Simple, Reliable and Durable.
Every Injector Guaranteed for Two Years.

Range, 25 to 150 lbs, and is the only Automatic Injector in the world that can be operated by opening one valve, and that the overflow. Can have a pipe connected to conduct the overflow to tank or sewer. The only Injector having a Signal Valve to show when the Injector is working; all other boiler feeders not having this cannot be connected to return the overflow to tank or sewer.

OUR PROPOSITION:

As every Injector is tested before it leaves the factory, we know that if properly connected (as in diagram) and instructions are carried out, they cannot fail to work. We therefore offer to PAY THE EXPENSES of any man to come to the factory, and $25.00 PER DAY WHILE THERE, if the Injector does not work, provided it has not been misused.

As the body will last for years, it is only necessary to order working parts to make Injector good as new. Every purchaser can repair his own Injector without sending it to the factory.
