DECLINE IN PRICES OF STRAWBERRIES

Plentiful Supply of Canadian Product Supplants American Fruit.

MANY LOCAL SHIPPERS

First Arrivals of Green Peas, Canadian Cherries and Gooseberries.

Canadian strawberries triumphed at last, as there were about 1500 cases shipped into the city yesterday, and not any American. The large receipts made the price descend from two to three cents per box, and they sold at from 10c to 14c per box.

Some of the Canadians shipping strawberries to Toronto at the present time are: C. G. Appleby, Bronte; M. I. Davidson, Burlington; J. Hilliard, Freeman; B. J. Dynes, Burlington; Clement Lemon, Aldershott; Mrs. M. Smiley, Aldershott; J. F. Stephenson, Burlington; John Horn, Aldershott; Wm. Weir, Niagara-on-the-Lake.

The first shipment of green peas came in yesterday from W. C. Oughtred of Clarkson, to McWilliam and Everist, and sold at 60c per small basket.

White & Co. and McWilliam & Everist also had the first Canadian cherries, coming from Brooman of Niagara-on-the-Lake, and D. H. Brown of North Pelham, respectively, and sold at 75c per small basket, and $1.50 to $1.75 per large basket.

There were also some splendid gooseberries and asparagus from W. Staples of Aldershott, selling at $1.25 per basket.

White & Co. also had their first shipment of fresh lobsters yesterday, coming from Shediac, New Brunswick. This edible marine decapod crustacean selling at 25c and 30c per lb.

OFFERINGS LIGHT AT STOCK YARDS

Cattle Receipts Comprised Many Grass-Fed Animals, Slow of Sale.

CHOICE STOCK WANTED

Offerings of Hogs Large and Buyers Were Indifferent to Trading.

Receipts of live stock at the Union Stock Yards yesterday were 73 carloads, comprising 506 cattle, 3680 hogs, 681 sheep and lambs, and 274 calves.

Receipts of cattle were light; the quality, generally speaking, was not nearly as good as that of Monday's offerings, as there was quite a sprinkling of grass fed amongst the lot.

Trade in cattle was quiet at steady prices, compared with Monday's market, when quality is considered. The top prices reported were $8.35 to $8.45 for a few lots of choice cattle of light weights.

The cow and bull market also held about steady.

A few lots of stockers changed hands, and the prices paid would indicate that there is a mucn easier feeling for this class than some little time past.

The calf market was strong at unchanged prices.

There was a good steady market for sheep and spring lambs. The prices reported would indicate that spring lambs were lower, but the quality of the lambs on sale was not nearly as good. Choice lambs of heavy weights would bring as good prices as were paid on Monday.

There being 3680 hogs on sale yesterday caused the buyers to be quite indifferent from what they usually have been some time past. Out of the above number of hogs, 1031 came from the northwest, and 17 carloads more are reported on the way to this market. Prices were reported unchangeu, but a few very select lots brought 5c to 10c more.

Butchers.

Choice butchers' steers by the load sold at $8.25 to $8.40; choice steers and heifers at $8 to $8.25; medium to good at $7.30 to $8.10; common, $7.30 to $7.65; choice cows, $7 to $7.35; good cows at $6.50 to $6.90; medium cows, $5.75 to $6; canners and cutters, 175 to $4.75; bulls, $6.50 to $7.50.

Stockers and Feeders.

An indifferent demand, showed that stockers and feeders were not selling as high as they were even last week. The top price reported was $7.50, the range being from $6 to $7.50, which is still very high when the quality is considered.

Milkers and Springers.

Receipts of milkers and springers were moderate. There was a fair demand, especially for the best grades. Prices ranged from $60 to $85 for the bulk, but 2 extra quality cows, one a Shorthorn grade, the other a Holstein, both fresh milkers, sold at $90 and $100 respectively.

Veal Calves.

The calf market was again firm, and prices ranged from $7 to $11 each, the bulk selling from $8.50 to $10.50, the market closing very strong.

Sheep and Lambs.

When quality was taken into consideration the sheep and lamb prices were as firm as they were on Monday. Light sheep sold at $6 to $6.25; heavy at $4.25 to $4.75; spring lambs at $6 to $8.50.

Hogs.

The hog market ruled about steady. Selects, fed and watered, $7.85; $7.50 f.o.b. cars, and $8.10 weighed off cars.

What the Grain Brokers Say

Ware & Leland: There seems at the moment to be nothing in the wheat situation outside of temporary congestion to sustain values, and we believe prices will gradually work lower.

Logan & Bryan: Would guard against overselling on the sharp dips in wheat, but it certainly looks like a safe sale on all temporary bulges.

Thomson & McKinnon: Can see no possibility of any material advance and favor sales of wheat on very moderate rally.

Finley, Barrell & Co.: Advise sales of wheat on all hard spots.

S. B. Chapin & Co.: Believe wheat prices will work gradually lower.

Valuable Alberta Oil Rights Near Flowing Discovery Well

FOR LEASE

ONLY 2½ miles southeast of the flowing Dingman Well, near Calgary, perpetual oil rights on 80 acres can be secured. Recently this Dingman Discovery Well flowed 2000 gallons in 18 minutes—a phenomenal test, pointing to remarkable oil possibilities in Alberta. Numerous other Wells are being bored. The next oil strike is expected daily—which, when it comes, will prove the field. The Alberta field has been carefully examined by Cunningham Craig, the eminent English geologist, who says: "The more the country is studied the more evidence we have that somewhere beneath us is a great petroleum factory."

PROPERTY (S.W. of Sec. 3, Tp. 20. R., 2 West of 5th) is in the Turner Valley. Basing near the apex of the Anticline, where it is generally predicted that a large body of oil will be found. It is reported that a subsidiary company of the Standard Oil will drill near this property.

CAPITALISTS and others would do well to investigate. Prospects of large profits. Excellent holdings to form an incorporated oil company, or for private profit. For map, price and complete information apply to

Growing More Fodder.

From various parts of the province come reports that the crops are suffering from lack of rain, says the current issue of Bradstreets. These reports are fairly general, except from the counties along the Lake Erie and St. Clair shores. Unless the prevailing dry weather is relieved soon, indications point to a poor crop of hay and feed grains. Small fruits, too, are a little behind in some parts on account of the drought.

The acreage planted to corn this year is expected to show a considerable increase. The live stock industry has received such stimulus lately that farmers are growing greater supplies of fodder for their own use. This increased tendency to go into the raising of cattle for the beef markets is also having its effect on offerings of dairy produce. The large number of calves now being kept for beef is causing many farmers to save their milk for churning, instead of sending it to the cheese factories. In this way the skim milk can be used for feeding purposes. Hence, supplies of butter are plentiful while offerings of cheese are not large.
