MINERALS SEPARATION IS AWARDED MILLIONS

Butte and Superior Mining Company May Pay Twenty Million Dollars.

Helena, Mont., July 19.—Under a decree handed down today by Judge George M. Bourquin in the United States district court in the litigation of Minerals Separation, Limited, of London, against the Butte and Superior Mining Company of Butte, Mont., it was estimated tonight the Montana Company would be obliged to pay between $15,000,000 and $20,000,000 damages to the English plaintiffs.

The decree, attorneys said, would operate as a perpetual injunction against suit by the Montana Company of an oil flotation process of reducing ores.

The decree followed a decision in the United States supreme court on a judgment originally rendered by Judge Bourquin in favor of the plaintiffs.

In today's decree the court held that the letters patent issued to Henry L. Sulman, H. F. K. Pickard and John Ballot for improvements in ore concentration, and the patents on which the suit was based, were valid. Exclusive ownership of the patents lies with Minerals Separation, says the decree. Where the Butte Company used fractions of one per cent. oil it embodied the patent process. Where it used more, it did not.

J. L. Bruce, general manager of the Butte and Superior Company, said his corporation would continue to operate with the process using more than one per cent. oil.

Under the decree, the English company will recover the profits derived by the Montana corporation thru the use of the process and other damages. Accounting of profits and damages was set for Oct. 27.

HOLLINGER MACHINERY WILL INCREASE OUTPUT

Completion Will Permit Nearly 3500 Tons to Be Treated Daily.

Special to The Sunday World.

Porcupine, July 19.—Machinery for increasing the capacity of the Hollinger mill from 160 stamps and a ball mill to 240 stamps and a ball mill has started to arrive at the property, and is being installed. The stamps have been in for some time, but delays in the delivery of other equipment have held back the completion of the addition.

It is expected that when this section of the mill is completed a tonnage close to 3500 a day can be put thru. This would make the tonnage treated at the Hollinger greater than the capacity of all other mills in the camp.

The development of the Hollinger has been wonderful, and from work being done on the property the future does not look to be any less wonderful.

When it is considered that the growth of the Hollinger from a prospect a few years ago to the biggest gold mine in America today has been largely on the development of about twenty veins of over two hundred ore occurrences, an idea of the future of the property is had. The ore bodies to be developed underground compare favorably with those already developed, and the reason they have not been already developed as sources of ore is because those already developed are sufficient for mill requirements for some years.

MILL AT McINTYRE RUNNING AT CAPACITY

Six Hundred Tons of Ten Dollar Ore Being Treated Daily.

Special to The Sunday World.

Porcupine, July 19.—McIntyre-Porcupine's mill is running at capacity, treating in the neighborhood of six hundred tons daily. As the grade of ore is good, averaging around ten dollars a ton, it will be seen that profits are very satisfactory.

It was expected that early this year the McIntyre would extend its mill, but it has been decided to put this off until the labor situation becomes more settled. As the McIntyre mill is in units, the extension is comparatively easy.

In the meantime underground work is being rushed, and it is understood that results have been very satisfactory. The plan of development work now being carried out is to deepen the workings and open up new levels. For about two years the work was largely confined to the 1000-foot and upper levels, but the main shaft will soon be at 1350 feet, and lateral work carried on from that depth.

TRESPASS DENIED BY DAVIDSON OFFICIALS

Officials of the Davidson Mine, speaking of the application for a writ to restrain the company from alleged trespass upon what is known as the Bilsky property in Tisdale, adjoining the Davidson Mine, declare that the allegation is groundless.

It is stated that the new shaft of the Davidson is in the neighborhood of 200 feet south of the northerly boundary of the Davidson property, that all operations underground have been carried on south from this particular shaft and that it follows that there is no ground to justify the claim set up.

TO REOPEN BAILEY CASE.

The Northern Miner has been officially informed by the Northern Customs Concentrator that the deal with the Bailey was not killed by the recent decision given out in Toronto and that the case is to re-opened in another court at an early date. The proposal was for an amalgamation of the Northern Customs Concentrator with the Bailey-Cobalt Mines.

The mill of the Customs Company is running at capacity treating La Rose and other ores.

THE ROYAL BANK OF CANADA

has formed a close working association with the

LONDON COUNTY WESTMINSTER AND PARR'S BANK, LIMITED

one of the great English joint stock banks, for the purpose of encouraging trade within the Empire and for the extension of Empire trade in foreign countries.

