...IVE HOGS ARE QUOTED AT $6.40 FOR MONDAY

While Dressed Pork Has Gone Up Slightly—A Further Drop in Hogs Is Expected.

The market this morning was one of good proportions, and was characterized by a fair amount of activity. Hay was steady at from $14 to $16 per ton, but not a great deal was offered. Oats continue to sell at from $1 25 to $1 30 per cwt. for new grain and $1 30 to $1 35 for old oats.

Dressed hogs sold at $9 and $9 25 per cwt. Other dressed meat prices were fairly steady, but not overly active.

Eggs advanced another notch or two in the dairy hall. As high as 32 cents o dozen was the price asked, and not a few were sold at no less than 30 cents per dozen. Choice dairy butter sold at from 28 to 30 cents per lb.

Potatoes sold at from 90 cents to $1 per bag, or 60 to 75 cents per bushel.

All kinds of vegetables were active in price.

On the fruit market peaches sold at 75c per basket. Pears, quinces and grapes bring fair prices.

Live hogs are again quoted at $6.40 per cwt. for Monday shipments. Local buyers, however, claim that the market is unsettled, and that a further fluctuation in the course of a few days is probable. It is quite possible that live hogs will drop still lower, although dressed pork climbed up 25 cents per cwt. on the market this morning, selling at $9.25 to $9.50, whereas the price has varied from $9 to $9.25.

(From Charles Head & Co., by private wire to J. J. Tearney.)

NEW YORK, Oct. 7.—(Close)—Market opened slightly lower, influenced by London, but soon gained ¼ to ¾ from the earlier prices. Atchison acts well, the excellent statement of last year giving holders confidence in the company's ability to maintain 6 per cent. Norfolk shows the best results for August in its history, and the stock holds firm. It should ultimately be worth more from the investor's standpoint. Rubber remains stagnant from the pressure of too much stock bought on advance. As compared with U. S. Company, pfd., paying 7 per cent, Rubber, 1st, paying 8 per cent practically at the same price, looks attractive, especially as the 16 per cent dividend will come off the 16th inst., continuous 8 per cent dividends having been paid for the past eight years. The settlement with James R. Keene for $900,000 in the notorious Hocking coal and iron pools suits, marks the end of this unsavory incident. The statement of idle cars for the past week shows decrease of 14,245. Beet Sugar dividend rumors continue, and the stock is strong. Closing prices were steady, but exhibited little change for the day. We still look for a trading market with a better demand for good investment securities.

Wall Street Close—The market closed firm. Purchases to cover with poor manipulation of various specialties turned the course of prices upward again, and best figures of the session were reached. The effect of the slump in the Allis-Chalmers securities were off, despite a further fall in the common stock to 2, a loss of 3 1-8. American Tobacco, preferred, and Affiliated issues were notably strong, and there was a continuance of the recent effective buying of American beet sugar and Pacific telephone.

PARIS, Oct. 7.—Closing.—Three per cent rentes, 93 francs 20 centimes for the account. Exchange on London, 25 francs for checks.

BERLIN, Oct. 7.—Exchange on London, 20 marks 51 pfennigs for short money. 2¾ per cent. Private discount rate, 3⅞ per cent.

LONDON, Oct. 7.—Money was easy and discount rates were steady today. The stock market was dull and narrow, the approach of the settlement and the continental political situation causing hesitation and a slightly easier tendency in most departments. American securities were affected by President Taft's speech in Idaho. Trading was dull and prices moved irregularly, closing from ¼ to ⅝ lower than yesterday's New York closing.

LONDON, Oct. 7.—1 p.m., closing.—Consols, for money, 77 7-16; do, for account, 77⅝; Amalgamated Copper, 50⅝; Anaconda, 9½; Atchison, 107¼; do, preferred, 105; Baltimore and Ohio, 98; Chi. P. NEW YORK, Oct. 7. — Despite attempts to force a general selling movement price changes among the standard issues, as a result of the day's trading, were not materially changed. Movements in specialties, such as Beet Sugar and Pacific Telephone, on both of which initial dividends are expected in the near future, commanded considerable attention, as did also the liquidation of the securities of the Allis-Chalmers Company. The selling of the latter was accompanied by reports to the effect that the company's financial position was not all that could be desired, and there was a noticeable lack of support even in the bonds. While we believe that the situation generally is such as would warrant the exercising of caution, still, from time to time securities have been depressed on rumors and occurrences of all kinds, to an extent that leads us to believe that adverse factors have been greatly discounted, and it strikes us that the standard issues, despite the fact that the element operating for recline may attack prices, we think the level of the market has reached a point where investments are in order.

ABOUT STOVEPIPES

Put Them Up Right and Prevent Trouble With Gas.

City Architect Nutter is out with a warning to the citizens relative to the method of putting up stovepipes, etc., at this time of the year.

He declares that the greatest care should be exercised in this matter, as it means much to the health of the citizens generally.

"There is always a great deal of carelessness in this," he stated to The Advertiser. "The pipes are often carelessly put together, or they are not properly connected with the chimney. As a result, we often read of families becoming nearly asphyxiated with gas. Sometimes it results in death. In other cases fires result. I would warn the citizens to be very careful in putting up their pipes. They should be absolutely certain that the work is done properly and well."
