Address all business letters or correspondence to "MONITOR" Office, or
R. S. McCORMICK, Manager.

The Weekly Monitor.

WEDNESDAY, JUNE 4th, 1890.

Historical Notes on Forgotten People.

On the 14th of October, in the year 1755—we speak from memory—there stood on the banks of the river in the town of Annapolis, at an early hour of the day, a number of people male and female, all intently engaged in watching a number of vessels lifting their anchors and preparing to sail seaward. These vessels were thronged with passengers in the holds and on the decks. A pleasure party was it? We fear not; they were those of the French habitants of the valley who had been secured by the authorities, and doomed to expatriation. The ships were of a tonnage from 100 to 400, and they were loaded with a human freight at the rate of two persons per ton. But who were the people on the shore? Mr. George Dyson, of whom we spoke last week, was one of them, and if the reader had previously had any knowledge of these people, he would have recognized Philip Berteaux, of middle height, square shouldered and an agreeable looking young man; he would have seen in the tall military looking man standing a little in front of the others no other than Major John Handfield, then in command of the 40th regiment, and a son-in-law of William Winniett, the father of commerce in Nova Scotia, then not many years deceased; the man in the priestly robes he would easily name as Father Daudin, whose heart was filled with pity for his countrymen, though he had urged them to resist the government at the peril of the great evil which had now overtaken them; the tall man—six feet four inches in height,—and stout as well as tall, would, at once, be named as Francis Burkley Lecain, artificer in the employ of the board of Ordnance, and son-in-law of Thomas Hyde, a master carpenter in the same employ. Mr. Lecain had been a dweller in the town for thirteen years, having first domiciled there in 1742; the lady who stands a little to his left is Mrs. Mary Magaden Winniett, the widow of the late William Winniett referred to, and the young men by her side are Joseph and Matthew Winniett, her sons. She was a French woman and a Catholic, and manifested her pity visibly by tears at the sight before her; the gentleman who stands a little apart, a stoutish and fleshy man, with a florid countenance, would be easily recognized as Erasmus James Phillipps, then a captain in the 40th, a brother-in-law of George Dyson, and three years later destined to be a member of our first House of Assembly; near to the last named stands John Easson, whose commission by the Lords of Ordnance bore date 1737. At the time we are describing, he had been a permanent resident in the town for more than 15 years; the woman and lad beside him are his wife, Avis Easson, *nee* Stewart (?) and his only surviving son, a child of ten years, whose whole attention seems to be fixed on the movements of the vessels now opening their sails to the rising breeze; the matronly though sad-eyed woman, holding a little lad by the hand—her posthumus son—that is Mary Magdalen How—*nee* Winniett, whose husband had been treacherously murdered seven years before, through the machinations of that splendid villain, the Abbie Le Loutre; it is Mrs. Handfield, her sister, who stands beside her; just behind the group described is a young man with his bride-wife on his arm; that is John Harris, a son-in-law, perhaps, of Francis B. Lecain; and a little to the right of them is seen John Wm. Davies with his wife, then only two years married, and afterwards the great-grandfather of the late T. H. Davies, Wesleyan minister of this town, and James Brown and his wife, Jane Brown, *nee* Nichols. Besides these whom we have named were some others who will fill a place in our description further on, or in another article, in which we shall give such account or biographical sketch of each as we shall be able from facts furnished by history and family traditions.

Signs of Improvement.

Every new industry started in our midst or neighborhood is a pledge for the future growth and prosperity of our town, by giving employment to its people, and by turning raw material into valuable fabrics, and this is especially the case where the raw material costs but little and exists in abundance. We are glad to learn that the International Brick and Tile Company have received the machinery and other plant necessary to their contemplated manufacture, and have already begun preliminary operations in levelling and grading their yards and placing the machinery in position. We are informed that in four or five weeks time the whole will be set in operation, and a kiln of bricks and tiles be made ready for the burning process. In doing so we should advise that great care should be exercised in the production of the initial cargo, as much will depend upon its quality and make up. An inferior article placed on the market would necessarily prove a great obstacle to final success in the business. We understand that the American shareholders have paid a visit to the *locus*, and have spoken in terms of high praise of the facilities for shipment at their command, as well as of the quality of the clay and other materials to be used.

