ST. LAWRENCE MARKET.

Receipts of farm produce were 100 bushels of grain, 30 loads of hay, 1 load of straw and a few dressed hogs.

Wheat—One hundred bushels fall sold at 85c for old, and new would be worth about 82c to 83c.

Hay—Thirty loads sold at $15 to $16 per ton for old, and $10 to $11.50 per ton for new.

Straw—One load of sheaf sold at $12 per ton.

Dressed Veal—Veal killed in the country these hot days and shipped per express is slow sale and will meet indifferent sale. Farmers, sell your hogs and calves alive as long as this hot weather lasts, or you will get left. Some green hogs sold at $9 per cwt. and some could not find a market

Butter—Market firmer, farmers' separator dairy selling wholesale at 23c to 24c; creamery, 25c to 26c; store lots of butter, 21c to 22c. These quotations are from the wholesale commission firm of Rutherford & Marshall, which is one of the most reliable firms in Toronto.

Spring lamb and mutton, wholesale, are cheaper, as will be seen by our wholesale quotations.

Joshua Ingham bought 20 hogs at $9.50 per cwt.; 20 calves at $5.75 per cwt. alive; 150 lambs, alive, at 7c per lb.; 40 yearling ewes, at $4.50 per cwt.

Toronto Wool Market.

Wool prices, which this season have been much lower than usual, are not likely to go higher, but still lower. If the London wool sales are any indication of the trend of the market, and would draw the attention of our readers to the report of the London sales of the 28th, where a decline of from 2½ to 10 per cent. has taken place on the highest prices during the present series, which brings all classes back to practically the old level. In view of this and the fact that the sales have been shortened by seven days and some 70,000 bales have been withdrawn the present prices as they have been quoted for Canadian fleece during the present season have been well within the limit of a liberal price.

London Wool Market.

LONDON, July 29.—The wool sales were continued to-day with offerings of 12,206 bales, a small supply of merinos sold at unchanged rates; cross-breds, comprising the bulk of the offerings, were in good demand, the inferior sorts continued irregular. The withdrawals to-day were fairly numerous and scoured slips were in good request, especially by France. Suitable lines of greasy were taken by America. The following is the sale in detail: New South Wales—600 bales; scoured, 1s 4d to 1s 6d; greasy, 10d to 11d. Queensland—100 bales: scoured, 1s 3d to 1s 9½d; greasy, 3½d to 10d. New Zealand—8,000 bales; scoured, 9d to 1s 8d; greasy, 4¾d to 10d. Punta Arenas—3100 bales; greasy, 8¾d to 10d.

Chicago Gossip.

Spader & Perkins to J. G. Beaty at the close of the market:

Wheat—Prices were advanced one cent on crop advices from the spring wheat belt, the continued good export inquiry and the prospective lighter movement in the winter wheat states. Black rust was reported at several points in South Dakota. It is present every year and there is nothing as yet to show that it will be serious this season. The weather has been hot and sultry, to which is due its development. From Jamestown to Bismarck, North Dakota, Mr. Snow finds plenty of evidence of damage, and estimates the probable yield at eight bushels. Northwestern markets were strong and orders from that section were a factor here at one time. Acceptances were light to-day. There was a sharp demand here and seaboard and Chicago are both doing a steady export business. It would seem that cash wheat is on a legitimate level.

Corn—Prices shot upward at the start, but the trade and enthusiasm fell off later and the last hour the market showed little or no strength. Aside from the complaint of dry weather at one or two points crop advices are entirely favorable, and so long as moisture is sufficient these high temperatures will promote rapid growth. Receipts are moderate enough at the moment, but with the finishing of harvesting a larger movement is probable.

Oats—The market opened sharply higher, with the September in greatest demand. Buying was of an investment sort and in small lots. Threshing returns continue to indicate light yields thru this state and the Iowa weekly report estimates the yields at from 10 to 25 bushels in the southern tier of counties. Cash oats were up from 1c to 2c a bushel, commanding a big premium over the September. It does not look as tho the movement would prove burdensome in the immediate future.

