YILDIZ KIOSK IN TOUCH WITH MILITARY

Abdul Hamid Caused the Im-
prisonment of a Man Who
Spoke Against the Leaders
of Revolutionary Movement

Berlin, April 15.—The Lokal Anzeiger today publishes a Constantinople despatch in which the correspondent says there is good reason to believe that the Sultan himself organized the military mutiny.

There are many methods of communication between Yildiz Kiosk and the mutineers. Mahmud Mukhtar declared at the palace yesterday that if full powers were conferred upon him he would soon make short work of the mutineers. This statement was communicated to the Sultan who at once caused Mahmud to be imprisoned.

Getting Back to Normal.
Constantinople, April 15.—The Turkish capital is again assuming its normal aspect and there is this morning little outward evidence of the political ferment that has marked the previous two days. The new ministry has promptly removed Yaver Pasha from the command of the First Army Corps and given this post to Nazim Pasha. Nazim Pasha was minister of war for a brief period prior to fall of the Kamil cabinet and the malcontents among the troops have urged his resignation to the throne. He is a popular and able officer and the command given him today will in all likelihood be a stepping stone to his return to the ministry. It is believed that his appointment will have a very good effect toward restoring order and discipline in the army.

In the army, Ismael Kemal Bey, the new president of the Chamber of Deputies and provisional order of the Liberal union was received by the Sultan in audience today. His Majesty in the course of the conversation declared emphatically that the future welfare of the country made necessary a strict observance of the principles the constitution in conformity with the Shera Law.

Comparatively Peaceful
Constantinople, April 15.—After the stirring events of Tuesday and the early part of yesterday in the Turkish capital, the successful formation of a new cabinet and the issuance of an imperial proclamation ordaining the preservation of the constitution served to bring about a comparatively peaceful situation here this night.

The members of the new cabinet, of which Tewfik Pasha is the grand vizier, have been installed in office. The formation of the cabinet, although it is not complete according (Continued on Page Two)

Sanguinary Conflict Between

Heavy Loss—Many Soldiers
Were Killed

Mexico City, April 15.—The rioting which occurred at Velaradena, a mining camp in Coahuila, last Saturday, was more serious than was at first reported, thirty-two men being killed and many injured. The trouble was instigated by Father Ramon Valenzuela, the parish priest, he is asserted, and he now lies in a hospital, hovering between life and death. Fourteen of the rioters were executed by the governor and many were imprisoned.

The fighting procession headed by the village priest, the laws of Mexico forbidding such parades. A thousand parishioners followed the priest, wishing to witness the annual burning of Judas and when the orders of the mayor became known the mob stoned and later burned the house of the mayor, who with his wife, escaped by climbing a rear wall and seeking protection in the American colony. The rioters then stormed a Chinese hotel, looting it of all liquors and food and terrorized the neighborhood during the night by their drunken orgy.

The police forces fired on the mob, many members of which were wounded. The officers were forced to retreat, leaving six of their number dead in the main street. Later troops arrived in a special train and a short, fierce fight between troops and rioters ensued, bringing the total death toll to thirty-two with a number injured. Father Valenzuela was arrested. One of his followers smuggled a knife to his cell and the priest stabbed himself six times in a vain attempt to commit suicide. He is now in the prison hospital.

Calhoun Jury Now Ready.
San Francisco, April 15.—Michael Murphy, the veteran seaman in the police department, was passed today as the thirteenth juror in the Calhoun case. The trial will start immediately and the indications are that it will take less time than was expected for similar testimony in the case of Abe Ruef. The case ought to finish in a month. Henry will open his address this afternoon at two o'clock.

SISTER AND FRIEND COULD NOT ATTEND

London, April 15.—The body of Alfreron Charles Swinburne, the poet who died on April 10th in Putney, was laid at rest this afternoon in the church yard of St. Boniface, Isle of Wight.

It was placed on a train in Waterloo station for conveyance to Bonchurch and a crowd with bowed heads watched its passage from the hearse. There were many floral wreaths from well-known persons.

Many members of the Swinburne family are interred at St. Boniface. In accordance with the wishes of the poet, the burial ceremony was omitted. Mr. Swinburne's sister, his nearest relative, and his friend, Watts Dunton, with whom he lived, were prevented by illness from being present at the interment.