To our farmers the inauguration of the works of this company means much good if they have the ambition to use it. The judicious draining of their lands and orchards by means of tiles, would prove a mine of wealth to them if they should make the trial. Well drained soils may be worked and have seed planted in them weeks before similar undrained soils would be in condition to cultivate. Orchards on well drained lands blossom earlier and produce finer and sounder fruit. These facts have been ascertained by thousands of experiments by American and European farmers, and will admit of no contradiction. Drainage is not an expensive operation, all things considered, for a few years of *extra* crop soon repays the original cost, and provides for a continuous profit in future years. We, therefore, believe that a ready home sale of drain tiles will be secured by the company, and it should be their aim to place them on the market at as low a price to our own people as possible with a view to profit. Which of our intelligent farmers will be first to give an order, and set the example to his fellows to do the same, and thus have the honor of taking a first step in the newer scientific system of farming?

Local and Other Matter.

—The Ontario elections take place tomorrow.

—Haley was elected in Hants by a majority of one.

—Judge Savary has removed with his family from Digby to Annapolis, where he intends henceforth to reside.

—The fisheries protection cruiser *Vigilant*, Capt. Knowlton, is now to the eastward looking after the Yankee fishermen.

—The new extradition treaty between Great Britain and the United States has been duly ratified.

—Agriculturists will find an interesting article on our fourth page, respecting the Rigby Potato Digger and its merits.

WOOL! WOOL!!—Any quantity of Wool wanted for the Yarmouth Woolen Mills. Runciman, Randolph & Co. tf

—John B. Mills, M. P., spent Monday afternoon among his many friends and supporters in our town, having arrived from Middletown on the noon train.

TO CORRESPONDENTS.—"C. H. B." will excuse us for not giving publicity to his correspondence, as the subject referred to was in type before his letter reached here.

—The Duke of Edinburgh, who is crossing the continent by the C. P. R., is delighted beyond measure by the panorama of changing scenery, and the fine climate of our "far West."

—Mrs. Amelia Walker Newell, and daughter, Lizzie Jefferson Newell, of Haverhill, Mass., are visiting relatives and friends here, and will spend a month among childhood's hallowed associations.

—Rumor says that Mr. Frank Andrews, ex-M.P.P., is to be the new postmaster at Middletown, made vacant by the death of the late John Gullivan. Mr. Andrews is thoroughly qualified for the position, and we think the appointment would be a satisfactory one to the public in general.

—Very slight hopes are now held out for the recovery of Mr. George Russell, proprietor of the Revere House, who has been ailing during most of the past winter, and confined to his own room for the last six weeks. Mr. Russell has a host of friends who will be pained to hear of his severe illness.

—The anniversary exercises of Acadia College will be held to-morrow, commencing at 10.30 o'clock. Members of the graduating class will deliver orations, music of a high order be rendered, and addresses given by prominent gentlemen. Thursday evening the class of '90 give a grand reception to alumni and friends. Several of our townspeople will attend.

—A fine new cottage is about to be added to the many already built in the beautiful district of Clarence. The foundation for the erection of the one referred to is now being laid. It will be situated in Lower Central Clarence and is being built for Mr. Norman Rumsey by Contractor Bent of this town. This new dwelling will be an ornament to the district when completed, as we learn Mr. R. will spare no expense in making it fill his ideal of what a new home should be.

FIRE AT MEADOWVALE.—The house and barn of John Banks, Meadowvale, was burned to the ground on Saturday night, May 31st, at 12 o'clock. Two valuable horses, one Jersey cow and calf, together with all the farming implements were totally consumed. The household furniture was saved in a damaged condition. It is not known how the fire started, it first being discovered in the barn. Mr. Banks feels the loss, some $2,000, greatly, as he is sick, and not able to work. No insurance.

