THE ROTHSCHILD CUP AT O.J.C. FALL MEET

Races Open Sept. 23 at Woodbine Park—The Big Program.

The program of events to be run at the Autumn Meeting of the Ontario Jockey Club is given below—which includes the stakes and the feature races—to these latter have been added the Rothschild Cup, a very beautiful challenge cup of the Georgian period, presented to the Ontario Jockey Club by Mr. Leopold de Rothschild, a breeder and an owner of note of race horses and a member of the Jockey Club in England since 1891. Soccer Notes.

Sporting Editor World: I wish to contradict the statement which appeared in your Thursday morning issue of The Toronto World of Aug. 10, where the secretary of the Toronto and District Football League states that there were seven players of the All-Ontario team on the Hamilton team which the Corinthians defeated rather easily. There were not seven players on the Hamilton team. There were three—three players which played for the All-Ontarios. Now, as the secretary is greatly tooting his T. and D. League team, which defeated the Corinthians, and which team consisted of five of the All-Ontarios, let him take this statement as a challenge, that the eight Hamilton players which were selected to play for the All-Ontarios, with three more selected from the Harvesters and Labor Party will play his T. & D. Corinthian team any date or place to be agreed upon before Sept. 9.

GREAT NEUTRAL MARKET BETTER THAN AMERICAN

C. C. James, C. M.G., in 1904 Advocated Independence of United States.

The following statement, from C. C. James, C.M.G., deputy minister of agriculture for the Province of Ontario, should have special weight at the present time. There is no greater authority on agricultural matters in Ontario than Mr. James, who has recently been deservedly honored with a C.M.G. from the King, on the recommendation of the Laurier government. Moreover, it should be noted that the sentiments expressed in the following quotations were used a few years ago, when there was no controversy and no political contest on to enter into the matter in any way.

In an address on "Recent Agricultural Progress," before the Natural Science Association in 1904, Mr. James reviewed the great prosperity which had followed in Ontario after the McKinley and Dingley tariff shutting Canada out of the American market. He laid particular emphasis on the development of the beef, bacon and pork and cheese industries, and then used the following striking words, as quoted in The Canadian Agriculturists' Annual for 1906:

"The day may come when we shall feel so grateful to our neighbors to the south as to erect a national monument to the memory of the McKinley tariff bill. If we do, we might reserve a niche for the Dingley tariff bill of 1897. Our trade relations with the United States are very interesting. Where they have endeavored to shut us out from their own markets, they have but stimulated our trade in other directions that have in time proved more remunerative, and often when they have excluded us from their market they have driven us to the great neutral market, where we have had a perceptible influence in settling the prices for their own exported surplus, and, therefore, their whole crop.

"The United States tariff has forced us to look across the Atlantic for our markets, and there we have sent our products into competition with the products of the farms of the United States.

"If we were looking for other arguments as to the unintended benefits to us of United States tariff opposition, we might say that the development of self-reliance and independence may outweigh even the enlargement of our British trade. To a certain extent, we were in leading strings to the United States. We have been developing a Canadian national feeling and increasing our self-reliance."

FOR REGISTRATION VOTERS

Centre Toronto Conservative Club Smooths the Way.

The Centre and South Toronto Conservative Club has prepared a memorandum concerning "Registration Voters" in the coming Dominion election. It is quite possible that in the canvass now being made many will be overlooked, and it is thought that names can be gathered from men in offices, warehouses, etc. Candidates in the past have invariably received their majorities from the registered voter, and so, at this election, when the national life of the country is at stake, it is necessary to secure all possible registrations.

The memorandum has spaces for the names of those desiring to register for the purpose of voting "Against Reciprocity" in the approaching Dominion election.

Registration voters, it is stated, must be male, 21 years of age, British subjects, one year or more in Canada, three months in the city, and 30 days in the same electoral district.

Reward for Chlorinating.

Several local legislators, among whom is Mayor Geary, believe that Fred Henning, who invented and constructed the machine now used for chlorinating the water, was not rewarded properly by the gift of $100. Ald. Rowland thinks he ought to receive $500, and he will bring the matter up at the next meeting of the council and move the increase.

PLUCKY ITALIAN

Man With Mangled Arm and Severed Arteries Asks Vacation.

With the shreds of his right arm which had been torn away above the elbow hanging from his sleeve and the blood gushing from severed arteries, Joseph Steele, 24 years of age, an Italian employed at the Port Credit Brick Works, stepped up to his foreman and shamefacedly remarked that he was afraid he would have to quit work for a time. He was rushed to St. Michael's Hospital in A. W. Miles' motor ambulance, where it is thought that he will recover, altho very weak from loss of blood. His arm had been caught in the belting of some machinery at the plant.

PROVINCE REFUSES TO PAY

Gets Fire Protection on the Cheap From City Brigades.

The deputation from Ottawa which came here Wednesday to ask the premier to have the province pay part of the expenses of their fire department, for the protection from fire of provincial buildings in Ottawa, asked the same thing that Toronto has asked a number of times. The city council thinks the province ought to pay for the protection of the parliament buildings by the Toronto brigade, but the request has been turned down. At the city hall it is believed that similar treatment will be given Ottawa's request.
