A Bad Speculation.—Some of the operators in flour and grain in this city, were pretty considerably diddled by the Magnetic Telegraph, on the arrival of the last steamship from England. We will give an instance which has come to our knowledge:—Some one, when the steamer arrived at Boston, sent on what purported to be the quotation of the English market, according to which flour had risen considerably. The news got to the ears of one of our wholesale grocers, who thereupon initiated with his beautiful chance for a "spec," went to work with the greatest rapidity and bought up about 6,000 barrels of flour, notwithstanding prices had risen. He also communicated the news to another person in the same business, and advised him to buy up all he could get. The latter however declined, saying that he would wait for further advices. When the full digest of the news came—lo! flour had not risen in England any thing worth reporting and the previous intelligence had doubtless been manufactured by some one for sinister purposes.—Flour fell again immediately, and our operator found that he had burnt his fingers pretty considerable, losing only about $3,000, at the least calculation.—*Philadelphia Messinger.*

Race.—A match race was run this morning on the Sands, between Mr. Gilbert's horse *Retriever*, and Mr. M'Monagle's *Livingston*,—mile heats for £100 a side. The race was taken by Retriever in the two first heats.

NEW GOODS.

THE Subscriber has just received and has for sale, an extensive and varied Assortment of Gold and Silver WATCHES of every description, fitted up in the most approved style; also a quantity of rich and fashionable JEWELLERY, Silver PLATE, Nautical Instruments, &c.—which, together with a large Stock on hand, are offered for sale low for Cash, or approved Paper at three or six months.
He would take this method of returning his sincere thanks to his friends for the liberal support that he has received during the last fourteen years in business, as well as to inform them that having visited London last winter, and Boston and New-York this summer, he has entered into new arrangements, by which he will be regularly supplied with every description of WATCHES, CHRONOMETERS, and all other Goods in his line, which will be sold lower than at any other establishment in this City.
Having purchased, when last in London, a splendid Astronomical CLOCK, and one of Dent's DIPLIEDESCOPES, and other Apparatus suitable for correcting and rating Marine Chronometers and completing and adjusting Nautical Instruments, and having expended a large sum to make his establishment efficient and accommodating to the Public; he would now cherish the hope of receiving a continuance of that patronage and support which the nature of this enterprize would warrant him to expect. He is aware of the opposition that the plain honest trader sometimes meets with from unprincipled and designing men; but the same principle which has guided him through evil report and good report, will govern him in his future efforts to serve the Public and himself conjointly.
☞ Chronometers and every description of Watches and Clocks, Jewellery, &c. repaired on moderate terms.
JAMES AGNEW,
Watchmaker, &c. King-street.
N. B.—Shipmasters are respectfully invited to an examination of the above named CLOCK and Apparatus for rating Chronometers; and their patronage and support are solicited.
