ROYAL CITY PEOPLE WANT SANITARIUM

Ask Their Council for Money Towards Dr. Fagan's Scheme

New Westminster, B.C., March 26.—That Dr. Fagan and his assistants in the campaign for the eradication of tuberculosis are now hot in the fight was made evident to the members of the city council last evening.

A delegation consisting of Dr. Fagan, provincial health officer; D. S. Curtis, D. G. Brymner, J. J. Jones and J. B. Mathers waited on the council in the interest of the anti-tuberculosis movement. D. S. Curtis stated that they had been appointed by a meeting of citizens of this city last week to wait on the city council and ask for an appropriation of $1,000 towards erecting a tuberculosis hospital. He asked that Dr. Fagan be given an opportunity to address the council on the subject of their call.

Being given permission, Dr. Fagan pointed out the great value of human life and the meagre precautions that were being taken in Canada to arrest the ravages of consumption, the agency which he claimed was responsible for more deaths than war or all other diseases. Consumption, he stated, has always been a curse to the human race, but by means of much investigation in modern times scientific men had discovered a means of checking the disease. Tuberculosis was a dreadful disease because it passed from the sick patient to the healthy citizen and more victims are being added to its list in Canada every year. Dr. Fagan stated that during the months of January and February 23 persons died from consumption in British Columbia, and the deaths in Canada during that time had run into the hundreds.

The speaker told something of the success that had been met with in other countries where efforts have recently been exerted towards stopping the inroads of the disease. In Germany, where the first concerted action against consumption commenced the death rate from the disease has been decreased during the last 15 years by 60 per cent. Other countries had also fought it with marked success. In Ireland, where no fight against tuberculosis had yet been made, the death rate from consumption was increasing at the rate of 15 per cent. Dr. Fagan stated that he had recently received a report from Northumberland on the work accomplished in the tuberculosis hospital there, which had afforded him much gratification. The report stated that 60 per cent. of the hospital's advanced cases were in a healthy condition and able to attend to their ordinary duties.

In these hospitals the doctor states the treatment is carried out by means of fresh air, food and rest and exercise, the latter under expert supervision. The speaker pointed out the great need of a place for the proper care of consumptive patients. He stated that the hospitals were refusing patients right along. Only recently he stated the Royal Columbian hospital had turned away a young man who was in the last stages of consumption, and the invalid had soon after died.

With reference to the finances, he informed the council that $50,000 was required in order to open the institution and a considerable amount of that sum had been subscribed. Vancouver had promised $5,000 and Victoria had, he was ashamed to say, promised only $750. G. D. Brymner of the deputation also spoke a few words in reference to the finances.

In reply to the deputation, Mayor Keary stated that he was in favor of helping the sick, but the matter under discussion appealed to him in a manner unfavorable to the delegation's request. He could see no reason why municipalities should be asked to support such an undertaking. The Provincial and Dominion governments represented the people completely and the governments should provide the entire cost of an institution such as was proposed. Dr. Fagan stated in reply that no government had ever yet taken the lead in the fight against consumption. The start had always come from the people. In his canvas for funds among the people generally the doctor stated he had invariably found persons who did not want to give themselves advancing the same political question as had been raised by his worship. "Dr. Fagan, I take issue with you right there," said the mayor. "I had no thought of raising a political question, in fact politics was not in my mind when I made the remark, and notwithstanding what you say, doctor, I still hold that the governments should support this movement." His worship stated further that the governments were spending vast sums of money foolishly and should invest some in the proposed hospital. He knew perfectly well that many people were working hard to help the project along, but why should they do it? he asked; they will never get any thanks for it. Dr. Fagan stated that the people who were working for the hospital were not doing it for thanks but for protection. The ravages of the disease was on the increase and it was for the people to do something without delay.

After several aldermen had asked questions from the members of the delegations, Mayor Keary informed the visitors that an answer to their request would be given within a few days.

GOT NO MONEY.

