said company."

Backed By Anonymous Capitalists.

Before starting in on the discussion of the bill, Ald. Lamb said he had received letters from American capitalists, the first men in the Republic, which would show how the scheme was regarded. He would read these letters only in a semi-public way and would not reveal the names.

The first letter Ald. Lamb read asked whether the proposed system of electric railways would be operated on Sunday, as it would greatly depreciate the value of such property if there were Sunday prohibition. The experience of the writer was that the best traffic, especially affecting the working people, was carried on Saturday and Sunday. If there were Sunday restriction the proposition would not appeal to capitalists. The writer of the letter was prepared to consider the matter at any time, and as soon as he had satisfactory information he would go to Toronto to look into the matter of value.

The second letter read by Ald. Lamb simply said that the writer was prepared to look into the financial position of the proposition. The letter was signed "Kohler Bros., Chicago."

Objects to Sunday Service.

Ald. Urquhart moved that the 8th section of the bill be struck out, which would make the 136th section of the Electric Railway Act apply. This section is as follows:

(1) It shall not be lawful for any company to which this Act applies to operate its railway on the Lord's Day.

Ald. Urquhart's motion was lost.

Freight Carrying.

Mr. Lobb of the City Legal Department asked the committee to consider the matter of freight carrying. So far as he could discover the Toronto Railway Company has no right to carry freight, but might be given that right by the City Engineer. The proposed radials were designed in a very considerable way for freight carrying. The committee had therefore to consider whether the streets of Toronto were to be used for freight carrying. With regard to passenger traffic the Toronto Railway Company has the exclusive right, but there is nothing to preclude the new company making an arrangement with the Toronto Railway Co. Nothing need be said at the committee indicating the least intention of interfering with the rights of the Railway Company.

Ald. Urquhart: They cannot be interfered with.

Ald. Leslie: The new company would be a feeder to the Street Railway Company.

Consult the Municipalities.

Ald. Urquhart: Before we go further, we ought to have a consultation with the officials of the counties thru which this railway is to run. If you wish this bill to pass you must have the assistance of all the municipalities in the six or seven counties concerned. If you call together the wardens of these counties, all the municipalities could go to the Legislature together to secure the passage of the bill. We have had no word from the municipalities as to how they regard the bill. I now move that we invite the wardens of the counties, the reeves of the townships and the mayors of the towns concerned to a conference with this committee.

Ald. Lamb read the circular which he had sent out to all the municipalities, asking for their co-operation. He could say that the replies to a great extent were non-committal.

Ald. Urquhart: Why did you not bring them here.

Ald. Lamb: I don't want the press to report this. They did not give me the encouragement I had expected.

Ald. Hubbard: This is awful.

Ald. Lamb explained that it would be impossible to get 84 townships in line. There was a prejudice in the ranks of the country storekeepers that the line would injure them. As a matter of the best opinion these storekeepers would be greatly benefited. We want to invite American and Canadian capitalists and after we do that is the time to give the finishing touches to the bill.

Ald. Dunn: I don't agree with you there. When you have the bill perfect is the time to invite capitalists. If you get Tom, Dick and Harry here to advise you upon the bill you intend carrying to the Legislature, you will be at sixes and sevens with everybody.

Mr. Lobb: This act is to be applied for by the city, and these people as individuals may be able to give the city valuable suggestions.

Ald. Urquhart: Do you intend to ask companies or organizations to assist you in getting the bill thru the Legislature? I would not do anything of that kind.

Ald. Hubbard Objects.

Ald. Hubbard: I am sorry the chairman has not given us the letters he has received. It is a public matter and the money was voted for the purpose as a public matter. The correspondence should have been laid on the table. You have to get the sympathy and support of the townships and municipalities thru which the line will run. Otherwise you will certainly meet their opposition in the Legislature.

Ald. Spence said the committee should go on with the straightforward plan. A circular had been sent out and replies had been received. Those replies should be laid before the committee. They should not let it be said afterwards that they had suppressed the discouraging replies which had been received.

Ald. Lamb: I don't propose that any opposition shall discourage me. I am going to stay with it.

He moved that an advertisement be inserted in the financial journals, inviting capitalists to come and take hold of the proposition as stated in the draft bill.

Ald. Urquhart insisted that his motion for a conference be put.

The advertisement was drawn up by Mr. Lobb.

Ald. Lamb asked that the City Council be requested to report $500), as they could not expect people to come to the city and not be entertained.

Ald. Leslie: Let the Reception Committee of next year look after them.

Ald. Urquhart's motion was carried by a vote of 5 to 2, Ald. Foster and Russell being the two.

The "Free-for-All" Ad.

