the Messiah. The imposture was fully believed in by the gentleman's wife and sister, who worked upon the man himself to join in the general infatuation which prevailed in his family. At length the false prophetess pretended that she had received a divine intimation that it was heaven's will that he should salute her (the black woman) with a holy kiss every morning, which had the effect to open his eyes, and he immediately, but not without much opposition on the part of his family, discharged her. The wife and sister determined to follow her and become her disciples. The prophetess herself has been consigned to the lunatic asylum, while the wife and sister are now at a private institution at Flushing.

The bill providing for war steamers has passed both Houses of Congress. It provides for 4 first class war steamers, for which $1,000,000 are appropriated.

It authorizes a contract to be made with E. K. Collins, of New York, for four steamers, to run to Liverpool from New York, according to certain propositions he has made to the Postmaster general.

It authorizes a contract with A. G. Sloo, of Cincinnati, for five steamships, to run from N. York (with the mails) to Charleston, Savannah and Havanna, and thence to Chagres, the government not to pay over $290,000, and an officer in the navy to command them. A naval constructor, under the authority of the Navy Department, is to superintend the building of all these ships, and they are to be surrendered to the government if wanted for war purposes.

The Postmaster General is authorized to contract for steamers or sailing vessels to carry the mail between Panama and Oregon.

For the relief of Ireland, Congress has given power to the Navy Department to entrust the U. States ships Jamestown and Macedonian, to carry out provisions.

CALIFORNIA AND NEW MEXICO.—The conquest of California and New Mexico extends the boundary of the United States on the west coast from the 42d to the 32d parallel of latitude. In 1836 the United States territories were 1,407,000,000 acres, the Mexican, 1,081,600,000. Now 502,236,150 acres are taken from Mexico and added to the United States, and the addition of 32,000,000 acres, which Britain has obtained by the settlement of the Oregon question, has made a great alteration in the relative power of the countries. The United States now possess 1,878,236,160 acres, or 2,934,744 square miles; the Mexicans have 579,363,830 acres; Russia has 480,000,000 acres; and Central America, 118,040,000 acres. Estimating California to contain 100,000, and New Mexico 200,000, an union of a population of 300,000 souls has been effected, the greater part of whom are Indians. The New York Sun says, 'that California contains valuable mines of coal, iron, zinc, gold and quicksilver; but for agricultural and grazing purposes its importance has been overrated, the protracted droughts of summer having thus far baffled the skill of the American people.'—*Pictorial Times.*

PUBLIC MEETING AT SPRINGFIELD, KING'S COUNTY.

At a numerous meeting of the Farmers of the Parish of Springfield, King's County, held Tuesday, for the purpose of taking into consideration the propriety of petitioning His Excellency the Lieut. Governor, the Honorable the Legislative Council and the Honourable the House of Assembly in Session convened, Henry A. Scovil, Esq. was called to the Chair, and Samuel Fairweather, Esq., requested to act as Secretary.

The Chairman explained fully the nature and views of calling said meeting, after which the following Resolutions were moved and carried unanimously.

Moved by Mr. Philo M. Raymond, seconded by Mr. W. Greenslade.

Resolved—That the Country Market Bye Law, in the City of St. John, as regards the forcing of Agriculturists into said Market to sell their produce and there taxing them, is contrary to the liberties and privileges of the British Constitution, which is, that no persons shall be taxed, but through their Representatives.

Moved by Mr. Edward G. N. Raymond, seconded by Mr. Wm. H. White.

Resolved—That the present Country Market Bye Law of the City of Saint John is an unprecedented and unparalleled grievance to the Farmers selling their produce in said Market—Therefore Resolved, that a Petition be presented to His Excellency the Lieut. Governor, the Honorable Legislative Council, and the Honorable House of Assembly, praying that an act may pass to regulate the same.

Moved by Mr. Wellington Troop, and seconded by Mr. Jas. J. N. Scovil.

Resolved—That we, the Farmers of Springfield, in King's County, do with others of our neighbouring Farmers, consider that the City Bye Laws (relative to the Country Market therein) imposed upon us are unreasonable. We, as Farmers, only seek for a just right to sell our produce to the best advantage, without being under the controul of the now City Bye Laws, as we have no other Market but the City of Saint John for our produce.

Moved by Mr. J. J. M. Scovil, and seconded by Mr. Philo M. Raymond.

Resolved—That a Committee be appointed to prepare a Petition to His Excellency the Lieut. Governor, the Honorable the Legislative Council, and the Honourable the House of Assembly, praying that His Excellency and their Honors would prepare and pass into Law, an Act whereby no Bye Law of the Corporate Body of the City of St. John, should be binding on us, unless sanctioned by the Government.

Moved and seconded, that the Chairman do now leave the Chair and that Mr. Wm. Greenslade do take the same.

The Chairman having left the Chair, it was moved and seconded, that the thanks of this meeting be given to Henry A. Scovil, Esq., for his able conduct in the Chair.

The meeting then adjourned.

SAMUEL FAIRWEATHER,
Secretary.

Springfield, K. C.,
Feb. 18, 1847.

There is, perhaps, no disease with which our country is affected, which sweeps off annually so many victims, as that fell destroyer of the human race—Consumption. Day after day, year after year, the insatiate monster hurries to the portals of the cold and silent tomb, fresh added victims to its conquest. No walk of life is sacred from its blighting influence.—No age is exempt from its death-dealing shafts. The old, the middle-aged and the young, all alike, are food for this common enemy of mankind. The white haired patriarch, whose life of temperance has rendered his system impervious to the attacks of other ills, and whose good deeds prepared him for the enjoyment of life's calm evening, finds consumption fastening its fangs upon his vitals, and tearing him from a world, ever bright to minds which look complacently on days well spent.

Is there no help for the afflicted? No preventive of the dangers which beset us in our changeable and fickle clime? We think there may be. And if the allegations of those who are at least entitled to veracity, may be believed, there is a preventive and a remedy.

Wistar's Balsam of Wild Cherry is offered to a suffering world as such. It needs not the "adventitious aid" of a long string of fictitious certificates to give it notoriety. Its true value and intrinsic excellence are sufficient to entitle it to the confidence of the public, and

"Waft on to fame"

the name of its inventer, as a benefactor of his species

For sale by Peters & Tilley, King's Street. St John N.B.
