Oak Hall Clothiers - 115 to 121 King-St. E. and 116 Yonge-St., Toronto

HAMILTON NEWS

BARROW NOW SHOWS FIGHT

City Engineer Says He Doesn't Care a Blank For Alderman Nelligan.

TOO MUCH OF A FAMILY COMPACT

Says Nelligan, Speaking of Interception Works—Harness Makers Discuss Rates.

Hamilton, May 2.—(World's Staff Correspondent.)—The clash between Ald. Nelligan and Engineer Barrow of the sewage disposal works, which was chronicled in this morning's World, is in full swing to-day, neither side showing any sign of yielding. Engineer Barrow has been charged with too much pluncy, but he is now fighting with the spirit of a gladiator. When seen by The World, Engineer Barrow remarked: "I am simply acting within the powers given me by Council, and I don't care a d——."

Ald. Nelligan is being charged with aldermanic interference in the internal management of the disposal works. He wholly denies it. Speaking to a World reporter to-night, he said: "I did not interfere with the department, but wrote to Mr. Barrow to remove Mr. Leckie. The trouble is that there is too much family compact at the interception works. Old man Leckie, his son and son-in-law all have jobs there. Then there is another Leckie in the City Treasurer's office, and if three vacancies were to occur in the city employ to-morrow three more Leckies would get into them.

"The Mayor has the final say about Barrow, but we'll not suspend him for a day or two yet, unless he misbehaves himself worse than he is doing."

The alderman turned away with the remark: "Anyway, he will have to explain things before the Sewers Committee next Wednesday."

Harness Makers Had a Meeting.

A spirited meeting of the harnessmakers was held this afternoon at the new American Hotel. William Hardy of Dundas presided, and besides the city dealers Lancaster, Dundas and Beamsville were represented. There has ben a disparity of over 10 per cent. in the rates the different dealers have been selling at, and one of the objects of the meeting was to secure uniformity. The heated debate left this question unsettled, and also the question of raising rates 20 per cent. Another meeting will be held in a few days.

Where Do the Wire Designs Go?

Hamilton florists have been wondering as to what becomes of the wire designs used for floral pieces left on the cemetery graves. These used to be returned to the different florists. Recently, it is said, a whole wagon load was given by Superintendent Pray to T. Kilvington, who is a florist, and at the same time a member of the Parks Board.

Address by Samuel Gompers.

Samuel Gompers, president of the American Federation of Labor, and J. Mahon of the Street Railway Employes Union of the United States delivered capital addresses in Association Hall to-night. Mr. Gompers spoke at length on the eight-hour movement. S. L. Andrews, president of the Hamilton Trades and Labor Council, presided.

Art School Affairs.

At a meeting of the Art School directors this afternoon it was decided to conform with the statute to hold the members' annual meeting for the election of directors and officers on May 28. The meeting for the distribution of prizes, etc., will be held in September, as usual. A statement was read by the secretary, showing that the receipts so far this year were about the same as last year. This information was given in connection with the application of Principal Ireland for his salary to be brought up to its former figure. It was announced that the special committee in charge of the rearrangement of the teaching staff would begin its work at once.

The Parks Commissioners.

The Board of Parks Commissioners met this afternoon and decided to have a conference with the Harbor and Beach Committee on the question of the control of the Beach property. The contract with W. Stroud for the ball grounds at Dundurn Park was approved of, and permission was given to use the grounds next Saturday. New tenders for the Dundurn refreshment privileges will be called for, as Mr. Smith, who offered $600, has backed out. He thought he had a blanket contract for the whole park.

Was It an Incendiary?

Trifling damage was done last night by a fire, the origin of which both the police and firemen believe to be the work of an incendiary. The fire occurred in a two-storey brick building at 493 Dundas-street, occupied by the Cyclone Woven Wire Fence Company, and was discovered by a policeman shortly after 9 o'clock. The loss, which is placed at $10, is covered by insurance in the Liverpool, London & Globe Co.

Police Points.

Robert Grey, John-street, was sent to the Industrial School at Mimico for five years to-day for theft. James Maloney, Strachan-street, another lad, got two years for the same offence.