DEAR EDITOR,—Allow me to set to rights a matter which I neglected last week. In writing the report of the celebration and concert, I, through carelessness or forgetfulness, omitted to make special mention of the very fine music and singing rendered to us that evening by the Misses Franks and Mr. Franks.

These young ladies deserve more praise than we are capable of giving them, for the way they gave us their choice selections of vocal music.

Hoping no hard feelings may arise on account of my blunders, I remain, yours, S.

—In another column will be found a letter from the pen of one of our Bridgetown young men, which will, we feel assured, be of interest to our many readers, not only for its own merit, as an account of other lands so much less blessed than ours in religion and civilization, but as showing us that even so far away, the writer, Mr. Archie Troop, keeps a warm place in his heart for "his native home," by describing for our amusement and edification the country wherein he now resides, and where he is attaining honor and celebrity. We are always pleased to hear of the prosperity of our absent friends, and to publish anything of interest furnished by them.

—A crowded house welcomed the Fisk Tennesseean Company on Friday evening last, and were entertained by a musical treat not often enjoyed here. The plantation songs and choruses were well rendered, the voices blending most melodiously and sweetly. The solo, "Jesus, Lover of my Soul," by Miss Jennie Gatewood, who is gifted with a clear and beautiful soprano, was most enthusiastically encored, to which she responded by singing equally as well, "The Cows are in the Corn." The recitations were well given and amusing, and we heartily recommend the Company to the patronage of all lovers of music wishing to pass an enjoyable evening. They are to be at Annapolis to-night.

MIDDLETON'S CELEBRATION.—The people of Middleton have definitely decided to celebrate the 1st of July in good shape by a grand Strawberry Festival, sports of all kinds, base-ball match, and other amusements. The various Committees are now hard at work perfecting the arrangements, and large posters announcing the programme will be issued at once. Among the many enjoyments of the day, will be an excursion on the Nova Scotia Central railway as far south as Alpena, the location of the mills of E. D. Davidson & Sons, which will afford the excursionists a view of the beautiful Nictaux Falls and river, as also a ride through the great gulch known as Smith's cutting. No doubt many of our southern friends will take advantage of the occasion, and a good programme, well carried out, will draw together a very large assemblage.

CIRCUS.—Frank A. Robins' combined show is to perform in Kentville on June 23rd.

—Persons desiring hats in the very latest styles should call at T. A. Foster's. 1i

—Mr. John H. Fisher, for many years our custom tailor, has sold the business he recently established at Bridgewater, and will probably return home to-morrow.

—Early closing among the merchants is now the talk in Lawrencetown, they not wishing to be behind other towns in a movement that should commend itself to every business man.

BAPTISM.—The ordinance of baptism was administered to four candidates last Sabbath morning at half-past nine o'clock at Currell's Mill Pond, by the Rev. F. M. Young, Ph. B.

—Our timely suggestions *anent* the caterpillar are being effectually and most thoroughly carried out, and we can safely state that this section of the county has the enemy under control.

—Rev. Henry D. deBlois and daughter removed their household furniture from Annapolis to this town last week, and have now taken up their permanent residence in the dwelling vacated by Dr. deBlois.

—The Annapolis *Spectator* says that the lead found at Caledonia by Dr. S. Primrose some twenty years ago has lately been more fully explored by other parties and turns out to be one of the richest in Nova Scotia.

—The steamer *New Brunswick*, of the direct route from Annapolis to Boston, is making unusually quick time so far this season. Yesterday she arrived at Annapolis at 10.30 a.m., with quite a large passenger list besides considerable freight.

—We understand that an effort is being made to have the Jubilee Singers again visit here; and if the arrangement can be effected, their second performance, which will be of an entirely new programme, will take place about the end of the month.

—Mr. Charles Margeson, of Port George, brought to town yesterday morning the first salmon of the season, together with a small quantity of choice large mackerel. The latter found a ready market at 10 cents a piece, and one or two sales of the salmon was made at 25 cents per pound.

—Mr. W. A. Calnek is engaged making a survey and running out the lines of our principal streets. As the services of a surveyor seem to be required very frequently for this purpose, would it not be as well to make a thorough and accurate one, and have the contentions now daily occurring set at rest for all time to come?

