partiality.

It was early in June, the seventeenth birthday month of them both, that Malon Fraham came to their quiet little village. He was a very handsome and fascinating man, with soft and slender white hands, and an enticing and bewitching expression in his mild, dark eyes. The similarity of dress, the remarkable friendship, and more than all, the sweet and lovely faces of the two young friends, attracted his attention, and it was not long before he became duly installed as their friend, and at last became master of their affections.

They were not so constantly together, now, and displayed less freedom in their conversation, speaking a little constrainedly of the handsome Malon Graham who walked with them, and took them often to ride in his handsome carriage. Neither wished her feelings to be suspected by the other, and each thought herself the favorite one.

Amy lived but a few weeks, but was cared for with the greatest tenderness, and died at last in her friend's arms, blessing her with her last breath. Her father was summoned to her dying bed, but arrived too late, and in remorse and agony he tore his gray hair and groaned aloud. Her mother was with her when she died, forgiving, as all mothers are.

At first she was rallied on her changed appearance; but at last she was left almost wholly to herself, while Amy became more and more attached to the fascinating man from the city, and they were almost constantly to gether in the long, bright afternoons and cool starry evenings.

Her face had grown thin, and there was no tinge of red in her cheeks, but a gentle, tender expression hovered about her mouth, and with the long brown curls sweeping over her cheeks, and the wind sighing softly and sadly through the pine boughs over he head, she dreamed a dream that filled her with a strange unrest, and for many months haunted her as a forepolding.

many months haunted her as a foreboding She thought she was standing by the great, restless, moaning sea, when suddenly there came to the shore Malon Graham and her dear friend Amy, conversing in low and lover-like tones, and walking hurriedly toward a small boat lying in readiness on the clean, white sand.

Amy was lifted tenderly into the boat, and sitting with her lover's arms about her, they glided out now the research.

and steting with her lover sarins about her, they glided out upon the waves. They sang a little, happy song as they glided on with the sunset's rays bathing them in shluing gold, while the boat rocked gently on the calm and apparently sleeping waters.

In a short time, however, the clouds grew black above them; the sea began to heave and moan restlessly; the boat was swayed to and fro in the white foam. She thought she saw Amy cast a frightened look about her, and then look longingly toward the shore; at last she stretched her white arms shore; at last she stretched her

Then the boat glided on more gently and at last was lost to sight in a bend of the sea. She saw Amy rising and sinking in the water, but floating nearer and nearer to her until at last a great billowy wave washed the slender and apparently lifeless form on the sand at her feet.

She was about to stoop down and take her in her arms, when she awoke and looked about her. The moon was shining down from a cloudless sky, and the wind was still sighing and whispering in the pine boughs. She shuddered and rising hastened to her home.

—Many ladies admire gray hair—on some other person. But few care to try its effects on their own obarms. Nor need they, since Ayer's Hair Vigor prevents the hair from turning gray, and restores gray hair to its original color. It cleanses the scalp, prevents the formation of dandruff, and wonderfully stimulates the growth of he hair.