Ald. Lamb's motion re the advertisement was then put, separated and carried, Ald. Spence and Urquhart opposing it. The advertisement is in the following terms:

—Public Notice.—

The Corporation of the City of Toronto desire to have an electric radial railway system constructed to run to and from the new St. Lawrence Market, Toronto, for a distance of 100 miles, east, west and northerly therefrom, said railway system to consist of one main lines, with branches, the total mileage for the present of 100 miles.

The said corporation of the City of Toronto will assist to obtain a special act of the Legislature to incorporate a company under the Electric Railway Act, and amendments thereto, respecting companies to supply power, light, heat, etc., being chapters R.S.O., chaps. 199, 200, 203, 204, and with special powers.

All persons or corporations interested in the formation of such a company and the construction of the said railway system thereby may obtain full information from Daniel Lamb, chairman of the Board of Works, Toronto, E. A. Macdonald, Mayor. Toronto, Nov. 21, 1900.

AT THE BOARD OF CONTROL.

When the Board of Control met at 2.30 yesterday, Ald. Spence made a complaint that the meeting had been called at such an hour, when there was an important joint meeting of the Works Committee and Radial Railways Committee at 3 o'clock.

The Mayor said he had a message from General Thayer, who was on his way to Toronto.

It was evident that General Thayer was not present, and as the meeting had been called for a special purpose no business could be done.

The general will be on hand at 10 o'clock this morning.

The Care of Lunatics.

Ald. Sheppard moved the following resolution:

That, whereas there are at present insane persons to the number of 49 confined in the Toronto Jail, owing to lack of accommodation in the Provincial asylums;

And whereas the detention of these unfortunate creatures with the criminal class in the common jail is not the humane way of providing for the insane, which is contemplated by the laws of the province;

And as such detention of the insane in the jail not only increases the cost of jail maintenance, but thru overcrowding prevents a much better classification of the prisoners confined therein;

Be it therefore resolved that a deputation consisting of the members of this board, together with Dr. James H. Richardson, the Jail Surgeon, and Dr. Charles Sheard, the Medical Health Officer, be appointed to wait upon the Ontario Government, for the purpose of securing the removal of as many as possible of the insane from the Toronto Jail at the earliest date, and asking that proper provision be made for the care of such unfortunates; and further, that the secretary of this board be requested to obtain an appointment with the Government for the hearing of the said deputation.

Ald. Sheppard said many of the lunatics confined in the Toronto Jail had been committed from various parts of the country.

The resolution was carried unanimously.

The Smoke Nuisance.

Ald. Dunn defended his war on the smoke nuisance before the Legislation Committee yesterday. A deputation from the Board of Trade came to offer opposition to any compulsory use of smoke consumers.

A letter was read from Mr. Eugene O'Keefe, showing the economy and public cleanliness of smoke-consuming devices. One had been in operation for a long time in the brewery.

Ald. Saunders—There is one at the high-level station, and it makes quite a saving.

E. W. Ellis tried to cast suspicion on Ald. Dunn's motive by asking whether the committee had been influenced by complaints from the public or by persons who are anxious to sell smoke consumers. He argued that manufacturers were not the greatest offenders. There were the railroads and steamboats.

Chairman Leslie—The bylaw is proposed against manufacturers and others.

Mr. Ellis claimed that the bylaw was in a most obnoxious shape, because it held the manufacturers up to the people as creating a nuisance to their neighbors.

"There is a time," said Mr. Ellis, "when the manufacturer feels that he must get out. If you keep on nagging we may have to remove out of the city."

The bluff did not seem to hit anyone.

Mr. Ellis suggested that the bylaw be deferred until he had an opportunity of enquiring in other cities how the smoke nuisance was dealt with. If the manufacturers were approached in a proper spirit they would not mind spending $100. But they trembled for fear that they might go down in history as a nuisance to their neighbors.

Ald. Dunn said it did not come with much grace from Mr. Ellis to suggest that he or the Fire and Light Committee had been influenced by persons who had wares to sell. He hoped Mr. Ellis' friends would disabuse their minds of that idea if they intended also to speak.

Mr. Ellis said he had not made the remark in the spirit of personalities, but rather in a pleasant way.

A Month's Grace.

After Mr. Thorn of the Metallic Roofing Company and Ald. Russell had spoken against the bylaw,

Ald. Saunders moved that the manufacturers be given a month's grace.

Ald. Urquhart thought the bylaw ought to be changed in the way of deciding what would be a fulfilment of the bylaw. Otherwise manufacturers might be pestered with prosecutions under the bylaw.

Ald. Dunn said the delay asked for would mean that the bylaw could not be introduced in the year 1900. He moved in amendment that only three weeks' grace be given, which would afford ample time for procuring all possible information.

Ald. Russell moved for six weeks. This was lost. Ald. Dunn adopted the four weeks' proposition.

