WATER SUPPLY FOR BEACH.

Commissioners are Having Plans Prepared For Separate System.

Burlington May Negotiate With Hamilton to Supply Water.

Appeal Against Martin Estate Laid Over Until Saturday.

The Court of Revision yesterday afternoon postponed the Martin Malone appeal against the assessment on the Martin estate because proper notice had not been served on the trustees of the estate. The court will take the case up on Saturday morning at 10 o'clock and Mr. Malone announced that he would subpoena the trustees of the estate to appear and make a declaration as to Mrs. Martin's income. Mr. Malone also secured an order from the chairman asking T. H. A. Begue, Clerk of the Surrogate Court, to produce a copy of the will of the late Edward Martin, K. C., and any other papers in connection with the estate.

The Federal Life's appeal was referred to the assessment department to be adjusted on the basis of the ratio of the rental paid by the various tenants to the total assessment of $150,000. The business assessments will be on the assessments arrived at in this way.

Moore & Davis, on various property around the city on which the total assessment aggregated $28,600, got a reduction of $1,300.

John Brill, 86 Magill street, appealed against $1,000 income and the court struck off the whole amount.

The Beach Commissioners evidently intend entering upon their extensive scheme of improvements on the sand strip without delay. They have requested City Engineer Barrow to prepare a plan for a system of water supply for the Beach residents. Instead of getting the water from the city, as was expected, they are figuring on a separate system, using a small electric pump of sufficient capacity to meet the demand for domestic purposes and fire protection.

The idea suggested some time ago of Hamilton, when it got the new electric pumps installed, supplying surrounding places with water appears to be meeting with favor. Dundas is now negotiating with the city with a view to making an arrangement of this kind, and it is said Burlington will shortly ask for a conference on that subject.

The waterworks officials are very much annoyed at the waterworks by-law, on which so much time has been spent, being referred back again. They say it is impossible unless every service is metered to get a by-law that will not discriminate. About $6,000 has been spent this year putting on metres, and they say that unless the by-law is passed this money is wasted.

The work of cleaning out the James street reservoir was begun at 5 o'clock this morning, and the pressure had dropped to 25 pounds by 9 o'clock. The Barton street reservoir is being used in the meantime.

Mr. Barrow says that Contractor Lyne began repairing the frame work on the sandsucker this morning.

Alex. Milne was granted a permit this morning for a brick house on Mary street between Wilson and Kelly street. It will be done by day labor.

The Parks Board will hold its regular meeting at 4 o'clock to-morrow afternoon.

The special committee to investigate the City Engineer's department with a view to reorganization will meet to-night, when it is expected that some definite course will be decided upon.

Dr. Roberts, Chairman Quinn and Mr. Thomas Crooks of the Board of Health had a conference last evening with General Manager Hawkins of the Cataract Power Company regarding the proposal to fill in Coal Oil Inlet. Mr. Hawkins promised to give them a written report shortly of the estimated cost and other information.

Traction Manager Green has notified the city officials that the company will fix up the two blocks on Main street east temporarily, as ordered by the city, to accommodate traffic until the city is in a position to finish the asphalt work in the spring. The company is also going to brick and asphalt the road back of the Terminal station where all the tracks run in.

A sub-committee of the Board of Works and Parks Board will meet this evening to deal with W. D. Flatt's offer re the site in the west end for a park.

Hon. Adam Beck was in the city yesterday in connection with the box factory he proposes establishing here.

BARBERS DENY IT.

Masters Say None Has Applied to Get Card Back.

A meeting of the East End Master Barbers' Association was held last night, and all of the bosses who decided to ignore the order of the Journeymen Barbers' Union reported that they intended to continue keeping open after 11 o'clock on Saturday nights and on the mornings of holidays falling on Monday. One of the bosses said this morning that there was no truth in the statement published last night that three of the shops had applied to have the union cards again. He said further that there are union cards in four shops that have been kept open both Saturday nights and in one case the secretary of the union was told to call for the card. He said the union apparently was anxious to "buck" only the leaders of the movement to keep open on Saturday nights.

WHERE IS ZAMBOS?

Unconfirmed Rumor That He Had Died in Chicago.

