Civic Affairs.—In our Common Council Report it will be seen that the Recorder has given an adverse opinion to the evident intention of the amended charter in reference to the Civic Elections. This is to be regretted, as we consider that every right-minded citizen and every elector is as much interested in a good and proper representation for all the other Wards as for that particular one in which he resides. In this, however, Carleton and St. John might advantageously be separated, as the electors on one side would naturally be careless as to who represented the other.

With regard to removal of the Market House from the Market Square, we cannot understand the philosophy of the Board in retaining it "until another Market House is provided for the butchers." If this is the intention of the Board, why remove the present Market at all? Certainly, no more central or suitable place could be pointed out; unless the Corporation in their usual peculiar notions of economy prefer paying for a new site and a new building, in preference to keeping the one they have for nothing.

It is to be hoped that no such Act as that regarding a Police for Carleton will be passed without making Carleton totally independent of the Eastern side of the harbor. Carleton is fast rising in importance, and it is now become desirable that their public affairs should as little as possible be mixed up with this side.

The Water Commissioners' accounts seem to have raised some discussion at the Board; but we are at some loss to know why, if the Chairman of the Commissioners was required by law to give bonds, those whose duty it was to see the law carried out, did not enforce this particular part of it; and if the law does not require it, it was certainly no fault of the commissioner. Further—with regard to the Mr. Sears' advanced salary, we presume it must have been an order of the Common Council that gave it to him; and the Chairman's conscience would be more delicate in that particular than any public officer we know of at the present day, if he did not pocket all allowed him. If there is a wrong, it is in the members of the Common Council.

We cut the following from yesterday's Temperance Telegraph, on the Government Education Bill:

We are accused of silence on this subject. Our answer is simply that we have never seen a copy of the Bill—and the Newspaper reports are so meagre and unsatisfactory that we can form no opinion fairly upon it. If, however, the reportorial synopsis of the Bill be correct, we are seriously disappointed; for does the after-thought promise of amendment in the "Rule" better the matter. If the Government are afraid or ashamed of the Bible, let them say so; and not "keep the word of promise" to Roman Catholic ears in the House, and "break it to the hope" by the "Rules." Protestants don't want the Bible smuggled into the Educational Establishments of the Country—they demand its open, full, unconditional, British recognition to the Administration. We await the progress of the discussion.

CANADA.

A good deal of interest is excited by the announcement in the Governor's Speech of an approaching change in the Usury Laws. This change the official organs, however, state will only extend to raising the legal standard of interest. We have already pointed out that merchants and traders require no legal restrictions to guard them against paying injurious rates of interest. They know their own business, and what they can afford to give for money, just as well as what they can give for flour or broadcloth; and laws are as much required to restrain them from giving too much for merchandize as for money. Commercial paper should, therefore, as in England, be left entirely free, whatever rate is agreed upon for loans on mortgage.—*Montreal Witness.*

Something, we are persuaded, will have to be done towards amending the Reciprocity Act, by an equalisation of the tariffs of this country and the United States. At present manufactures of the latter country are admitted free, or from 2½ to 5 per cent duties, into Canada, while the States charge 30 to 40 per cent on ours. Thus the Provinces are inundated with foreign manufactures while ours are prohibited by them. The canals should be opened to the shipping of both on equal terms. We are glad to see that the Boards of Trade are petitioning their respective Governments to do away with the navigation laws on the Lakes. The Government here should apply to the Imperial Parliament to use its influence at Washington to have all these necessary alterations effected. From the vast trade between Canada and the States, a Canadian agent in Washington would be required to represent our commercial interests in that quarter. We do not expect that our recommendation will form any part of Ministerial programme, yet we would urge upon the commercial community to take some steps in the matter.—*Hamilton Spectator.* (C. W.)

Picton, 9th March.—At ten o'clock last night a fire was discovered in the basement of Arnison's building, corner of Water and George streets, the lower story of which was occupied by Mr. Arnison as a liquor and grocery store, McCaren's furniture store, and Griffiths' shoe store. The fire advanced so far before it was discovered, that it was found impossible to save the building. The upper part of the house was occupied by six families, who had barely time to escape with their lives. The building was old, and being built entirely of wood, burnt with great rapidity. The flames spread on George to the fine new building owned by Mr. Christie, and occupied by Mr. J. Torrain as a hardware store and dwelling—to the residence of James McIntosh—both these buildings were destroyed. On Water street the flames extended eastward to the old house adjoining Arnison's small dwelling in the rear occupied by D. Cush. The house occupied by Walter Tanner all consumed. Mr. Hockins' fine new three story building, which was separated from Mr. Tanner's house by a space of about two feet, was saved almost by the superhuman exertions of the firemen. On the south side of Water street, Mr. Irving's store. A large double building owned by S. Taylor and A. Patterson, and occupied by the former and Mr. Arbuckles were on fire, but by great exertions were saved. The whole of Arnison's, McLaren's, and Griffith's stock was lost. Lorrain's stock was principally removed, but much lost or destroyed. The goods in Hockins', Campbell's and Crichton's stores were removed and much injured, many articles lost or destroyed. The total loss is probably about four thousand pounds. About sixteen hundred pounds insured. The occupants of the large building were poor people, and have been by this calamity, reduced to a state of complete destitution.

