WHAT ONTARIO GETS

Toronto, Feb. 28.—Sir James Whitney read to the House yesterday the text of the order in council of the Dominion Government containing provision for access to Hudson Bay for the Temiskaming and Northern Ontario Railway. In a brief explanation of the order the Prime Minister stated that Ontario was to be given a strip of territory five miles in width running from the proposed new boundary of Manitoba to the Nelson River and terminating in a half-mile strip along the east shore of the Nelson River. This will provide room for docks, terminals, and elevators. Should the Government decide to extend the line to Fort Churchill, Ontario is to receive an additional strip two hundred feet wide from the Nelson River to the nearest point on the Hudson Bay Railway, the Dominion Government agreeing to running powers over that line to Hudson Bay.

The strip from the boundary to the Nelson River will be transferred to Ontario either by grant or by statute upon the Provincial Government making known the location preferred, providing that location is not more than fifty miles from the shore of Hudson Bay at any point.

"I may say," continued Sir James, "that the Government of Manitoba has agreed to pass a statute exempting this strip from any taxation. We have five years to locate this land. There is no compulsion on our part to build a railway to Port Nelson or to build any railway. The only limitation is that we should locate this strip within five years."

There was no discussion. The Prime Minister stated that it was his intention to go on with the boundary debate, but in deference to the absence of the leader of the Opposition he would permit the matter to stand over until today.

FATAL RIOTING IN JAMAICA OVER STREET CAR TROUBLE

Citizens of Kingston Take the Law Into Their Own Hands.

Kingston, Jamaica, Feb. 27.—Kingston was given over to mob rule throughout the night, and as a result of collisions between the police and the populace, two men were killed and more than thirty injured, some of them severely.

Sir Sydney Olivier, the governor, with his secretary Major Wyndham, while driving through the city to observe the situation, learned that some policemen were besieged in a spirit store. Both alighted from their automobile and went to the assistance of the police. As they were passing through the crowd the governor was struck with a brick on the neck, while his secretary received a blow on the arm.

Sir Sydney Olivier then proceeded to police headquarters, and ordered the riot act to be read. Some shooting followed by armmed parties of police sent out to clear the street, and there were several serious encounters, during which two of the rioters were shot dead and others injured. The mob, however, dispersed about midnight.

Passive resistance on the part of passengers to the payment of increased fares is still proceeding. The police fear another outbreak tonight, some of those engaged in rioting having succeeded in purchasing arms this morning before the authorities prohibited the further sale by the hardware stores.

The Government in an interview today said that the car company was trying to get out of an honorable undertaking in the absence of legal documents. He added that he had referred the question to the board of trade at London, as to whether a public company could abolish a system which had been in vogue for thirteen years, and increase the rate of fares at will.

CATTLE PRICES AT TORONTO MARKET

TORONTO, Feb. 28.—Today's market at the western cattle market seems to have been affected more than any this week by stormy weather. There is hardly enough stuff on the market to make it worth while keeping open. Only 250 head of cattle have arrived, and very few are coming in. The sheep, lambs and hog trade is tied up, there being but one load of sheep, 4 calves and a very few hogs here. Hogs, f.o.b., are five cents stronger, but fed and watered they are unchanged. Butcher cattle, medium, $5 to $5 35; common, $3 25 to $5. Butcher cows, canners, $2 to $2 50; bulls, $5 25 to $5 50. Sheep, ewes, $4 50 to $5; bucks and culls, $3 to $3 75. Hogs, fed and watered, $6 85; hogs, f.o.b., $6 50.

RAILWAY COMMITTEE STARTS SESSION'S WORK

And Half Dozen of the Private Bills Were Disposed Of.

Toronto, Feb. 28.—The members of the Legislature settled down to the committee work of the session yesterday. The private bills committee disposed of half a dozen bills, and the railway committee of three more. The latter committee struck hard going when the bill to incorporate the Humber Valley Electric Railway Company came up for consideration. The opposition came from the city of Toronto, represented by Mayor Geary, and it resulted in the bill being laid over until the next meeting of the committee to see if an arrangement can be made between the city and the interests behind the company.

Mayor Geary pointed out that the land through which it was proposed to run the line was part of the area that Mr. Home Smith was trying to have the city take over. This would mean that the franchise would be for a line within the city, and that it would hinder the development of the city's Sunnyside to Humber line

The Kawartha Transportation Company bill was reported. It gives the company power to erect lines in the district, the first of which will be one connecting Peterboro and Lakefield. The Dunnville, Wellandport and Beamsville Railway asks for an extension of two years to complete its line. The bill was reported.