Provisions were fairly active and higher with packing interests leading in the buying of lard and the profit-taking long supplies most of the offerings. The shipping demand for dry salt meats was good and the hog movement continues much lighter than a year ago. These factors gave provisions a strong undertone; 20,000 hogs estimated for to-morrow.

Ennis & Stoppani wired to J. L. Mitchell at the close:

Wheat—Market showed firm tone today and closed at a cent gain for the day. There was good buying by several of the leading commission houses and the northwest sent out black rust reports accompanied by buying orders, causing shorts to get under cover and several of the local bulls reinstated long lines. There is a general disposition to play for an upturn. Strength to-day came from black rust reports in South Dakota and unfavorable news from crop experts in the field.

Corn—Was firm for the new crop months and the close showed half a cent gain. Offerings were light and there was fairly good buying by commission houses.

Oats have been active and strong, with large professionals arrayed on the bull side.

Provisions—Ruled firm and higher under good buying by packing interests and commission houses.

J. R. Heintz & Co. wired R. B. Holden at the close:

Wheat—The selling was quite pronounced again this morning, but the offerings were pretty well taken and the market worked up over a cent. The recent decline has caused a good export demand. We strongly advise purchases around present figures. The Kansas wheat crop is estimated at 75,300,000 bushels, against the government estimate of July 1, of 80,000,000 bushels. There has been a good demand for cash wheat in the sample market.

Corn—Was a little stronger. The shorts covered considerable. Fair buying by commission houses. The weather is fine and crop is doing well, but we advise caution in shortening this market, except on good bulges.

Oats—Have acted in sympathy with corn; it looks as tho the bears had oversold themselves on the recent decline and conditions are such that a sharp rally could be brought about without much effort.

Provisions—Shade higher. No new features. Packers bought a little.

Brutal Methods.

He asked if he could be allowed bail and was told by the magistrate he would if he could get it.

Quinn turned to signal to a friend, but was immediately pounced on by Sergt. Mulhall and unceremoniously shoved down the stairways.

Even the court reporters commented upon it.

BROKERS ARE AWAKENED FROM LETHARGIC STATE

By a Sudden Demand for Trethewey Stock, Which Scores Good Advance.

World Office
Wednesday Evening, July 29.

A sudden demand for several blocks of Trethewey threw the local mining exchanges into a state of semi-activity today, and destroyed the impression among brokers that they were to be given a quiet period during the hot weather. Orders for Trethewey were placed on both local exchanges to-day, and brokers scurried the town to find stock to fill the demand. The purchases are undoubtedly being made on account of the expected dividend announcement, but the best guess on this event does not place the time for the news earlier than Aug. 10. A fillip was given the whole Cobalt market when it was seen how easily prices advanced in this one stock, and offerings in some other issues were taken by speculators in preparation for a general upward movement later on. Cobalt Central was bought in good round quotations for Indianapolis and Crown Reserve was purchased for Montreal. To-day's business is not accepted as a precursor of immediate activity, but is regarded as a certain evidence of later buoyancy owing to the small present floating supply of shares.

New York Cures.

R. R. Bongard (Chas. Head & Co.) reports the following transactions in Cobalt stocks on the New York curb:

Corn—Receipts, 1075 bush.; sales, 35,000 bush. futures; spot steady; No. 2, 84c nominal elevator, and 84½c nominal f.o.b., afloat. Option market was generally higher on covering by room shorts, and with the west closing at ⅞c to ⅞c net advance; Sept. closed at 81⅞c; Dec., 70⅛c to 71⅜c closed 71c.

Oats—Receipts, 40,500 bush.; spot steady; mixed, 26 to 32 lbs., 60c to 62c; natural white, 26 to 31 lbs., 63½c to 66c; clipped white, 32 to 40 lbs., 66c to 73c.