Jennie Morris, Catherine-street, was arrested to-day on a charge of stealing a bicycle from R. Chambers, liverymen.

James J. Barrett, the football player, was appointed a policeman to-day.

Minor Matters.

John Hall, locomotive fireman on the G.T.R., has retired, and William Towner of Niagara Falls has been appointed. Mr. Hall has been connected with the road 40 years.

Imported Entre Nous cigars, reduced to two for twenty-five. Alive Bollard, 4 King-street, Hamilton.

C. A. Murton this morning received a telegram from British Columbia announcing the death of his brother, Mr. John Murton. No particulars were given.

Ex-Ald. R. Griffith has bought out the Red Lion Hotel in Dundas from William Bradt.

The Times subscription list for the Hull fire sufferers now amounts to $1309. Bismarck Lodge, K. of P., has given $20, and the Grocers' Association $30.

In Dundas last night Mark B. Thomas, late manager of the H. & D. R., who is going to St. Thomas to manage the City Street Railway there, was presented with a gold-headed ebony cane, and an illuminated address.

Most of the boss carpenters have granted the demands of the union, paying 22½ cents an hour.

Boston Laundry Starch is a domestic starch for it gives that fine finish which is so much admired by people who are tired of the Chinese glaze on their linen.

Torquil for Red Cross.

Editor World: Would you kindly allow me to state publicly thru the medium of your journal that the forthcoming performance of "Torquil," as also the Symphony matinee, afternoon and evening of May 22, will be given under the auspices of the Toronto Branch of the Red Cross Society, and that the entire profits accruing from these performances will be distributed by this society in accordance with their ruling for the benefit of the soldiers serving in South Africa? As in Montreal and Ottawa, I am giving "Torquil" for the patriotic fund. I wish it made clear that in Toronto my work will be given for the Toronto Ladies' Branch of the Red Cross Society, of which I have the honor to say His Excellency the Governor-General approves.

Charles A. E. Harriss.

Africans on Elm-Street.

In the Elm-street Methodist Church last evening a decidedly pleasing entertainment was given before a large audience. Miss Elsie Clark, an Afrikander, delivered a splendid lecture on the Boers, and the South African Boy Choir, composed of boys of the Kaffir, Bushman, Basutos and Zulu tribes, gave a novel performance that was greatly enjoyed. They sang in English and in their native tongues, and met with an enthusiastic reception. Dressed in their own costumes, they formed very picturesque figures which enhanced in no small degree the pleasure of the entertainment.

Y. W. C. T. U. Concert.

The concert to be held this evening in Association Hall, under the auspices of the Toronto District Y.W.C.T.U., bids fair to be a most successful event. Mrs. Emma Scott Raff, so well known as a reader of exceptional ability, will be assisted by H. N. Shaw, B.A., Mr. W. J. A. Carnahan, Miss May Mawhinney and other well-known vocalists.

The largest box and best grade of polish is Tiger Stove Polish. Every box warranted to be perfect as to quality. Sold by all dealers at 5c and 10c.

Troubles of One Family.

Coroner W. A. Young last night withdrew his warrant for an inquest on the body of the infant child of Charles Watson, which died suddenly at 10 Elliott-street on Monday night. Dr. J. B. Fraser, who performed the autopsy, found the membrane of the brain to have been congested, and this being reported to the coroner the latter issued the order for burial.

Who Started the Fires?

County Constable Boyd last night left the city to make an investigation into the origin of the fires which occurred last Sunday afternoon on the farm of Mord. Chapman, near Baldwin, and at the schoolhouse at Egypt P.O., in Georgina Township. Both fires are said to have been started by an incendiary.

One Call

"The Knight Method"—the discovery of our Dr. Knight—is an application of dental medicaments and a special manipulation of instruments in the hands of skilled operators, which enables us to treat a decaying tooth, remove live pulps and permanently fill the cavity, at one sitting and without the slightest pain to the patient.

Hundreds of nervous patients gladly testify to the wonderful success of this boon to tooth sufferers.