This arrangement gives The Royal Bank of Canada unexcelled facilities for handling all classes of business with Great Britain and Ireland and the Continent of Europe.

Corporations, firms and individuals who wish to transact business with the Mother Country, including the transfer of funds to or from the British Isles, are invited to confer with the Branch Managers of the Bank.

Over 560 Branches throughout Canada, Newfoundland, the West Indies, Central and South America.

ANOTHER ADVANCE IN CORN AND OATS

Upturn in Foreign Exchange Bullish Factor—Damage to Oats Crop.

Chicago, July 19.—Renewed strength developed in the corn market today, owing largely to sharp upturns in foreign exchange rates and to reports of irreparable demage to the oats crop. The close was unsettled, ⅝ to 1⅝ net higher, with September 190⅝ to 190⅞ and December 161⅝ to 161½. Oats finished 2¾ to 2⅞ up, and provisions varying from 10c decline to 30c advance.

Until the last hour pessimistic views of economic conditions tended to keep sentiment bearish in regard to corn, and so likewise did the fine weather. Declines, however, led to an improvement in domestic shipping demand, with consequent buying on the part of shorts and commission houses. At this juncture the fact that sterling exchange had risen to $4.44, after having gone as low as $4.20¾, gave an advantage to the bulls. Meanwhile the oats market was climbing rapidly, and thruout the rest of the day the fact became more and more evident that for at least the time being corn had been oversold.

Radically unfavorable crop advices led to buying of oats on a broad scale. Word that export bids for oats were out of line received but little attention.

Provisions swayed with corn. Labor difficulties at the stock yards had only a transient bearish effect.

GRAIN PRICES FIRM IN BUENOS AIRES MARKET

Buenos Aires, July 19.—The cereal market was extremely firm thruout the week at higher prices. Wheat rose 1 peso per 100 kilos (220 pounds), and is now selling at 15½ pesos for 100 kilos.

Trading in corn was especially active, and it rose 80 centavos the hundred kilos. It is now selling at 9 pesos the hundred kilos. Flaxseed has reached a record, never known locally, selling at 40 pesos the hundred kilos, which is nearly double what recently was accepted as a good price. The flaxseed exports since Jan. 1 amount to 286,685 tons out of an exportable stock of 655,640 tons.

NEW YORK BANKS

New York, July 19.—The actual condition of clearing house banks and trust companies for the week shows that they hold $26,207,210 reserve in excess of legal requirements. This is a decrease of $6,181,060 from last week.

The statement follows: Loans, discounts, etc., decrease, $78,708,000; cash in own vaults, members federal reserve banks, decrease, $4,725,000; reserve in federal reserve bank of member banks, decrease, $1,263,000; reserve in own vaults, state banks and trust companies, decrease, $478,000; reserve in depositaries, state banks and trust companies, increase, $1,279,000; net demand deposits, increase, $50,249,000; net time deposits, increase, $6,535,000; circulation, decrease, $62,000; aggregate reserve, $571,145,000; excess reserve, $571,145,000; excess reserve, $26,207,210; decrease, $6,881,060.

MURRAY-MOWGRIDGE VEIN.

Cobalt, July 19.—(Special).—A new vein has been found on surface at the Murray-Mowgridge property at Wolfe Lake, near Bourkes. The vein was located east of the office and shows a width of about from four to five feet.

ASSOCIATED GOLD FIELDS

A Private Car Party Visits the Mines and is Pleased With Showing.

A party of thirty-five visitors took a private car on Monday last to visit the properties of the Associated Gold Fields Mining Company, and returned to Toronto yesterday (Sunday) morning. The party was very enthusiastic over the excellent results being obtained by the company at their mines. Two mining engineers accompanied them. At the three mines now being operated by the company much visible gold could be seen in the ore that was beng blasted out while the party were making their inspection.

WHAT TO DO WITH CAPTIVE RUSSIANS

Nearly Quarter of Million Prisoners in Germany, Impregnated With Bolshevism.

Paris, July 20. — The supreme council of the peace conference yesterday discussed the disposition ofo 240,000 Russian prisoners of war who are still in Germany. These prisoners were held by Germany at the request of the allies after the armistice and have been fed at the expense of the entente powers.

As many of them are badly infected with Bolshevism, Poland and other countries thru which they would go on their way back to Russia, have objected to giving them passage for fear of Bolshevik propaganda. Moreover, it is held, they would be either forced into the Bolshevik army or killed if sent home. The expense of maintaining them in Germany, however, is becoming burdensome. The council today was unable to reach a decision without further information concerning the military phases of the situation and referred the question to its military advisers for a report.

