NORTH TORONTO AND ST. LAWRENCE MARKETS.

The markets at both North Toronto and the St. Lawrence were well attended on Saturday, when choice quality offerings continued to bring high prices.

Butter was the feature of both markets, and broke all previous records, when the high price of 50c per pounds was obtained by two ladies, one at each market, for their entire output of the week. Mrs. Alfred Julian of Malton sold fifty pounds at that figure, and Mrs. Geo. Bowes of Thornhill sold all she brought in at the same figure. The bulk, however, still sold at 45c to 48c per pound, and it closed very weak at 42c to 44c per lb., as there was more brought in than for some time.

New-laid eggs were very scarce, and also advanced, a small quantity selling at 75c per dozen, the bulk going at 65c and 70c, and some closing out at 60c.

Poultry was again brought in in large quantities. The bulk of the chickens offered were exceedingly low grade, and thus were a slow sale at lower prices, the really choice ones proving a ready sale at good prices. They ranged from 20c to 25c per lb., the latter being obtained for those sold at so much each to individual customers. Ducks also varied greatly in quality, the majority being poor, and sold at 18c to 22c per lb.; geese bringing from 17c to 20c; turkeys, from 30c to 33c per lb., and fowl from 18c to 20c per lb.

Chas. Pilkie of Ashburn brought in seventeen of the finest chickens seen on the market this season. They were hatched about the beginning of April, and some of them weighed nine pounds, the lot averaging seven and a half pounds each, and were sold to M. P. Mallon at 22c per pound.

The vegetables were generally of choice quality, and continued to sell at practically unchanged prices. Potatoes sold at 50c to 60c per 11-quart basket; small beets at 60c per 11-quart, and 20c to 25c per six-quart; dried onions at 40c and 50c per six-quart; carrots and parsnips at 25c and 30c per six-quart; cauliflower at 40c, 15c, 20c, 25c, and an odd one at 30c each; artichokes at 30c and 35c per six-quart; lettuce at two for 5c, and 25c per dozen; vegetable oyster, 5c per bunch; cabbage, 10c, and two for 15c; celery at 5c, 10c and 15c per stalk, etc.

Apples sold at 30c to 50c per 11-quart basket, and pears at 40c to 50c per 11-quart.

There were eight loads of hay brought on the St. Lawrence, which sold at unchanged prices.

German Admiralty Issue a Statement on Taking of Dutch Steamer.

MAIL CAST OVERBOARD

Newspapers for Foreign Office at London Are Recovered.

Berlin, Nov. 12, via Sayville.—The following announcement was made today by the admiralty:

"A German submarine stopped near Schouwen Bank (off the Dutch coast) the Dutch mail steamer Koningen Regents, bound from Flushing to London. The steamer was brought into Zeebrugge.

"Immediately after she was stopped several bags, apparently containing mail, were thrown overboard from the steamer. One of them, which was rescued by the submarine, contained mainly newspapers for the foreign office at London.

"Thirty hostile citizens of military age, who were on board the steamer, were arrested. One of them was an English soldier on leave of absence from a Dutch detention camp."

A despatch from London, on Nov. 10, told of the seizure of the Koningen Regents. It was said Thomas Smith, Howard Kinblay and William Goodbody, Americans, were on board. The steamer carried 95 passengers, most of them Belgians.

STOCK MARKET HAS IRREGULAR TRADE

Prices of Many Issues Decline on the New York Exchange.

LEATHER DROPS OFF

Bank Statement Shows Enormous Expansion in Actual Loan Account.

New York, Nov. 12.—Revival of peace rumors, echoes of the recent election and reports of over-production in certain lines of industry, notably the automobile trade, probably accounted in varying degree for the irregular and at times unsettled tone of Saturday's market.

Speculative issues, including Central Leather, Industrial Alcohol and less seasoned industries and equipments, were pressed for sale by the professional element with Mexicans, the latter yielding on advices suggesting fresh disturbances across the southern border. Leather made an extreme decline of 5⅝ points, with five for alcohol, 10 for Bethlehem Steel on a few transactions, 2 to 3 for motors and allied shares and 1 to 2 for higher grade specialties, marines and sugars.

United Steel was again the most active stock, making an extreme loss of 1½ points, regaining less than half. Rails were consistently heavy, investment issues, as represented by Union Pacific and Reading, losing over 1 point, with Lehigh Valley, Rock Island and less important shares.

Coppers were the mainstay of the market, particularly Utah, which rose 3½ points to 119¾, a new record. Chino and Ray Coppers also sold at new top prices. Metals were at their best in the later dealings and served to effect partial rallies elsewhere. Total sales approximated 900,000 shares.

General news of the day included recurrent weakness in exchange on Petrograd, accompanied by unconfirmed reports of a hitch in the negotiations attending the latest Russian commercial credit.