MOTHER MUST BE ARRESTED TO SAVE THE LITTLE CHILD'S LIFE

Mrs. Lydia Stock Becomes Insane, Over Nursing Her Sick Infant, and Chases Out Three Doctors—How She Attacked Dr. Sheard.

In order to save the life of her only child, the police were last night compelled to take steps towards placing Mrs. Lydia Stock, a dressmaker, who lives at 47 Nelson-street, under arrest on a charge of insanity. The case, which is an unusually sad one, was brought to the notice of the Morality Department by Medical Health Officer Sheard. The child has been ill for some time with lung trouble, and the strain occasioned by staying up at nights and watching at the bedside has, it is said, driven the affectionate mother out of her mind. The woman, when the child first took sick, called in Dr. Badgerow, and he was constantly in attendance till a few days ago, when Mrs. Stock exhibited signs of mental weakness. On making his daily visit, the physician found her nursing the sick child in her arms. She refused to allow him to see the patient, and he quietly withdrew. Dr. Fisher of Spadina-avenue was then sent for by the woman, and, after he had been in attendance two days he suspected that Mrs. Stock was not in her right mind and was not carrying out his advice. He also withdrew and Dr. Pepler of John and Adelaide-streets was next asked to take charge of the case. When he made his first visit, and finding the condition of things, he pleaded with the woman to allow the child to be taken to the Sick Children's Hospital. The unfortunate mother would not listen to the doctor's advice, and, it is said, ordered him from the house. Dr. Pepler then communicated with the Medical Health Officer, with a view to having the sick child removed from the house against the wishes of the unfortunate parent. Dr. Sheard immediately interested himself in the case, and arranged with Dr. Pepler to visit the house yesterday afternoon. When the woman learned the reason for their visit, she flew into a rage, and, grasping a lamp, which was standing on the table, hurled it at the head of Dr. Sheard. The lamp missed its mark and was crashed into pieces on the floor. The woman then threatened to use an ax on the physicians, but they avoided further trouble by leaving the house. Dr. Sheard concluded that the only way in which the child could be removed to the hospital was by having the woman placed under arrest, and the warrant was issued. Mrs. Stock will be taken into custody this morning, and then the ambulance will be sent to the house to take the child to the hospital.

BOERS ARE NOW CASTING ABOUT FOR A COUNTRY AFTER THE WAR

President Kruger Will Spend His Old Days, if Still Alive, in Holland or Germany—Bible-Reading Boers.

New York, May 2.—Writing from Pretoria, under date of March 23, The World's special correspondent, Howard C. Hellegas, says that hundreds of Boers are casting about for a suitable country to which they can go to if they find it desirable. State Secretary Reitz said:

"If the English take these republics and raise the Union Jack over them I will take my family to America."

Many of the older Boers will trek to German West Africa and thousands will emigrate to other countries.

Where Kruger Will Go.

The friends of President Kruger say that if the rTansvaal loses her independence he will spend the last years of his life in Holland or Germany.

In the Boer army it is customary to grant a burgher a fortnight's leave of absence after he has been in laager two or three months. A low estimate places the number of men "off commando," as it is called at about four thousand at one time.

Bible-Reading Boers.

Then there are the "Bible reading Boers," those who remain behind in camp and will not go into a fight unless they feel in the mood for doing so. Before the reverses at Kimberley, Ladysmith and Paardeberg it was usual to find at least one-third of the men belonging to this class, but since then the percentage has been much less.

36,000 Boers Under Arms.

Referring to the size of the Boer army, he assumes that 36,000 men are under arms to-day, and says:

"But it must be taken into account that every Boer is an army unto himself, and that every one is mounted on a fleet horse which can sustain itself on the grass it finds everywhere, and that there is no extensive commissariat to prevent the Boer from dashing up, delivering a blow and escaping in time to prevent the enemy from doing much damage to him.

THE STRIKE STILL GOES ON.

Teamsters Ask the Aid of the Ontario Government to Settle Their Dispute with the Companies.