At the meeting to be held four weeks hence, if the manufacturers have not succeeded in gathering all the information they desire they can ask for a further extension.

Not a Drop of Liquor.

When the accounts in connection with the reception to the contingent came before the committee.

Ald. Urquhart asked if there were any intoxicants among the refreshments.

Chairman Leslie answered in the negative. He said the order had been countermanded by Capt. Barker, personally, and not a drop had been served.

The amount of the C. P. R. bill for the train to Peterboro' and back was $161.

The accounts sent up by the Property Committee for flags for the firehalls were sent back, Chairman Leslie holding that they had nothing to do with the Reception Committee.

An account for 85 medals at $3.50 each was passed.

Ald. Urquhart—What is the total amount? Chairman Leslie—It will round up to $1500. We will have to get $200 or so additional.

The account for the badges was left in abeyance.

They Come to Time.

"The Consolidated Car Fender Company," who manufacture the "Providence" fender, recommended by the engineer of the Provincial Public Works Department, have sent the following telegram to W. A. Bell, their Toronto agent: "Our regular prices given you by our Mr. Hollingsworth, which are also given in our catalog, will be charged The Toronto Street Railway Company. We will guarantee not to increase the price to any Canadian railroad company."

Mr. Bell said yesterday that the fender would be built in Canada, and that nearly all the material and parts would be manufactured in Ottawa and would be put together there.

An Invitation From Japan.

The Japanese tea traders who were here last year, when Ald. Graham was chairman of the Reception Committee, have pleasant recollections of the alderman from the Sixth Ward. When they were introduced, he presented them with his card, which informed them that the chairman of the Reception Committee issued marriage licenses, and that his place was open in the evenings. The ingenuous Japanese read an Oriental meaning into the legend on Ald. Graham's card, but declined the invitation, assuring him, however, with true Oriental politeness and appreciation of the case, that he was engaged in a very pleasant business. Yesterday Ald. Graham received from his Japanese friends a hearty invitation to the Flowery Kingdom, where the Geisha girl dwells. The document acknowledged the alderman's courtesy, and promised him a good time.

The Presbyterian Review.

The large increase in the subscription list of The Presbyterian Review, the increase of its advertising and the marked favor with which it has recently been received have made it appear advisable to The Presbyterian Review Company and the Poole Publishing Company to unite forces in the publication of this journal, which has been serving the interests of the Presbyterian Church in Canada for more than seventeen years. The paper will in future be published by the Poole Publishing Company, and it is not contemplated to make any change in the staff of the paper or the lines upon which it has been edited. Improvements will, however, be made in the form and appearance of the paper, and the paper generally, and there is no doubt that it will not only retain its present important position and great influence, but become even a greater power, not only in the Presbyterian denomination, but in the whole community.

A Magic Pill—Dyspepsia is a foe with which men are constantly grappling, but cannot exterminate. Subdued, and to all appearances vanquished in one, it makes its appearance in another direction. In many the digestive apparatus is as delicate as the mechanism of a watch or scientific instrument, in which even a breath of air will make a variation. With such persons disorders of the stomach ensue much suffering. To these Parmelee's Vegetable Pills are recommended as mild and sure. ed

SUFFERED 15 YEARS

With Backache and Kidney Complaint.

Doan's Kidney Pills Cured after Everything Else Failed.

Mr. Wm. Brundage, a highly respected resident of Jasper, Grenville Co., Ont., a cut of whom appears here, suffered all sorts of tortures for over fifteen years as a result of kidney trouble. So pleased is he at being cured by Doan's Kidney Pills that he has given the following statement of his case.

MR. WM. BRUNDAGE.

THE DOAN KIDNEY PILL CO.

GENTLEMEN,—I have been troubled with backache and kidney complaint for the last fifteen years, so bad at times that I could hardly walk.

I have taken almost everything I saw advertised for kidney trouble, but nothing seemed to do me much good.

A friend suggested that I try Doan's Kidney Pills. The first box gave me great relief, and the second box has so completely cured me that I feel like a new man.

You are at liberty to use this in any way you think proper, and I hope it may be the means of inducing some sufferer to try Doan's Pills. WM. BRUNDAGE.

Doan's Kidney Pills are superior to any other remedy for backache, lame back, dropsy, gravel, urinary troubles, kidney weakness of children and old people, female complaints and all troubles arising from ailing kidneys. Always ask for *Doan's* Kidney Pills and refuse substitutes.

Money — If you want to borrow money on household goods, pianos, organs, horses and wagons, call and see us. We will advance you any amount from $10 up same day you apply for it. Money can be paid in full at any time or in six or twelve monthly payments to suit borrower. We have an entirely new plan of lending. Call and get our terms.
