QUIET CLOSE TO THE LOCAL CATTLE TRADE

With receipts of less than 100 fresh cattle at the Union Yards yesterday, trade was practically at a standstill, the whole market being characterized by extreme quietness. Receipts this week have been more than ordinarily small and there is no denying the fact that it has taken a lot of work to get the market cleaned up and at last night's close there were quite a lot of cattle lying around here and there. The drovers have not had a very good week of it and the outlook is none too good.

As usual when a holiday comes on a Monday the exchange will be open for the transaction of business.

In the small stuff the market continues steady to strong for the sheep, lambs and calves with the hogs selling at 20¼c to the farmer, 20½c f.o.b., 21½c fed and watered, and 21¾c weighed off, and weak at these prices.

OPIUM EVIL WANES.

Ottawa, July 29.—The opium evil in Canada is fast being overcome, according to Dr. J. A. Amyot, assistant director of health, who is back from an extensive trip across the Dominion. The act to further regulate the drug traffic, passed at the last session of the house, is to come into force on September 1 next. This act licenses every person dealing in any way with preparations containing opium and compels a detailed entry of all shipments of the drug, both to and from Canada. It also limits the places of entry and export for opium.

GRAIN MARKET WAS DEPRESSED

Effect of Bearish Reports After General Advance in Prices.

Chicago, July 29.—Attention to bearish reports on the financial outlook counted today in depressing the grain market after an all around advance. Wheat closed heavy, 1¼c to 1½c net lower, with December 233¼ and March 236¼. Corn finished 1c to 2½c down, and oats varying from 1c to 1⅛c decline to 1¼c gain. The outcome in provisions was a setback of 2c to 15c.

At first the wheat market had an upward tendency with other cereals owing largely to apprehension that dry weather might injure the corn crop. Later, however, the fact that export bids were 6c to 8c lower put a weight on the market, and so, too, did the weakness of foreign exchange. Besides, the spokesmen for one of the largest firms on the board here was quoted as saying that borrowers' difficulty in obtaining money was placing the grain trade in an embarrassing position.

Sharp upturns, with which the day opened in the corn market, were more than wiped out in the last hour. Bears made much of assertions that rural buying did not have the volume which genuine uneasiness about lack of rain would warrant.

Oats were governed almost entirely by the course of other grains.

Provisions advanced and then reacted with corn.

MONTREAL PRODUCE MARKET.

Montreal, July 29.—On the local grain market today prices for cash oats were unchanged. The market for flour is quiet with a steady undertone. The tone of the market for mill feed is firm, with demand steady. The demand for rolled oats is quiet. There are no changes in the prices of baled hay. The potato market is active with prices steady, but a reduction is looked for. The egg situation shows added strength, and continued firm and advancing market is indicated. The market for butter is easier owing to limited demand. The trade in cheese continues slow and unchanged.

ECREMENT HEARING AGAIN POSTPONED

New York, July 29.—On the request of Eugene F. McGee, attorney for Arthur Ecrement, who is held without bail at Ellis Island pending investigation of his status under the immigration laws of the United States, a further postponement of the case was granted today, the hearing being set for next Tuesday. The lawyer's illness was the ground for adjournment.

Ecrement, formerly M.P. for Berthier, Quebec, is wanted in Montreal to explain certain financial deals in which several Canadian business men lost large sums. The hearing here is to determine whether he was duly inspected when he crossed the line from Canada and came to New York.

ODDFELLOWS' MEMORIAL.