ACTION OF CABINET NOT KNOWN,

But the Question of a Settlement Seems to Be Afar Off as Yet —Other Trades.

The superintendents of the three cartage companies whose men are out on strike told The World yesterday afternoon that there was no strike so far as they were concerned, and their business was being looked after. The strikers, on the other hand, gave The World to understand that the strike was in full blast, that they had no intention of returning unless their grievances were settled, and would hold out. This is the position of both sides, who have been putting up a big fight for the past ten days.

Men Will Stay Out.

Judging from the demeanor of the men they are still confident of a victory, and seem willing to stay out until there is a settlement. Their failure to arbitrate has not discouraged them, and yesterday they resorted to another plan to secure an agreement. A committee of three men waited upon Hon. Mr. Latchford, Minister of Public Works, at the Legislature. They laid their case before him, giving in detail all phases of the strike and the circumstances leading up to it. According to the deputation, Hon. Mr. Latchford expressed sympathy with the strikers, and promised to bring the matter before the notice of the Cabinet. The men filed an application for a consideration of the differences, and then adjourned.

Discussed by the Cabinet.

In the afternoon the Cabinet met, and, as promised by the Minister of Public Works, he brought up the strike question. Nothing was given out as to what was done, but the deputation was asked to be on hand again this morning at 11 o'clock. When the Government is appealed to in the case of a strike it is referred to a board appointed for the purpose of settling all labor difficulties. The members of the board are Mr. R. C. Clute, Q.C., chairman, Toronto; Mr. D. W. Dumble, barrister, Peterboro, and Ald. Frank Plant, London. The board was appointed in 1889, but only once has it been called into requisition. On that occasion the tailors had a strike, and thru the board's efforts a settlement was effected.

All Answered the Roll Call.

At the meeting of the strikers yesterday in Temperance Hall every man who went out answered to his name. Col. Davidson, who was appointed to represent them in a proposed arbitration, reported that his efforts to arbitrate the matter had failed, the companies refusing to agree with the proposition. Col. Davidson will, however, make another attempt to have the strike settled in a way which will be satisfactory to both sides. The men will meet as usual this morning at 7 o'clock.

Occurrences on the Streets.

On the streets there were several amusing occurrences yesterday. Around the freight sheds at Simcoe-street a large crowd gathered, whenever non-union drivers appeared. Constable "Bob" Harrison was on hand, and whenever the onlookers hooted he aided the police in putting them to flight. It was given out on good authority yesterday that in one store seven employes were dismissed because they refused to unload a wagon which was driven by a non-union man. The foreman, when spoken to about the report, said: "Well, that is my business." He would not confirm or deny the story and refused to talk about it. Another firm on East Adelaide-street yesterday refused to accept a load of iron from a cartage wagon, and the goods were taken back to the sheds.

Fifty Girls Quit.

In a West Adelaide-street factory there was a peculiar situation for a few minutes. Because the employer had accepted goods from a non-union driver, 50 girls left. It is said that the girls only returned because the freight was placed back on the wagon again and taken to the cartage company's premises. A number of big shippers are said to be still supporting the men in their strike, and there is talk of some engaging their own wagons and having the strikers to drive them. The number of wagons out yesterday, as given by the companies, were: Shedden Company 35, Hendrie 25, and Transport Company 12, making a total of 72 wagons.

Men Being Taken on.

At the Shedden office it was stated that new men were being taken on to take the strikers' places, and that in a few days they would have all they want. At the offices of the other two companies the reports were about the same.

Will Hold a Concert.

The strikers will hold a concert in the Pavilion on Saturday night for their own benefit. They have already received numerous offers of financial assistance from wholesale firms and other unions.

All Right With Painters.

The strike of the painters and decorators continued for only one day, and in some shops the men were only out for a few hours when the employers consented to their demands. The men asked for a uniform scale of 25 cents an hour, which was an increase of 2½ cents per hour over the old scale. In about 50 cases the increase was granted, and the men in the other shops, who numbered about 75, went out. Yesterday morning nearly all had returned to work, and by noon hour the strike was over. The committee, composed of A. Derry (chairman) and W. Crawford (secretary), issued the following official circular yesterday:

"The painters' and decorators' strike has been called off, the master painters having acceded to the demands of the union. Wages will be 25 cents an hour, minimum rate. All men have returned to work."