—Commencing 2nd June, the Bay of Fundy Steamship company's steamer *City of Monticello* will leave St. John every Monday, Tuesday, Thursday, Friday and Saturday at 7.30, for Digby and Annapolis, connecting there with the W. C. and W. & A. railways, returning same days, being due at St. John about 7 p.m. See ad.

—The early closing movement among our merchants came into operation on Monday evening at six o'clock, and ten minutes afterward every place of business, with the exception of Medical Hall and the store of W. W. Saunders was closed to the public. Some few buyers, living in the outskirts, who had overlooked the announcement, came in town during the evening, and earnestly pressed for favors from tradesmen with whom they had been doing business for years; and failing in the purpose, seemed somewhat annoyed and offended. Those who have decided to close, will, no doubt carry out their promises, though it is the expression of many that the measure is too severe, as two nights a week would be sufficient.

STRICKEN WITH APOPLEXY.—Mr. Job Wade, of Lower Granville, one of the oldest and most respected gentlemen in this county, was suddenly seized with apoplexy on Friday evening last, since which time he has remained in a semi-conscious and dangerous state, and very slight hopes of his recovery are held out by his physician, Dr. Coleman, of Granville Ferry. Up to the time of the attack, this gentleman, who has reached the age of ninety, had been in the possession of unusual good health and strength, his activity and general robustness, being remarkable for his advanced years. His sons Mr. Fletcher and Albert Wade, now residing in Bridgewater, were hastily summoned home, and are at present lending all the comfort and assistance in their power to the afflicted.

—The New York Comedy Company under the management of Mr. Herbert B. Chesley, is announced to give two performances here on the evenings of June 11th and 12th, at the Court House. Referring to the Company we glean the following from the New York *Herald*:—

"The Grand Opera House was well filled last night to witness "Flies in the Web," by the New York Comedy Company. Herbert B. Chesley as the Lawyer, and Francis Xavier, as Paul Weldon, kept the audience in excellent humor, while Cora Redfield, as Alice Devereaux, Emma Salisbury, as Phoebe Tangle, presented the eccentricities of woman-kind to perfection. The other members of the Company were good, and the singing by the different artists was excellent. The generous applause given both actors and singers was certainly an indication of popularity."

If not Wanted, Don't Answer.

The ladies will probably want to buy something very nice and stylish for a summer dress or mantle. This being the case, what better can they do than write to Daniel & Robertson, "London House Retail," St. John, for samples, which will be sent to any address on request. 1i

Pinafore at Annapolis.

We attended "Pinafore" at Annapolis last week, which was played before an audience numbering, we should judge, between six and seven hundred people. Good judges who had seen the play acted before, said they had never before seen it put upon the boards in a more pleasing or artistic manner. Everything worked smoothly and harmoniously, without a single hitch, and no one went away either ungratified or disappointed. Where all did so well, it would be extremely difficult to award a greater mead of praise to one more than to another, but Miss Gates as "Josephine," Miss Eagles as "Little Buttercup," Mr. Harris as "Dick Dead-Eye," the universal favorite, Mr. Tom Cowling, as "Captain Corcoran," and last but not least the popular manager, Mr. Barnaby, as "Sir Joseph Porter," elicited round after round of applause. The dresses were elegant, *recherche* and appropriate, and when combined with the good looks and stylish bearing of all the members of the "troupe," presented a charming picture not soon to be forgotten. Miss Wood's playing, was as usual, simply perfect, and added much to the success of the entertainment. Some of the performers were the recipients of very handsome bouquets, and noticeably among them, one given to "Little Buttercup," was much admired. We have given this lengthy notice, since we understand Mr. Barnaby has expressed his willingness to repeat the play in Bridgetown about the 1st of July, when we can assure him of a bumper house, since a performance so well managed and so effective as this, is but seldom witnessed.

—County Judge Blanchard, died at his residence, Kentville, yesterday morning.

—Messrs. Fitch and Bryenton have commenced the publication of a daily paper at Amherst, called the *Daily Press*.