The bank statement was noteworthy for the enormous expansion of almost $98,000,000 shown in the actual loan account, this being reflected in large part by increased deposits. A decrease of over $25,000,000 in reserves again brings the total excess slightly under $100,000,000. Bonds were irregular on limited dealings. Total sales (par value) aggregated $1,975,000.

Good Looking Samples Received From Davidson

A box containing about a hundred pounds of samples of the ore from the vein on the 300 foot level of the Davidson was received in Toronto at the week-end, and this is now being sent out for independent assaying. The ore is healthy looking quartz and schist, and exactly similar in character to that broken down in the development of the ore body on the two upper levels, where the vein carried high values over a considerable width.

Aggressive development work is now under way on the 300 foot level, as the management plans to determine the extent of the ore body at this depth as early as possible. Sinking will probably be started again in the very near future, and if the present plans are carried out, the shaft will be continued to a depth of 500 feet and lateral work done there also.

In addition to following the vein on the 300 foot level, the management have resumed work on the two upper levels, where the ore body is to be thoroly developed. Already the vein has been demonstrated to carry values of $21 to the ton over a width of 5 1-3 feet and $11.60 to the ton over 25 feet on the 100 foot level, while on the 200 foot level it has been proven over a width of 42 feet and the hanging wall has not yet been reached.

U. S. STEEL REACHED NEW HIGH LEVEL

Prosperity of Country Offset Disturbing Influence of Presidential Elections.

New York, Nov. 11.—The inference most generally drawn from the week's extraordinary stock market is that the country's prosperity more than offset any of the hazards involved in the outcome of the presidential election. There were intervals when political considerations exercised some influence, but at no time did the controversy have an adverse effect upon high-grade securities.

True to the record of the past three months, numerous new maximums were established, these embracing U. S. Steel, the leading coppers and various other industrials more or less remotely related to the so-called war group, chief among these being Central Leather. Activity in the diversified lines represented by these stocks continued at full capacity and advancing prices.

October tonnage or unfilled orders of the U. S. Steel Corporation ran beyond 10,000,000 tons, a total never before attained, and orders for refined copper were placed for delivery at months hence at the unprecedented price of 32¾ cents. Hides and finished leather continue to soar, and other raw and fabricated products are selling at levels seldom, if ever, recorded.

The one drawback to the movement in stocks was furnished by the rails. Investment issues of that division participated only nominally in the advance, and towards the latter part of the week moderate recessions ruled. The decision of some of the larger transportation companies to test the constitutionality of the eight-hour law may have been a factor.

Except for recurrent depression in discounts to Italy, Russia and the central powers, the exchange markets threw no light on financial conditions abroad. International bond issues were more steady on reduced offerings.

WINNIPEG GRAIN MARKET.

Winnipeg, Nov. 11.—Wheat closed ¼c better for November, ⅜c up for December and ⅝c higher for May. Oats were up 1¼c for December and 1½c for May. Barley dropped ½c. Flax was 4c up for November, 4½c up for May.

For a period in the morning wheat looked very weak, much weaker than it has appeared for some time, but on the break there appeared some very good buying. There was a rally later and prices evened up in little or no time, then continued higher. All grains have advanced during the week, wheat being 10 to 11½c up.

WHEAT ADVANCES ON ACTIVE SALES

Heavy Frost Damage in Argentina Strengthens Chicago Market.

SHIP MILLION BUSHELS

U. S. Exporters Transact Heavy Business in Short Day's Trading.

Chicago, Nov. 12.—Big export sales in the U. S. and heavy frost damage in Argentina gave strength Saturday to the wheat market here. The close, altho unsettled, was ¾c to 1½c net higher with December at $1.89½ and May at $1.93½. Corn gained 2c to 2¾c and oats ½c to ⅝c. In provisions the outcome ranged from 30c decline to a rise of 25c. As near as could be ascertained a million bushels or more of wheat was taken for European shipment, chiefly by way of the Gulf of Mexico. Until the fact was fairly well established that liberal export business in the U. S. had followed the receipt of bullish crop advices from Argentina the upturns in the market here did not prove to be of a lasting character, despite word that estimates of the Argentine exportable surplus had been reduced to 23,000,000 bushels.

Bears, however, finally surfered defeat when it was clear that for the third day in succession foreigners were buying freely. In this connection stress was placed on the primary receipts for the week, which were 9,200,000, but less than during the corresponding week last year.

Houses with seaboard connections were active purchasers today of future deliveries of wheat. On the other hand week-end profit taking by miscellaneous holders operated at times as a decided offset.

Corn mounted to the highest prices yet this season. Rough weather export buying and bullish Argentine crop conditions were largely responsible. Increased country offerings had only a temporary opposite effect. In oats, the principal factor was the strength of corn.

There was also a good export demand for provisions.
