

Weekly British Colonist.

VICTORIA, BRITISH COLUMBIA, FRIDAY, SEPTEMBER 4, 1896.

Charity

The "dearest and most precious" of the human family, the child, is the one who is most often the victim of neglect and abuse. The charity of the community is called upon to provide for the needs of these unfortunate children. The Victoria Children's Society is doing much good work in this direction.

A Number of Years

It is a well-known fact that the human body is composed of a number of different parts, each of which has its own life span. The average human life span is about 70 years, but some people live much longer than this. The secret of a long life lies in the health of the body and the character of the mind.