Machinists the Same.

There was no change yesterday in the situation of the machinists' strike. A meeting of the strikers was held in Cameron Hall and the usual routine business was discussed. It was reported that none of the men had returned to work. Numerous communications have been received from outside firms by the machinists, asking that men be sent, as there is plenty of work.

Several new members were initiated at the meeting of the Machine Woodworkers' Union in Richmond Hall last night. This union has only recently been organized, but already it claims a large membership.

Shoemakers Satisfied.

The Shoemakers' Union, a new labor organization, held a meeting last night. It was stated that as far as wages are concerned they were satisfied.

So Are the Plasterers.

The regular meeting of the Plasterers' Union was held last night in Temperance Hall and was largely attended. The action of the bosses in granting the small increase asked for was highly spoken of and the men are satisfied.

THE NICARAGUA CANAL BILL

Passed the House of Representatives at Washington by An Overwhelming Vote.

THE DEBATE WAS A STORMY ONE.

Mr. Hepburn Used Strong Language in Denouncing Chairman Cannon.

Washington, May 2.—The House to-day at the conclusion of the most stormy debate of the present session of Congress, passed the Nicaraguan Canal bill by the overwhelming vote of 225 to 35. All attempts to retain in the bill the language of the original bill for the fortification of the canal, and to still further strengthen the language on that line, were balked.

Much excitement reigned thruout the day and several times bitter words were used. The excitement reached its climax in a highly dramatic scene between Mr. Hepburn and Mr. Cannon, when the former used the words "lie" and "liar" as he denounced the distinguished chairman of the Appropriations Committee for attempting to disnonor him.

Provisions of the Bill.

The bill in part is as follows:

"Be it enacted, etc., that the President of the United States be and is hereby authorized to acquire from the States of Costa Rica and Nicaragua, for and in behalf of the United States, control of such portions of territory now belonging to Costa Rica and Nicaragua, as may be desirable and necessary, on which to excavate, construct and protect a canal of such depth and capacity as will be sufficient for the movements of ships of the greatest tonnage and draft now in use, from a point near Greytown, on the Caribbean Sea, via Lake Nicaragua, to Breto on the Pacific Ocean, and such sum as may be necessary to secure such control is hereby appropriated out of any money in the treasury not otherwise appropriated.

Ten Millions as a Starter.

"That the sum of $10,000,000 is hereby appropriated out of any money in the treasury not otherwise appropriated, towards the project herein contemplated, and the Secretary of War is further hereby authorized to enter into a contract or contracts for such materials and work as may be deemed necessary for the proper excavation, construction, completion and defence of said canal, to be paid for as appropriations may from time to time hereafter be made, to exceed in the aggregate $140,000,000."

BLOODSHED IN BULGARIA.

The New Tithe Tax Has Angered the People and Martial Law Has Been Proclaimed.

Sofia, Bulgaria, May 2.—Demonstrations have occurred at Widdin, Tirnova and other towns, as protests against the new tithe tax. Martial law has been proclaimed in the Rustchuk district, where the peasants have killed the Mayor of one village.

Brockville Gives Liberally.

Brockville, Ont., May 2.—In addition to $500 voted by the Town Council, $645 has been already subscribed by private individuals towards the relief of the Hull and Ottawa sufferers, and a car of clothing and provisions is being sent forward to-night.

One of the greatest blessings to parents is Mother Graves' Worm Exterminator. It effectually dispels worms and gives health in marvelous manner to the little ones. ed

In St. George's Hall to-night, the St. Simon's Church Literary Club will give a concert in aid of the Ottawa fire sufferers. Prof. Bell-Smith will contribute to the entertainment.

MORE THAN 200 LIVES LOST

The Mine Explosion at Scofield, Utah, Was More Disastrous Than First Reported.

MANY DEAD LAID OUT IN ROWS.

