Combined Fronts Extend For Seven Thousand Five Hundred Miles.

OMSK, Wednesday, July 9.—(Russian Telegraphic Agency, delayed.)—Four armies of Admiral Kolchak's all-Russian Government are fighting the Bolshevists on four fronts that extend for 7,500 miles, the general staff announced today.

These fronts are the eastern, southern, northwestern and northern fronts. The eastern front stretches from the mouth of the Pechora River to the Caspian Sea, and along it are troops of the Siberian army and all Cossacks, except those under Gen. Denekine. The southern front reaches from the Caspian Sea to the Dnieper River, where the volunteer army, the Don and Tersk Cossacks and mountaineers of the Caucasus are fighting under Gen. Denekine.

Along the northwestern front, running from south of Pskov to Petrograd, Russian and Esthonian troops are grouped. On the northern front, from Onezhsk Lake to the mouth of the Pechora River, the army is commanded by Gen. Muller.

PROPOSE 3 HYDRO RADIALS FOR GALT; ONE IN PLACE G.R.R.

Mayor and Council Ask Sir Adam Beck to View Galt Situation.

GALT AND G. R. R. AT WAR

Grand River Railway Threatens to Vacate Rather Than Pay For Paving.

GALT, July 22.—While Guelph considers leasing its electric railway to the Grand River Railway, which is the property of the C. P. R., Galt is about to launch a movement to bring a hydro radial here to take the place of the Grand River Railway, on Water street, from which it threatens to vacate rather than pay its share of a pavement on this main thoroughfare, and instead, enter the city over a private right of way.

The war is on, and Mayor A. W. Mercer has openly challenged the Grand River Railway. Provided with cars on this main thoroughfare, and in its place, he would let a hydro radial enter the city, believing that this district provides a good place for a start on hydro radials in Western Ontario.

Invitation to Sir Adam.

Mayor Mercer today, with authority from the city council, forwarded an invitation to Sir Adam Beck, to come to Galt and, at a date convenient to him, look over the local situation and address a meeting of representatives of interested municipalities. Since the Grand River Railway intimated a few weeks ago that it would not seek a renewal of its franchise on Water street, Mayor Mercer has been carefully considering the situation, and while the removal of the railway tracks from Water street does not mean the loss of the line, it leaves an opening, and he feels that the hydro radials could profitably fill the gap.

Propose Three Lines.

Three lines are proposed, one to Preston, across to Blair, and then electrify the Galt-Elmira branch of the G. T. R. to Kitchener and Elmira. The second line would be from Galt, direct to Hespeler, a route three miles less than the present line, and proceed direct to Guelph. The third line proposed would be to Hamilton, which would give connection with the hydro radial there and much-desired connection with the water front and Niagara peninsula, and would reduce electric radial mileage to the Ambitious City by over twenty miles. This line has long been talked of, and it would cover a splendid territory.

Mayor Champions Hydro Radials.

Mayor Mercer, who has had railroad experience, has become a champion of hydro radials, and he is backed by his council in his latest move. The Grand River Railway has been asked if its recent letter intimating that it would not seek a renewal of its franchise on Water street is official notification to the council. The paving of Water street has now been held up for some time, and the city fathers are anxious to put down a better street, but have first to settle the street car question.

COMMITTED TO JAIL, RELEASED ON BAIL, BACK AGAIN TO JAIL

H. A. Faubert In Again, Out Again, In Again at St. Thomas Jail.

ST. THOMAS, July 22.—After being committed to jail for forgery and being allowed out on a bail of $2,000 placed by his own brothers whose name he is alleged to have forged on a note of $200, H. A. Faubert, a local man, was rearrested a few hours after he had been given his freedom and again lodged in the county jail on a second charge of obtaining money under false pretences. Faubert, represented by Barrister Grant, appeared in court this morning after being on remand for a week. He appeared before the judge and was allowed bail as above stated. He left the jail, and a short time afterwards was rearrested on a charge laid by F. S. Brickenden, to whom he gave a chattel mortgage and obtained money on goods which he did not possess or own. As a result of this experience he was merely away from the jail from the time he enjoyed his breakfast with the other prisoners, and was again arrested in time for dinner.

Furious Storm Floods Guelph, Uproots Trees

90-Mile Gale Does Great Property Damage in 30 Minutes.

GUELPH, July 22.—The effects of the worst summer storm that ever struck the city, which hit Guelph yesterday afternoon, and lasted just thirty furious minutes are now being reported.