Protest Against Greeks

The council received a protest from the sheik of Aidin, Asia Minor, concerning atrocities which the Greeks are alleged to have committed upon Turks in the neighborhood of that city when they landed there. It was decided to send a mission of military officers to investigate the charge.

The council has taken no action concerning the punishment of the former emperor of Germany and has not even considered the report from the commission on responsibilities which does not favor the peace conference allowing Field Marshal von Hindenburg or anyone else to be substituted for the former monarch.

The council apears to be firm in the conviction which is held by military officials of the entente powers that William Hohenzollern must be punished as it would be impossible to secure the punishment of military, naval and civil officials in Germany who are charged with atrocities if the former emperor is exempted. A list of these officials and officers is to be supplied the German government soon, but as yet there is no knowledge here of the preparation of it.

May End Friction

The council's appointment of General E. H. H. Allenby of the British army to the duty of adjusting differences between the Greek and Italian forces in Asia Minor is regarded as the best means of disposing of friction there, because it is believed the Turks will be impressed by the action of the allies. It is hoped the Greeks and Italians will withdraw behind lines which General Allenby will outline and that the Turks will cease hostilities when they realize that the Italians and Greeks are not in charge of the occupation of Asia Minor.

The problem of the force of occupation in the Rhineland province, arising from the withdrawal of a majority of the British and American troops, was also considered by the council today. The question of principles involved has been settled and all that remains to be decided upon is the exact number of effectives and the proportion of the force of occupation to be provided by each of the allies. Marshal Foch's plan may serve as a basis for the settlement of this question.

ENGINEERS WALK OUT; CITY REFUSES DEMANDS

Chicago, July 20. — Every engineer and his assistant in the Chicago fire department walked out at 8 o'clock Friday morning in accordance with a decision reached yesterday after the city had declined to meet the demands of the men for higher wages. Two hundred and fifty city employes were affected by the walk-out.

Get Neutral Consuls To Clear American Ships

Paris, July 20.—The United States government, it is understood here, is arranging with neutral governments for their consuls to clear American ships at German ports while the United States senate acts upon the peace treaty.

STOCK YARDS' RECEIPTS

Receipts of live stock of all kinds at the Union Stock Yards from Friday morning to last night comprise 200 cars: 1000 cattle, 742 calves, 1543 hogs and 950 sheep and lambs.

MUNICIPAL ABATTOIR KILLINGS.

Total number of cattle dressed by city, 197; total number of small stuff dressed by city, 664.

Total number of cattle dressed by owner, 109; total number of small stuff dressed by owner, 203; total number of live stock slaughtered, 1173.

CHICAGO LIVE STOCK.

Chicago, July 19.—Hogs—Receipts, 20,000; steady to 25c higher than yesterday. Heavyweight, $20.65 to $22.35; medium weight, $20.65 to $22.50; lightweight, $20.65 to $22.50; light lights, $20.25 to $21.75; heavy packing sows, smooth, $19.75 to $20.20; packing sows, rough, $18.50 to $19.50; pigs, $19.50 to $20.50.

Cattle—Receipts, 24,000; weak; strictly good to prime, corn-fed steers 50c to $1 higher; best she stock steady; medium and common grass steers and she stock unevenly $1 to $1.50 lower; bulls, 50c lower; calves, mostly 50c lower.

Sheep and lambs—Receipts, 8000; compared with a week ago, native lambs steady; western mostly 20c higher; scarce and 25c to 50c higher, with choice wethers showing more gains; feeder lambs 50c to 75c higher; breeding ewes mostly 50c higher.

HIDES AND WOOL

Prices delivered in Toronto, furnished by John Hallam:

City Hides—City butcher hides, green, flats, 26c to 28c; calfskins, green, flats, 65c; veal kip, 45c; horsehides, city take-off, $12 to $13; sheep, $3 to $4; lamb skins and shearlings, 75c to $1.

Country Markets — Beef hides, flat, cured, 28c to 32c; green, 26c to 27c; deacon and bob calf, $3 to $4; horsehides, country take-off, No. 1, $11 to $13; No. 2, $10 to $11; No. 1 sheep skins, $2.50 to $4; horsehair, farmers' stock, 30c to 32c.

Tallow—City rendered, solids, in barrels, 11c to 13c; country solids, in barrels, No. 1, 11c to 12c; cakes, No. 1, 12c to 13c.

Wool—Unwashed fleece wool as to quality, fine, 43c to 60c. Washed wool, fine, 65c to 75c.

