between Mr. Smith's gig
ton Club gig *Hazard.*—A

challenge was given by the crew of Mr. Smith's gig to row against the Carleton Club crew for the sum of Thirty Pounds a side, a distance of six miles, prior to the Carleton crew going to Halifax. For some days the race was delayed in consequence of the expectation that the Carleton crew would have to proceed immediately for Halifax; finding, however, that the Haligonians required a further respite, they accepted the challenge of their nearer neighbours, and at ten o'clock yesterday morning the two boats started in beautiful style, from Reed's Point to go round Partridge Island, and back to the place of starting. As usual, the race was won in a masterly and superior manner by the Carleton Club gig *Hazard.*

A Company of the Royal Artillery, under command of Major LOCKE, arrived here from Halifax on Saturday morning, in the steamer Nova Scotia. They relieve Capt. Strowe's Company, which left here in the steamer North America, on Tuesday evening, for Halifax.

"The Bravest Man in the British Army".—Sir JAMES M'DONALD, arrived at the St. John Hotel on Wednesday evening, from Halifax, and left in the steamer *North America*, yesterday for Boston.—Our readers will recollect that a short time since we published an anecdote illustrative of the high opinion entertained by the Duke of Wellington of Sir James, the substance of which was, that a short time since, the Duke was waited upon by the Executors of the Will of a deceased gentleman, who had left £500 to the bravest man in the British Army; they called for the purpose of handing him a cheque for that amount. The Duke thanked them for the compliment, but declined receiving the money, alleging that the British Army contained many as brave men as himself, but requested them to defer the matter for a few days, he becoming arbitrator in the matter; at the appointed time, his Grace named Sir James M'Donald who defended with the most chivalrous bravery, the post of Hugemont, being the entire key to his position. The executors accordingly repaired to Sir James and acquainted him with the Duke's decision, and tendered him the money. Sir James expressed himself highly flattered, and observed that although he should not attempt to dispute the Duke's decision, yet that he should share the money with Sergeant-Major Fraser, of the Coldstream Guards, who assisted him to close the gates of Hugemont, when the French troops rushed upon the position with such irresistible force that the gates of the farm were burst open, and the fate of the position appeared doubtful.

Mr. WHITE the popular Lecturer and Melodist, who is now on the eve of his departure for England has announced that he will appear for the last time in America, on Monday and Tuesday evenings next, at the *Friary Hall*. So much already has been said in commendation of the rare and varied attainments of this gentleman, that any thing additional coming from us at the eleventh hour would be superfluous. We cannot however conclude this brief notice, without expressing a hope that our citizens generally on the forthcoming occasion, will by their presence, prove to Mr. White, that they can appreciate the man, whose genius has already been consecrated not only by the admiration and approval of a Moore, a Hemans, and an Irving, but by what we think, should prove even more gratifying to Mr. White's feelings, namely, the applause of a discriminating Public.

Death by Drowning.—We regret to learn that during the strong breeze last Monday, a man named Robert Smith, who was on board a wood boat near the head of Long Reach, was knocked overboard by the boom, and lost his life. His remains had not been found when our informant left.—*Gazette.*

It is reported that in consequence of the infirm state of Chief Justice Chipman's health, his medical advisers in England, have recommended his retirement from the performance of his official duties; and that it is probable that his honor will retire from office. We have also heard it stated, that the offer of Knighthood has been made to the Chief Justice.—*Ib.*

From the Royal Gazette.

With a view to afford advice and assistance to such emigrants arriving in this Province as may be desirous of obtaining employment in the Rural Districts, the Lieutenant Governor has been pleased to approve of Mr. Edmund Ward acting as assistant Agent in that Department at Fredericton.

We understand that His Excellency Major General Sir John Harvey, our Lieutenant Governor, has been appointed to the command of the Troops in Nova-Scotia, New-Brunswick, Newfoundland, and Dependencies, on the departure of His Excellency Lieutenant General Sir Colin Campbell, and the head quarters of the divisions are to be transferred to New-Brunswick,—an arrangement which we feel to be a subject of just congratulation to this Province on every account. The removal to Fredericton of the whole of the heads of departments may perhaps not take place before the Spring, as well on grounds connected with the personal convenience of several of the individuals (which Sir John Harvey is well known to be at all times ready to consider, as far as it can be done consistently with the interests of the public service,) as to afford time to make the necessary preparations with regard to accommodation, &c. &c.

QUEBEC, September 16.

THE PORT OF QUEBEC:—Presented an appearance yesterday, which we wished had been seen by all those who live on the waters of this Great River, of which Quebec is the natural outlet to the sea.—There were about two hundred square-rigged vessels, chiefly just arrived, anchored in the stream between Cape Diamond and Point Levy; and still they were nothing compared to those which might find a safe harbour in the port. We can assure all our distant friends, whether they live on the waters of the great Lakes or of the British seas, that we can accommodate them all, in effecting the exchange of commodities, and "the more the merrier."—*Gazette.*

AGRICULTURAL.—We have seen a sample of red and white spring wheat, from Frampton, a new settlement, consisting chiefly of people from Ireland, about thirty miles south-east of Quebec. The ears are between five and six inches in length, well filled and the grain plump and transparent, equal to any heretofore produced in this colony, and probably in any other. Generally speaking, the culture of wheat, which has been the chief crop in Lower Canada since its first settlement, has been abandoned in the old settlements, this year, has been little injured; in the new settlements, hardly at all. All our country friends agree, that the crops of every description, are uncommonly abundant, hay, only excepted.—*Ib.*

There is a marine on board the Cleopatra, who is to be tried for murder by the Naval Court Martial now investigating the charges brought by Captain Sandom, R.N., against the gallant Capt. Drew, R.N. We are glad to learn that the latter gentleman will be acquitted most honorably, and if report speaks true, the investigation has brought some things to light which are any thing but creditable to Captain *Sandom.*—*Montreal Herald.*

Information has been received in town that the Governor General has fixed on Toronto as the place where the United Legislature will hold its meetings during its first session of four years.

We learn that the Government is in treaty with the Hon. Sir A. N. M'Nab for a lease of Dundurn Castle, near Hamilton, as a residence for His Excellency the Governor General.—*Ib.*

A marriage between the Archduchess Maria, daughter of the Archduke Regnier of Austria, and the Prince Royal of Sardinia, is considered at Vienna to be decided upon.

At the moment of going to press, we regret to state that an announcement reached us of the death of the Right Reverend the Lord Bishop of Chichester, which event took place on Thursday evening.—*London Standard.*

The General Post Office has issued a notice strongly recommending the public in all possible cases to use Wafers in preference to Wax, in sealing letters sent to India or other warm climates, and also to advise their correspondents in those countries to pursue the same course.