—The Oxford and New Glasgow railway will be opened on Monday, June 9th, the day the summer time table goes into operation.

—J. E. DeWolfe & Co., of Kentville, shipped 60,000 shingles to Middleton yesterday for the new combined Station House for the two roads.

—To-day the Cornwallis Valley Railway Company expect to runs cars from Kentville to Kingsport, on the occasion of the launching of Mr. Burgess' new ship, the *Kings County*.

—There was a rumor in Halifax yesterday that advices had been received from England that a regiment of the line and two batteries of artillery were about to sail for Nfld., in view of anticipated troubles.

—A petition is being circulated in Halifax for signatures protesting against the Sunday demonstrations of the Salvation Army as an annoyance to the public and an infringement of the Sabbath observance law. The petition will be sent to city council.

—An Ottawa despatch says that Mr. George Johnson, Dominion statistician, has the work of the census very well mapped out, including the greater part of the details. The schedule will contain a number of new questions, intended to make the statistics more complete than formerly.

Belleisle Bits.

This is the Eden of Acadia just now.

Fruit promises abundant, as far as blossoms show. Caterpillars and canker worms do not seem to be as numerous and destructive as last year at this time.

Hay promises good. Seasonable showers through the month will insure an average crop.

Farming is in a backward state owing to heavy rains last month.

The new bell in St. Mary's church is finely toned, and can be heard any Sabbath calling sinners to the house.

We are pleased to learn that Mr. A. A. Ray, who has been so long a terrible sufferer, is at present somewhat better.

Hampton Happenings.

Our spring farming is nearly or quite finished. Grain is looking well, and early potatoes are coming up nicely.

Adoniram J. Foster has been very sick with inflammation of the lungs, but now seems to be in a fair way to recovering.

Capt. John Templeman has sold the schr. *Prize* to parties at Margaretville and has taken charge of the *Heatherbelle*.

The fishing business of late has been rather dull, owing to bad weather. A large number of vessels have called here for bait and ice, and the supply of ice will soon be exhausted.

Death has again visited us, calling away our friend Mr. William Smith, of St. Croix. He was buried on Monday last. Our pastor, the Rev. J. Webb, conducted the funeral ceremonies, preaching a fine sermon from the words "Prepare to Meet thy God."

Lawrencetown Notes.

Road-work operation begins here on Monday, the 9th.

Report says that a large New York Comedy Company are to be here soon.

The drive of the Lawrencetown Milling Co., will arrive here the first of this week.

We are sorry to chronicle the death of the little boy of Mr. and Mrs. Campbell McLeod.

Large quantities of paint and whitewash would make the appearance of our town much better.

People all seem well satisfied with our celebration of the 24th, and want us to "do it again."

Miss Annie Balcom, found a fine brooch last week. Anyone describing it may have it, by calling on her.

Avard Phinney, Esq., proprietor of the Elm House, has sold his stand. It is to be used as a parsonage.

This town is in need of a large hotel; and if a good one is opened, it will surely pay the proprietor.

A child of Dr. L. R. Morse, and J. N. Whitman's little boy, are both seriously ill, but we are hoping they will survive.

Some of our people visited your town on the 30th, to hear the Fisk Jubilee singers. They all speak well of them.

Freeman Fitch, Esq., and W. R. Morse were out to the half-way on the 31st, fishing. They report a large catch, both in quantity and quality.

Imperial Government.

THE GOVERNMENT DECLINE TO DISCLOSE THE BEHRING SEA NEGOTIATIONS AND DECLARE THE REPORTS ABOUT NEWFOUNDLAND OVERDRAWN.

LONDON, June 2.—Parliament re-assembled to-day after the Whitsuntide recess. In the house of commons Sir James Ferguson, parliamentary secretary for the foreign office, declined to lay on the table papers relative to the negotiations with the United States concerning the Behring Sea trouble until the question was settled. Sir James also stated that neither the French nor English government had received any information of the landing from a French war ship of officers and men on the coast of Newfoundland, who ordered Newfoundland fishermen to remove their nets, and upon their refusal to do so removed them themselves. He was sure, he declared, that officers in the English and French services could be depended upon to preserve a conciliatory attitude pending arrangement of the Newfoundland fisheries trouble. The government had every reason to believe that the alarmist reports concerning the situation of affairs in Newfoundland were incorrect.