☞ Holloway's Pills are infinite benefit to persons suffering from nervous tremors and general feebleness. Their renovated the nervous system, and brace the muscles as well as give to tone the stomach. Their purgative action is unaccompanied by pain, and as they have powerful stomachic as well as aperient and purifying properties, they literally carry on the work of invigorating the digestion, relieving, the secretions at one and the same—This can not be said of any other medicine in existence.

HOUSE OF ASSEMBLY,

Fredericton, March 16.

A long discussion took place on the motion to add a suspending clause to the disqualification bill. The motion was strenuously opposed by Mr. Mitchell, but finally prevailed.

Progress was reported on a bill to amend the Act relating to Municipalities.

A resolution submitted by Mr. C. Perley to impose a tax on wild lands, for the purpose of making and improving roads, passed without a division.

The consideration of the School Bill was resumed. Mr. Botsford proposed an amendment to the 3d section to effect that the same number of inspectors, 14, should be continued as at present.

Only 3 members voted for this. The original section then passed. Salary fixed at £250.

Mr. Gray moved an amendment to the 4th section to the effect that the City of St. John should be divided into 4, instead of 2 parishes.

Motion lost, only 4 members voting for it. Section then passed entire, when progress was reported.

Attorney General gave notice that on Saturday he should move the House into a Committee of the whole in consideration of an address on the subject of an intercolonial Railway.

The Alien Bill was again introduced under a new title.

Fredericton, March 17th.

The House was occupied with unimportant business during the morning. Mr. E. Perley gave notice of his intention to move an address with a view of ascertaining the number of prisoners now existing in the several Counties of the Province.

The House went into Committee on the subject of the correspondence relative to the inter-Colonial Railway. Mr. DesBrisay moved a resolution which was treated as expressing a want of confidence in the Government. Progress reported.

The Bill to amend the Act relating to the opening of Canterbury street, St John, passed in Committee, with some amendments.

At half past 2, Mr. End moved that the House adjourn till to morrow at 10. The reason he argued for adjournment was that several members were obliged to be absent on the Railway Committee, another very important reason was that this was the anniversary of the Patron Saint of Ireland. Mr. Brown remarked that St. Patrick was a Scotchman. Mr. McPhelim said that he was a Frenchman. The motion was debated for 20 minutes, and the adjournment was carried by 22 to 17.

Fredericton, March 18th.

After reading of Journals House resolved itself into Committee of the whole in consideration of a Bill introduced by Mr. Chandler, to provide for the preservation of peace among the laborers on the St. Andrew's and Woodstock Railway.

Mr. Tibbits moved a resolution to the effect that the offices of Receiver General and Province Treasurer should be consolidated into one office.

The resolution gave rise to considerable discussion, in which various views were advanced by members as to the measures that should be adopted for the better carrying out of the system of Responsible Government. Progress reported.

Mr. Gray's Bill to amend the Election Law passed with certain amendements.

Several more Separate School petitions presented.

Mr. Codin's resolved to appoint a Committee of both Houses to investigate the affairs of the Central Bank, was before the House, and gave rise to a tedious and prolonged discussion. An amendment was proposed to the effect, that the investigation should extend to all the Banks. The discussion lasted until 5 o'clock, when both amendment and a resolution were negatived.

Motion was then made to take up the School bill. Amid much confusion, and unsuccessful attempt to adjourn, the House decided against the motion, with the understanding that the School Bill would be taken up at 11 to morrow, (this day.)

House then went into Committee on Mr. Gray's Bill to afford relief to wives (*not widows* as erroneously copied by some of the paper) and children deserted by their husbands and parents. Progress reported.

Purification Bill passed Upper House.

House adjourned 5 35.

NOTICE.

HEARING that a Story has got circulation in this City to the effect that I had prevented the late Mr. George W. Clerke, when alive being taken to his friends in Amherst, and also that after his death I prevented, for some days, his corpse being interred until Dr. Humphrey had become responsible for his debt due me, I deem it necessary, in justice to myself, to take this public way of pronouncing such reports to be untrue, and the originators the out Liars,—which Mr. Morrison, the proprietor of the Hotel at which he died, and Dr. Humphery, who was in attendance during his illness can certify—and should I succeed in my efforts to find out the originators of such illegitimate falsehoods, I do intend to take such steps as would teach them to be more careful in future in tampering with the name of one whose characters, perhaps, is beyond the reach of their slanderous tongues.

34, Wine street, Bristol.

Sir,—It is with much pleasure I have to inform you of the benefit I received from your Lozenges. I was attacked with the typhus fever, during which time I had a violent cough, so that it kept me awake the greater part of the night. A friend persuaded me to try a box of your "COUGH LOZENGES" which I did and am happy to say that with only one box of your valuable compound I was quite free from cough.

You can make what use of this you please, for I think such valuable medicine ought not to go unnoticed.

I remain, Sir, your obedient Servant,