Gregorieff and Smyrnoff, Subordinate Admirals Under Negotiation Are Released From Prison
St. Petersburg, April 15.—Rear-Admiral Gregorieff and Lieut. Smyrnoff, subordinate officers under Vice-Admiral Nebogatoff in the Russo-Japanese war, have been pardoned and released from confinement in the fortress of St. Peter and St. Paul. They were sentenced to death for surrendering their commands, but in view of extenuating circumstances, their sentences were commuted to ten years' imprisonment in a fortress. They began serving their sentences in 1907. It is reported that General Stoessel and Vice-Admiral Nebogatoff also will be pardoned shortly. Stoessel was found guilty by a court-martial of surrendering the fortress of Port Arthur to the Japanese, and is serving a sentence of two years' imprisonment. Nebogatoff was sentenced to ten years for surrendering in the Battle of the Sea of Japan.

Stoessel Will Shortly Be Freed Also
Hamilton, April 15.—Mr. and Mrs. Kinrade, parents of Florence and Ethel Kinrade, came up from Toronto yesterday to consult their lawyers George Lynch and Stanton. The nature of their business was not learned, but in an interview Ernest Kinrade said he was going to persuade his father and sister Florence to bring suits against a number of newspapers for what they had printed about the case and also against certain persons who had circulated scandalous stories. He said that this was all the result of the theory of one man, and he also expressed the opinion that some of the officials had been bribed and that they were trying to shield some one else.

Armenian Quarters Attacked by Thousands of Infuriated Moslems—Quarrel Is Religious and Racial

Constantinople, April 15.—A massacre of Armenians is in progress today at Marzina, a seaport of Asia Minor on the Mediterranean.

Enraged at the murder of two Moslems by an Armenian and the fact that the assassin was not apprehended, the Mohammedan population of Marzina, which counts a total of ten thousand inhabitants, took the law into its own hands and attacked the Armenian quarters. The Christian communities of Marzina are appealing to the consuls here for help.

The trouble at Marzina is in no way connected with the political upheaval it involves a recurrence of the Armenian question, which is religious and racial, and has nothing to do with the international politics of Turkey. The Armenians and the Christians still have an independent church, with the chief of government at Constantinople. Marzina is thirty-six miles by rail south-east of the city of Adana. It counts 6,000 Mohammedans and some 5,000 Christians.

Now Laid Down Upon the Clyde
Seattle, April 15.—Four new and large steamships are being built on the Clyde by Andrew Weir & Co. for the use of Frank Waterhouse & Co. of this city on their Pacific Coast line, operating between Seattle to the Orient and from Seattle and San Francisco to Australia. They will be on this coast in about 12 months, the largest coming direct to Seattle.

Street Car Derailed
Street car traffic on Port Street was delayed early this afternoon owing to a large Fort street car being derailed at the corner of Fort and Cook streets. After the wheels of the leading truck had passed the switch the points of the switch were turned and the rear truck started toward Cook street, with the result that the car was derailed.

The Council of Board of Trade Met Second Vice-President Whyte, of C. P. R. and Capt. Troup This Morning

FRASER RIVER AND COMOX ROUTES DISCUSSED

Question of Island Railway Extension Was Taken Up and Board Urged That Quicker Progress Be Made

(From Thursday's Daily)
The council of the Board of Trade met William Whyte, second vice-president of the C. P. R., attended by Capt. J. W. Troup, superintendent of the British Columbia coast steamship service; H. E. Beasley, superintendent of the railways at Vancouver Island, and W. H. Robertson, general freight agent, at the Board of Trade rooms today to discuss the board's requests for an improved steamship service on the route between Victoria and the Fraser River and the Comox routes.

Speaking of the meeting, Secretary Elworthy said: "The principal object of the meeting was to press the claims of the board for proper steamship service between Victoria and Fraser River points, the board having pointed out to Capt. Troup that a special vessel would have to be built for this route if the service was to be maintained. The board's representations were duly presented by Capt. Troup to the executive of the C. P. R. during his recent trip to Montreal, and in consequence of the executive not having acted, it was thought opportune to take advantage of the presence of Mr. Whyte in this city to present the case of the board to him personally."

The Comox service was also dealt with and strong representations made for improvement in the service and better rates on this route. "The question of island railway extension then developed, the opportunity appearing too good to be allowed to escape, and the council of the board urged quicker progress being made in the Alberni extension and that the time had now arrived for making a compromise on the line to the north end of the island. The branch line to Cowichan Lake was also referred to. As might be supposed, Mr. Whyte was not in a position to make any definite pronouncement as to greater speed or the probable date of the commencement of the line to the north end of the island, but his remarks afforded the highest degree of satisfaction, his opinion of the possibilities of the business of the C. P. R. on Vancouver Island being very optimistic.

Mr. Whyte stated that there was no part of Canada that could show equal possibilities with Vancouver Island and that on his present visit he would acquire all possible information and having done so would place his representations before his colleagues. "Although nothing was specifically promised the members of the council were pleased with the interview and have every reason to believe that the recommendations made by them will receive careful attention."