—Dr. Ibbertson, specialist for old complaints, at Wilmot, N. S., begs of the people to give the faculty doctors a fair trial before applying to him. He has adopted the plan of manufacturing medicine to order, hoping thereby to benefit the greater number, and his success in curing chronic disease of every type—except true consumption of lungs—has silenced all criticism. His cures are effected by restoring the blood, and building up the worn and debilitated system by a judicious course of tonics, changing the medicines as the case demands. He cures dyspepsia, acid stomach, etc., with disease of the heart, liver, kidneys, spine, brain, air tubes, sick headache, nervous debility, catarrh, falling fits, blood and skin diseases, etc., etc. Satisfactory proof of the above statements will be sent to any address, when requested. Place of business at Samuel A. Dennison's, Esq., Wilmot, N. S. tf

—The Indians of northern British Columbia are threatening because of the destruction of their burying fields by fire started by white men. The Indians custom is to hang the bodies of their dead in trees, and the piece of the forest used for that purpose was recently swept by fire.

—We have a speedy and positive cure for Catarrh, Diphtheria, Canker Mouth, and Head-Ache, in SHILOH'S CATARRH REMEDY. A Nasal Injector free with each bottle. Use it if you desire health and sweet breath. Price 50 cents. Sold by Drs. deBlois & Primrose, Bridgetown, and Dr. Morse, Lawrencetown.

—The grand division of the sons of temperance of New Brunswick is now in semi-annual session. The grand scribe's report shows the number initiated during the half year, 1,455; joined by card, 35; in resuscitated divisions, 411; withdrawn, 290; suspended, 373; expelled for violation of the pledge, 39; expelled for other causes, 71; died, 16. The net increase is 381. The grand treasurer's report showed the balance on hand last term, $368.90; receipts for half year, $665,88; expenses, $800.90, leaving a balance of $233.88.

Career of a Swindler.

A New Hampshire man named G. F. Jewett, engaged in the publishing business, has swindled many people out of large sums of money and has cleared out. The Boston *Herald* is showing up his rascally career, and among other things narrates this fact:

While connected with the Osgood concern Jewett conceived the idea of developing a gold mine in Digby, N. S. Many and heavy were the promises made of the success of the scheme, but it didn't pan out very well. Jewett, as has been his custom in nearly all of his dealings, induced several of his friends to go into the scheme. Between $30,000 and $40,000 were raised to purchase the land on which the "find" was located and established a plant. There was gold in the soil, sure enough, but it was of a pretty poor quality of the metal, and there was hardly enough to pay for getting it out. Things ran along unsatisfactorily for a month or two, and then, one day, Mr. Jewett "unloaded" much to the discomfort, as well as loss, of the other stock-holders.

A Most Remarkable Verdict by a Coroner's Jury.

MONTREAL, May 28.—Thomas Kimber, a young Englishman, arrived in Canada from Topsham, Exeter, England, by the *Sarnia* on the eleventh of April. He took quarters in the hotel of Thomas Styles in this city, and after a heavy bout of drinking suddenly disappeared. Blood was found in his room when the door was forced open, and a razor covered with hair and blood was found. Detectives and police engaged in a search for him but without avail, until to-day, when his body was found in the high level reservoir. The body had three cuts in the side of the neck, a deep out across the throat and heavy stones in the pockets. Wonderful to relate, the coroner's jury returned a verdict of suicide, although it seemed almost impossible for Kimber to have cut his throat and walk almost a mile up hill and climb a number of fences without being seen.

MONTREAL, June 2.—Police Magistrate Dugas has been ordered, by the Attorney-General of Quebec, to commence investigation into circumstances attending the death of Englishman Kimber.

Special Notices.