Private Bills Reported.

The private bills committee had no contentious matters to deal with. The only one that contained any promise of serious discussion was that approving of the agreement between the town of Brampton and the Pease Foundry Company, by which the company in return for a loan of $43,000 and certain tax exemptions agrees to locate in the town and distribute $50,000 annually in wages. There was no opposition.

"I was waiting to see who would be the anti-bonus member of the committee this session," remarked Chairman I. B. Lucas, as he reported the bill. "Apparently we haven't one."

Hamilton's bill authorizing the issuing of debentures totalling $126,000 for municipal enterprises was reported. It provides for a municipal cemetery, city hall alterations, the extension of Main street and the purchase of park lands.

The Toronto Stock Exchange bill received approval. The bill empowers the exchange to hold land up to a yearly value of $50,000, opening the way for the construction of a big office building.

The St. Catharines General and Marine Hospital bill was reported. It gives the hospital power to issue debentures, purchase real estate and erect various buildings. Guelph's bill was reported without discussion. It approves of various bylaws, including one fixing the number of aldermen at eleven. An agreement between the town of Milton and a private company by which the bonds of the latter are guaranteed was also approved of.

Had Boils On Neck and Arms.

Had Them Lanced But, Got No Relief Until He Used Burdock Blood Bitters.

Boils in themselves are not a dangerous trouble, but still, at the same time are very painful. They are caused entirely by bad blood, and for you to get rid of them it is absolutely necessary to put the blood into good condition. For this purpose there is no remedy that can compare with Burdock Blood Bitters. This preparation has been on the market for about 35 years, and has a reputation unequalled by any other for the making of pure, rich, red blood. Mr. H. J. Batten, Stratford, Ont., writes:—"I have been troubled for several weeks with boils on my neck and arms. I had them lanced by the doctor, but as soon as one went others came. I tried all kinds of so called remedies, but could get no relief till I was advised to try Burdock Blood Bitters. I am pleased to say I am now quite free from those most painful things, and feel much better in every respect.

"My boy, of nine years, had a rash come over his back and legs, so we gave him a few doses and now he is all right again."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

SERIOUS CHARGES AGAINST COUNCILLORS

Accusations That May Disqualify Five Are Being Heard at Owen Sound.

[Special to The Advertiser.]

Owen Sound, Feb. 27. — Alleged irregularities in the recent election were heard before Judge Widdifield here today in connection with the proceedings that have been started to disqualify Ald. A. McMillan, J. D. McMillan, Dr. Howey and Reeve J. H. Christie. Yesterday the fifth councillor against whom proceedings had been instituted, Richard Corbett, filed a notice of disclaimer, and this creates a vacancy.

According to the evidence of one of the deputy returning officers there were as many as twenty-five voters in the polling room at once, and in several polling places there were no screens or any means of insuring secrecy of voting. At one or two polling places the desks all over a schoolroom were used in a more or less discriminate fashion by the voters. In one poll, illiterates were voted right at the deputy returning officer's desk, in full sight and hearing of all in the room. At one polling place a dozen men were voting at once in a room, quite innocent of screens or other means of affording secrecy of voting.

In the case of Ald. McMillan an error of property indication appeared in the declaration of qualification, and W. H. Wright, counsel for the relator, attempted to show that Ald. McMillan also had a piece of property on a lease from the town. In the case of Ald. McDonald, besides the charge that his property qualification was insufficient, was the contention that he was an American subject. Insufficient property qualification was the charge against Dr. Howey and Reeve Christie.

The case will be resumed on Wednesday.

THE COAL DISPUTE IS STILL UNSETTLED

A Final Conference Between the Parties Is Fixed for Today.

London, Feb. 27.—No settlement of the coal dispute was reached at the various conferences, in which the Premier and members of his cabinet and the representatives of the mine owners and the miners participated today. The official statement of the proceedings issued tonight, which some predicted would report that an agreement had been reached, merely records the fact that various conferences occurred, but tells nothing of what was done or said at any of them. It concludes with the announcement that the conferences will be resumed tomorrow, from which all that can be deduced is that the Government is still striving to avert a stoppage of the gigantic industry on which the country's commercial supremacy is based.

Between 30,000 and 40,000 miners in Derbyshire and Nottinghamshire ceased work today, in accordance with notices previously given, and it is now quite evident that as the time limit provided for in the notices expires, the men will lay down their tools and await the action of the Miners' Federation.
