taken early in the attack.	bago, colds, etc., in which the effect is to reduce the fever, if present, as well as to relieve the pain. In fact Stearns' Headache Cure is a general pain cure and has been found effacacious even in earache, toothache, etc.						
Directions.—Take one powder dry on the tongue or in a little water, and repeat in half an hour if not relieved. Take as early in the attack as possible. Do not repeat needlessly.	Powder No. 1..... " " 2.....	10·4 11·2	2·1 2·0	....	....	42285	Claimed as a cure. Meets requirements of P. or P. Act.
THEO. MOORE, INSPECTOR.							
Directions.—Place one wafer (the regular adult dose) in a glass of water until thoroughly softened and swallow it with a drink of water. If at the end of an hour relief is not obtained another wafer may be taken, but more than two doses should not be taken in succession. The wafer should be taken as early in the attack as possible.	Powder No. 1..... " " 2..... The circular enclosed in the box is identical with No. 42284.	8·5 8·3	3·7 3·5	None. "	.....	46011	Acetanilide is disguised on the label as phenylacetamide. This is in excess of amount allowed without declaration. Technically meets requirements of P. or P. Act. Claims curative properties.