KONENKAMP RESIGNS AS TELEGRAPHERS' CHIEF

Chicago, July 20.—S. J. Konenkamp resigned yesterday as president of the Commercial Telegraphers' Union of America. In his letter to the executive board, tending her resignation, Mr. Konenkamp said:

"My reasons for this action are purely personal, and my chief regret will be to sever the harmonious and at all time cordial relations with my fellow officers. I accepted the presidency of the organization in 1908 to serve two years, and have spent nearly twelve in the office now. At that time, it was my ambition to practice law and now I hope to see that ambition realized."

Mr. Konenkamp also stated that the next convention of telegraphers is scheduled for October, but might be advanced to August. His resignation may not be acted upon until that time.

TRIBUTE BY FOCH TO BRITISH ARMY

Next Time, England Not to Be Ready Either.

London, July 19. — 'The next time England will be in the same position as the last time—she will not be ready, and we will have to wait for her," is a statement made by Marshal Foch of France to a correspondent of The Daily Mail, which prints an interview with the commander-in-chief of the allied armies this morning.

Marshal Foch, in the course of the interview, however, pays highest tribute to the British army, saying: "The military history of the world contains no parallel to the production of such an army in such a way. In every respect, the British army has been superb."

The marshal insists that Great Britain should maintain large reserves of military material, saying: "That is one of the obvious and indispensable precautions to be taken."

"Look at the out-of-date equipment with which we started this war," the marshal is quoted as saying. "The next war will be more than ever one of machinery. You should have laboratories with inventors always at work keeping you abreast of the mechanical side of war."

BERLIN PROHIBITS OPEN-AIR PARADES

Minister of Defence Reminds Socialists Thta Martial Law Still Prevails.

Berlin, July 19.—Reminding the Socialists of both factions that martial law still prevails in Berlin, Gustave Noske, the minister of defence, points out that the holding of open-air meetings and parades within the limits of Greater Berlin will not be permitted during the next month. The reminder was drawn out in part by the fact that the Majority Socialists in opposition to the strike movements have urged the members of their party to hold demonstrations after working hours.

Herr Noske's restrictions have called forth a strong protest from the Independent Socialists, who are planning to call a general strike on Monday next. They are now fathering a proposition for a demonstration against the German Government, in addition to the international manifestation, in furtherance of which the July 21 strikes have been postponed. The German Government should be demonstrated against as well as the "imperialistic governments of France and England," the independents' call declares.

The working men of Hamburg have declared a general strike for Monday. As a result the withdrawal of the government troops from Hamburg has been postponed.

FRENCH CALL OFF GENERAL STRIKE

Labor Committee Acts in Appreciation of Parliamentary Vote.

Paris, July 20.— It was announced early Saturday by the executive committe of the general federation of labor that it had been decided to rescind the call for Monday's general strike. The announcement followed a meeting of the committee which lasted until after midnight.

"In view of the vote in the chamber of deputies yesterday," the announcement said, "which showed that the chamber at length had heard the voice of the working classes and has condemned the government's economic policies and measures in regard to demobilization, the general strike for Monday will not be called. Amnesty has been decided upon by the government under the threat of the projected movement."

The national committee of the federation will meet here on Monday to reconsider the whole situation.

U. S. SAILORS HELD UP BY MEXICAN BANDITS

Washington, July 19.—A boat from the United States SS. Cheyenne, occupied by enlisted men of the navy, was held up by armed men in the Tamesi river, near Tampico, Mex., on July 6, and the sailors were robbed. The incident bears a resemblance to the celebrated Tampico incident of 1914, which resulted in the occupation of Vera Cruz. Urgent representations to the Carranza government and the authorities at Tampico have gone forward.

Brantford Root and Feed Crops Are Saved by Rain

Special to The Toronto World.

Brantford, July 20.—The root and field crops, as well as small fruits, were saved in this district this forenoon when a heavy rainstorm broke and brought the much needed moisture. Thus ended a drought which had continued for two weeks and which had made itself greatly felt in this district.

FRENCH DEPUTIES OPPOSE GOVERNMENT

Say Their Action Only Against Policies of Food Minister.

BORET MAY RESIGN

Explanations of High Cost of Living Are Not Satisfactory.

Paris, July 20. — Le Journal and L'Homme Libre declare that numerous deputies who voted Friday night the government have informed Premier against the government have informed premier Clemenceau that by their votes they desired only to inform Food Minister Boret that they did not favor his policies. The deputies said they were not opposing the government as a whole.