Winnipeg Applies in Vain to Eastern Financiers.

Winnipeg, March 27.—Mayor Ashdown and John Aird of the Bank of Commerce, who have been several days in the east endeavoring to secure a loan of $2,500,000, have met with little success. Both parties are reticent as to the success of the negotiations, but it is understood that they have failed absolutely to secure money from the Bank of Commerce, and a trip to Montreal to tap the financial magnates there met with poor success. a definite announcement is to be made tomorrow night by Mayor Ashdown at a special council meeting.

KOOTENAY LAKE FATALITY

Roderick McKinnon Drowned by Falling Off Barge

Kaslo, March 27.—Roderick McKinnon, of the C. P. R. tug Ymir, was drowned in Kootenay lake. He was in charge of a barge being towed by the Ymir to Kootenay Landing, and, not receiving an answer to signals, the tug slackened up and the crew went to investigate. No trace of McKinnon could be found, and the supposition is that while making a tour of inspection of the tow lines he slipped off the barge and fell into the lake.

The Ymir turned about, and, aided by the Hercules, patrolled the lake in hopes of finding the missing man or the body, but the search was in vain. Roderick McKinnon was barely twenty years of age, and a general favorite with his captain and crew. He came from Scotland a few years ago.

The time used is Pacific Standard for the 120th meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. The height is measured from the level of the lower low water at spring tides. This level corresponds with the datum to which the soundings on the Admiralty chart of Victoria harbor are referred, as closely as can now be ascertained.

RELIEVES COUGHS BY SOOTHING NERVES

It may not have occurred to you that both bronchitis and asthma are diseases of the nerves of the bronchial tubes and lungs, and that this is why severe attacks of coughing are brought on whenever these nerves are irritated by changing temperature, the breathing of dust or emotional excitement.

It is by its remarkable facility for soothing the nerves and sheathing the delicate membranous linings with a protective coating that Dr. Chase's Syrup of Linseed and Turpentine has proven so thoroughly effective as a cure for bronchitis and asthma. Its power in these diseases is unquestionable.

Relief from coughing comes almost immediately and by persistent use cure is gradually and certainly brought about.

When the system is greatly run down it is advisable to also use Dr. Chase's Nerve Food in order to assist in restoring vigor to the wasted nerves.

Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle, family size 60 cents, at all dealers or Edmanson, Bates & Co., Toronto.

Dr. Chase's Calendar Almanac will be sent free to any address.

PLANS ARE IN SHAPE FOR THE BENCH SHOW

Many Entries Received and More to Follow—List of Prizes Offered

The sixth annual bench show under the auspices of the Victoria City Kennel club will be held in the old Sehl block, Government street, commencing April 13, and continuing for four days. The committee in charge has been working on the arrangements for this show for several weeks past and has now got the plans in perfect shape for the grand opening. The show is held under the rules and regulations of the Canadian Kennel club and everything must be carried out as advertised. The number of entries received is much larger than last year and as the list will not be closed for another two days it is expected that many more will be received. Entries have been received from Seattle, Olympia, Portland and Vancouver, while others are expected from several other outside cities. Among these entries, English setters predominate, with the Irish class close behind. Bull dogs and bull terriers will also be strongly represented. The club has secured E. Davies of Dewdney, to act as judge and in securing him they have got one of the best on the coast. The prize list is large and includes some very valuable trophies.

The Canadian Kennel club offers medals for the best setter, any breed, best spaniel, best collie and best terrier. The Victoria Kennel club offers a cash prize of $25 for the handler bringing the largest string of dogs from Washington; $25 for the largest string from Oregon; $25 for the largest string from California, handlers to have at least 15 dogs; $25 to the handler bringing the largest string from British Columbia outside of Victoria the string to be composed of not less than 20 dogs. The club will also give the handler $1 per dog for each additional dog over fifteen from Washington, Oregon or California, and the same amount for each additional dog over twenty outside of Victoria or Victoria district.
