Gossip From Chicago.

Smith & Priestman's correspondents wire: The slight break to-day we look upon as the result of speculative conditions rather than anything else, and believe our market has demonstrated its buoyancy sufficiently of late to deter indiscriminate short selling. We think property bought on any of the breaks now will make money.

R. Cochran's advices say the crowd sold wheat off early on lack of business and foreign news and bought it back later on reports of large engagements for export.

Lower prices are anticipated in Chicago next week.

It is predicted that the increase in the visible will be a large one this week.

Clearances of wheat and flour from both coasts for week 3,154,000 bushels; from Atlantic to-day 291,000 and for week 1,542,000 bushels.

Drummond & Brown's correspondents wire: It may be possible on light receipts of hogs that we shall see some strong places in provisions, but believe each day now provisions are nearer the Sept. option, and there must be great deal liquidation of long stuff in this option. We would advise our customers intending to carry provisions to change them while difference is as light as it is now. We fully believe will be greater as we near 1st Sept. Feel that next 30 days provisions are a sale on all rallies.

J. J. Dixon & Co.'s correspondents: Provisions were, if possible, more dull than grain, but the three days' receipts of hogs in the west fell 110,000 head under same dates last year, making 1,446,000 head below last year for the summer season to date. We regard the markets as generally healthy in tone and inclined to remain steady or harden, except for occasional bear raids.

GRATEFUL—COMFORTING

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