Over fifty-nine maple trees have been uprooted or lost great limbs. The damage to property has been considerable. There was no loss of life, but one boy, Kenneth Croft, just escaped being electrocuted by a live wire. He was rescued with great difficulty after respiration had apparently ceased. He will recover.

According to officials at the O. A. C. the velocity of the wind was over ninety miles an hour. The rain came so suddenly and lasted so short a time that no official gauge was obtained. It is considered the heaviest ever seen here. Many of the streets were flooded to a depth of a foot above the sidewalks, and it is feared that the city will have to face many suits for damages due to the inability of the storm drains to carry away the phenomenal rainfall.

Police Believe Chatham Has a Clever Booze "Ring"

CHATHAM, July 22.—Further indications that Chatham is the headquarters of a clever whiskey ring have come to the county police authorities, and that it is connected with the recent haul of scores of cases of whiskey from a Pere Marquette freight train at Blenheim is practically certain.

Investigators into the recent robbery have learned that a large number of automobiles reached the city shortly after the Blenheim haul with mysterious cargoes. Shortly after this incident a type of bottle made its appearance in the city, which indicates that the cargo has been partially distributed here.

It is said that as high as $15 a bottle has been paid for the liquid. Police officials say that wealthy men are behind the ring, which they admit is a clever one.

LIVE STOCK.

Toronto, July 23.—The trend of cattle prices this morning was generally weaker, except in canners and the commoner varieties, which showed activity owing to the rising market in hides. Lambs were firmer and calves steady, while hogs were again selling at last week's higher prices, despite the effort of the packers yesterday, by lower bidding, to get them cheaper.

Montreal, July 23.—The offerings of live stock at the C. P. R. stockyards amounted to 100 cattle, 350 sheep and lambs, 1,500 hogs and 500 calves. Trading was active.

Hogs were strong, selling at $24 for choice selects.

Calves sold at $10@15 for good milk-fed stock, and were in good demand.

Some spring lambs sold at 17@18c per lb.

Choice steers sold at $12@13 per 100 lbs; good, $10 50@12; medium, $8@10; choice butcher cattle sold at $10 50@12 for cows and bulls, while good quality was $9@19, and medium down to $7.

GRAIN.

Chicago, July 23.—Opening: Corn—December, $1 67.

Oats—September, 62c; December, 84c.

Chicago, July 23.—Higher prices for corn today accompanied higher prices for hogs. December, the principal delivery of corn, rose to the topmost level yet this season. Dry weather, as well as the soaring of the hog market, stimulated buying of corn. Opening quotations, which ranged from ½c to 2c up, were followed by moderate additional gains in some cases.

Oats went upward with corn. However, after opening ⅛c to 1c higher, the market tended to sag.

PROVISIONS.

Chicago, July 23.—The basis for the cost of lard, bacon and pork rose to a new record today. Live hogs this morning were selling at $23 35 per cwt, as against $23 yesterday. Until today $23 was the highest price ever reached.

Decrease in the number of arrivals of hogs is the reason given for the new record-breaking advance of prices.

Chicago, July 23.—Provisions scored a material advance all around owing to the strength of hogs and corn. Trade, though, was dull.

KITCHENER COMMISSION EXPLAINS DISCHARGE OF CHIEF ENGINEER

KITCHENER, July 22.—It was announced here today by the water commission that Chief Engineer Walker of the waterworks, had been discharged from the service of the commission owing to the fact that he had failed to put into operation the air compressor pumps which the commission had secured on June 6, and which were to have been put in immediately in order to overcome the water shortage here.

WALL STREET.

New York, July 23—Wall Street, 10:30 a.m.—Many extraordinary gains were recorded at the buoyant opening of today's stock market, the advance resulting in a further rout of the shorts. Crucible Steel led at an initial rise of 4½ points, which was soon extended to 6. Bethlehem Steel gained two and oils, notably Royal Dutch, local and foreign, also were very active and strong. The movement embraced equipments, motors, coppers, shippings, leathers and textiles, but rails lagged except for the firmness of low-grade shares.

1:30 p.m.—Steels, equipments and shippings were subjected to moderate pressure at noon, but soon rallied on the greater strength shown elsewhere. Trading switched largely to food and affiliated shares, also local tractions, at extreme advances of 1½ to 4 points.

YARMOUTH, July 22.—The question of a new school in S. S. No. 18 to relieve the congestion was settled last night at a largely-attended meeting of the ratepayers. The work on the new structure will begin at once. The ratepayers have been discussing a new school or addition in this district for nearly five years.