Condemnation of the government's economic policy in the chamber last night was by a vote of 227 to 213. Victor Boret, the food minister, declared in the lobby after the session that he would resign, but did not consider the action of the chamber as affecting any but his department, because the entire policy of the government was not involved in the debate.

The vote was taken after a rather confused debate, in which interpellations were made by different groups. It was held that the increasing cost of living was due largely to the errors in the government policy, lack of firmness in dealing with food profiteers, high customs duties, insufficient effort to stimulate production and inefficient distribution.

Offers Explanations.

Minister Boret, in replying to the interpellations, said that the lower cost of living in other allied countries was due in part to the fact that none had suffered as much as France in the reduction of producing capacity. France, he said, had 1,500,000 workers dead and several hundred thausand incapacitated. He declared the situation was further complicated by "a wave of laziness which is momentarily sweeping over the country."

The explanations made by M. Boret failed to satisfy the government's critics. M. Augagneur then introduced the resolution, the vote on which resulted in the government's defeat by fourteen votes. His resolution read:

"The chamber of deputies, remarking that the cost of living has diminished by one-half in Belgium since January, 1919, and that it has diminished by 25 per cent. in England since the armistice and that it has not ceased to increase in France since the same dates, judges the economic policy of the government by its results and passes this order of the day.

"No Longer Any Government."

The political consequences of the vote did not appear clearly to the chamber and the members continued to discuss other interpellations until the Socialists interrupted the proceedings with cries of: "No, no. There is no longer any government."

The interpellations under discussion were withdrawn and the chamber adjourned. Deputies were divided in their opinions as to the effect of the adverse vote. Many agreed with M. Boret that it did not necessarily call for the resignation of the entire ministry.

CHINESE ORGANIZE BIG MODERN ARMY

For First Time Use Motor Trucks and Airplanes.

Peking, July 20. — An expedition for the defense of the northwestern frontiers against General Semenoff's alleged aggression there is, perhaps, China's most modern military effort. Five thousand troops drawn from contingents trained by the Japanese for the national defense army are being despatched toward Urga. For the first time in Chinese history automobiles in large numbers are being employed for the transportation of troops. It is also expected that airplanes will be utilized.

FRENCH CABINET TO ASK VOTE OF CONFIDENCE

Paris, July 20.—In view of Friday night's vote in the chamber of deputies the cabinet has decided to demand a vote of confidence by the chamber on Tuesday next A general debate on the government's policies is considered probable.

Joseph J. B. Noulens, former ambassador to Russia, has been selected to succeed Victor Boret, the food minister, whose policy was adversely voted upon by the chamber. It was announced this afternoon that Noulens had accepted the portfolio.

CALL STRIKE IN VIENNA FOR JULY TWENTY-FIRST

Berlin, July 20.—Despatches from Vienna state that a general strike has been declared for July 21, the day set for demonstrative labor movements in other countries, "as a demonstration of the international solidarity of labor."

Dividend Notices.

THE BANK OF TORONTO

DIVIDEND NO. 152.

NOTICE is hereby given that a Dividend of Three Per Cent. for the current quarter, being at the rate of Twelve Per Cent. per annum, upon the Paid-up Capital Stock of the Bank, has this day been declared, and that the same will be payable at the Bank and its branches on and after the second day of September next to Shareholders of record at the close of business on the thirteenth day of August next.

By order of the Board.

THOS. F. HOW,
General Manager.

Total: 80 Bonds.

have been drawn for redemption under the terms of the Mortgage Deed securing same, dated 1st day of September, 1892, and will be paid for on the 31st day of August, 1919, as follows: The Sterling Bonds will be paid for at the Bank of Scotland, 30 Bishopsgate, London, E. C., Eng., and the Currency Bonds at the chief office of the Canadian Bank of Commerce, Toronto, Ontario, on presentation thereof with all unmatured coupons attached, being coupons Nos. 55 to 58, both inclusive, at the principal sum thereof and accrued interest. The bonds so drawn will cease to bear interest on and after the 31st day of August, 1919.

J. C. GRACE,
Secretary-Treasurer.

19th July, 1919.

CLOSE OUT PABST STOCK

Milwaukee, Wis., July 19.—Stock of the Pabst Brewing Company, with a par value of $2,889,900, owned by enemy aliens, will be sold at auction by the alien property custodian July 29, at the office of the company. The property was owned by Henry Best and Mrs. Clara S. Schlubeck. Both are now in Germany.