The Olympia Restaurant, King street east, is closed and on the door is a notice which says "Stock taking." James Zambos, a Greek, the nominal proprietor, has been missing for ten days, and many creditors are enquiring about him. The liabilities are about $2,500, it is stated. His brother, John Zambos, who has been in charge of the store since a week ago Sunday, says he has had no word from the owner of the eating house, and he doesn't know where he is. There is a rumor among the Greek residents that Zambos was found dead in a hotel in Chicago last week, but it has not been verified.

The lease of the store is in the name of Mr. P. Christopher, who claims he has lost about $1,500 in the deal.

HAS LOCKJAW

And Fred Mahon Has Little Chance of Recovery.

Fred. Mahon, 113 John street south, lies dying in the City Hospital, the result of what was at first thought to be a slight accident, but which has developed into lockjaw with probably fatal effect. Mahon was employed on a vessel, and while working at Kingston, unloading, a derrick slipped and injured his foot. Mahon was brought to Hamilton, and, eight days after the injury, symptoms of lockjaw developed. On Sunday his condition became so serious that he was removed to the Hosiptal.

The patient's jaws became tightly locked, and last night he was seized with convulsions. He is resting easier today, but the physician attending him, Dr. Lafferty, says his chances for recovery are doubtful.

Mr. Mahon expected to receive captain's papers this year. He is a bright young man, and has many friends, who will regret his unfortunate fate.

ALLEGED SNATCHER.

Frank Anderson, who is well known to Hamilton sports as a road racer, was arrested at noon to-day by Constable Harry Sayers, while he was at work. He is suspected of being the man who has been snatching purses on the mountain side on the Queen street steps. Mrs. Burgoyne is the complainant. Sayers has been on the track of Anderson for some time, and has been doing duty in plain clothes.

Teddy Bears.

The Teddy Bears have come to town—and they have made their headquarters at Stanley Mills & Co's. store. This store's big show window presents a merry scene just now. The Teddy Bears are having a picnic in the woods; some are fishing, some are playing games, some climbing trees, and the daddy of them all is carrying three little Teddies on his back.

Soon these little merry-makers will be picked up by Santa Claus for the good boys and girls of Hamilton, but in the meantime you must not miss seeing them.

Another feature of the Teddy Bears' visit is the Teddy Bear Limerick, which Stanley Mills & Co. are running this week. It costs nothing to compete, and there will be five money prizes given away. Take a try at it yourself, and be sure and see the window display

RECOVERED THE COAT.

The local police have recovered a sealskin coat which, they say, was stolen from a Toronto house by Louis Lawrence who was arrested in Burlington last week and taken to Brampton on a charge of breaking into the G. T. R. station there. He will probably go to Toronto on several charges after the Brampton authorities are through with him.

HAMILTON MAN.

SENTENCED TO FOUR AND A HALF YEARS IN SING-SING.

New York, Nov. 12.—(Special)—William Downing, a young man who said he was an iron worker and had never been convicted of a crime before, born in Hamilton, Ontario, where he had last been employed till eight months ago, in the Westinghouse Electric Works, was given a severe sentence yesterday by Judge Rohalsky in Part one of the Court of General Sessions for illegal voting. The Judge sentenced him to not more than four years and six months in Sing Sing prison for voting, once under the name of William Downing, of 18 Chatham square, and soon after voting under the name of Martin Hadin, in the sixth election district of the first assembly district. He said he had been drinking to excess on election day, and a friend, Martin Hadin, had asked him to go over and vote for him.

Judge Rosalsky was satisfied that Downing was a simple ordinary repeater and that he had been hired to vote illegally by some one "higher up," and had undoubtedly voted many times before finally arrested. He offered a very light sentence to Downing if he would confess to how many times he actually voted and disclose the sum of money which he received and who the leader was who paid him and employed him to do the repeating. Downing seemed to have plenty of money, and he had an attorney, who endeavored to move the court to deal leniently with the accused, but the judge would not relax unless he got a full confession as to the man higher up. This, under advice of Downing's counsel, was not given by the prisoner, and he left for Sing Sing this morning, without making any disclosure. It bids fair to be a celebrated case yet.