Of Some 400 Men Working in the Mines One-Half Have Been Suffocated.

Salt Lake, Utah, May 2.—Two hundred or more lives were lost in the explosion in mine No. 4 of the Pleasant Valley Coal Company yesterday at Scofield, Utah. One hundred and thirty-seven bodies have already been recovered. The work of rescue is still progressing, altho there is no hope that any of the men who are unaccounted for escaped death. The scene of the disaster is just outside this place, on the line of the Rio Grande Western Railroad. The explosion, which occurred in the winter quarters of the mine, is attributed by some to the blowing up of a number of kegs of blasting powder.

A special train was sent from Salt Lake, bearing Superintendent Sharpe of the Coal Company, superintendent Welby of the railroad company and some doctors.

Bodies Prepared for Inquest.

As fast as bodies are reached they are taken to the boarding houses and other company buildings, where they are dressed and prepared for the coroner's inquest.

These buildings are numerous, and in each are from 10 to 35 bodies, which are laid in long rows. To those which have been identified are attached tags, with names and addresses. These await the coming of relatives or friends.

Two Hundred Coffins Ordered.

Two hundred coffins have been ordered thru local undertakers to be sent at once to the scene of the disaster. A special train bearing the seriously wounded has started from Scofield for Salt Lake.

The calamity appears to have been one of those accidents that are common to the very best regulated mines, and against the best endeavors of the most competent superintendents.

The State Mine Inspector is still without the data to lay blame on anyone. Of course an inquest will have to determine just where the blame rests, and perhaps it can never be fully determined.

Story of One Who Escaped.

W. C. Wilson was one of those fortunate ones on the lower level of No. 1 who escaped. He tells his story as follows:

"There was a low, rumbling noise heard in the distance, followed by a sort of wave, that can hardly be described, but that is known to all who have been in explosions, and I have been in several. I said to my partner that if gas was known to exist in the mine I should say that an explosion had occurred. I advised that we run to the tunnel, and with me came six men working in that section. In the main tunnel we met the driver, and asked him if he had noticed the strange occurrence. He replied that he had almost been knocked off the bar by the rush of air. I was then convinced that it was indeed an explosion, and advised my comrades to hasten with me to the mouth. We met two others farther on, and they proceeded with us. We were none too soon, for the after-damp reached us some three or four minutes before we reached the open air, almost suffocating us."

Delay From After-Damp.

The after-damp delayed the work of the rescuing party, but the magnitude of the disaster soon became apparent.

After the foul air cleared away from No. 1 the work of rescue began, and it was soon found that a great many of the miners of No. 1 had been suffocated. Cars were taken in, and the dead were brought to the mouth of the mine. Here the scene beggared all description, for men, women and children, relatives of the dead miners, had begun to gather, and as the bodies were brought out and recognized by their families their lamentations were heartrending.

The dead were all carried into the boarding houses directly opposite the mine, and at midnight 137 men, nearly all heads of families, had been laid out cold in death. Nine-tenths of the men killed are Americans and Welshmen.

Had Been Worked for 20 Years.

This mine has been worked for over 20 years, and has the reputation of being one of the best ventilated and protected in the West.

J. M. Beattie of Scofield, who is the company's storekeeper, said on his arrival this morning that no words could portray the horror, the sadness and the appalling extent of the catastrophe.

DETAILS ARE FRIGHTFUL.

Corpses by the Score Are Being Brought Out and the Total is Yet Uncertain.

Scofield, Utah, May 2.—To-night's estimate of the number of killed in the terrible mine explosion here yesterday is 250, but the total death list may yet reach 300. Relief work is still in progress, being conducted by shifts of men. The shift now in the mine has 50 bodies ready to bring out, and the number of corpses yet to be reached is still uncertain. Arriving trains are constantly bringing relatives of the victims from outside points, and the coal company has designated a committee to carry the dead to Salt Lake, Ogden and other cities. On account of gas, No. 4 mine has been abandoned as a means of rescue, and bodies are arriving at the mouth of No. 1 by the carload.

Ferrish level has been cleared of dead, and all are burned and unrecognizable.