Croquet, at Shipley's. 1i
Steel Nails, all sizes, at Shipley's. 1i
Window Glass, all sizes, at Shipley's. 1i
Locks, Knobs, Hinges, in great variety, at Shipley's. 1i
A full, fresh, and complete stock of Family Groceries, at Shipley's. 1i

FRUIT!

(Wholesale and Retail.)

Our arrangements have been perfected for conducting the Fruit Trade during the ensuing season, and at the Store may constantly be found a full line of Tropical and well-chosen Green and Dried Fruits.

We are also in a position to supply the Trade throughout the County at equally as close, *if not closer figures*, than can be obtained from any other market, and in any quantity desired.

☞ Dealers will prove this by writing for quotations.

FARM FOR SALE

That well-known Farm of JESSE OAKES, situate in ALBANY, Annapolis Co., is now offered for sale.

This Farm contains about 200 acres; is well supplied with fire wood and fencing timber, is well watered; has abundance of good pasture; cuts from 25 to 30 tons of hay, mostly upland; has two small orchards, two good dwelling houses, good barn, carriage house, and all necessary outhouses, and is within ten minutes' walk of R. R. station. Fences are in good repair, and the Farm is in a good state of cultivation.

The owner being upwards of 80 years of age, and desiring to retire from the cares of his place, offers this valuable property for the small sum of $1,600.00, half down, balance on time to suit purchaser.

Persons wanting a Farm cannot find another such bargain in the Province.

For further particulars apply to W. H. OAKES, Nictaux Falls, or to JESSE OAKES, on the premises. 7 3i

SIR BRENTON

STANDARD BRED.

REGISTERED, No. 8993.

Breed your Mares to the Best Bred Trotting Blood Lines, and it will doubly pay. SIR BRENTON is a rich Golden Bay, with the Blackest of Legs, without White.

Sired by Grand Sentinel 865, record 2.27¼; sire of Sir Knight, record 2.23¼, on half-mile track (trial 2.17½); Sentry, 2.25; Grace Darling, 2.29¾ (5 years old); Strategest, 2.28 at 4 years old; Sermpter, 2.25¼; Stockbridge, 2.28¾ at 4 years old, and others. **Grand Sentinel** was sired by Sentinel, No. 280, record 2.29¾; sire of Von Arnim, record 2.19¾, and seven others better than 2.30. Dam by Mambrino Pilot, 29, record 2.27½; sire of Hannis, 2.17¾; Mambrino Gift, 2.20, &c, and the dams of Romeo, 2.19½; Prospect Maid, &c., by Mambrino Chief; sire of Lady Thorne, 2.18¼. Dam by Pilot, Junr.; sire of the dams of Maud S., 2.08¼; Jay-Eye-See, 2.10; Netwood, 2.18¼, etc.

Sentinel, by Hambletonian 10; sire of Dexter, 2.17¼ and forty others in 2.30 and better. 1st dam of **Sir Brenton** was by **Magna Charta**, 105, record at 4 years old 2.33, probably the fastest of his day, and he has proved himself to be one of the greatest sires of Brood Mares that ever lived, and probably only equalled by Mambrino Patchen in Michigan and the West. A man can claim no greater point in his horse than to say his dam was by Magna Charta.

Magna Charta sired 5 trotters better than 2.30, and the dams of such flyers as Jack, who in 1888 took a record of 2.19½, and last season was still the sensation, taking a record of 2.15; also dam of Bell F, 2.15¼, and the dams of 12 trotters in the 2.30 list.

2nd dam of Sir Brenton was by Wellington, son of Black Prince; dam Lady Fashion, by Victor 2nd. Here we combine the great blood of Hyndyke's Hambletonian, and the best of the Morgan strain that ever existed through Magna Charta.

☞ Sir Brenton was never worked, only a little as a two-year old, and rainy weather then prevented steady exercise. However, he then showed a ¼ in 42 secs., and if trained will go fast, as he has the natural stride to do so.

Will be at Paradise till after 20th May, in charge of E. Phinney; after that, at Annapolis, in charge of D. R. McClelland.

For further particulars, address Box 12, Annapolis, or

6tf R. E. FELTUS, Lawrencetown.
