BODY FOUND BY MAIL CARRIER

Aged Man Discovered Dead in House in Westminster Township.

ST. MARY'S, Aug. 18.—(Special.)—The body of Firman Cook, a bachelor, 56 years of age, residing on seventh concession of Westminster Township, was found yesterday by neighbors, who had become alarmed at the old gentleman's non-appearance. A mail carrier, having noticed the letters left in the box, entered the house and found the man dead. The coroner, who was summoned, said that death was probably due to heart trouble.

St. Mary's Lodge No. 36, I.O.O.F., is arranging for a monster picnic on Wednesday, Aug. 20, at the collegiate institute grounds, in honor of the recent election of Dr. P. T. Coupland to the position of grand master of Ontario.

A radial line from Stratford to Grand Bend and London via Mitchell and Parkhill, is said to be a certainty of the near future. The company carrying out the program is known as McAllister, Beer & Co., who have opened an office at Parkhill. It is said that engineers are engaged in surveying the route.

At the Hamilton Firemen's Convention it was decided to hold the next reunion in Seaforth in 1914.

DISCOVER BISON IN NORTH ALBERTA

Three Distinct Herds of Wild Buffalo Located Near Slave River.

EDMONTON, Alta., Aug. 18.—(Special.)—Three distinct herds of wild buffalo have been located west of the Slave River, on the extreme northern boundary of Alberta, by a party of cruisers under the direction of A. J. Bell, government agent at Fort Smith, sent out by the Dominion forestry department. Pierre Squirrel, chief of a tribe of northern Indians, who was guide for the party, estimates there are fully 200 animals in the herds.

The buffalo resemble the American bison, from which they descended, but life in the hilly regions has made them more agile and fleeter of foot. They travel in twos and three in the summer, herding together in the winter for protection against the timber wolf, their natural enemy. It is announced here that the government will take steps at once to prevent the extermination of the herds by hunters and further protect the animals by increasing the wolf bounty.

Harry V. Radford, an explorer, discovered a herd in the north two years ago.

BRING IN SUPPLIES FOR THE VIADUCT

Work on Waterfront Project Likely to Commence Next Month.

At last the work on the long promised Toronto viaduct shows signs of a beginning. The supplies for the carrying on of the project have begun to arrive, amongst which were a number of large cars loaded down with rails and ties which made their appearance along the waterfront on Saturday. Work of unloading these and piling them among the tracks between the present Toronto Union Station building and Yonge street was at once undertaken.

Enquiry of railway officials brought forth the information that the rails and ties were to be used in the construction of temporary tracks, which would be used both in connection with the filling in and extending the waterfront line southward, and in the construction work on the viaduct.

As soon as sufficient materials for the carrying on of the work are on hand a start on the actual construction work of the viaduct is to be made, and it is said that this will be some time next month.

Farm laborers' special trains will leave Toronto at 8.30 a.m., on August 22nd via Hamilton and London and at 2 p.m. on August 25th and September 5th, via Guelph, Berlin and Stratford.

This is an exceptional chance to visit the West, which is truly called the land of "Golden Opportunities" and many prosperous farmers and business men now residing in Western Canada can trace the origin of their good fortune to a "Farm Laborers' Excursion." The route via Chicago is an attractive one, many large cities and towns being passed en route, which breaks the monotony of the journey, there being something new to see all the time. The Grand Trunk Pacific Railway is the shortest and quickest route between Winnipeg, Saskatoon, Edmonton, with smooth roadbed, through the newest, most picturesque and most rapidly developing section of Western Canada.

PROPOSED REFORMS WOULD BE COSTLY

But Minister of Militia Agrees With Views Expressed in Gen. Hamilton's Report.

OTTAWA, Aug. 18.—(Can. Press)—Col. the Hon. Sam Hughes today expressed his accord with the views contained in Sir Ian Hamilton's report on the Canadian militia. "I took good care that he saw the bad as well as the good in the force," said the minister.

Carrying out the suggested reforms would require an enormous expenditure, probably more than double the ten millions now spent annually on Canada's militia, so any effect given the recommendation will probably be gradual.

The following are the chief recommendations of General Hamilton to which the minister of militia referred:

Increase in the instructional staff of the active militia.

Localization of instruction in divisional areas by means of provisional schools.

Abolition of central schools for infantry and cavalry.

Increase in the remuneration of officer instructors.

Direct engagement from outside sources of some of the sergeant-instructors.

Increase in the peace establishment of the active militia.

Institution of a minimum strength for units of the active militia.

Amalgamation of weak units.

Sixteen days' paid training for rural corps as well as for city corps.

Training for rural corps at other times than during camping period.

Consideration of alternative policies affecting the permanent force.

Wider dispersion of permanent force units as the active militia increases; or

Concentration of permanent force units and their employment as units.

Assimilation of permanent force units if concentrated to the regular model.

Interchange of permanent force and regular units.

Creation of adequate war reserves of arms, ammunition, clothing, equipment and stores.

Scientific treatment of horse registration in peace.

Institution of a national reserve.

Preparation of classified muster rolls of men liable and fit for service

Organization on paper of a reserve militia.

CAMP PIRATE GETS THREE YEARS

Provincial Police Superintendent Rogers received a wire to this effect last evening.

Easterman hails from Bay City, Mich., and was connected with the looting of two stores and several launches. His associates have not yet been apprehended.

TODAY THE EYE of the intelligent investor is being turned towards British Columbia. The upward movement and general activity in that province is but the beginning of the big things predicted by various authorities. Kelowna, one of her rich fruit growing towns, has labored under the limited transportation facilities of water only, and yet today it has a population of 3000. What will be the effect on property there when the two railroads now under construction are completed? Keep your eye on Kelowna! For full particulars apply to Box 7, World. ed7

KELOWNA IS SITUATED on the east side of Lake Okanagan, B. C., has about 75,000 acres of the most fertile fruit lands in B. C., only about 15,000 acres of which are as yet under cultivation. It represents the only opportunity in the Canadian West where property can be purchased in an established city before a railroad is in operation. It will be served by the spring, 1914, by two railways, viz. the C. N. R. and the Kettle Valley R. R. For full particulars apply to Box 8, World. ed7

A little farm today means the beginning of **wealth, of independence, of influence, of power.** It is hard to **beat** a man whose stomach is well taken care of. And there is nothing else in the world that can satisfy your appetite so easily as the good green productions of a little farm.
