ANOTHER HEAVY DECLINE IN LONDON AND CANADIAN STOCK.

Toronto Stocks Generally Firm—Montreal and London Stocks—C.P.R. Strong—Money and Exchange—English and American Grain Markets—Grain Statistics.

A cable message to John Stark & Co. yesterday quoted Hudson's Bay stock at £21 a share, with transactions at that figure.

Canadian Pacific stock is strong again in London to-day. It stands at 72¾.

MONDAY EVENING, Nov. 11.

Trade in local stocks to-day was fair in the morning and nil in the afternoon. Values were well maintained except in London and Canadian, which took another tumble. Transactions took place at 127 1-8 and the bidding afternoon and morning was at that figure. Speculators have been waiting for many weeks to see bottom in this line, but it is apparently as far off as ever. Transactions to-day totaled 334 shares. Quotations are:

The London Economist predicts a rise in money rates in England. In its last issue there is the following: "Be that as it may, however, present indications all seem to point to somewhat higher rates in the near future. The foreign exchanges have moved against us, and now that there is a large movement of produce hither both from the United States and the Argentine Republic, it is not unlikely that we may be called upon to ship gold in part payment. The Brazilian currency demand for the metal also is still unsatisfied, the increasing stringency of the Berlin money market may cause demands to be made upon us and at home the usual November drain by the Scotch and Irish banks has to be satisfied."

RUSSIAN WHEAT PRODUCT.

[From The London Miller.]

Russia has lately had a brisk business in the south in wheat for the United Kingdom and rye for Germany. From the Azov and Black Sea ports the week's out-turn of wheat was 294,700 quarters. The north of Russia spares but very little wheat. The choicest Russian samples are about 2s 6d per quarter above their most depressed level of September. Official estimates credit the yield of 1888 as over 37,000,000 quarters, making the last three years' average yield 35,000,000, as contrasted with 25,000,000 as the mean of the seven years 1880 to 1886. Russian statistics are becoming much more serviceable than they were until quite recently.

THE TOWNSHIP FATHERS.

Business in Eglinton Town Hall Yesterday—New Bridge Over the Humber.

The York Township Council met yesterday morning in Eglinton Town Hall. All the members were present except Councillor Peterman. A petition was received from Mr. William Wakefield and others asking that a sidewalk be laid down in Howland-avenue between Davenport-road and the C.P.R. The request was referred to a committee. The clerk was instructed to give notice of a court of revision to be held Dec. 2 at 3 p.m. to confirm the report of the township engineer on the petition of John Lucas et al. for the construction of sidewalk crossings, gradings and curbings in Danforth-road.

It was decided to lay crossways at the intersection of the Scarboro deviation road and Danforth-road. Messrs. Gilding and Brotherson were appointed commissioners to superintend the construction of two sinks for the purpose of removing the surface water from Danforth-road. A long discussion followed in regard to school matters, and it was finally decided that a committee should make an investigation of the management of the school fund principal and interest next Saturday evening at 7 o'clock.

In the afternoon a committee from the council went to the Humber to meet a deputation from the Etobicoke Council to locate the site for the proposed bridge.

THE USE OF THE LASH.

The Spirit of the Age is Opposed to the Profane Touch of a Whipping Post—Thousands are Lashing Their Brain.

There is recently some discussion in reference to the restoration of the lash for certain classes of criminals. While the spirit of the age is opposed to corporal punishment by the courts, and objects to the plying of the lash to the human body, yet there are thousands upon thousands of people in the Dominion who are applying the lash to their brain and nervous system in such a way that their fine physical frames, naturally sound constitution, vigorous mental powers, are upon the high-road to breaking down. They live upon their nerve and they are wearing it out.

Do you feel irritable, are you absent-minded, preoccupied, unable to remember the familiar names of some friend or place, with a pain or tightness in the head, watering eyes, poor sleep, dyspeptic troubles, and a tired, listless feeling? These are a few of the warning that your nervous system gives of the approaching paresis, paralysis or insanity. This is the way that thousands have trod. Happily others have used Prof. Phelps' great discovery, Paine's Celery Compound, and this marvelous preparation has strengthened their nerves, filled their system with vitality and brought health and happiness to take the place of suffering and misery.

Under the use of this wonderful restorative, which is purely vegetable and therefore harmless, the dull eye has grown bright, the pale cheek has become rosy, the brain clear, the muscles strong, gloom and depression have been lifted from the mind, weakness and exhaustion have given place to strength and buoyant feelings, and perfect health has been restored. Like nothing else, it is a scientific, health-giving remedy that cures all nervous diseases, gives vigor to the physical organs, and removes all possibility of heart disease, apoplexy, paresis, and the other awful disorders which so frequently end diseases of the nervous system.

