anyone stealing the Colonist from the doors of subscribers.

THE BOYAL VISIT.

The date of the royal visit to Victoria party will remain in the city until the 3rd of the month before beginning their return journey.

Arrangements for the proper reception of our distinguished visitors may now be begun. We understand that steps are to be taken immediately to call a public meeting of citizens to consider

The Southern Mainland section we have described as that portion of the province which lies between the Canadian Pacific railway's main line and the International boundary, but as we explained when adopting this arbitrary division, adjoining districts merged int, and therefore in considering the south of the province which lies between the Canadian cities in the province which lies between the Canadian cities in the province which lies between the Canadian cities in the province which lies between the Canadian cities in institution of stamp mills.

The principal scene of mining operations.

Victoria, the capital of British Columns for the way to dum saying that if the residents in the netice given to ewners is a memorangular that if the residents in the neighborhood of a wash-house do not valley to support live stock and prosecute dairying.

RENEWED VIGOR

Men who lack the vigor and snap of youth, who have "grown old" too soon; who have been debilitated and weakened by mental overwork, worry, youthful errors or later excesses, who would care for an honest opinion as to the possibility of having such power returned—to these I am pleased to offer my advice and consultation free. During my 30 years' experience as a specialist I have

ested all medicines known to science for such disorders and I pledge my word that not one case out of every hundred can be cured by drugs. The reason is that stimulants must be used, and after treatment is left off the trouble returns. The best and surest remedy I have found to be the pure galvanic current of Electricity PROPERLY applied. I would have no reason for saying this were it not true, for I can give medicines if the patient desires. I pin my faith to Electricity because it is a NATURAL cure, and does not STIMULATE, but STRENGTHENS. hence the results are permanent. Every one has heard more or less of the Dr. Sanden Electric Belt, but I now offer in my 1901 Dr. Sanden

HERCULEX BODY BATTERY.

an appliance which is far superior to any electric belt that was ever made. This new Herculex is worn comfortably about the waist nights while you sleep. The organs drink in the electricity like a sponge does water. It is this continuous flow of the gentle, soothing, strengthening current that tells. Over 500 cured in 1900.

FREE BOOK. FREE CONSULTATION.

To those who live near by I would request a personal call, as I am here to offer free advice, and will thoroughly explain my Herculex Body Battery and give test of current. If at a distance write for my descriptive book, "Health in Nature," sent sealed free by mail. It gives much valuable health advice and also fully describes Herculex with suspensory attachment, Herculex with special attachments may be used by women as well as men in Nervousness, Lame Back, Rheumatism, etc. Write or call to-day.

Dr. A. W. Sanden, 474 Main Street, Winnipeg. Office hours 9 a.m. to 6 p.m.

unsettle the value of investments. No paper telling of what a lot of amiable JOSHUA DAVIES one regrets these more than does the American politicians are doing.