Dear Sir,—I am repeatedly asked orally, and by letter, as to your treatment for catarrh (owing to my having been cured by you two years ago) and as to the permanency of the cure. To all such inquiries I feel pleased to say that you cured me of one of the most stubborn cases of catarrh, after I had been treated by several physicians of note without any beneficial results. I am entirely well, and have been ever since. I consider it less than tender you my gratitude for what you have accomplished in my case, and hope you will be the means of helping others. MR. S. C. FINLAY.

He Wishes to Give His Experience to the Public.

Mr. S. C. Finlay of 290 Farley-avenue, an old and well-known citizen, wishes to give his experience with the Medical Institute for the Cure of Catarrh, Dyspepsia and Chronic Diseases, located at 198 King-street west.

Mr. Finlay had suffered for months, had consulted three physicians, one of whom treated him for six months; he continued to grow worse, his appetite failed, had a cough, his liver was inactive and greatly enlarged, the pain in his right lung was hard to bear, the palpitation of his heart prevented him from making but slight exertion, he was generally run down in health and was obliged to give up work, and he had almost given up hope when he was advised to try the physicians of the Medical Institute for the cure of Catarrh, Dyspepsia and Chronic Diseases, located at 198 King-street west, which he did, and in two months was a well man and is so to-day, although it is nearly two years since. Mr. Finlay is a good, conscientious and honorable man, and will be glad to talk with anyone who may wish to call on him.

This institution besides treating Catarrh and Dyspepsia, treats all chronic and private diseases, and this testimonial is only one of over six hundred testimonials which can be seen on application. No testimonial published without consent of patient. Office hours, 9 a.m. to 8 p.m., Sundays, 1 p.m. to 3 p.m.

ENGLISH MAILS.—A mail for England via New York will be closed at this office every day, excepting Sundays and Wednesdays, at 4 p.m., and will be despatched to England by what the New York Postmaster may consider the most expeditious route.

On Thursdays a supplementary mail for London, Dublin, Liverpool and Glasgow, will be closed here at 9 p.m., for the Cunard steamer sailing on Saturday, but to insure catching the steamer the 4 p.m. mail is recommended.

The mail via Quebec will close here on Wednesdays at 7 p.m.

GRATEFUL—COMFORTING.

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packets, by grocers, labelled thus:

ONTARIO COAL CO'Y.

IMPORTERS OF THE CELEBRATED 246

LEHIGH VALLEY COAL.

POSITIVELY THE VERY BEST IN THE MARKET.

30,000 tons of this brand of coal used by the Waterworks department of the city of Toronto during the past three years. The records show more gallons of water pumped per ton of coal than the department ever pumped with other grades of coal. We give more heat per ton of coal than possible for any other grade to give.

THE BEST IS THE CHEAPEST.

We also furnish only the best grades of soft coal for grate use. In steam producing coal we handle exclusively the unexcelled brands, known as Reynoldsville, Soldier Run and Sunday Creek. Best quality of Beech and Maple and Pine Wood always on hand.

General offices and docks Esplanade east, foot of Church-st. Telephone No. 18. Up-town office, No. 10 King-street east. Telephone No. 1059. Branch office corner Bloor and Borden-streets. Telephone No. 3623. Branch office No. 725 Yonge-street: Yard and office 1069 Queen-st. west, near subway.

From June 1885 to June 1886 we supplied the Toronto Water Works 8604 tons of our coal, which pumped an average of 421,479 gallons per ton. The results obtained from Lehigh Valley Coal supplied to the same institution from June 1887 to June 1888 was only 362,871 gallons per ton of coal, and after engines and pumps were thoroughly overhauled under the supervision of the present engineer and put in better condition than ever before, from June 1888 to June 1889 the results obtained were only 415,992 gallons per ton of coal.

The total average of the coal supplied by us was as above 421,479 gallons per ton of coal. The total average of the coal supplied since our contract up to June 1st, this year, has been 398,971 gallons per ton of coal.

The quality of our coal speaks for itself.

ELIAS ROGERS & CO.

TO THE DRY GOODS TRADE.

THE CONFEDERATION LIFE ASSOCIATION will be prepared, should a suitable tenant be found, to arrange in its new building for a large first-class dry goods store. The site is at the N.E. corner of Yonge and Richmond-streets, with a frontage of 68½ feet on Yonge-street by 110 feet on Richmond-street (with a slanting entrance in rear). This is probably the best central position for the purpose in Toronto, being at a point that is reached by all the main lines of street railway but having a fine open street on the South side for carriages, free from the dangers and annoyance of Street railways. Apply to J. K. Macdonald, Managing Director, Confederation Life Association. Toronto, November 11th, 1889.
